BILLING CODE 4310-29-M

DEPARTMENT OF THE INTERIOR

Office of the Secretary

Central Arizona Project (CAP) Water Allocations and Water Service Contracting with Indian Tribes

AGENCY: Office of the Secretary, Interior.

ACTION: Notice of proposed modifications to CAP water allocation decision.

SUMMARY: The purpose of this action is to provide advance notice of the Department's intent to modify the existing CAP water allocation decisions to facilitate deletion of the following contractual provisions from existing CAP water service contracts with Indian tribes and from the proposed CAP water service contract with the Gila River Indian Community (GRIC): (1) The requirement in the 1983 allocation decision for a "mandatory substitute" water (non-potable effluent water) provision and (2) the requirement in the 1980 allocation decision for crediting the CAP water allocation against the tribes' Winters rights. A document summarizing the Department's environmental review is available on request.

DATES: All comments and material relevant to these proposed modifications that are received within 30 calendar days following the publication of this notice will be considered. Additionally, depending on the level of interest in the proposed changes, the Department may conduct public meetings or hearings on the proposed modifications. In that event, the dates and places of the meetings or hearings would be published in newspapers of general circulation in Arizona and in the Federal Register.

FOR FURTHER INFORMATION: Interested parties should contact Mr. Timothy W. Glidden, Chairman, Water Policy Working Group, U.S. Department of the Interior, Office of the Secretary, 1849 C Street, NW., Washington, DC 20240, Mail Stop 6217. Telephone: 202-208-7351.

SUPPLEMENTARY INFORMATION: Previous Departmental notices concerning CAP water allocations were published in the Federal Register (FR) volumes 37 FR 28662, December 28, 1972; 40 FR 17298, April 18, 1975; 41 FR 45886, October 18, 1976; 43 FR 51098, August 8, 1978; 45 FR 81285, December 10, 1980; and 48 FR 12446, March 24, 1983. These decisions were made pursuant to the authority vested in the Secretary by the Reclamation Act of 1902, as amended and supplemented (32 Stat. 388, 43 U.S.C. 391), the Boulder Canyon Project Act of December 21, 1928 (45 Stat. 1057), the Colorado River Basin Project Act of September 30, 1968 (82 Stat. 885, 43 U.S.C. 1501), the Regulations for Implementing the Procedural Provisions of the National Environmental Policy Act (40 CFR part 1505), the Implementing Procedures of the U.S. Department of the Interior (516 Departmental Manual (DM) 5.4), and in recognition of the Secretary's trust responsibility to Indian tribes.

On October 18, 1976 (41 FR 45886), Acting Secretary Frizzel published the Department's allocation of CAP water made on October 12, 1976, to Indian tribes in central Arizona (1976 Decision). Under the 1976 Decision, 257,609 acre-feet of CAP water per year was allocated to the tribes for use prior to year 2005. Under that decision, the amount of water allocated to Indians after year 2005 would be decreased to either 10 percent of the CAP supply or to 20 percent of the agricultural supply, whichever was to their advantage.

During the Carter Administration, Secretary Andrus concluded that the 1976 Decision was unfair to the Indian tribes because the abrupt reduction in the Indian water supply after year 2005 would mean that the economic growth permitted on the reservations in the early years of CAP operations would be temporary, and both the Government and the tribes would be faced with the costs of a return to depressed economic conditions. Also, Secretary Andrus believed that the Indian allocation should be increased because (1) some tribes which should have received an allocation of CAP water were not included in the 1976 Decision and (2) CAP water should be allocated to tribes for support of permanent tribal homelands.

On December 10, 1980 (45 FR 81285), Secretary Andrus published allocations made on December 5, 1980, of 300,825 acre-feet of CAP water per year to 10 Indian tribes in central Arizona (1980 Decision). The 1980 Decision stated in part:

> In an effort to make the M&I supply as dependable as possible, these allocations permit the substitution of non-CAP water for Indian CAP water, and provisions addressing such substitutions will be included in the Indian water service contracts.

Substitute water included treated municipal effluent or ground water. Secretary Andrus recognized that by improving the Indian supply in later years of CAP operations, the position of the non-Indian municipal and industrial (M&I) users would be less favorable than under the 1976 Decision. Responding to suggestions by Governor Babbitt of Arizona, Secretary Andrus incorporated the mandatory substitute water provision into the CAP water allocation decision as a means of ameliorating the concern of the non-Indian M&I entities that the increased allocation to the Indian tribes had occurred at the non-Indian M&I entities' expense. Substitute water exchanges were viewed as a means of firming the non-Indian M&I water supply in CAP water shortage years.

On December 11, 1980, the Department executed CAP water service contracts with 9 of the 10 Tribes which had received allocations of CAP water. The mandatory substitute water provision was included in the contracts offered to four tribes because they were in close proximity to municipal areas and were considered capable of taking delivery of municipal effluent in lieu of CAP water. CAP water service contracts containing the mandatory substitute water provision were executed with three of the tribes. Those tribes included the Salt River Pima-Maricopa Indian Community, the Ak-Chin Indian Community, and the Papago Tribe, now known as the Tohono O'odham Nation. The mandatory substitute water provision was also included in a contract offered to GRIC. However, GRIC elected to not sign the CAP water service contract because of its strong objections to the mandatory substitute water provision.

After the year 2005, the substitute water provision provided for the exchange of up to one-half of the tribes' CAP water allocation. The substitution was to be accomplished under criteria intended to assure that the quality, quantity, suitability, and delivery facilities of the substitute water would be appropriate for the beneficial uses to which the water was to be put. All costs of the substitution were to be borne by the Central Arizona Water Conservation District (CAWCD) or the benefitting non-Indian subcontractor, and any favorable cost differential was to inure to the benefit of the tribes or the Federal Government. The substitute water provision reserved unto the Secretary the right to approve a substitution if he or she determined that the tribe's agreement to the substitution was being unreasonably withheld.

The 1980 Decision also provided that the allocation of CAP water would be credited against a tribe's Winters rights, as and when finally adjudicated or finally determined by Federal legislative action. The 1980 Decision also required that this stipulation be included in the Indian CAP water service contracts. The stipulation was included in all of the executed Indian contracts.

Secretary Andrus did not allocate CAP water to non-Indian entities in the 1980 Decision. However, that decision facilitated the submission of recommendations by the Arizona Department of Water Resources (ADWR) to the Secretary for allocations of CAP water to non-Indian entities. On March 24, 1983 (48 FR 12446), Secretary Watt issued a CAP water allocation decision (1983 Decision) that allocated CAP Water to the non-Indian entities and reaffirmed Secretary Andrus's allocation to the Indian tribes with one significant modification. The 1983 Decision provided that GRIC would have to accept a 25 percent reduction in its CAP water allocation during shortage years in lieu of the 10 percent reduction that was required in the 1980 Decision. The 1983 Decision reaffirmed (1) the mandatory substitute water provisions in the existing contracts with Indian entities and (2) the allocation of water to Indian entities for tribal homeland purposes. The requirement for crediting the CAP allocation toward a tribe's Winters rights was not changed by the 1983 Decision.

Proposed Deletion of the Mandatory Substitute Water Provision

The Department has been attempting to negotiate a CAP water service contract with GRIC since 1980. Over the last 10 years, circumstances have changed in central Arizona and the Department now believes that the requirement for a mandatory substitute water provision in the CAP water service contracts with Indian tribes is no longer critical to management of water supplies in central Arizona. The Department now proposes to amend the 1980 and 1983 Decisions to delete the requirement for mandatory substitute water exchanges, to allow those tribes with the provision in their contracts opportunity to amend their contracts to delete the provision, and to delete the provision from the proposed contract with GRIC.

The Department's reasons for proposing to delete the mandatory substitute water provision include the following:

VOL
56
ISS
125
JE
28
1991
UMI

(1) The Department is now aware of any substitute water that has been or is being proposed for exchange with Indian tribes.

(2) Under the 1983 Decision and the existing CAP M&I water service subcontracts, there is no apparent incentive for a municipality to exchange substitute water with an Indian tribe. The 1983 Decision was based on a "pooling" concept whereby all non-Indian M&I entities would benefit on a pro rata basis from CAP water made available because of substitute water exchanges. Under the pooling concept, a municipality would make its effluent water available to CAWCD. CAWCD, through its water users, would finance the capital cost of facilities to transport the substitute water to a point of use on the reservation, and pay for the cost of operation, maintenance and replacements (OM&R) associated with delivery of the substitute water. If a municipality exchanges its effluent on its own with an Indian tribe, the M&I water service subcontracts provide that the municipality must incur all of the capital and OM&R costs to convey the effluent to a point of use on the reservation and the municipality's entitlement to CAP water under the subcontract must be reduced by the amount of CAP water received under the exchange. The municipalities opposed the pooling concept during the decision process leading up to the 1983 Decision, and it is the Department's understanding that they do not consider the potential benefits adequate to justify entering into future effluent exchange arrangements under the pooling concept.

(3) Because there is little or no incentive for municipalities to exchange effluent directly with Indian tribes, the municipalities are using or making plans to use effluent within their own service areas. The municipalities now view effluent as a valuable resource to be used in their service areas.

(4) Since the 1983 Decision, Arizona law has been enacted which requires that effluent be used on golf courses and in artificial lakes in lieu of potable water. The effect of this law is to create a new demand for effluent within the municipalities' service areas.

(5) Since the 1983 Decision, the municipalities have taken steps to augment their water supplies by other means. Several of the municipalities have purchased water ranches to obtain ground water or surface supplies. Further, the municipalities are considering introducing such non-Project water into the CAP aqueduct for conveyance to their service areas. They are also considering augmenting their water supplies by recharging CAP water into the ground in the early years of CAP operations for subsequent recovery and use during future shortage years or for future demands.

(6) Deletion of the mandatory substitute water provision would not preclude the execution of voluntary substitute water agreements between the tribes and municipalities. If there are water shortages in the future, the Department believes that there will be strong pressures for all water users in Arizona, including the tribes, to work together to make the most effective use of all water resources, including effluent.

(7) As a practical matter, the cooperation of the tribes would be necessary to implement any substitute water exchange. The imposition of a substitute water exchange on a tribe without its consent would be inconsistent with the Secretary's trust responsibility to the tribe.

Proposed Deletion of the Requirement for Crediting CAP Water Against a Tribe's Winters Rights

At the time of execution of the existing CAP water service contracts, concern was expressed that the Indian tribes might end up with a windfall; that is, the tribes could get all or most of their claimed water rights decreed to them in litigation, and in addition they could get CAP entitlements. To prevent this possible windfall, the following provision was included in the Indian water service contracts:

As such time as Contractor's Water Rights are finally determined, the Project Water delivered to the Contractor under this contract will be credited against those Water Rights on such terms and conditions as may be agreed upon between the Secretary and Contractor at that time. Thereafter, Contractor may use that Project Water for any and all uses consistent with such Water Rights or the uses described in this contract. Until such time as Contractor's Water Rights are finally determined, the Project Water delivered to Contractor is supplemental water and is not credited against, or in any way related to, Contractor's Water Rights.

Experience has shown this article to be unnecessary and confusing. Accordingly, based on the following reasons, the Department intends to eliminate this article from the proposed contract with GRIC and to offer to remove it from the other Indian contracts via amendments. First, the underlying justification for the provision has not happened. No tribe has received an adjudicated entitlement to water which would make the CAP water appear to be a windfall. In fact, of the CAP tribes within the area of the Gila River adjudication, many have reached settlements of their water right claims (the Ak-Chin Indian Community, the Tohono O'odham Nation, the Salt River Pima-Maricopa Indian Community, and the Fort McDowell Indian Community), and others are moving in the direction of settlement (GRIC, the San Carlos Apache Tribe, the Yavapai Prescott Tribe, and the Camp Verde Tribe). Moreover, in the context of settlements, the CAP entitlements are important building blocks in regard to arriving at water budget goals, as opposed to posing threats as windfalls. In other words, the fear which resulted in the development of the contract provision has not materialized and therefore the need for the provision has been eliminated.

Secondly, the contract provision is confusing and subject to a variety of interpretations. As a result, the Indian tribes are not clear as to the meaning of the provision, and other water users cannot know with certainty what the Secretary and Contractor have agreed upon. Given this confusion, the contract provision does not serve a useful purpose in the administration of CAP.

Compliance with the National Environmental Policy Act of 1969 (NEPA)

The Department prepared an Environmental Impact Statement (EIS) on Water Service Allocations and Water Service Contracting for the Central Arizona Project. The Final EIS for which a notice of availability was published on March 24, 1982 (47 FR 12689), examined a number of allocation alternatives, two of which required effluent exchanges for tribal entities. The Department's Record of Decision published on March 24, 1983 (48 FR 12446), discussed these alternatives and options for effluent exchanges.

With respect to the current proposal, the Department has reviewed earlier NEPA documents and evaluated the impacts of removing the mandatory substitute water provision on effluent exchanges from the contracts. As a result of the NEPA review and environmental evaluation, it was determined that the relative differences in environmental impacts among the allocation alternatives, with and without the effluent exchange options would not have a significant effect on the human environment; and that there were no significant new circumstances or information relative to environmental concerns bearing on the proposed action that require supplemental NEPA compliance.

A document summarizing the Department's environmental review and analysis is available upon request (see

"FOR FURTHER INFORMATION" for source). Accordingly, the Department does not anticipate any further environmental compliance activities; however, should new and significant information relevant to environmental concerns arise during the review and comment period on this proposal, then a supplemental NEPA review will be carried out, as appropriate, prior to the Secretary's final decision on the proposed action.

Deletion of the contractual provision regarding Winters rights is an administrative change which is not anticipated to cause any significant environmental impacts; however, appropriate NEPA clearance will be completed for Indian contractors desiring to delete this provision from their contracts. Comments on any potential environmental impacts associated with these actions may also be made during the review and comment period on this proposal.

Effect on Previous Decisions:

In effect this **Federal Register** notice proposes to amend the decisions published by Secretary Andrus on December 10, 1980, and by Secretary Watt on March 24, 1983. Following the review and comment period, and following consideration of the comments received, a final decision in line with the proposals contained herein will be published in the **Federal Register** that officially modifies the CAP water allocation policies.

Dated: June 24, 1991.

Manuel Lujan Jr.,

Secretary of the Interior.

BILLING CODE 4310-06-M

White House Conference on Indian Education Advisory Committee

AGENCY: Office of the Secretary, Interior.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the proposed schedule of the forthcoming meeting of the White House Conference on Indian Education Advisory Committee. Notice of this meeting is required under section 10(a)(2) of the Federal Advisory Committee Act. The White House Conference on Indian Education Advisory Committee is established by Public Law 100-297, part E. The Committee is established to assist and advise the Task Force in the planning and conducting the conference.

DATE, TIME AND PLACE: July 18, 1991, at 9 A.M. to 5 P.M. and July 19, 1991, at 9 A.M. to 5 P.M. at the Sheraton Denver Airport Hotel, 3535 Quebec Street, Denver, Colorado, 80207.

FOR FURTHER INFORMATION CONTACT: Dr. Benjamin Atencio, Deputy Director, White House Conference on Indian Education, U.S. Department of Interior, 1849 C St., NW., MS 7026-MIB, Washington, DC 20240; telephone 202-208-7167; fax 208-4868.

Agenda: The Advisory Committee for the White House Conference on Indian Education will discuss and advise the Task Force on all aspects of the Conference and actions which are necessary for the conduct of the Conference. Summary minutes of the meeting will be made available upon request. The meeting of the Advisory Committee will be open to the public.

Items to be discussed: Pre-Conference activities; selection process for participants; budget and administrative matters; election of Conference Chairperson; Indian Nations-At-Risk status, Subcommittee activities, report on activities for preconference reporting in October 1991, Conference topics and writers and other matters related to the Conference.

Dated: June 21, 1991.

Selma Sierra,

Assistant to the Secretary and Director of External Affairs.

BILLING CODE 4310-RK-M

Bureau of Land Management

[Ca-060-01-4410-06]

Availability of Draft South Coast Resource Management Plan and Environmental Impact Statement

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: A draft Resource Management Plan/Environmental Impact Statement (RMP/EIS) has been prepared for the South Coast Planning Area. The RMP/EIS describes and analyzes alternatives for future management of approximately 296,000 acres of public land located in portions of the California Counties of San Diego, Riverside, Los Angeles, San Bernardino and Orange; these public lands include 167,000 acres of split-estate lands where there are federally-owned minerals but the land surface is privately owned. Copies of the draft RMP/EIS may be obtained from the Palm Springs-South Coast Resource Area, 400 South Farrell Drive, suite B-205, Palm Springs, CA 92262; phone (619) 323-4421. Copies will be available for review at public libraries within the five county planning area and at the following additional BLM locations:

Office of Public Affairs, Main Interior Bldg., rm. 5600, 18th and C Streets NW., Washington, DC 20240

California State Office, 2800 Cottage Way, Sacramento, CA 95825

California Desert District Office, 6221 Box Springs Boulevard, Riverside, CA 92507.

DATES: Written comments on the draft RMP/EIS must be submitted or postmarked no later than October 4, 1991. Comments may also be presented at public meetings to be held:

6:30 p.m. Monday July 29, Ramona Community Center, 434 Aqua Lane, Ramona, CA.

6:30 p.m. Tuesday July 30, Barrett Cafe, 1020 Barrett Road at Barrett Junction, San Diego County, CA.

6:30 p.m. Wednesday July 31, Hemet City Council Chambers, 450 E. Latham Ave., Hemet, CA.

6:30 p.m. Thursday September 12, Sierra Vista Junior High School, 19425 West Stillmore Street, Canyon Country, CA

6:30 p.m. Wednesday September 18, Walnut School, 625 N. Walnut, La Habra, CA.

ADDRESSES: Written comments should be addressed to Russell L. Kaldenberg, Area Manager, Palm Springs-South Coast Resource Area, Bureau of Land Management, 400 South Farrell Drive, suite B-205, Palm Springs, CA.

FOR FURTHER INFORMATION CONTACT: Duane Winters, RMP Team Leader, Palm Springs-South Coast Resource Area; phone (619) 323-4421.

SUPPLEMENTARY INFORMATION: The draft RMP/EIS describes and analyzes five alternatives to resolve the following issues: (1) Land ownership and use authorization, (2) threatened, endangered and other sensitive species, (3) Open Space, (4) recreation and public access, and (5) oil and gas leasing and sand and gravel development. The alternatives being considered can be summarized as: (1) No action or continuation of present management, (2) administrative adjustments, (3) sensitive species, open space and recreation, and (4) use opportunities. The preferred alternative is (3) sensitive species, open space and recreation except for the Los-Angeles-Orange County Management Area where it is (1) continuation of present management.

The RMP/EIS proposes seven Areas of Critical Environmental Concern (ACEC's). The preferred alternative would designate:

The Cedar Canyon ACEC (705 acres) for preservation of populations of Mexican flannelbush. Cedar Canyon is near Otay Mountain in San Diego County. The ACEC would be a right-of-

VOL 56 ISS 125 JE 28 1991 UMI

way avoidance area, not available for mineral material sales or livestock grazing and closed to motorized vehicle use. Acquisition of 280 acres for addition to the ACEC would be pursued.

Lands surrounding Tecate Peak (355 acres) and Little Tecate Peak (280 acres) as the Kuchamaa ACEC for the protection of Native American religious heritage. The ACEC would be a right-of-way avoidance area, not available for mineral material sales or livestock grazing. Motorized vehicle use within the ACEC would be limited. The feasibility of relocating or removing the existing communication site facilities on Tecate Peak would be explored. Acquisition of approximately 500 acres for addition to the ACEC would be pursued.

Steele Peak (1,340 acres) for preservation of Stephens' kangaroo rat habitat. The ACEC would be a right-of-way avoidance area and unavailable for mineral material sales. The area outside the existing allotment boundary would be unavailable for livestock grazing pending completion of an activity plan. Withdrawal of the ACEC from mineral leasing and entry under the 1872 mining law would be pursued. Acquisition of approximately 2,000 acres for addition to the ACEC would be pursued.

The Santa Ana River Wash ACEC, totalling of 700 acres, for protection of Santa Ana River woolly-star and slender-horned spineflower. The ACEC would be a right-of-way avoidance area, unavailable for mineral material sales, closed to motorized vehicle use and unavailable for livestock grazing.

Public land (1,200) acres within the Santa Margarita Ecological Reserve as the Santa Margarita Reserve ACEC for protection for sensitive species and natural values. The ACEC would be a right-of-way avoidance area, unavailable for mineral material sales and livestock grazing. Withdrawal of the ACEC from mineral leasing and entry under the 1872 mining law would be pursued. A portion of the ACEC, 360 acres, would be closed to motorized vehicle use. Acquisition of 308 acres for addition to the ACEC would be pursued.

The Million Dollar Spring ACEC, approximately 5,830 acres of public lands within the eastern part of the Beauty Mountain Wilderness Study Area; for the protection of watershed and sensitive natural values. The ACEC would be a right-of-way avoidance area and not available for material sales. Acquisition of 510 acres for addition to the ACEC would be pursued.

The Johnson Canyon ACEC, involving 1,160 acres currently leased to the San Diego State University Systems Ecology Group; for the protection of unique vegetation resources. The ACEC would not be available for mineral material sales or livestock grazing and would be a right-of-way avoidance area. Acquisition of 510 acres for addition to the ACEC would be pursued.

The draft RMP contains a determination of eligibility for three segments of the Santa Margarita River as a potential unit of the National Wild and Scenic River System. The 1.5 miles under BLM management meet the classification of "wild river". Interim protective measures are identified in the draft RMP.

Dated: June 19, 1991.

Gerald E. Hiller,

District Manager.

BILLING CODE 4310-40-M

Issuance of Land Exchange Conveyance Document; Colorado

5 1899; Exchange of Public and Private Lands in Routt and Moffat Counties, Colorado

The United States issued an exchange conveyance document to John Wittemyer on May 23, 1991 for the following described lands under section 206 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716):

Sixth Principal Meridian, Colorado.

T. 3 N., R. 89 W.,
Sec. 13, lot 1.
comprising 42.41 acres as public lands.

In the exchange for these lands, the United States acquired the following described lands from John Wittemyer:

Sixth Principal Meridian, Colorado.

T. 6 N., R. 99 W.,
Metes and bounds parcel within lot 2 of section 6, at Center Street and Victory Way in the town of Craig, Colorado.
comprising 1.376 acres of public lands.

The purpose of this exchange was to acquire the nonfederal lands for an administrative site. The public interest was served through this exchange. The values of the Federal public lands and the nonfederal land in the exchange were appraised at $22,500 and $23,000, respectively.

Dated: June 21, 1991.

Robert S. Schmidt,

Chief, Branch of Realty Programs.

[FR Doc. 91-15372 Filed 6-27-91; 8:45 am]

BILLING CODE 4310-JB-M

[UT-020-01-4212-13; U-45654 and U-65499]

Salt Lake District; Realty Action

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Realty Action, Exchange of Public Lands in Tooele and Utah Counties.

SUMMARY: The following described lands have been determined to be suitable for disposal by exchange under section 206 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1716. The land will be exchanged after a 60 day waiting period from the publication of this notice.

Township	Range	Meridian	Section	Subdivision	Acres
1S.	11W.	Salt Lake	28	S½SW¼NW¼,NW¼SW¼NW¼	5.000
				W½NW¼SW¼NW¼	5.000
			29	S½,S½NE¼NE¼	90.000
				SE¼NE¼	40.000
				E½SE¼	80.000
			14	NE¼SW¼	40.000
2S.	6W.	Salt Lake	6	E½SE¼	80.000
9S.	2E.	Salt Lake	2	Lots 5 through 12	466.820
			23	Tract C	0.705
8S.	1E.	Salt Lake	23	E½SE¼SW¼SW¼	5.000
9S.	1E.	Salt Lake		W½E½SE¼SW¼ 2661%	7.000
Total Acres					746.525

In exchange for these lands, the United States will acquire the following described lands:

Township	Range	Meridian	Section	Subdivision	County tract No.	Acres
2S.	4W.	Salt Lake	11	NE¼NE¼	5-29-26	33.860
				SE¼NE¼	5-29-27	33.380
				SW¼NE¼	5-29-24	17.000
				N½NE¼SE¼	5-29-28	25.000
				SE¼SE¼	5-29-21	20.775
				SE¼SE¼	5-29-25	15.000
				SW¼SE¼	5-29-22	40.000
				NW¼SE¼	5-29-30	27.000
				E½SW¼	5-29-29	76.330
						288.345
			12	Lots 1,2,3,4	5-30-4	158.720
				NW¼	5-30-3	160.000
				W½SW¼	5-30-5	80.000
						398.720
			14	E½NW¼	5-32-5	80.000
				SW¼NW¼	5-32-6	39.000
						119.000
Total Acres						806.065

The purpose of this exchange is to acquire the non-Federal lands which have high public value for wildlife and access to an isolated block of public land. The exchange will give the public and the Bureau of Land Management access to the northwest side of the Oquirrh Mountains where the private landowners have blocked the access to thousands of acres of public land.

There is a large elk herd on the Oquirrh Mountains and the Department of Wildlife Resources can't get onto the northwest part of the mountain to manage the herd. The public interest will be served by completing the exchange.

The values of the lands are believed to be approximately equal. Full equalization of value will be achieved after a formal appraisal has been completed.

Lands to be transferred from the United States will be subject to the following reservation: A right-of-way thereon for ditches and canals constructed by the authority of the United States Act of August 30, 1890, 26 Stat. 391, 43 U.S.C. 945 (1982).

Publication of this notice segregates the above described public land from appropriation under all other public land laws, including the general mining laws, for a period of 2 years from the date of first publication.

Further information concerning the exchange, including the EA, is available for reveiw at the Salt Lake District Office.

For a period of 45 days from the date of first publication, interested parties may submit comments to the Salt Lake District Office, 2370 South 2300 West, Salt Lake City, Utah 84119.

Deane H. Zeller,

Salt Lake District Manager.

BILLING CODE 4310-DQ-M

DEPARTMENT OF THE INTERIOR

[WY-060-4212-14; WYW81452]

Realty Action; Direct Sale of Public Lands; Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of realty action, direct sale of public lands in Natrona County, Wyoming.

SUMMARY: The Bureau of Land Management has determined the lands described below are suitable for sale under sections 203 and 209 of the Federal Land Policy and Management Act (FLPMA) of 1976, 43 U.S.C. 1713 and 1917:

Sixth Principal Meridian

T. 40 N., R. 87 W.,
Section 13: SE¼SE¼SW¼NE¼.

The above lands aggregate 2.5 acres in Natrona County, Wyoming.

FOR FURTHER INFORMATION CONTACT: Bill Mortimer, Area Manager, Platte River Resource Area, P.O. Box 2420, 815 Connie Street, Mills, Wyoming 82644, (307) 261-7500.

SUPPLEMENTARY INFORMATION: The Bureau of Land Management proposes to sell the surface and mineral estate, other than oil and gas, to Wayne A. and Carolyn M. Steinberg, pursuant to sections 203 and 209 of FLPMA, 43 U.S.C. 1713 and 1719. The Steinbergs wish to acquire the property to secure their equity in two A-frame cabins and other improvements. The Steinbergs have occupied this land for over 21 years under appropriate leases, and have developed and improved the lands in accordance with all the terms and conditions of the leases.

The proposed direct sale is scheduled for August 29, 1991. The land parcel is to be offered at fair market value. In addition to this sale amount, the Steinbergs will be required to submit a nonrefundable application fee of $50.00 in accordance with 43 CFR subpart 2720 for conveyance of all unreserved mineral interests in the lands.

Because of the existing improvements, the land is difficult and uneconomic to manage as part of the public land system, and is not suitable for management by another federal agency. The land is specifically identified in the Platte River Resource Area Resource Management Plan for sale to the Steinbergs, and Natrona County officials have been notified of the proposal. Detailed information concerning the proposed sale, including planning documents, land and mineral reports, and the environmental assessment, is available at the Bureau of Land Management, Platte River Resource Area Office, 815 Connie Street, P.O. Box 2420, Mills, Wyoming 82644.

Conveyance of the above lands will be subject to:

1. Reservation of the right-of-way for ditches or canals pursuant to the Act of August 30, 1890, 43 U.S.C. 945.

2. Reservation of oil and gas to the United States with the right to prospect for, mine, and remove the same.

3. Reservation of an easement 100 feet wide along the southern boundary of the parcel.

VOL 56 ISS 125 JE 28 1991 UMI

4. A wetlands covenant to protect and preserve the wetland area in and along the Middle Fork of Buffalo Creek.

5. Oil and gas lease WYW89005.

The public lands described above shall be segregated from all forms of appropriation under the public land laws, including the mining laws upon publication of this notice in the Federal Register. The segregative effect will end upon issuance of the patent or 270 days from the date of this sale, whichever comes first.

For a period of 45 days from the date of issuance of this notice in the Federal Register, interested parties may submit comments to the District Manager, Casper District, 1701 East "E" Street, Casper, Wyoming 82601. Any adverse comments will be evaluated by the State Director who may sustain, vacate, or modify the realty action. In the absence of adverse comments or in the absence of any action by the State Director, this realty action will become final.

Dated: June 21, 1991.

James W. Monroe,

District Manager.

[FR Doc. 91-15378 Filed 6-27-91; 8:45 am]

BILLING CODE 4310-DQ-M

[G-040-G1-0420-4210-14; KS RMP]

Tulsa District Office; Availability of the Proposed Kansas Resource Management Plan and Final Environmental Impact Statement

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: The Bureau of Land Management (BLM), Tulsa District, announces the availability of the Proposed Kansas Resource Management Plan (RMP) and Final Environmental Impact Statement (FEIS). This document identifies and analyzes land use planning options for BLM managed Federal lands and minerals throughout the state of Kansas. The Draft Kansas RMP/Draft EIS was made available for public review and comment on October 1, 1990. Comments received on the Draft were considered in preparing the Proposed RMP/FEIS. Any person who participated in the planning process and has an interest that is or may be affected by approval of the Proposed RMP may file a protest.

DATES: Protests must be received no later than July 31, 1991.

ADDRESSES: Comments should be sent to: Director, Bureau of Land Management, Department of the Interior, 18th and C Streets NW., Washington, DC 20240.

FOR FURTHER INFORMATION OR COPIES OF THE PROPOSED RMP/FEIS, CONTACT: Brian Mills, RMP Team Leader, Oklahoma Resource Area, 221 North Service Road, Moore OK 73160-4046, Telephone: (405) 794-9624.

SUPPLEMENTARY INFORMATION: The Proposed RMP/EIS identifies and analyzes the future options for managing the Federal mineral estate situated within Kansas administered by the BLM. The planning area for the Kansas RMP includes all BLM managed Federal minerals under private or State surface and minerals under other Federal surface and mineral estate within Kansas. The Federal mineral estate encompasses over 744,000 acres of both split estate minerals (Federal minerals under private or State surface) and minerals under other Federal surface management agencies lands. (Not included are Federal minerals under the U.S. Forest Service managed Cimarron National Grassland). The issue addressed by this RMP/EIS effort is the leasing and development of the Federal oil and gas mineral resource. The Proposed RMP was prepared using the BLM planning regulations issued under the authority of the Federal Land Policy and Management Act of 1976. The RMP provides a comprehensive framework for managing and allocating Federal minerals within Kansas over the next 15 years. Three RMP alternatives were developed to describe the different management options available to BLM in response to the issue of administering Federal oil and gas in Kansas. Each alternative presented a different level of oil and gas leasing stipulation application. Together with the Continuing Management Guidance each of the alternatives formed a separate, feasible land-use plan. The "Continuing Management Guidance" section of the Proposed RMP describes those aspects of current management which are not at issue and will continue after the RMP is approved. The Continuing Management Guidance was developed primarily from laws, regulations, and manuals, as well as from previous land use plans.

The Proposed Plan is the Preferred Alternative (Alternative B), Intensive Surface Protection presented in the RMP/EIS. This alternative places primary emphasis on protecting important environmental values through the use of additional oil and gas leasing stipulations. The goal of this alternative is to change present management direction so that identified surface resource values are protected in a manner that gives priority to the surface resource.

Dated: June 24, 1991.

Jim Sims,

District Manager.

BILLING CODE 4310-FB-M

[NV-030-01-4214-10; GACA 24052]

Proposed Withdrawal and Opportunity for Public Meeting; California

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management proposed to withdraw 2,104.42 acres of public land in Alpine County, California, to protect the Indian Creek Recreation Area. This notice closes the lands for up to 2 years from surface entry and mining. The land will remain open to mineral leasing.

EFFECTIVE DATE: June 28, 1991. Comments and requests for a public meeting must be reviewed by July 29, 1991.

ADDRESSES: Comments and meeting requests should be sent to the Carson City District Manager, BLM, 1535 Hot Springs Road, suite 300, Carson City, Nevada 89706.

FOR FURTHER INFORMATION CONTACT: Steep Weiss or John Matthiessen, BLM, Carson City District Office, 1535 Hot Springs Road, Carson City, Nevada 89706, Telephone (702) 885-6000.

SUPPLEMENTARY INFORMATION: On April 15, 1991, the assistant Secretary of the Interior for Lands and Minerals Management approved an application which the Bureau of Land Management filed to withdraw the following described public lands from settlement, sale, location, or entry under the general land laws, including the mining laws, subject to valid existing rights:

Mount Diablo Meridian, California.

T. 10 N., R. 20 E.

Sec. 3, W½ lot 5, W½ lot 6, lot 7, E½ lot 8, E½W½ lot 8, W½ lot 9, W½E½ lot 9, lots 10, and 11, E½ lot 12, E½W½ lot 12, W½SW¼, W½E½SW¼, E½SE¼, E½SE¼, E½W½SE¼;

Sec. 4, S½W½ lot 5, S½N½E¼ lot 6, S½E½ lot 9, W½ lot 6, lots 7 and 8, E½ lot 9, E½ lot 10, E½ lot 11, lots 17 and 18, SW¼, S½SE¼;

Sec. 8, NE¼NE¼, NE¼SE¼, N½SE¼ SE¼, SE¼SE¼SE¼;

Sec. 9, NE¼NE¼, SW¼NE¼, N½SE¼ NE¼, N½NW¼, SW¼, NW¼, NW¼ SE¼;

Sec. 10, W½E½NE¼, E½W½NE¼, NW¼ NW¼, E½SW¼NW¼, W½NE¼SE¼, E½NW¼, SE¼.

The area described aggregates 2,104.42 acres of public lands in Alpine County California.

The purpose of the withdrawal is to protect the Indian Creek Recreation Area.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the undersigned officer within 90 days from the date of publication of this notice. Upon determination by the authorized officer that a public meeting will be held, a notice of the time and place will be published in the Federal Register at least 30 days before the scheduled date of the meeting.

The application will be processed in accordance with the regulations set forth in 43 CFR 2300.

For a period of two years from the date of publication of this notice in the Federal Register, the lands will be segregated as specified above unless the application is denied or cancelled or the withdrawal is approved before the end of two years. Temporary uses which may be permitted during this segregative period include licenses, permits, cooperative agreements, and discretionary land-use authorizations of a temporary nature.

Dated: June 18, 1991.

James W. Elliott,

District Manager, Carson City District.

[FR Doc. 91-15423 Filed 6-27-91; 8:45 am]

BILLING CODE 4310-HC-M

[UT-942-4214-10; U-60685]

Proposed Withdrawal and Opportunity for Public Meeting; Utah

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management proposes to withdraw 1,570 acres of public land in Millard County to protect a crucial raptor nesting habitat for the peregrine falcon, golden eagle, and the prairie falcon. This notice closes the land for up to 2 years from surface entry and mining. The land will remain open to mineral leasing.

DATES: Comments and requests for a public meeting must be received by September 26, 1991.

ADDRESSES: Comments and meeting requests should be sent to the Utah State Director, BLM, P.O. Box 45155, Salt Lake City, Utah 84145-0155.

FOR FURTHER INFORMATION CONTACT: Michael Barnes, BLM, Utah State Office (801) 539-4119.

SUPPLEMENTARY INFORMATION: On June 12, 1991, an application was approved allowing the Bureau of Land Management to withdraw the following described public land temporarily from settlement, sale, location, or entry under the general land laws, including the mining laws, but not the mineral leasing laws, subject to valid existing rights:

Salt Lake Meridian

T. 19 S., R. 6 W.,

Sec. 28, NW¼NW¼SW¼, S½NW¼SW¼, SW¼SW¼, W½SE¼SW¼;

Sec. 29, SW¼NE¼, W½SE¼NE¼, SE¼SE¼NE¼, S½NW¼, S½;

Sec. 30, E½SE¼NE¼, E½SE¼;

Sec. 31, E½NE¼, E½W½NE¼, NE¼SE¼, NE¼NW¼SE¼, NE¼SE¼SE¼;

Sec. 32, All; *

Sec. 33, W½NE¼NW¼, NW¼NW¼, N½SW¼NW¼, SW¼SW¼NW¼.

*Indicates Utah State lands.

The area described contains 1,570.00 acres in Millard County, Utah.

The purpose of the withdrawal is to protect the crucial ratpor nesting habitat for the peregrine falcon, golden eagle, and the prairie falcon. The withdrawal would also protect the unique geological features of Pavant Butte for scientific and geologic studies.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the Utah State Director of the Bureau of Land Management.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the Utah State Director within 90 days from the date of publication of this notice. Upon determination by the authorized officer that a public meeting will be held, a notice of time and place will be published in the Federal Register at least 30 days before the scheduled date of the meeting.

The application will be processed in accordance with the regulations set forth in 43 CFR 2300.

For a period of 2 years from the date of publication of this notice in the Federal Register, the land will be segregated as specified above unless the application is denied or canceled or the withdrawal is approved prior to that date.

James M. Parker,

State Director.

BILLING CODE 4310-DQ-M

National Park Service

Kennesaw Mountain National Battlefield Park, Georgia; Acceptance of Concurrent Jurisdiction

AGENCY: National Park Service, Interior.

ACTION: Notice of correction.

SUMMARY: This notice corrects the Supplementary Information section in a notice previously published in the Federal Register on June 6, 1991, (56 FR 26143) regarding the conveyance by the Governor of Georgia of concurrent jurisdiction over lands and roadways situated within the administrative boundaries of Kennesaw Mountain National Battlefield Park in the State of Georgia. The Notice of June 6, 1991 is correct except for the Supplementary Information which should have read as follows:

SUPPLEMENTARY INFORMATION: On December 14, 1962, the United States, acting under the authority of 16 U.S.C. 1a-3 and 40 U.S.C. 255, and the State of Georgia, acting in accordance with the provisions of sections 15-302.1 and 15-308 of the Georgia Code, entered into an agreement whereby concurrent jurisdiction was established over lands and waters within certain specified units of the National Park System within the State of Georgia. This agreement also extended concurrent jurisdiction to all lands owned by the United States within the exterior boundaries of the Kennesaw Mountain National Battlefield Park, but excluded three tracts of land owned by Cobb County and the State of Georgia.

It was recently determined that the National Park Service did not have concurrent jurisdiction on Old Highway 41 (Tract 01-119, Cobb County, 1.10 acres); Dallas Road (Tract 01-120, State of Georgia, 3.80 acres); and Powder Springs Road (Tract 01-130, State of Georgia, 0.01 acres) which are within the administrative boundaries of the

VOL 56 ISS 125 JE 28 1991 UMI

Kennesaw Mountain National Battlefield Park.

This current transfer document amends the 1982 agreement by "extending concurrent jurisdiction over all lands and roadways within the administrative boundaries of Kennesaw Mountain National Battlefield Park" to include but not limited to: lands owned by the United States; lands located on Old Highway 41 (Tract 01–119, Cobb County, 1.10 acres); Dallas Road (Tract 01–120, State of Georgia, 3.80 acres); and Powder Springs Road (Tract 01–130, State of Georgia, 0.61 acres) which are within the administrative boundaries of the Kennesaw Mountain National Battlefield Park; and all roadways encompassed by the administrative boundaries of the park including, but not limited to, jurisdiction over the following roads: Old Highway 41, Ridenhour Road, White Circle, White Road Court, Stilesboro Road, Mossy Rock Road, Kennesaw Mountain Drive, Gilbert Road, Old Mountain Road, Burnt Hickory Road, Dallas Road, Cheatham Hill Drive, John Ward Road, Cheatham Hill Road, and Powder Springs Road.

BILLING CODE 4310–05–M

INTERSTATE COMMERCE COMMISSION

[Docket No. AB–77 (Sub-No. 6X)]

Bangor and Aroostook Railroad Co.—Abandonment Exemption—in Aroostook County, ME; Exemption

Applicant has filed a notice of exemption under 49 CFR 1152 subpart F—Exempt Abandonments to abandon its 15.89-mile line of railroad between milepost W6.86, near Washburn and milepost W22.75, near Westmanland, in Aroostook County, ME.

Applicant has certified that: (1) No local traffic has moved over the line for at least 2 years; (2) any overhead traffic on the line can be rerouted over other lines; and (3) no formal complaint filed by a user of rail service on the line (or a State or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Commission or with any U.S. District Court or has been decided in favor of the complainant within the 2-year period. The appropriate State agency has been notified in writing at least 10 days prior to the filing of this notice.

As a condition to use of this exemption, any employee affected by the abandonment shall be protected under Oregon Short Line R. Co.—Abandonment—Goshen, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10505(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance has been received, this exemption will be effective on July 28, 1991 (unless stayed pending reconsideration). Petitions to stay that do not involve environmental issues,[1] formal expressions of intent to file an offer of financial assistance under 49 CFR 1152.27(c)(2),[2] and trail use/rail banking statements under 49 CFR 1152.29 must be filed by July 8, 1991.[3] Petitions for reconsideration or requests for public use conditions under 49 CFR 1152.28 must be filed by July 18, 1991, with: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

A copy of any petition filed with the Commission should be sent to applicant's representative: Eric M. Hocky, 510 Walnut Street, 1800 Penn Mutual Tower, Philadelphia, PA 19106.

If the notice of exemption contains false or misleading information, use of the exemption is void *ab initio.*

Applicant has filed an environmental report with addresses environmental or energy impacts, if any, from this abandonment.

The Section of Energy and environment (SEE) will prepare an environmental assessment (EA). SEE will issue the EA by July 3, 1991. Interested persons may obtain a copy of the EA from SEE by writing to it (room 3219, Interstate Commerce Commission, Washington, DC 20423) or by calling Elaine Kaiser, Chief, see at (202) 275–7684. Comments on environmental and energy concerns must be filed within 15 days after the EA becomes available to the public.

Environmental, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Decided: June 19, 1991.

By the Commission, David M. Konschnik, Director, Office of Proceedings.

Sidney L. Strickland, Jr.,

Secretary.

[FR Doc. 91–15329 Filed 6–27–91; 8:45 am]

BILLING CODE 7035–01–M

[1] A stay will be routinely issued by the Commission in those proceedings where an informed decision on environmental issues (whether raised by a party or by the Section of Energy and Environment in its independent investigation) cannot be made prior to the effective date of the notice of exemption. See Exemption of Out-of-Service Rail Lines, 5 I.C.C.2d 377 (1989). Any entity seeking a stay involving environmental concerns is encouraged to file its request as soon as possible in order to permit this Commission to review and act on the request before the effective date of this exemption.

[2] See Exempt. of Rail Abandonment—Offers of Finan. Assist., 4 I.C.C.2d 164 (1987)

[3] The Commission will accept a late-filed trail use statement so long as it retains jurisdiction to do so.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Manufacturer of Controlled Substances; Application

Pursuant to § 1301.43(a) of title 21 of the Code of Federal Regulations (CFR), this is notice that on January 30, 1991, Ganes Chemicals, Inc., Industrial Park Road, Pennsville, New Jersey 08070, made application to the Drug Enforcement Administration (DEA) for registration as a bulk manufacturer of the basic classes of controlled substances listed below:

Drug	Schedule
Amobarbital (2125)	II
Pentobarbital (2270)	II
Secobarbital (2315)	II
Methadone (9250)	II
Methadone-intermediate (9254)	II
Dextropropoxyphene, bulk (non-dosage forms) (9273).	II

Any other such applicant and any person who is presently registered with DEA to manufacture such substances may file comments or objections to the issuance of the above application and may also file a written request for a hearing thereon in accordance with 21 CFR 1301.54 and in the form prescribed by 21 CFR 1316.47.

Any such comments, objections or requests for a hearing may be addressed to the Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration, United States Department of Justice, Washington, DC 20537, Attention: DEA Federal Register Representative (CCR), and must be filed no later than July 29, 1991.

Dated: June 18, 1991.

Gene R. Haislip,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.

[FR Doc. 91–15427 Filed 6–27–91; 8:45 am]

BILLING CODE 4410–09–M

Importer of Controlled Substances; Registration

By Notice dated April 16, 1991, and published in the Federal Register on April 18, 1991 (56 FR 15383), Mallinckrodt Specialty Chemicals Company, Mallinckrodt and Second Streets, St. Louis, Missouri 63147, made application to the Drug Enforcement Administration to be registered as an importer of the basic classes of controlled substances listed below:

Drug	Schedule
Coca Leaves (9040)	II
Opium, Raw (9600)	II
Poppy Straw (9650)	II
Poppy Straw Concentrate (CPS) (9670)	II

No comments or objections have been received. Therefore, pursuant to section 1008(a) of the Controlled Substances Import and Export Act and in accordance with title 21, Code of Federal Regulations § 1311.42, the above firm is granted registration as an importer of the basic classes of controlled substances listed above.

Dated: June 18, 1991.

Gene R. Haislip,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.

BILLING CODE 4410-09-M

Immigration and Naturalization Service

[INS No. 1275-91]

English Language, American History and Civics, Standardized Naturalization Test

AGENCY: Immigraton and Naturalization Service, Justice.

ACTION: Notice of program.

SUMMARY: The Immigration and Naturalization Service (Service) is pursuing the development and implementation of a standardized test for naturalization applicants as an alternative means of meeting certain requirements for naturalization as United States Citizens. This notice is to request written proposals from capable entities who are interested in participating in this program. The Service expects the standardized test will facilitate the naturalization of persons who might be otherwise hesitant to apply for naturalization.

DATES: Written proposals from parties interested in developing and administering an alternative testing process based on the criteria in the supplementary information will be accepted on or after June 28, 1991.

ADDRESSES: Written proposals should be mailed in triplicate to Adjudications Division, Immigration and Naturalization Service, 425 I Street, NW., room 7223, Washington, DC 20536.

FOR FURTHER INFORMATION CONTACT: Stella Jarina, Senior Immigration Examiner, Immigration and Naturalization Service, 425 I Street, NW., Washington, DC 20536. Telephone: (202) 514-5014.

SUPPLEMENTARY INFORMATION: The Immigration and Nationality Act (Act) provides for the naturalization of certain qualified aliens to United States citizenship. Section 312 of the Act provides in pertinent part that applicants for naturalization must demonstrate an understanding of ordinary English literacy and a knowledge and understanding of the history and form of government of the United States. The Immigration Reform and Control Act of 1986 (IRCA) required the Service to implement a similar test for applicants for permanent residence under section 245a of the Act.

In response to a public notice published in the **Federal Register** on July 13, 1990 (55 FR 28836), to announce the Service's consideration of implementation of a standardized English Language/Citizenship test for naturalization purposes, a total of 11 comments were received from both outside and inside the Service. Upon review and careful consideration of these comments, the following changes were made to clarify and expand on the selection criteria which appeared in draft form in the **Federal Register** on Criterion (3) has been amended to clarify that the "approval"of individual test results relates to the manner in which the results are transmitted to the Service.

Criterion (6) has been amended to enable a testing entity capable of administering a test in more than one state, or operating within or under the supervision of a public school system, to be approved to administer the standardized test.

Criterion (8) has been amended to include the requirement that the testing entity provide the applicant with evidence of having taken the test if results are not provided the same day as the test. The results provided to the Service in individual cases related only to those persons passing the test. The Service will not be advised of the identities of those persons who do not pass the test, and failure of this test will have no effect on a person's ability to retake this alternative test or be separately tested by a Service officer.

Six commenters requested clarification of what would constitute fraud or misrepresentation on the part of the applicant or testing agency and how fraud would be determined. We have determined that it would be inappropriate to specify in advance what specific type of actions would constitute fraud, as this would be seen as limiting the authority of the Service.

Two commenters wished clarification as to the scoring of the written portion of the test, as two sentences were being required to be written, as opposed to only one required for the test under legalization. While approval of scoring methods will be based upon individual proposals submitted, it is intended that the applicant must pass on one of the two sentences.

One commenter requested that the test answers be read to the applicant in addition to the questions. However, we have determined that the only way to adequately test the applicant's ability to read, would be if he/she made the choice of the answers based upon what is read, not what is also read to him/her. Also the long term integrity of the test requires that there be no question of the tester having influenced the answers of the applicant by the manner in which the answers are read, whether intentional or not.

Five commenters requested that the test either be not restricted to school environments or requested that voluntary agencies be allowed to provide the test. The "environment" in which the test is given is not restricted under the criteria, but will be a factor to be considered in the approval of a testing entity, as it relates to the security of the test. Also, the requirement in criterion (6) that the testing entity have management control of the testing site, personnel and supplies, does not preclude the testing entity from contracting specific services from various local entities provided that control and oversight are maintained.

Four commenters indicated concern either for the amount of the fee or reimbursement for local voluntary agencies. The Service will have no financial liability or stake in the administration of any test. The Service's approval of the fee is solely to insure the reasonableness of the fees charged.

One commenter raised the issue of the length of time for which test results would be valid. An applicant for naturalization must establish eligibility under section 312 at the time of the examination on the application. It is felt that one year is a reasonable amount of time in which to continue to accept the results of a standardized test. Therefore, the test results will be considered valid in connection with a Form N-400 submitted within one year of the date the test is passed.

Any qualified entity may apply to the Service for acceptance as an approved testing entity. The agreement between the Service and the testing entity will be nonfinancial. The Service shall incur no financial liability and intends to make no payments to any entity under this program. The Service agrees to accept the test results from an approved entity as evidence of a naturalization applicant's ability to read and write English and knowledge of the government and history of the United States as required by section 312 of the Act, when said applicant submits an application to file a petition for naturalization within one year of successfully passing an approved test. The passage of the approved test will not be construed as evidence of ability to speak English.

Criteria:

The following criteria and requirements are provided for submission of proposals:

(1) The testing entity must demonstrate experience in developing and administering reliable standard examinations in the English language and civics areas (for example, tests are currently recognized and accepted by an established public or private institution of learning recognized as such by a qualified state certifying agency).

(2) The written test will be constructed in English as a twenty (20) question multiple choice pass/fail test, with two dictated sentences to be written in English. The test will be constructed so as to be completed in no more than forty-five (45) minutes. The test questions and the dictated sentences will be read aloud in English to the applicants by a qualified proctor in person, or audio cassette or video tape. The answers will not be read to the applicants.

(3) The test questions and scoring standards for test scores will be approved by the Service. The scoring standard must provide that the minimum passing score for the multiple choice questions will be not less than 60 percent. The scoring standard must also provide for satisfactory completion of one of the two sentences. The test questions or scoring standards will not be changed by the testing entity unless approved or directed by the Service. The test results submitted by applicants to the Service are not valid until verified by the Service. The testing entity must develop, and the Service must concur in any form of electronic or manual transfer of test result data from the entity to the Service.

(4) The content of the test questions, with the exception of current political office holders, must come from the latest edition of the Service's Federal Citizenship Textbook Series. Only the M-287, M-289, M-291 and English as a Second Language Textbook Versions (M-302, M-303, M-304) are to be used. These textbooks can be purchased from the U.S. Government Printing Office.

(5) Testing entities are required to field test the examination, in cooperation with the Service, prior to implementation. The testing entity shall notify the Service of the opening of a new site or closing of a site within ten business days of such action.

(6) The testing entity must be capable of administering the examination in more than one state (to include U.S. Virgin Islands, Guam, and Puerto Rico), or operate within or under the supervision of a public school system. In administering the examination the entity must have management control over the testing schedule, test location procurement and management, hiring authority over testing personnel, and responsibility for needed supplies. Service approval cannot be transferred to an unapproved entity for administration of tests. The testing entity must ensure, if concurrently providing test preparation instruction, that test standards are strictly followed. The fee charged will be determined by the approved entity with the concurrence of the Service. Justification of the fee amount must be submitted with any proposal. If the applicant fails the test he or she will be given the opportunity to retest one time at no additional costs. The retest shall be a variation of the initial test.

(7) The Service will maintain a list of approved testing entities and will make such listing available to the public upon request. The testing entity is required to provide reasonable public notice of the test location and schedule. At least fifteen days prior to the beginning of each month, the testing entity shall provide the Service with a report of the scheduled test dates by location for the coming month.

(8) The approved testing entity is responsible for scoring the examination and shall provide the results to the applicant and the Service by the fifteenth business day from the date of the test. If test results are not provided to the applicant on the day of the test, a receipt or other evidence of having taken the test will be provided.

(9) The testing entity shall provide test security and test integrity subject to review and approval by the Service.

(10) The testing entity will be responsible for verifying the identity of the person taking the test.

(11) The Service reserves, without notice, the right of onsite inspection to determine the continued realiability and integrity of the test and testing procedures.

(12) The Service reserves the right to remove an entity from the approved register for good cause. The testing entity will be notifed in writing of its removal from the approved register, and must cease examination immediately upon receipt of such notice. No appeal lies from the decision to remove, but a request for reconsideration may be entertained by the Assistant Commissioner for Adjudications, Examinations Branch, Central Office, Washington, DC.

(13) The testing entity must provide the Service with quarterly management reports throughout participation in the program. The reports shall include, but are not limited to, monthly statistics by a testing site on the number of applicants who take the test, and the number of persons who pass and fail.

Dated: April 30, 1991.

Gene McNary,

Commissioner, Immigration and Naturalization Service.

BILLING CODE 4410-10-M

DEPARTMENT OF LABOR

Office of the Secretary

Agency Recordkeeping/Reporting Requirements Under Review by the Office of Management and Budget (OMB)

Background

The Department of Labor, in carrying out its responsibilities under the Paperwork Reduction Act (44 U.S.C. Chapter 35), considers comments on the reporting and recordkeeping requirements that will affect the public.

List of Recordkeeping/Reporting Requirements Under Review

As necessary, the Department of Labor will publish a list of the Agency recordkeeping/reporting requirements under review by the Office of Management and Budget (OMB) since the last list was published. The list will have all entries grouped into new collections, revisions, extensions, or reinstatements. The Departmental Clearance Office will, upon request, be able to advise members of the public of the nature of the particular submission they are interested in. Each entry may contain the following information:

The Agency of the Department issuing this recordkeeping/reporting requirement.

The title of the recordkeeping/reporting requirement.

The OMB and Agency identification numbers, if applicable.

How often the recordkeeping/reporting requirement is needed.

Who will be required to or asked to report or keep records.

Whether small businesses or organizations are affected.

An estimate of the total number of hours needed to comply with the recordkeeping/reporting requirements and the average hours per respondent.

The number of forms in the request for approval, if applicable.

VOL 56 ISS 125 JE 28 1991 UMI

An abstract describing the need for and uses of the information collection.

Comments and Questions:

Copies of the recordkeeping/reporting requirements may be obtained by calling the Departmental Clearance Officer, Paul E. Larson, telephone (202) 523-6331. Comments and questions about the items on this list should be directed to Mr. Larson, Office of Information Management, U.S. Department of Labor, 200 Constitution Avenue, NW., room N-1301, Washington, DC 20210. Comments should also be sent to the Office of Information and Regulatory Affairs, attn: OMB Desk Officer for (BLS/DM/ESA/ETA/OLMS/MSHA/OSHA/PWBA/VETS), Office of Management and Budget, room 3208, Washington, DC 20503 (telephone (202) 395-6880).

Any member of the public who wants to comment on a recordkeeping/reporting requirement which has been submitted to OMB should advise Mr. Larson of this intent at the earliest possible date.

New Collection

Bureau of Labor Statistics, Hours at Work—Response Analysis Survey, One Time Only, Businesses and other private establishments: Small businesses or organizations, 600 responses, 150 hours, 15 minutes per response, no written forms.

Ratios of hours at work to hours paid are needed to measure labor input for productivity statistics. A response analysis survey assesses the conceptual accuracy of ratios. This information is used in BLS labor and multifactor productivity measures published annually and quarterly. Respondents are randomly selected from private non-agricultural establishments.

Revision

Occupational Safety and Health Administration, Accident Prevention Tags, State or local governments; Businesses or other for-profit; Federal agencies or employees; small businesses or organizations.

As the result of the February 21, 1990, Supreme Court Decision, 110 S. Ct. 929, 58 U.S.L.W. 4200, OSHA is no longer seeking Office of Management and Budget (OMB) clearance for paperwork activities involving the employer and the third party (employee) disclosure contained in 29 CFR 1910.145(f)(3).

Powered Platform, Businesses or other for-profit.

As the result of the February 21, 1990, Supreme Court Decision, 110 S. Ct. 929, 58 U.S.L.W. 4200, OSHA is no longer seeking Office of Management and Budget (OMB) clearance for those paperwork activities involving the employer and the third party (employee) disclosure contained in:

29 CFR 1910.66 (e)(9),
29 CFR 1910.66(f)(5)(i)(c),
29 CFR 1910.66(f)(5)(ii)(N),
29 CFR 1910.66(f)(7)(vi),
29 CFR 1910.66(f)(7)(vii),
29 CFR 1910.66(f)(7)(viii),
29 CFR 1910.66(f)(7)(ix).

Reinstatement

Assistant Secretary for Occupational Safety and Health, Initial and Renewal Application for Training and Education Grants, 1218-0020, Annually, Non-profit institutions, 78 respondents; 4,811 total burden hours; 63.3 average hours per response.

Applications are submitted by non-profit organizations interested in participating or continuing in OSHA training and education grants programs. It is used by OSHA staff to select organizations which can effectively carry out the objectives of the program. The application becomes part of the grant award document for successful applicants.

Signed at Washington, DC this 25th day of June, 1991.

Theresa M. O'Malley,

Acting Departmental Clearance Officer.

[FR Doc. 91-15476 Filed 6-27-91; 8:45 am]

BILLING CODE 4510-23-M

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Baxon Act. the prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the Federal Register, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., room S-3014, Washington, DC 20210.

Modifications to General Wage Determination Decisions

The numbers of the decisions listed in the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts" being modified are listed by Volume, State, and page number(s). Dates of publication in the Federal Register are in parentheses following the decisions being modified.

General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Act's". This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country. Subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 783-3238.

When ordering subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the three separate volumes, arranged by State. Subscriptions include an annual edition (issued on or about January 1) which includes all current general wage deteminations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, DC This 24th day of June 1991.

Alan L. Moss,

Director, Division of Wage Determinations.

BILLING CODE 4510-27-M

Employment and Training Administration

Determinations Regarding Eligibility to Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor herein presents summaries of determinations regarding eligibility to apply for adjustment assistance issued during the period of June 1991.

In order for an affirmative determination to be made and a certification of eligibility to apply for adjustment assistance to be issued, each of the group eligibility requirements of section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated,

(2) That sales or production, or both, of the firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Negative Determinations

In each of the following cases the investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-25,708; Gray Envelope Manufacturing, Avenel, NJ

TA-W-25,606; Rockwell International Corp, T/A Div., New Castle, PA

TA-W-25,725; Twin Disc, Inc., Racine, WI

TA-W-25,662; Connecticut Manufacturing Co., Inc., Waterbury, CT

TA-W-25,645; F.L. Smith Co., Inc., Duncansville, PA

TA-W-25,730; American Nickeloid, Peru, IL

In the following cases, the investigation revealed that the criteria for eligibility has not been met for the reasons specified.

TA-W-25,686; Snap-On Tools Corp., Mt. Carmel, IL

Increased imports did not contribute importantly to worker separations at the firm.

TA-W-25,720; P.I.E. Nationwide, Inc., Kansas City, MO

The workers' firm does not produce an article as required for certification under section 222 of the Trade Act of 1974.

TA-W-25,864; Electronic Services, Inc. (DBA ESI), Portland, OR

The workers' firm does not produce an article as required for certification under section 222 of the Trade Act of 1974.

TA-W-25,751; Maxwell House Coffee Co., Hoboken, NJ

Increased imports did not contribute importantly to worker separations at the firms.

TA-W-25,728; Weyerhaeuser Co., North Bend, OR

U.S. imports of Logging (Softwood & hardwood) declined in 1990 compared with 1989 & in the first two months of 1991 compared with the same comparable time period in 1990.

TA-W-25,705; Chicago Cutlery Co., New Hope, MN

VOL 56 ISS 125 JE 28 1991 UMI

Increased imports did not contribute importantly to worker separations at the firm.

TA-W-25,721; Reading & Bates Drilling Co., Sovereign Explorer Rig, Houston, TX

Increased imports did not contribute importantly to worker separations at the firm.

TA-W-25,759; Unibar Drilling Fluids, Inc., Rocky Mountain Div., Denver, CO

The investigation revealed that criterion (2) has not been met. Sales or production did not decline during the relevant period as required for certification.

TA-W-25,743; DST Systems, Inc., Abilene, TX

The workers' firm does not produce an article as required for certification under section 222 of the Trade Act of 1974.

TA-W-25,739; Chapparel Coal Corp., Pikesville, KY

U.S. imports of coal are negligible.

Affirmative Determinations

TA-W-25,633; S & M Manufacturing (SERBIN), Fayetteville, TN

A certification was issued covering all workers separated on or after March 4, 1990.

TA-W-25,678; Liz Ann Manufacturing Co., New Braunfels, TX

A certification was issued covering all workers separated on or after April 3, 1990 and before September 30, 1990.

TA-W-25,746; INMAC Datacom Div., San Jose, CA

A certification was issued covering all workers separated on or after April 19, 1990.

TA-W-25,688; Straits Forest Product, Inc., Amanda Park, WA

A certification was issued covering all workers separated on or after March 19, 1990 and before December 31, 1990.

TA-W-25,686; Straits Forest Products, Inc., Port Angeles, WA

A certification was issued covering all workers separated on or after March 19, 1990 and before December 31, 1990.

TA-W-25,737; Cable Electric Products, Inc., Providence, RI

A certification was issued covering all workers separated on or after April 8, 1990.

TA-W-25,660; Atlas Powder Co., Tamaqua, PA

A certification was issued covering all workers separated on or after April 2, 1990.

TA-W-25,723; Sullcraft Industries, Rahway, NJ

A certification was issued covering all workers separated on or after April 6, 1990 and before December 31, 1990.

I hereby certify that the aforementioned determinations were issued during the month of June, 1991. Copies of these determinations are available for inspection in room C-4318, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210 during normal business hours or will be mailed to persons to write to the above address.

Dated: June 24, 1991.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

[TA-W-23, 530]

Hawkins Oil and Gas, Inc., Tulsa, OK; Negative Determination on Reconsideration

By order dated April 9, 1991, the United States Court of International Trade (USCIT) in *Former Employees of Hawkins Oil & Gas.* v. *U.S. Secretary of Labor* (USCIT 90-02-00063) remanded this case to the Department for further investigation.

The Department's denial was based on the fact that the "contributed importantly" test of the Group Eligibility Requirements of the Trade Act was not met. This test is generally demonstrated by a survey of the workers' firm' customers. The Department's surveyed the major customers of Hawkins in 1988 and 1989. The survey revealed that none of the respondents imported crude oil or natural gas during the period applicable to the petition. A response from another investigation was added to the record for one of the customers who did not respond in the subject survey. That customer indicated that no natural gas was imported but crude oil was imported during the survey period.

On reconsideration the Department obtained audited financial statements for the years 1988 and 1989. The audited financial statements show most of Hawkins' 1989 revenues came from management fees. The audited statements also show that Hawkins had increased revenues from management fees, oil and gas sales, rental income and lease and equipment sales in 1989 compared to 1988. The oil and gas revenues accounted for about 34 percent of total revenues in 1989 and only about 15 percent of the oil and gas revenues are attributable to oil. Only oil and gas sales would provide a basis for a worker group certification and the audited statements show an increase in oil and gas revenues. Further, the company reported an increase in crude oil sales in the first nine months of 1989 compared to the same period in 1988.

The Department reviewed its initial customer survey and found that it had correctly contacted the appropriate contact persons for each customer provided by Hawkins. On reconsideration, the Department surveyed the two non-responding customers and found that they did not import natural gas and either did not import crude oil or had increased purchases of crude oil from Hawkins during the relevant period. Therefore, such a finding could not provide a basis for certification for Hawkins.

To summarize then, none of the major customers imported natural gas and only one imported crude oil but that respondent had increased purchases from Hawkins during the period applicable to the petition. Also, Hawkins had increased oil and gas sales revenues in 1989 compared to 1988 and increased oil revenues in 1989 compared to 1988.

Conclusion

After reconsideration, I affirm the original notice of negative determination to apply for adjustment assistance to workers and former workers of Hawkins Oil & Gas, Inc., Tulsa, Oklahoma.

Signed at Washington, DC this June 24, 1991.

Robert O. Deslongchamps

Director, Office of Legislation & Actuarial Services, Unemployment Insurance Service.

[TA-W-25,691]

Lightolier, Inc., Norwich, CT; Amended Certification Regarding Eligibility to Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on May 21, 1991, applicable to all workers of Lightolier, Inc., Norwich, Connecticut. The notice was published in the Federal Register on June 5, 1991 (56 FR 25699).

At the request of the State Agency the Department reviewed the subject certification and found that several workers are being retained for close down operations beyond the March 31, 1991 termination date. Therefore, the certification is amended by deleting the

old termination date and inserting a new termination date of September 1, 1991. The amended notice applicable to the subject firm is hereby issued as follows:

"All workers of the Norwich, Connecticut plant of Lightolier, Inc., engaged in the production of track lighting fixtures who became totally or partially separated from employment on or after January 1, 1991 and before September 1, 1991 are eligible to apply for adjustment assistance under section 223 of the Trade Act of 1974."

Signed at Washington, DC this 20th day of June 1991.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510-30-M

Federal-State Unemployment Compensation Program; Extended Benefits; Ending of Extended Benefit Period in the State of Michigan

This notice announces the ending of the Extended Benefit Period in the State of Michigan, effective on June 15, 1991.

Background

The Federal-State Extended Unemployment Compensation Act of 1970 (26 U.S.C. 3304 note) established the Extended Benefit Program as a part of the Federal-State Unemployment Compensation Program. Under the Extended Benefit Program, individuals who have exhausted their rights to regular unemployment benefits (UI) under permanent State (and Federal) unemployment compensation laws may be eligible, during an extended benefit period, to recieve up to 13 weeks of extended unemployment benefits, at the same weekly rate of benefits as previously received under the State law. The Federal-State Extended Unemployment compensation Act is implemented by State unemployment compensation laws and by part 615 of title 20 of the code of Federal Regulations (20 CFR part 615).

Extended Benefits are payable in a State during an Extended Benefit Period which is triggered "on" when the rate of insured unemployment in the State reached the State trigger rate set in the Act and the State law. During an Extended Benefit Period, individuals are eligible for a maximum of up to 13 weeks of benefits, but the total of Extended Benefits and regular benefits together may not exceed 39 weeks.

The Act and the State unemployment compensation laws also provide that an Extended Benefit Period in a State will trigger "off" when the rate of insured unemployment in the State is no longer at the trigger rate set in the law. A benefit period actually terminates at the end of the third week after the week for which there is an off indicator, but not less than 13 weeks after the benefit period began.

An Extended Benefit Period commenced in the State of Michigan on March 10, 1991, and has now triggered off.

Determination of an "off" Indicator

The head of the employment security agency of the State named above has determined that the rate of insured unemployment in the State for the period consisting of the week ending on May 25, 1991, and the immediately preceding twelve weeks, fell below the State trigger rate, so that for the week there was an "off" indicator in the State.

Therefore, the Extended Benefit Period in the State terminated with the week ending June 15, 1991.

Information for Claimants

The State employment security agency will furnish a written notice to each individual who is filing claims for Extended Benefits of the ending of the Extended Benefit Period and its effect on the individual's right to Extended Benefits, 20 CFR 615.13(c)(4).

Persons who wish information about their rights to Extended Benefits in the State named above would contact the nearest State employment service office in their locality.

Signed at Washington, DC on June 20, 1991.

Roberts T. Jones,

Assistant Secretary of Labor.

Federal-State Unemployment Compensation Program; Unemployment Insurance Program Letters Interpreting Federal Unemployment Insurance Law

The Employment and Training Administration interprets Federal law pertaining to unemployment insurance as part of the fulfillment of its role in administration of the Federal-State unemployment insurance system. These interpretations are issued in Unemployment Insurance Program Letters (UIPLs) to State Employment Security Agencies (SESAs). The UIPLs described below are published in the Federal Register in order to inform the public.

UIPL No. 1-86, Change 1

This directive provided additional information regarding the Department of Labor's (Department) interpretation of the phrase "permanently residing in the United States under color of law" as used in section 3304(a)(14)(A) of the Federal Unemployment Tax Act (FUTA).

UIPL 26-90

This directive advised SESAs of the Department's concerns regarding the increasing technicality and complexity of Unemployment Insurance (UI) Appeals hearings and provided draft legislation which might assist the SESAs in resolving the problem.

UIPL 28-90

This directive advised the States of the Department's position on the issuance of subpoenas in interstate appeals.

UIPL 13-91

This directive advised the State agencies of the provisions of the Omnibus Budget Reconciliation Act of 1991, Public Law 101-508, which affect the Federal-State Unemployment Compensation Program.

UIPL 14-91

This directive informed States of the amendment made to section 3304(a)(14)(A), FUTA, by Section 162(e)(4) of Public Law 101-649, the Immigration Act of 1990.

Dated: 6/20/91

Roberts T. Jones

Assistant Secretary of Labor.

CLASSIFICATION: UI
CORRESPONDENCE SYMBOL: TEURL
DATE: February 16, 1989.
EXPIRATION DATE: June 30, 1991
DIRECTIVE: Unemployment Insurance Program Letter No. 1-86 Change 1
TO: All State Employment Security Agencies
FROM: Donald J. Kulick, Administrator for Regional Management
SUBJECT: Aliens Permanently Residing in the United States Under Color of Law (PRUCOL)

1. *Purpose.* To provide additional information regarding the Department of Labor's interpretation of the phrase "permanently residing in the United States under color of law" as used in section 3304(a)(14)(A) of the Federal Unemployment Tax Act (FUTA).

2. *References.* Section 3304(a)(14)(A), FUTA; UIPL 1-86, dated October 28, 1985 (51 FR 29713, August 20, 1986); UIPL 12-87, dated March 11, 1987 (52 FR 3880, February 2, 1987); UIPL 12-87, Change 1, dated September 28, 1988; UIPL 6-89, dated December 2, 1988; Draft Language and Commentary to Implement the Unemployment Compensation Amendments of 1976—P.L. 94-566 (including Supplement #3, Questions and Answers, issued May 6, 1977).

3. *Background.* Section 3304(a)(14)(A), FUTA, requires, as a condition for the

VOL 56 ISS 125 JE 28 1991 UMI

Secretary of Labor's certification of a State to the Secretary of the Treasury, that the State law provide that:

compensation shall not be payable on the basis of services performed by an alien unless such alien is an individual who was lawfully admitted for permanent residence at the time such services were performed, was lawfully present for purposes of performing such services, or was permanently residing in the United States under color of law at the time such services were performed (including an alien who was lawfully present in the United States as a result of the application of the provisions of section 203(a)(7) or section 212(d)(5) of the Immigration and Nationality Act).

Simply put, base period wages may not be used in a monetary determination on a claim for unemployment benefits unless the wages were earned while the alien was in one of the three eligible categories specified in section 3304(a)(14)(A) and the State law. The three categories of aliens are:

- Aliens lawfully admitted for permanent residence at the time the services were performed.
- Aliens lawfully present for purposes of performing the services.
- Aliens permanently residing in the United States (U.S.) under color of law at the time the services were performed.

A State unemployment compensation law is not required to contain any of the three categories of eligible aliens. However, a State may not broaden the definition of any of the three categories of eligible aliens.

UIPL 1–86 set forth the Department of Labor's interpretation of these three eligible categories of aliens. Since the issuance of UIPL 1–86, the Department has noted continuing problems with the interpretation of the third category, aliens "permanently residing in the United States under color of law" (PRUCOL). The purpose of this program letter is to supplement UIPL 1–86 by providing additional information, based on cases which have come to the Department's attention, to ensure that this third category is uniformly interpreted and applied.

4. *Interpretation.* The phrase "permanently residing in the United States under color of law" applies only to the following classes of aliens:

a. Aliens admitted to the U.S. as conditional entrants under section 203(a)(7) or as parolees under section 212(d)(5) of the Immigration and Nationality Act (INA). Section 3304(a)(14)(A), FUTA, specifically includes these aliens in the PRUCOL category. Note: Section 203(a)(7) was repealed by section 203(c)(3) of the Refugee Act of 1980 (P.L. 96–212) and replaced under Section 201(b) of the Refugee Act with sections 207 and 208. Under section 203(h) of the Refugee Act, section 203(a)(7) is applicable prior to April 1, 1980. In addition, section 203(h) provides that, effective April 1, 1980, any reference in Federal law to section 203(a)(7) is considered a reference to new sections 207 and 208. INA section 207 relates to refugees and INA section 208 to asylees, both of which are, therefore, considered PRUCOL under section 3304(a)(14)(A), FUTA.

b. Aliens presumed to have been lawfully admitted for permanent residence even though they lack documentation of their admission to the United States. See Immigration and Naturalization Service (INS) regulations at 8 CFR part 101. A list of these groups and the documents that are issued to them by the INS are provided in Supplement #3 of the Draft Language and Commentary to Implement the Unemployment Compensation Amendments of 1976–P.L. 94–566.

c. Aliens who, after a review of their circumstances under INS statutory or regulatory procedures, have been granted a lawful immigration status that allows them to remain in the U.S. for an indefinite period of time.

To be in PRUCOL status, an alien must meet a two-part test. First, the alien must be residing in the U.S. "under color of law." For an alien to be residing "under color of law," the INS must know of the alien's presence, and must provide the alien with written assurance that enforcement of deportation is not planned. Second, the alien must be "permanently residing" in the U.S. This term is not defined in FUTA. However, "permanent" is defined in section 101(a)(31), INA:

The term "permanent" means a relationship of continuing or lasting nature, as distinguished from temporary, but a relationship may be permanent even though it is one that may be dissolved eventually at the instance either of the United States or of the individual, in accordance with law.

Under the INA, authority for determining the alien's status is vested in the Attorney General. The "relationship" in the definition of "permanent" therefore contemplates permission by the INS for the alien to remain in the U.S. for an indefinite period of time. An alien cannot be residing permanently without this relationship. Therefore, an alien living in the U.S. who has not received assurance from the INS that departure will not be enforced is not permanently residing. INS inaction is *not* sufficient to show that an alien is in PRUCOL status and States may not interpret it as such. As stated in UIPL 1–86:

* * * without affirmative action by the INS, any alien, regardless of the legality of entry, could become eligible to receive unemployment compensation simply by filing an application for permanent residence or suspension of deportation. Congress has indicated no intent to include such aliens under the provisions of section 3304(a)(14)(A), FUTA. In short, the filing of an application alone cannot change an alien's resident status. The INS must affirmatively determine each alien's status in accordance with its authority and the alien's specific circumstances.

That the mere filing of an application does not make an alien a permanent resident under color of law was confirmed in *Sudomir* v. *McMahon*, 767 F. 2d 1458 (9th Cir. 1985). In that case, the United States Court of Appeals for the Ninth Circuit upheld as reasonable and permissible California and Federal positions that an "applicant" for asylum status is not in PRUCOL status. The Court noted that the requirement of permanency "does not embrace transitory, inchoate, or temporary relationships in a process that gives rise to the possibility of * * * authorization [to remain in the U.S.] reside temporarily." *Id.* Finally, "Their presence is tolerated during the period necessary to process their applications; it has not been legitimated by any affirmative act." *Id.* Whether the alien is applying for a lawful immigration status for the first time, or is applying for adjustment of an existing status, the principle is the same: the mere filing of an application does not confer PRUCOL status.

This principle was further confirmed in *Esparza* v. *Valdez*, 612 F. Supp. 241 (D. Colo. 1985), appeal dismissed, No. 85–2187 (10th Cir. Nov. 29, 1988). In that case, the United States District Court for Colorado dismissed the claim that aliens are in PRUCOL status if the alien's presence in the U.S. is known to the INS and the INS has acquiesced in the continued residence of the alien by some action or inaction. The Court stated that aliens are not in PRUCOL status simply "by the filing of some application." 612 F. Supp. at 244.

5. *Discussion of Specific Groups of Aliens.* In addition to those groups of aliens specifically cited in Section 3304(a)(14)(A) and those groups treated in Supplement #3 of the Draft Language and Commentary to Implement the Unemployment Compensation Amendments of 1976–P.L. 94–566, other groups of aliens have been identified which may or may not be in PRUCOL status. Following is a decision of these groups.

a. *Aliens Possessing Work Authorization.* Aliens who possess work authorization fall under the second category of Section 3304(a)(14)(A), FUTA, "lawfully present for purposes of performing such services." These aliens may also be in PRUCOL status, but only if they independently meet the two-part test explained above. If State law contains the category "lawfully present for purposes of performing such services," the State agency need not determine whether aliens in this category are also in PRUCOL status. However, if State law does not contain the second category, but does contain the PRUCOL category, or if the alien does not possess work authorization, then it will be necessary to determine if the alien is in PRUCOL status. In reaching this determination, the State may not expand the definition of PRUCOL to include aliens who merely possess work authorization. (Evidence of authorization to work is, however, required to establish legal availability for work subsequent to the enactment of the Immigration Reform and Control Act on November 6, 1986; see UIPL 12–87.)

b. *Aliens Granted Voluntary Departure or Extended Voluntary Departure.* Aliens granted voluntary or extended voluntary departure are usually assigned a definite date for departure from the U.S. Although the departure date may be subject to extension, or actually extended, these aliens are not "permanent" residents because their presence is limited in duration. As the court stated in the *Sudomir* case, a deferred or extended voluntary departure by definition is a "transitory, inchoate, or temporary" relationship. *Sudomir* at 1461.

Aliens who receive extensions of voluntary departure dates while their applications for legal residence are pending with the INS also do not become permanent residents. The

administrative process which may culminate in authorization to remain in the U.S. does not in itself confer any status or right to reside in the U.S. permanently. AS with the aliens in the *Sudomir* case, these aliens' "presence is tolerated only during the period necessary to process their applications; it has not been legitimated by any affirmative act." *Sudomir* at 1462. While these aliens may be residing under "color of law," they are not "permanently residing" and may not be considered PRUCOL.

c. *Applicants for Adjustment of Status.* Aliens do not become PURCOL by virtue of applying for adjustment of their status. An alien applying for adjustment of status under sections 245, 245A, or 210 of the INA also would not qualify as PRUCOL since the application itself does not constitute a change or improvement of status. If these applicants are eligible for unemployment benefits, it must be because of their present status, which they are applying to have adjusted.

d. *Asylees, Refugees and Applicants for such Status.* Aliens granted the status of asylee or refugee are PRUCOL, but, as discussed above, applicants for a particular status do not receive the benefits of that status. To be granted asylum under section 208, INA, the INS must make a specific determination that the alien faces persecution or has a well-founded fear of persecution. As noted in *Sudomir* at 1462, the presence of applications for asylum is "tolerated during the period necessary to process their applications; it has not been legitimated by any affirmative act." This principle applies also to applicants for refugee status under section 207, INA.

e. *Applicants for and Persons Who Have Received Withholding of Deportation.* As with other applicants for a particular status, aliens do not become PRUCOL by applying for withholding of deportation under section 243(h), INA. The temporary nature of their residence during the application process is underscored by the fact that an alien is not entitled to relief under section 243(h) if the INS finds that he committed certain acts of persecution; was convicted of a particularly serious crime constituting a danger to the U.S.; committed a serious neopolitical crime prior to arrival in the U.S.; or constitutes a danger to the security of the U.S. However, aliens who have been notified in writing by the INS that deportation action will not be taken against them or that such action is indefinitely delayed, may be considered PRUCOL.

f. *Cuban and Haitian Entrants.* Citizens of Cuba or Haiti who entered the United States at the time of the Mariel boat lift (and before January 1, 1982) and afforded the status of "Cuban/Haitian Entrant (Status Pending)" are in PRUCOL status because they are treated as parolees. However, not all Cuban and Haitian entrants, as defined in section 501(e) of the Refugee Education Assistance Act of 1980, P.L. 96–422, are afforded the status of Cuban/Haitian Entrant (Status Pending). Those aliens not granted this status may be the subject of exclusion or deportation proceedings or may be applicants for asylum. If they are in any of the three categories specified under section 3304(a)(14)(A), FUTA, it is by virtue of other INS actions (such as the granting of work authorization or the adjustment of status to that of an alien lawfully admitted for permanent residence under section 202 of the Immigration Reform and Control Act of 1986, P.L. 99–603, (IRCA)), not by simply being Cuban or Haitian entrants.

g. *Visa Applicants and Beneficiaries of Visa Petitions.* As with other applicants for a particular status, aliens do not become PRUCOL by apply for a visa.

Beneficiaries of approved or pending visa petitions are not PRUCOL. The INA provides that preference consideration be given to persons with close family ties in the U.S. and to persons with certain job skills. However, the mere filing of a petition on an alien's behalf does not create a lawful status. Indeed, some beneficiaries may not even be in the U.S. at the time the petition is filed. Moreover, "approval" of a visa petition on behalf of an alien merely verifies a relationship between the petitioner and the beneficiary; approval is merely the first step in the application process. Therefore, even an alien with an "approved" petition is simply participating in a process that ultimately may result in authorization to remain permanently in the U.S. A pending petition may be meritless and cannot be the basis for determining the alien's immigration status.

Once the visa petition has been approved, some aliens are required to go to the American consul in their country of origin for an interview. At that juncture, the visa is either issued or denied. See 22 CFR part 42. If the visa is issued, the individual is required to appear at the port of entry for admission. Admission may be disapproved for a number of reasons. If admitted, the individual is "lawfully admitted for permanent residence," the first category of eligible aliens under section 3304(a)(14)(A). Other beneficiaries of approved visa petitions are allowed to stay in the U.S. and file an application for adjustment of status under section 245, INA. As with other applicants for a particular status, these aliens are not in PRUCOL status. Finally, if the application is granted, the beneficiary is adjusted to the status of "lawfully admitted for permanent residence" and since the alien is already in the U.S., the alien need not be "admitted."

h. *Applicants for Suspension of Deportation.* As with applicants for a particular status, aliens do not become PRUCOL by applying for suspension of deportation under Section 244(a), INA. As with other applicants, the presence of these aliens is temporary, as they merely are participating in an administrative process with the possibility of receiving authorization to remain in the U.S. Further, these aliens are not present under color of law while in deportation status.

In contrast, aliens whose deportation is suspended under section 244(a) have their status adjusted to "lawfully admitted for permanent residence." Such aliens are, therefore, in the first category of section 3304(a)(14)(A), FUTA, effective upon issuance of the adjustment of status by the INS.

i. *Persons under Orders of Supervision.* Aliens subject to orders of supervision under section 242(d), INA, are not in a lawful immigration status and have already been issued a final order of deportation. They are subject to deportation when appropriate arrangements are completed. These aliens are neither "permanently residing" nor residing "under color of law" and are therefore not in PRUCOL status.

j. *Persons Subject to INS Orders to Show Cause, But Not Under a Final Order of Deportation.* Orders to show cause under 8 CFR 242.1 are used by the INS to commence the deportation process. Such an alien is neither "permanently residing" nor residing under "color of law" solely by reason of being in such status. If such aliens are in PRUCOL status, it is by virtue of the status which may be revoked during this process.

k. *Persons under Deferred Action Status.* Aliens under deferred action status who have been notified by the INS in writing that deportation will not be pursued at the present time are in PRUCOL status, but only from the date such notification is effective and until such notification is revoked or superseded by further INS action.

l. *Aliens in the U.S. With the "Knowledge and Acquiescence" of the INS.* INS knowledge of, and acquiescence to, an alien's presence in the U.S. is insufficient to render the alien either permanently residing or residing under color of law. Rather, an alien is in PRUCOL status only if the INS has affirmatively exercised its discretion against deportation and granted permission to the alien in writing to reside in the U.S. indefinitely. As the *Esparza* court stated in rejecting the "knowledge and acquiescence" test, an alien is not in PRUCOL status simply "by the filing of some application." *Esparza* at 244.

m. *Aliens Who Applied for, or Who Intended to Apply for Legalization Under Section 245A or Section 210, INA, as Added by the Immigration Reform and Control Act of 1986 (IRCA).* The IRCA amendments to the INA had no effect on the definition of PRUCOL. As with other applicants for a particular status, aliens do not become PRUCOL by applying for, or intending to apply for, adjustment of status under the legalization programs established by the IRCA.

Sections 245A(e) and section 210(d) of the INA, as amended by IRCA, prohibit the Attorney General from deporting certain aliens who intend to apply for or who have applied for adjustment of status under the legalization programs established by IRCA for limited periods. These aliens are not PRUCOL. The temporary nature of these aliens' residence is underscored by the fact that if the application is denied the alien is subject to deportation. Appliants for amnesty under Section 245A(a), INA, may obtain a new status, lawfully admitted for temporary residence (LTR). In addition, special agricultural workers may apply for status as lawfully admitted for temporary residence under Section 210(a)(1), INA. Aliens in LTR status are not PRUCOL because they are not permitted to remain in the U.S. indefinitely. Under the INA, these aliens will either have their status adjusted to that of lawfully admitted for permanent residence or they will be subject to deportation. Further, aliens who have been lawfully admitted for temporary

UMI

residence cannot be said to be permanently residing. Aliens applying for status under these legalization programs may, however, be lawfully present for purposes of performing services under section 3304(a)(14)(A), FUTA. Refer to UIPL 12–87 and UIPL 12–87, Change 1, for a discussion of these aliens. Also, refer to UIPL 6–89, which discusses provisions of the Foreign Relations Authorization Act, P.L. 100–204, which establishes another class of aliens who are eligible to apply for temporary residence status.

6. *Action Required.* State administrators are requested to take necessary action to assure that the State law is applied consistently with section 3304(a)(14)(A), FUTA, as interpreted in this program letter.

7. *Inquiries.* Please direct questions to the appropriate Regional Office.

Classification: UI
Correspondence Symbol: TEURL
Date: April 26, 1990
Expiration Date: April 30, 1991
Directive: Unemployment Insurance Program Letter No. 28–90
To: All State Employment Security Agencies
From: Donald J. Kulick, Administrator for Regional Management
Subject: Requirement that Unemployment Insurance (UI) Appeals Hearings be Simple, Speedy and Inexpensive

1. *Purpose.* To advise State Employment Security Agencies (SESAs) of the Department of Labor's (DOL) concerns regarding the increasing technicality and complexity of UI Appeals hearings and to provide draft legislation which may assist the SESAs in resolving this problem.

2. *References.* Sections 302(a), 303(a)(1), and 303(a)(3) of the Social Security Act (SSA), and A Guide to Unemployment Insurance Benefit Appeals.

3. *Background.* A number of courts and administrative bodies have issued decisions precluding an individual in a non-UI case from relitigating an issue previously decided in a UI case. These decisions have been based on the doctrine of collateral estoppel, also called issue preclusion. Also, some courts and administrative bodies have permitted findings of fact or decisions in a UI case to be used as evidence of a finding in subsequent non-UI proceedings. Because the parties are concerned that the results of the UI hearing will either affect or be binding in subsequent non-UI proceedings, the UI hearing becomes more technical and complex, and therefore most costly and time consuming, than is needed for purposes of determining UI issues. Because UI hearings are intended to be simple, speedy and inexpensive, such technical and complex proceedings could create issues under Federal law requirements. This UIPL addresses this problem and provides draft language should a State determine that legislation is necessary to preclude conflicts with Federal law requirements.

4. *Definitions.* The doctrine of collateral estoppel prevents a party from relitigating an issue which has already been decided in a prior action, generally between the same parties. For example, an individual is dismissed from employment and files a claim for UI benefits. The State agency denies benefits based on its determination that the individual was discharged for misconduct. The individual appeals the denial of UI benefits, a hearing is held and the denial is affirmed. The individual also files a civil rights action under Title VII of the United States Civil Rights Act of 1964. The court hearing the civil rights action then rules that the issue of the reason for the individual's discharge has already been decided in another forum and therefore cannot be relitigated.

5. *Federal Law Requirements.* Section 303(a)(1), SSA, requires that the UI law of a State provide for "[s]uch methods of administration * * * as are found by the Secretary of Labor to be reasonably calculated to insure full payment of unemployment compensation when due." Section 303(a)(3), SSA, requires that a State law provide for "[o]pportunity for a fair hearing before an impartial tribunal for individuals whose claims for unemployment compensation are denied." These provisions have been interpreted to require that appeals hearings are to be simple and that a claimant should be able to understand the appeals procedures without the need of securing legal representation to protect his or her rights. (See page 5 of A Guide to Unemployment Insurance Benefit Appeals.) Because of the relatively small amount of money involved, it would place a financial burden on most claimants if a State's appeals hearing became so complex that claimants would have to secure legal representation to protect their rights to benefits.

Therefore, to comply with the requirements of sections 303(a)(1) and 303(a)(3), appeals hearings must be simple, speedy, and inexpensive.

Finally, under section 302(a), the Secretary of Labor is required to provide to States only such amounts as are necessary for the proper and efficient administration of the State's UI law. In this regard, the funding formulas utilized for appeals functions contemplate only the informal hearings required by section 303(a) (1) and (3).

6. *Effect on the UI Program.* The UI appeals hearing will likely occur prior to other hearings concerning employer-employee disputes. Therefore, participants in the UI hearing may be concerned about the effects of the UI hearing on subsequent non-UI litigation since collateral estoppel may be applied in a non-UI forum or findings of fact made by the hearing officer or the officer's decision may be introduced as evidence. In anticipation of this, parties to a UI claim may feel obligated to assure that issues are addressed in far greater depth than is normally required for a UI hearing. This results in complex and lengthy hearings in which both claimants and employers may require legal representation and which slow down the appeals process. Consequently, formal and technical hearings may occur inconsistent with sections 303(a)(1) and 303(a)(3), SSA.

SESAs which find that appeals hearings have become more complex and technical than is required to determine a UI claim should take action to assure that UI hearings remain simple, speedy, and inexpensive. One approach the SESAs may take is to seek legislation prohibiting the application of collateral estoppel to subsequent non-UI proceedings, or to prohibit the introduction as evidence of any appellate decision or finding of fact made by the UI agency. Several States have already taken this approach. To this end, the following draft language is provided:

No finding of fact or law, judgment, conclusion, or final order made with respect to a claim for unemployment compensation under this Act may be conclusive or binding or used as evidence in any separate or subsequent action or proceeding in aonther forum, except proceedings under this Act, regardless of whether the prior action was between the same or related parties or involved the same facts.

7. *Action Required.* SESAs are requested to examine their appeals process to determine whether UI hearings are speedy, inexpensive and informal. If they are not, the State should take appropriate action.

8. *Inquiries.* Questions should be directed to the appropriate Regional Office.

Classification: UI
Correspondence Symbol: TEURL
Date: May 30, 1990
Expiration Date: June 30, 1991
Directive: Unemployment Insurance Program Letter No. 28–90
To: All State Employment Security Agencies
From: Donald J. Kulick, Administrator for Regional Management
Subject: Interstate Appeals and the Issuing of Subpoenas

1. *Purpose.* To advise States of the Department of Labor's position on the issuance of subpoenas in interstate appeals.

2. *References.* Sections 303(a)(1) and 303(a)(3) of the Social Security Act (SSA), Section 3304(a)(9)(A) of the Federal Unemployment Tax Act (FUTA), and the Interstate Benefit Payment Plan.

3. *Background.* In a case pending in Federal court (*Saltz v. Tennessee Department of Employment Security et al.* No. DR–89–CA–45 (W.D. Texas)), an unemployment insurance claimant is alleging, among other things, that due process was denied when the liable State in an interstate claim advised him it had no power to enforce a subpoena to an employer in another State concerning separation information the claimant believed relevant. (It should be noted the State also determined the information at issue was irrelevant to the claim for unemployment insurance.) Although one State cannot enforce a subpoena in another, it is otherwise possible to obtain necessary evidence for interstate claims. This UIPL is issued to advise States of relevant Federal law requirements and the procedures to follow when the liable State determines that information relevant to a hearing on appeal is necessary.

The applicable Sections of Federal law are:

a. Section 303(a)(1), SSA, requires, as a condition of a State receiving administrative grants, "[s]uch methods of administration * * * as are found by the Secretary of Labor to be reasonably calculated to insure full payment of unemployment compensation when due."

b. Section 303(a)(3), SSA, which requires "[o]pportunity for a fair hearing, before an impartial tribunal, for all individuals whose claims for unemployment compensation are denied."

c. Section 3304(a)(9)(A), FUTA, which requires, as a condition of employers in a State receiving credit against the Federal unemployment tax, that "compensation shall not be denied or reduced to an individual solely because he files a claim in another State * * * or because he resides in another State * * * at the time he files a claim for unemployment compensation."

Read together, Sections 303(a)(1) and 303(a)(3), SSA, require the State agency to conduct an informal hearing complete enough to provide information upon which the agency may act with reasonable assurance that its decision is consistent with its unemployment compensation law. The official conducting the hearing must assist the parties in the discovery of facts and, if necessary, take the initiative in the discovery of information. Further, to receive the "fair hearing" required by Section 303(a)(3), it is evident that a claimant must have means of requesting production of evidence which affects eligibility and the State must have means of compelling the production of this evidence. These requirements apply equally to interstate and intrastate claims and to both lower and higher authority appeals.

A subpoena may be required to obtain the information necessary to fulfill these requirements. A subpoena is a legal order requiring a person to appear at a hearing or to produce specific material. Subpoenas represent a compulsory process for obtaining evidence. A party's request for issuance of a subpoena should be granted, unless it is clear that such a request is unreasonable, frivolous, made for the purpose of harassment, not relevant to a determination of unemployment insurance eligibility, or is not needed to secure attendance of a witness or production of material. If it is clear to the State that production of necessary evidence must be compelled, the State should not wait for a party's request for a subpoena before taking steps to obtain the information.

In addition, section 3304(a)(9)(A), FUTA, requires that benefits shall not be denied to a claimant solely because he resides in another State at the time of filing. If a claimant is denied benefits because the liable State has failed to obtain subpoenaed information in the belief that it has no power to obtain such information from another State, the failure could result in a denial of benefits simply because the claim was an interstate claim.

4. *Application.* If a claimant or employer in an interstate claim requests a subpoena be issued, the liable State hearing officer (or other appropriate official) will rule on the necessity of obtaining such information for a determination under its law. If the information is not necessary, the hearing officer should so advise the party. If it is determined that the material or witness is necessary, the liable State hearing officer should explore the possibility of obtaining the needed testimony (which may be by telephone) or material voluntarily. If this approach is not successful, the hearing officer must make arrangements with the appropriate official in the State where the witness or material is located to compel, through issuance of a subpoena or other means, the witness to testify or for the evidence to be produced. Methods of obtaining the testimony or evidence will need to be tailored to the circumstances of the specific case.

Agent States should already have authority for issuing a subpoena for a liable State under the provisions of State law or regulation implementing section 9(a) of the proposed regulation contained in the Interstate Benefit Payment Plan. This regulation requires the agent State to "afford all reasonable cooperation in the taking of evidence and the holding of hearings in connection with appealed interstate benefit claims when so requested by a liable state."

5. *Action.* State agency administrators are requested to review existing State law provisions and agency practices involving interstate appeals to ensure that Federal law requirements as set forth in this program letter are met concerning responsibilities as a liable, agent or other State. If necessary, prompt action should be taken to assure Federal requirements are met.

6. *Inquiries.* Please direct inquiries to the appropriate Regional Office.

From: Donald J. Kulick, Administrator for Regional Management
Subject: The Omnibus Budget Reconciliation Act of 1990 (Public Law 101–508)—Provisions Affecting the Federal-State Unemployment Compensation Program

1. *Purpose.* To advise State agencies of the provisions of the Omnibus Budget Reconciliation Act of 1990, P.L. 101–508, which affect the Federal-State Unemployment Compensation Program.

2. *References.* Sections 5021, 11333, 11403, and 11404 of P.L. 101–508.

3. *Background.* On November 5, 1990 the President signed into law the Omnibus Budget Reconciliation Act of 1990 (OBRA 90), P.L. 101–508. OBRA 90 contains four provisions which affect the Federal-State unemployment compensation (UC) program. Following is a summary of the changes made.

Section 5021 amends sections 903(a)(2) and 903(c)(2) of the Social Security Act (SSA). Section 903(a)(2), SSA, is amended to specify that future Reed Act distributions will be based on the Federal taxable wage base rather than the State taxable wage base, and to change the basis upon which determinations concerning such distributions are to be made by the Secretary of Labor. Section 903(c)(2)(D), SSA, is amended to delete the 35-year limitation on the obligation of Reed Act funds for administration. In practical effect, this means Reed Act funds may be appropriated and obligated for administrative purposes indefinitely. However, because this provision is not effective until October 1, 1991, all States will experience a period during which some Reed Act funds may not be obligated. In addition, a clarification concerning the time when a charge against Reed Act funds must be made was added, as was a requirement that States account for Reed Act money in accordance with standards established by the Secretary of Labor.

Section 11333 amends section 3301 of the Federal Unemployment Tax Act (FUTA) to extend the 0.2 percent temporary tax under FUTA through December 31, 1995. The gross FUTA tax remains at 6.2 percent, the maximum offset at 5.4 percent, and the net tax at 0.8 percent. OBRA 90 did not extend section 901(g)(1) of the Social Security Act which governed the transfer from the Employment Security Administration Account (ESAA) of an amount equal to the 0.2 percent temporary tax for calendar years 1988, 1989, and 1990, with fifty (50) percent allocated to the Extended Unemployment Compensation Account (EUCA) and fifty (50) percent allocated to the Federal Unemployment Account (FUA). Therefore, for calendar years 1991 through 1995, there will be no special rule for transfers from the ESAA. Instead, 10 percent of the 0.8 percent net tax will be transferred to the EUCA pursuant to section 905(b)(1) of the Social Security Act.

Sections 11403 and 11404 amend the Internal Revenue Code (IRC) to extend, with certain changes, until December 31, 1991, exclusions from an employee's gross income for amounts paid by an employer for certain educational assistance and amounts contributed by an employer to a qualified group legal services plan for an employee. Such amounts excluded from an employee's gross income are excluded from the definition of "wages" under sections 3306(b)(12) and 3306(b)(13), FUTA.

4. *Action Required.* SESAs are requested to notify appropriate staff of these provisions.

5. *Inquiries.* Inquiries should be directed to your Regional Office.

Attachment I to UIPL No. 12–91

Text, Explanation and Interpretation of Changes Affecting the Federal-State Unemployment Compensation Program Made by Public Law 101–508 (Sections 5021, 11333, 11403, and 11404)

I. Section 5021. *Amendments to Sections 903(a)(2) and 903(c)(2), SSA*

A. *Text of Amendment.*

SEC. 5021. AMOUNTS TRANSFERRED TO STATE UNEMPLOYMENT COMPENSATION PROGRAM ACCOUNTS.

(a) ALLOCATION OF AMOUNTS.—Paragraph (2) of section 903(a) (42 U.S.C. 1103(a)(2)) is amended to read as follows:

"(2) Each State's share of the funds to be transferred under this subsection as of any October 1—

"(A) shall be determined by the Secretary of Labor and certified by such Secretary to the Secretary of the Treasury before such date, and

"(B) shall bear the same ratio to the total amount to be so transferred as—

"(i) the amount of wages subject to tax under section 3301 of the Internal Revenue

VOL 56 ISS 125 JE 28 1991 UMI

Code of 1986 during the preceding calendar year which are determined by the Secretary of Labor to be attributable to the State, bears to

"(ii) the total amount of wages subject to such tax during such year."

(b) USE OF TRANSFERRED AMOUNTS.—Paragraph (2) of section 903(c) (42 U.S.C. 1103(c)(2)) is amended—

(1) by striking "and" at the end of subparagraph

(c), and

(2) by striking so much of such paragraph as follows subparagraph (C) and inserting the following:

"(D)(i) the appropriation law limits the total amount which may be obligated under such appropriation at any time to an amount which does not exceed, at any such time, the amount by which—

"(I) the aggregate of the amounts transferred to the account of such State pursuant to subsections (a) and (b), exceeds

"(II) the aggregate of the amounts used by the State pursuant to this subsection and charged against the amounts transferred to the account of such State, and

"(ii) for purposes of clause (i), amounts used by a State for administration shall be chargeable against transferred amounts at the exact time the obligation is entered into, and

"(E) the use of the money is accounted for in accordance with standards established by the Secretary of Labor."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to fiscal years beginning after the date of the enactment of this Act.

B. *Discussion.*

1. Section 903, SSA, provides for the transfer (or "distribution") of certain amounts commonly called Reed Act funds, to the States when the balances in certain accounts in the Unemployment Trust Fund reach the ceiling levels specified in Title IX, SSA. Section 903(a)(2), SSA, provides the formula for allocating Reed Act funds to the States. Prior to amendment this formula provided that each State's share of the Reed Act funds to be transferred was based on a ratio relating to State taxable wages as defined in that section. Section 5021 of the OBRA 90 amended section 903(a)(2), SSA, to provide that future Reed Act distributions will be based on Federal taxable wages instead of State taxable wages.

2. Prior to amendment, Section 903(c)(2)(A), SSA, required the Secretary of Labor to determine the amount to be transferred to the States "on the basis of reports furnished by the States to the Secretary of Labor before September 1." Because the determination of the amount to be transferred is no longer based on the State's taxable wage base, there is no need for States to furnish these reports. Accordingly, section 5021(a) of the OBRA 90 amended section 903(a)(2)(A) to delete reference to State reports.

3. Prior to the amendment to section 903(c)(2), SSA, Reed Act funds transferred to the States were available for obligation for specified administrative purposes only within a limited number of years (specified in section 903(c)(2)(D), SSA) from the date of the transfer. Depending on the State's 12-month period for Reed Act purposes, this period has varied from slightly more than 34 years up to 35 years. As a result of this "35-year limitation," authority to obligate Reed Act funds transferred in 1956 has expired in some States and is due to expire in all States by June 30, 1991. Section 5021, OBRA 90, amended Section 903(c)(2)(D) to remove the 35-year limitation on the obligation of Reed Act funds, effective October 1, 1991.

Section 5021(c), OBRA 90, sets the effective date of the amendments in subsections (a) and (b) of Section 5021 as applying to fiscal years beginning after the date of enactment of OBRA 90. Consistent with the use of the term "fiscal year" elsewhere in Section 903, SSA, "fiscal year" means the Federal fiscal year beginning October 1. OBRA 90 was enacted on November 5, 1990, and the first Federal fiscal year beginning after this date begins on October 1, 1991. Therefore, the effective date for the amendments to sections 903(a) and 903(c) is October 1, 1991. As a result of this effective date, all States will experience a "gap" between the expiration of the 35-year period and October 1, 1991, during which Reed Act funds transferred in 1956 may not be obligated for any administrative purpose, and some States will also experience a similar "gap" with respect to obligation of Reed Act funds transferred in 1957.

States using 12-month periods beginning on October 1 (for purposes of accounting for Reed Act obligations) lost the authority to obligate Reed Act funds transferred in 1956 as of September 30, 1990. States using 12-month periods beginning on January 1 lost the authority to obligate such Reed Act funds as of December 31, 1990, and States using 12-month periods that begin on July 1 will lose such authority to use such funds on June 30, 1991. Similarly, any State using 12-month periods beginning of September 1, lost the authority to obligate Reed Act funds transferred in 1956 as of August 31, 1990, and will also lose the authority to obligate Reed Act funds transferred in 1957 as of August 31, 1991. The States' authority to obligate Reed Act funds transferred in 1956 and 1957 will be restored upon the amendments made by section 5021, OBRA 90, becoming effective on October 1, 1991.

Although the 35-year limitation will expire as of September 30, 1991, section 903(c)(2)(D)(i) will continue to limit the amount of Reed Act funds which may be obligated at any time. In effect, a State may not obligate an amount in excess of the amount that equals the difference between the total amount transferred to the State under section 903 and amounts previously used and charged against transferred amounts. Thus, in regard to calculating the amount available for obligation at any time, there is no substantive change from prior law. However, new Section 903(c)(2)(D)(ii) expresses a charging rule that is merely implicit in the last sentence of present section 903(c)(2). Thus, clause (ii) specifies that (in determining the amounts available for obligation) amounts used by a State for administration shall be chargeable against the transferred amounts "at the exact time the obligation was entered into." Therefore, at no time may a State enter into an obligation of Reed Act funds in an amount which exceeds the amount of unused Reed Act funds then standing to the credit of the State in the Unemployment Trust Fund at the exact time any such obligation is entered into.

4. Section 5021, OBRA 90, added a new subparagraph (E) to section 903(c)(2), SSA, which requires that the use of Reed Act funds be accounted for in accordance with standards established by the Secretary of Labor. We will provide more information regarding the Secretary's accounting standards in the future. In the meantime, those accounting rules set forth in Section 3040 of Part IV of the Employment Security Manual shall continue to be followed.

C. *Amendments to State Law and Reed Act Appropriations.*

1. A State which desires to take advantage of the removal of the 35-year time limit made by section 5021 of OBRA 90 should amend the provision in its law authorizing the use of Reed Act money which may still be available. Otherwise, if the law retains the previous 35-year limitation, the law will conflict with any appropriation act which correctly refers to the new language included in OBRA 90 and will raise issues under Federal law. These amendments should be made effective no earlier than October 1, 1991.

2. In the past we have found that some States enacting Reed Act appropriation bills have not included all of the requirements contained in section 903(c)(2) of the Social Security Act. In doing so, these States have raised issues as to the consistency of such bills with those requirements. To help prevent such issues from arising in the future, we are including two draft appropriation bills in Attachment II which include all of the provisions necessary to satisfy the requirements of section 903(c)(2) of the Social Security Act for Reed Act appropriations authorizing the obligation of money on and after October 1, 1991. We strongly urge that States make use of these draft bills.

3. Reed Act appropriation acts which authorize obligation prior to October 1, 1991, must continue to contain the 35-year limitation. For these appropriations, States should use the recommended Reed Act appropriation language found in Attachment III to UIPL 4–83. States wishing to regain authority to obligate Reed Act funds immediately on October 1, 1991, without enacting a new appropriations act, should add a sentence to the section containing the 35-year limitation. This sentence should state that the 35-year limitation is not in force, effective October 1, 1991.

For example, a State wishes to appropriate and obligate $300,000 of Reed Act funds, $100,000 of which was transferred in 1956. This State has a fiscal year beginning July 1. Therefore, the authority to obligate 1956 Reed Act money expires June 30, 1991. The State may appropriate the entire $300,000, but, due to the 35-year limitation, the State may not obligate the $100,000 transferred in 1956 after June 30, 1991. However, if the appropriation law limits the applicability of the 35-year requirement to the period ending September 30, 1991, the $100,000 in 1956 Reed Act money previously appropriated will again become available for obligation on October 1, 1991.

D. *Effective Date.* Under section 5021(c) of OBRA 90, the amendments made by section 5021 apply to fiscal years beginning after the date of enactment. In other words, as discussed above in Section B.2., these amendments will be effective October 1, 1991. Until then, the present law, including the 35-year limitation on obligation, will remain in effect.

II. Section 11333. *Amendments to Section 3301, FUTA.*

A. *Text of Amendment.*

SEC. 11333. EXTENSION OF FUTA SURTAX

(a) IN GENERAL.—Section 3301 (relating to rate of FUTA tax) is amended—

(1) by striking "1988, 1989, and 1990" in paragraph (1) and inserting "1988 through 1998", and

(2) by striking "1991" in paragraph (2) and inserting "1998".

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to wages paid after December 31, 1990.

B. *Discussion.* Section 3301, FUTA was amended by section 11333(a) of OBRA 90 to extend the 0.2 percent temporary tax through December 31, 1998. However, in extending the 0.2 percent temporary tax, Congress did not extend section 901(g), SSA, which established special rules for calendar years 1988, 1989, and 1990, for the distribution of the amount equal to the amount raised by the 0.2 percent temporary tax.

OBRA 90 did not extend section 901(g)(1) of the Social Security Act which governed the transfer from the Employment Security Administration Account (ESAA) of an amount equal to the 0.2 percent temporary tax for calendar years 1988, 1989, and 1990, with fifty (50) percent allocated to the Extended Unemployment Compensation Account (EUCA) and fifty (50) percent allocated to the Federal Unemployment Account (FUA). As a result of the expiration of Section 901(g), SSA, there will be no special distribution of the amount equal to the revenue generated by the 0.2 percent temporary tax on wages paid after December 31, 1990. As to wages paid after December 31, 1990, therefore, distributions of the amounts appropriated to the ESAA under section 901(b)(1), SSA, will be as provided in Title IX, SSA, without consideration of the special rules in section 901(g). Of the amount equal to the net tax of 0.8 percent, which is appropriated under section 901(b)(1) and transferred to the ESAA under section 901(b)(2) (less repayments under section 901(b)(3)), ten (10) percent of such amount is transferred from time to time from the ESAA to the EUCA in accordance with section 905(b)(1), SSA. There is no other distribution of the amount of the net 0.8 percent which is appropriated and transferred to the ESAA.

C *Effective Date.* The amendments made by section 11333(a) shall apply to wages paid after December 31, 1990.

D. *Implementation.* The Internal Revenue Service is responsible for collecting the temporary tax.

III. Section 11403. *Amendments to Section 127 of the Internal Revenue Code of 1986 and Section 7101 of the Revenue Reconciliation Act of 1989 (P.L. 101–239).*

A. *Text of Amendment.*

SEC. 11403. EMPLOYER-PROVIDED EDUCATIONAL ASSISTANCE.

(a) IN GENERAL.—Subsection (d) of section 127 (relating to educational assistance programs) is amended by striking "September 30, 1990" and inserting "December 31, 1991".

(b) REPEAL OF LIMITATION ON GRADUATE LEVEL ASSISTANCE.—Section 127(c)(1) is amended by striking the last sentence.

(c) CONFORMING AMENDMENT.—Subsection (a) of section 7101 of the Revenue Reconciliation Act of 1989 is amended by striking paragraph (2).

(d) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall apply to taxable years beginning after December 31, 1989.

(2) SUBSECTION (b).—The amendment made by subsection (b) shall apply to taxable years beginning after December 31, 1990.

B. *Discussion.* Section 3306(b)(13), FUTA, excludes from the definition of wages "any payment made, or benefit furnished, to or for the benefit of an employee if at the time of such payment or such furnishing it is reasonable to believe that the employee will be able to exclude such payment or benefit from income under section 127 * * * *" of the IRC. Prior to the amendments made by section 11403 of OBRA 90, Section 127, IRC, which excludes from gross income of the employee certain amounts paid, or expenses incurred, by the employer for educational assistance to the employee, did not apply to taxable years beginning after September 30, 1990.

Section 11403(a) of OBRA 90 amended section 127, IRC, to extend the exclusion from income of employer-provided educational assistance benefits through taxable years beginning before January 1, 1992 (effective for taxable years beginning after December 31, 1989). In addition, Section 11403(b) struck the last sentence of Section 127(c)(1), IRC, repealing the exclusion of graduate level assistance from the definition of educational assistance. Finally, section 11403(c) repealed section 7101(a)(2) of the Revenue Reconciliation Act of 1989 (Title VII of the Omnibus Budget Reconciliation Act of 1989), which provided that, for taxable years beginning in 1990, only those amounts paid prior to October 1, 1990 by the employer for educational assistance to the employee were to be taken into account in determining the amount excludable from the employee's income under section 127.

C. *Effective Dates.* The amendments made by subsections (a) and (c) of section 11403, OBRA 90, apply to taxable years beginning after December 31, 1989. The amendment made by subsection (b) of section 11403, repealing the provision on graduate level assistance, applies to taxable years beginning after December 31, 1990.

D. *Implemention.* Because the Internal Revenue Service has primary authority for interpreting IRC tax provisions, it will be responsible for interpreting and applying these amendments.

IV. Section 11404. *Amendment to Section 120 of the Internal Revenue Code of 1986 and Section 7102 of the Revenue Reconciliation Act of 1989 (P.L. 101–239).*

A. *Text of Amendment.*

SEC. 11404. GROUP LEGAL SERVICES PLANS:

(a) IN GENERAL.—Subsection (e) of section 120 (relating to amounts received under qualified group legal services plans) is amended by striking "September 30, 1990" and inserting "December 31, 1991".

(b) CONFORMING AMENDMENT.—Subsection (a) of section 7102 of the Revenue Reconciliation Act of 1989 is amended by striking paragraph (2).

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1989.

B. *Discussion.* Section 3306(b)(12), FUTA, excludes from the definition of wages "any contribution, payment, or service, provided by an employer which may be excluded from the gross income of an employee, his spouse, or his dependents, under the provisions of section 120, IRC, (relating to amounts received under qualified group legal services plans)." Prior to amendment, section 120, which excludes from an employee's gross income amounts contributed by an employer to a qualified group legal services plan for an employee or amounts reimbursed to an employee for legal services under such plan, did not apply to taxable years ending after September 30, 1990.

Section 1140(a) of OBRA 90 amended section 120, IRC, to extend the exclusion for employer-provided group legal services through taxable years beginning before January 1, 1992. In addition, section 11404(b) repealed Section 7102(a)(2) of OBRA 89 which provided that, for taxable years beginning in 1990, the exclusion is limited to "amounts paid before October 1, 1990, by the employer for coverage for the employee, his spouse, or his dependents under a qualified group legal services plan" for periods before October 1, 1990.

C. *Effective Date.* The amendments made by section 11404, OBRA 90, apply to taxable years beginning after December 31, 1989.

D. *Implementation.* Because the Internal Revenue Service has primary authority for interpreting IRC tax provisions, it will be responsible for interpreting and applying this amendment.

Attachment II to UIPL No. 12–91

Draft Language for State Laws

I. Draft Statutory Language.

States will need to amend their unemployment insurance laws if they currently address Reed Act appropriations. The following language will allow States to use either of the Reed Act appropriation alternatives provided below and should be effective no earlier than October 1, 1991. (This language is intended to replace Section 10(f) of the Draft Language provided with UIPLs 745 and 987.)

(f) *Money credited under Section 903 of the Social Security Act.*—

(1) Money credited to the account of this State in the Unemployment Trust Fund by the Secretary of the Treasury of the United States of America pursuant to Section 903 of the

VOL
56
ISS
125
JE
28
1991
UMI

Social Security Act may not be requisitioned from this State's account or used except for the payment of benefits and for the payment of expenses incurred for the administration of this Act. Such money may be requisitioned pursuant to Section [insert section referring to withdrawals from the Unemployment Trust Fund] for the payment of benefits. Such money may also be requisitioned and used for the payment of expenses incurred for the administration of this Act but only pursuant to a specific appropriation by the legislature and only if the expenses are incurred and the money is requisitioned after the enactment of an appropriation law which specifies the purpose(s) for which such money is appropriated and the amount(s) appropriated therefor. Such appropriation is subject to the following conditions:

(A) The period within which such money may be obligated is limited to a period ending not more that two years after the date of the enactment of the appropriation law; and

(B) The amount which may be obligated is limited to an amount which does not exceed the amount by which (i) the aggregate of the amounts transferred to the account of this State pursuant to Section 903 of the Social Security Act exceeds, (ii) the aggregate of the amounts used by this State pursuant to this Act and charged against the amounts transferred to the account of this State.

(2) For purposes of subsection (B), amounts obligated for administrative purposes pursuant to an appropriation shall be chargeable against transferred amounts at the exact time the obligation is entered into. The appropriation, obligation, and expenditure or other disposition of money appropriated under this subsection shall be accounted for in accordance with standards established by the United States Secretary of Labor.

(3) Money appropriated as provided herein for the payment of expenses of administration shall be requisitioned as needed for the payment of obligations incurred under such appropriation and, upon requisition, shall be deposited in the employment security administration fund from which such payments shall be made. Money so deposited shall, until expended, remain a part of the unemployment fund and, if it will not be expended, shall be returned promptly to the account of this State in the Unemployment Trust Fund.

II. Draft Appropriation Language.

Two suggested Reed Act appropriation bills are presented. Either bill may be used with the draft statutory language presented earlier. The first permits States with statutory Reed Act provisions to incorporate the requirements of section 903(c)(2) by simply referencing these statutory provisions. This approach may be better for States where the Reed Act appropriation may be contained in a larger appropriation act or where State appropriation law limits the content of any single appropriation bill. The second details the requirements of section 903(c)(2) and is similar to Reed Act appropriations recommended by this Department in the past.

Alternative 1.

APPROPRIATING MONEY FOR ERECTING A BUILDING FOR USE BY (Name of State employment security agency)

SEC. 1 There is hereby appropriated out of funds made available to this State under Section 903 of the Social Security Act, as amended, the sum of $_____, or so much thereof as may be necessary, to be used, under the direction of the [name of State employment security agency or the agency responsible for building construction] and subject to the requirements of Section [reference section of State code containing Reed Act provisions] of the State Code, for the purpose of acquiring land at [location] and erecting a building thereon for the use of [name of State employment security agency] and for such improvements, facilities, paving, landscaping, and fixed equipment [1] as may be required for its proper use and for operation by the [name of State employment security agency].

SEC. 2 Section 1 shall take effect and be in force from and after passage.

Alternative 2.

AN ACT APPROPRIATING MONEY FOR ERECTING A BUILDING FOR USE BY (Name of State employment security agency)

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF [Name of State]

SEC. 1 There is hereby appropriated out of funds made available to this State under section 903 of the Social Security Act, as amended, the sum of $_____, or so much thereof as may be necessary, to be used, under the direction of the [name of State employment security agency or the agency responsible for building construction], for the purpose of acquiring land at [location] and erecting a building thereon for the use of [name of State employment security agency] and for such improvements, facilities, paving, landscaping, and fixed equipment [1] as may be required for its proper use and for operation by the [name of State employment security agency].

SEC. 2 No part of the money hereby appropriated may be obligated after the expiration of the 2-year period beginning on the date of enactment [2] of this act.

SEC. 3 The amount obligated [3] pursuant to this act shall not exceed at any time the amount by which (a) the aggregate of the amounts transferred to the account of this State pursuant to Section 903 of the Social Security Act exceeds (b) the aggregate of the amounts obligated for administration and paid out for benefits and required by law to be charged against the amounts transferred to the account of this State.

SEC. 4 This Act shall take effect and be in force from and after passage.

[1] "Fixed equipment" refers to such things as central heating and/or air conditioning plant which becomes an integral part of the building and may be included in the cost of the building reimbursable out of granted funds. Personalty, such as furniture and other furnishings, should be specifically and separately authorized. Though costs of personalty may, of course, be met from Reed Act money, such costs are not reimbursable from granted funds.

[2] The Department of Labor recommends that the phrase "date of enactment" be used here, since section 903(c)(2)(B) of the Social Security Act requires that use of the appropriated money be limited to a 2-year period beginning with such date.

[3] Section 903(c)(2)(D) requires that this limitation be applied to money obligated, even though a State may choose to apply the 2-year limitation to expenditures.

Classification: UI/FUTA
Correspondence Symbol: TEURL
Date: March 6, 1991.

Directive: Unemployment Insurance Program Letter no. 14-91

To: All State Employment Security Agencies
From: Donald J. Kulick, Administrator for Regional Management
Subject: Amendment to section 3304(a)(14)(A), FUTA, Made by Section 162(e)(4) of P.L. 101-649, the Immigration Act of 1990

1. *Purpose.* To inform States of the amendment made to section 3304(a)(14)(A) of the Federal Unemployment Tax Act (FUTA) by section 162(e)(4) of P.L. 101-649.

References. Section 3304(a)(14)(A), FUTA; UIPL 1-88, dated October 23, 1986; UIPL 1-88, Change 1, dated February 19, 1988; sections 162(e)(14) and 161(a) of P.L. 101-649; Sections 201(b), 203(c)(3), and 203(h) of P.L. 96-212; and Sections 207 and 208 of the Immigration and Nationality Act.

3. *Background.* P.L. 101-649, the Immigration Act of 1990, was enacted into law on November 29, 1990. Section 162(e)(4) of P.L. 101-649 amends section 3304(a)(14)(A), FUTA, effective October 1, 1991.

Section 3304(a)(14)(A), FUTA, requires, as a condition for the Secretary of Labor's certification of a state to the Secretary of the Treasury, that the State law provide that:

compensation shall not be payable on the basis of services performed by all alien unless such alien is an individual who was lawfully admitted for permanent residence at the time such services were performed, was lawfully present for purposes of performing such services, or was permanently residing in the United States under color of law at the time such services were performed (including an alien who was lawfully present in the United States as a result of the application of the provisions of section 203(a)(7) or section 212(d)(5) of the Immigration and Nationality Act).

Section 162(e)(4) of P.L. 101-649 amended section 3304(a)(14)(A), FUTA, by striking "section 203(a)(7) or". This amendment takes effect on October 1, 1991 as provided in section 161(a) of P.L. 101-649.

4. *Discussion.* Prior to the amendment made by section 162(e)(4) of P.L. 101-649 becoming effective, section 3304(a)(14)(A), FUTA provides that the category of aliens "permanently residing in the United States under color of law" [PRUCOL] includes aliens lawfully present in the United States as a result of the application of section 203(a)(7) of the Immigration and Nationality Act (INA). Section 203(a)(7), INA, which related to conditional entrants, was repealed by section 203(c)(2) of the Refugee Act of 1980 (P.L. 96-212 and replaced under section 201(b) of the Refugee Act by the addition of sections 207 and 208 to the INA. Under section 203(h) of the Refugee Act, section 203(a)(7), INA, is applicable prior to April 1, 1980. In addition, Section 203(h) of the Refugee Act provides that, effective April 1, 1980, any reference in Federal law to section 203(a)(7), INA, is considered a reference to Sections 207 and 208, INA. Section 207 relates to refugees and Section 208 to asylees, both of which are, therefore, considered to be in PRUCOL status under section 3304(a)(14)(A), FUTA. See Unemployment Insurance Program Letters (UIPL) 1-88 and 1-88, Change 1.

Section 162(e)(4) of P.L. 101-649 amended section 3304(a)(14)(A), FUTA, to delete the reference to obsolete section 203(a)(7), INA. The amendment does not make any reference to refugee and asylees. Since PRUCOL status is no longer automatic for refugees and asylees, the Department of Labor's interpretation of the two-part test of section 3304(a)(14)(A) for determining PRUCOL status must be satisfied. Aliens granted refugee and asylee status will continue to be considered in PRUCOL status for the purpose of determination of eligibility for unemployment compensation because aliens in this status satisfy the Department's two-part test.

Under the two-part test, the alien must first be residing under "color of law." As stated in UIPL 1-88, Change 1, for an alien to be residing "under color of law," the Immigration and Naturalization Service (INS) must know of the alien's presence and must provide the alien with written assurance that enforcement of deportation is not planned. Second, to be "permanently residing", the INS must give the alien permission to remain in the U.S. for an indefinite period of time.

Specifically, in the case of refugees and asylees, the INS has affirmatively acted to grant status under the relevant provisions of the INA. The granting of such status in either case gives "color of law" to the alien's presence in the United States for an indefinite period of time. Therefore both groups of aliens are residing under "color of law" and are also "permanently residing" because they retain such status until revoked by the INS.

5. *Action required.* It is recommended that States delete any reference in State law to obsolete section 203(a)(7), INA. If Congress addes a new provision designated as section 203(a)(7) to the INA and aliens admitted under section are subsequently deemed by the Department of Labor not to have PRUCOL status, States will be required to delete reference to section 203(a)(7) from State law to assure consistency of State law with section 3304(a)(14)(A), FUTA. Please inform appropriate staff of the change in section 3304(a)(14)(A), FUTA, made by P.L. 101-649.

6. *Inquiries.* Please direct inquiries to the appropriate Regional Office.

NATIONAL COMMISSION ON MIGRANT EDUCATION

National Commission on Migrant Education; Meeting

ACTION: Notice of meeting.

SUMMARY: The National Commission on Migrant Education will hold its tenth meeting on July 16, 1991, for the purpose of holding a hearing. The Commission was established by Public Law 100-297, April 28, 1988.

Date, Time, and Place: Tuesday, July 16, 1991, 2 to 5:15 p.m. and 6:30 to 8:30 p.m., Starlight School, 225 Hammer Drive, Watsonville California 95076.

Status: Open—public hearing.

Agenda

2 to 5:15 p.m.: Scheduled testimony from recruiters, educators, health coordinators, and other concerned members of the migrant community.

6:30 to 7:35 p.m.: Scheduled testimony from parent involvement groups, parents, and students.

7:35 to 8:30 p.m.: Open for testimony from the public.

All testimony will be relevant to migrant education.

FOR FURTHER INFORMATION CONTACT: Elizabeth J. Skiles (301) 492-5336, National Commission on Migrant Education, 8120 Woodmont Avenue, Fifth Floor, Bethesda, Maryland 20814.

Linda Chavez,
Chairman.

BILLING CODE 6820-06-M

NATIONAL SCIENCE FOUNDATION

Materials Research Special Emphasis Panel; Meeting

In accordance with the Federal Advisory Committee Act (Public Law 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Materials Research.

Date: July 17, 1991.

Location: Princeton University, Princeton, New Jersey.

Time: 8 a.m.–5:30 p.m.

Type of Meeting: Closed.

Contact Person: Dr. Adriaan M. de Graaf, Deputy Division Director, Division of Materials Research, room 408, National Science Foundation, Washington, DC 20550 Telephone: (202) 357-9794.

Purpose of Meeting: To provide advice and recommendations concerning the support for the proposal, "An Ultra-Long (Quasistatic) 65 Telsa Pulsed Magnet".

Reason for Closing: The proposal being reviewed includes information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposal. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

Gail A. McHenry,
Acting Committee Management Officer.

[FR Doc. 91-15387 Filed 6-27-91; 8:45 am]
BILLING CODE 7555-01-M

Mechanical and Structural Systems Special Emphasis Panel; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Mechanical and Structural Systems.

Date: July 17–18, 1991.

Location: 1800 G Street, NW., Washington, DC.

Time: July 17th, 9 a.m.–5 p.m., July 18th, 1 p.m.–5 p.m.

Type of Meeting: Closed.

Contact Person: Dr. John B. Scalzi, Program Director, Structures and Building Systems Program, Room 1108, National Science Foundation, Washington, DC 20550, Telephone: (202) 357-9542.

Purpose of Meeting: To review unsolicited proposals for consideration of support.

Reason for Closing: The proposals being reviewed includes information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

Gail A. McHenry,
Acting Committee Management Officer.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-3070]

Louisiana Energy Services, L.P., Claiborne Enrichment Center; Intent to Prepare an Environmental Impact Statement and Conduct Scoping Process

1. Description of Proposed Activity

Louisiana Energy Services, L.P. (LES) has submitted an application, dated January 31, 1991, for a license to receive, possess, use, deliver, and transfer byproduct, source, and special nuclear material for its Claiborne Enrichment Center. The facility would be constructed near Homer, Louisiana, in Claiborne Parish, and would be used to enrich natural uranium hexafluoride to a maximum of 5 percent U-235 by the gas centrifuge process. A notice of receipt of application, availability of applicant's environmental report and other documents, consideration of issuance of license, hearing, and Commission order was published in the Federal Register on May 21, 1991 (56 FR 23310).

VOL 56 ISS 125 JE 28 1991 UMI

2. Environmental Report

LES has submitted an Environmental Report in accordance with the requirements specified in 10 CFR part 51 and pursuant to the National Environmental Policy Act of 1969. The Environmental Report, which discusses environmental considerations related to the construction and operation of the Claiborne Enrichment Center, is available for public inspection at the Commission's Public Document Room in the Gelman Building, 2120 L Street, NW., Washington, DC, and the Local Public Document Room at the Claiborne Parish Library, 901 Edgewood Drive, Homer, Louisiana 71040.

3. Environmental Impact Statement

Public Law 101–575 requires that the NRC prepare an Environmental Impact Statement (EIS) in connection with the licensing of a uranium enrichment plant, and that the EIS be prepared before the hearing on the application for a license is completed. Accordingly, the NRC will prepare an EIS on the construction and operation of the Claiborne Enrichment Center.

The NRC will first conduct a scoping process for the EIS, and as soon as practicable thereafter, prepare a draft EIS for agency and public comment. The draft EIS will be the subject of a separate notice in the **Federal Register**. After receipt and consideration of comments, the NRC will prepare a final EIS.

4. Scoping Process

The scoping process for the EIS will be used to: a. Define the scope of the proposed action which is to be the subject of the EIS.

b. Determine the scope of the EIS and identify the significant issues to be analyzed in depth.

c. Identify and eliminate from detailed study issues that are peripheral or are not significant.

d. Identify any environmental assessments and other environmental impact statements which are being or will be prepared that are related to but are not part of the scope of the EIS under consideration.

e. Identify other environmental review and consultation requirements related to the proposed action.

f. Indicate the relationship between the timing of the preparation of environmental analyses and the Commission's tentative planning and decision-making schedule.

g. Identify any cooperating agencies, and as appropriate, allocate assignments for preparation and schedules for completion of the EIS to the NRC and any cooperating agencies.

h. Describe the means by which the EIS will be prepared, including any contractor assistance to be used.

The NRC invites the following persons to participate in the scoping process: a. The applicant, Louisiana Energy Services, L.P.

b. Any person who has petitioned for leave to intervene or who has been admitted as a party in the proceeding on the license application.

c. Any other Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved or that is authorized to develop and enforce relevant environmental standards.

d. Affected State and local agencies, including those authorized to develop and enforce relevant environmental standards.

e. Any affected Indian tribe.

f. Any person who requests or has requested an opportunity to participate in the scoping process.

Participants may submit written comments on the scoping process for the EIS to Mr. Charles J. Haughney, Chief, Fuel Cycle Safety Branch, Division of Industrial and Medical Nuclear Safety, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Submittals of comments should be postmarked by August 14, 1991, to be considered in the scoping process.

Participation in the scoping process for the EIS does not entitle participants to become parties to the proceeding to which the EIS relates. Participation in the adjudicatory proceeding is governed by the procedures specified in 10 CFR 2.714 and 2.715, and in the aforementioned **Federal Register** notice (56 FR 23310).

5. Public Scoping Meeting

In the preparation of an EIS and in accordance with 10 CFR 51.26, the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to a proposed activity and to determine the scope of issues to be addressed in an EIS. The NRC has determined to hold a public scoping meeting as part of the scoping process for the Claiborne Enrichment Center EIS. This public scoping meeting will be held at the Homer High School cafeteria in Homer, Louisiana, on Tuesday, July 30, 1991, at 7 p.m. The meeting will include a briefing by Louisiana Energy Services on the proposed Claiborne Enrichment Center, a briefing by the NRC on the environmental review process and the proposed scope of the EIS, and the opportunity for interested agencies, organizations, and individuals to submit comments or suggestions on the environmental issues or proposed scope of the EIS. Persons may register to present oral comments by writing to Mr. Charles J. Haughney at the aforementioned address, or they may register at the meeting. Individual oral comments may be limited in time, depending on the number of persons who register. Comments presented at the meeting will be considered in the scoping process for the EIS.

6. Summary

At the conclusion of the scoping process, the NRC will prepare a concise summary of the determinations and conclusions reached, including the significant issues identified, and will send a copy of the summary to each participant in the scoping process.

Additional information about the proposed activity, the EIS, and the scoping process may be obtained from Dr. Edward Y.S. Shum, Fuel Cycle Safety Branch, Division of Industrial and Medical Nuclear Safety, U.S. Nuclear Regulatory Commission, Washington, DC 20555, or by telephone at (301) 492–0607.

Dated at Rockville, Maryland, this 21st day of June 1991.

For the Nuclear Regulatory Commission.

John T. Greeves,

Deputy Director Division of Industrial and Medical Nuclear Safety Office of Nuclear Material Safety and Safeguards.

[FR Doc. 91–15466 Filed 6–27–91; 8:45 am]

BILLING CODE 7590–01–M

[Docket No. 50–255]

Consumers Power Co. (Palisades Plant); Exemption

I

The Consumers Power Company, (the licensee) is the holder of Facility Operating License No. DPR–320, which authorizes operation of the Palisades Plant at a steady-state power level not in excess of 2530 megawatts thermal. The facility is a pressurized water reactor located at the licensee's site in Covert Township, Van Buren County, Michigan. The licensee provides, among other things, that it is subject to all rules, regulations, and orders of the Nuclear Regulatory Commission (the Commission) now or hereafter in effect.

II

On November 18, 1980, the Commission published a revised Section 10 CFR 50.48 and a new appendix R to

10 CFR part 50 regarding fire protection features of nuclear power plants (45 FR 76602). The revised § 50.48 and appendix R became effective on February 17, 1981. Section III of appendix R contains 15 subsections, lettered A through O, each of which specifies requirements for a particular aspect of the fire protection features at a nuclear power plant. One of these 15 subsections, III.G, is the subject of this exemption request. Specifically, subsection III.G.2.c and d provides that, "* * * where cables or equipment, including associated non-safety circuits that could prevent operation or cause maloperation due to hot shorts, open circuits, or shorts to ground, of redundant trains of systems necessary to achieve and maintain hot shutdown conditions are located within the same fire area * * * inside noninerted containments * * *, one of the following means of ensuring that one of the redundant trains is free of fire damage shall be provided:

d. Separation of cables and equipment and associated non-safety circuits of redundant trains by a horizontal distance of more than 20 feet with no intervening combustibles or fire hazards;"

III

Consumers Power Company's (CPCo) letter dated October 4, 1985, requested an exemption from the separation criteria of 10 CFR part 50, appendix R, section III.G.2.d, for the pressure and level transmitters in the Containment Air Room. Following staff review and deliberations with CPCo, the licensee submitted a January 11, 1989, letter proposing appendix R compliance for the Containment Air Room using post-fire safe shutdown methodology similar to that methodology which could be used after a Main Steam Line Break (MSLB) inside containment. If used as an appendix R compliance strategy, this methodology would have required exemptions from two other appendix R criteria (III.G.3 and III.L.2).

After further review, the staff determined that neither the October 4, 1985, nor the January 11, 1989, exemption request contained enough substantiation to allow an exemption. CPCo then decided to install fixed suppression to bring the area into compliance with section III.G.2, committing to install the suppression system during the 1990 Refueling Outage. During the engineering and design phase of the project, questions arose concerning the potential for the suppression system actuating during several postulated transients, resulting in the potential for large volumes of water being sprayed into the containment air room and draining to the containment sump. Intricate shutoff controls of the fire water system were evaluated, resulting in significantly higher project costs than previously estimated. Following extensive discussions between the licensee and the staff, it was decided that if CPCo further analyzed the effect of a fire using state-of-the-art methods and could conclude that a credible worst-case fire would not prevent post-fire safe shutdown, the staff would reevaluate CPCo's October 4, 1985, exemption request.

CPCo reanalyzed the effect of a Containment Air Room using methodology approved by the National Institute of Standards and Technology. This reanalysis was submitted to the staff by CPCo letter dated August 8, 1990, in support of the original request that the Containment Air Room redundant instrumentation be exempted from the minimum 20-Foot separation criteria of 10 CFR part 50, appendix R, section III.G.2. This request was made under the provisions of 10 CFR 50.12(a)(2)(ii) in that application of the requirements of appendix R, section III.G.2.d, is not necessary to achieve the underlying purpose of the rule when considering the particular design and circumstances of the Containment Air Room.

IV

The purpose of section III.G.2 to appendix R is to ensure that redundant components of a safety system, required to achieve and maintain post-fire hot shutdown, are protected in such a way that at least one such component will remain free of damage which could prevent the completion of the safety function. One such means of protecting these redundant safety components is provided for in section III.G.2.d, that is, separate the components by at least 20 feet without intervening combustibles or fire hazards. The following discussion summarizes Consumers Power Company's basis for an exemption from the requirements of section III.G.2d for the Containment Air Room.

Containment Air Room

The Containment Air room is an oddly shaped room on the lowest level of containment (590' elevation). The room has a 13½ foot high ceiling, extending up to 34 feet in the vicinity of the metal staircase in the northeast corner of the room. Total room volume is approximately 14,420 cubic feet. The walls, floor, and ceiling are constructed of poured reinforced concrete. There are two unrated, but substantial, steel doors in the room that lead to other areas of containment. The room is well ventilated by natural circulation supplemented by forced circulation. Fire protection equipment maintained operable in the room includes three smoke detectors which have automatic control room alarm functions, a fire hose at the top of the stairs, adjacent to the personnel air lock, and two fire extinguishers.

The room is essentially the containment electrical penetration room, which contains process monitoring instrumentation for the pressurizer and steam generators. The instruments of concern are located on the east wall opposite the 480V pressurizer heater load centers and are listed below:

Equipment Under Consideration

Steam Generator A Pressure (PT–0751 A, B, C, and D); Steam Generator "B" Pressure (PT–0752 A, B, C, and D), Steam Generator A Level (LT–0751 A, B, C, and D; LT–0757 A and B; LT–701; LT–702) Steam Generator B Level (LT–0752 A, B, C, and D; LT–0758 A and B; LT–703; LT–704) Pressurizer Level (LT–0101 A, B; LT–0102; LT–0103) Pressurizer Pressure (PT–0101 A, B; PT–0102 A, B, C, and D, PT–0104A and B; PT–0105 A and B).

The licensee's original exemption request, dated October 4, 1985, listed five additional instruments that were not discussed in the licensee's most recent evaluation of the effects of a worst case fire in the Containment Air Room. The staff discussed this discrepancy with the licensee. Pressurizer level instruments LT–0102 A, B, C, and D were removed by modification in 1987, leaving two sets of redundant indication: LT–0101 A and B, and LT–0102 and 0103. Also, according to the licensee, pressurizer level instrument LT–0105 should not have been referenced in the original submittal since it is a non-environmental qualified instrument used primarily for mid-loop indication and not necessary for safe shutdown.

Assumptions

Consumers Power Company fire protection engineers based their reanalysis of a Containment Air Room Fire on the following assumptions:

1. A cable tray fire is the only type of fire that needs to be considered for the following reasons:

Access to this area is severely limited during operations. Personnel entering containment dress and undress outside of containment. There are no step-off pads and no discarded anti-contamination clothing inside of containment during operation.

VOL 56 ISS 125 JE 28 1991 UMI

Everything is stored or discarded outside of containment when the plant is operating.

Strict administrative controls dictate that all loose material be removed from containment prior to start-up to prevent containment sump plugging and transient fires.

Since controls are in place to remove the risk of transient fires during operation and the only major fixed combustible is cable, a cable tray fire is the only fire that needs to be considered.

2. Fires that occur during plant operations are considered worst case since that is the time the instruments would be needed to safely shut down.

3. A worst-case fire involves the cables in one channel of cable trays only. By the use of cable tray fire stops and other protective features and controls, it can be assumed that one train of instrumentation circuits will be free of fire damage for anticipated fires inside containment. This position is documented in an appendix R exemption request dated July 23, 1985.

4. Narrow range (0–100%) steam generator level indication is sufficient for safe shutdown. This is acceptable because a loss-of-coolant accident (LOCA) or main steam line break (MSLB) is not considered to be occurring at the same time as a fire.

5. Level indication in one steam generator is sufficient for safe shutdown. (Again, because a LOCA or MSLB is not occurring simultaneously.)

The validity of these assumptions is discussed in section V.

Likelihood and Type of a Potential Fire

The licensee's fire protection engineers researched self-initiated cable tray fires and found that for #12 AWG cables currents of from 120 to 130 amperes were required to induce open flaming. In full-scale testing, the intense period of fire activity persisted for between 40 and 240 seconds after which rapid reduction to self-extinguishment of the fire was observed. In no case involving electrically initiated fire in rated low flame spread cables was propagation of the fire beyond the tray of fire origin observed.

In other tests conducted, locked rotor amperes (LRA) were applied to test cables to judge their impact on target cables. One of the design criteria for the test program was that the worst-case electrically induced fault would be on a motor feeder circuit, because the majority of large loads, and the more potentially damaging ones, are motor loads. The most credible worst-case fault would be the sustained application of LRA to the test cables. This type of fault was selected because it is a typical condition, it can be postulated as having an extended duration, and its magnitude is large enough to cause damage to the fault cable and adjacent cables. To select the test cable, typical plant cable feeder sizes were tabulated along with the corresponding maximum LRA for each feeder and the corresponding motor pigtail conductor size. Based on preliminary screening test data, a relationship was developed between LRA duration and fusing (open circuit) of the motor pigtail conductors. Using this relationship in conjunction with data obtained from the screening tests, the worst-case fault cable was selected and was used in the subsequent configuration tests. The selected worst-case cable was the cable with the highest temperature at the time its corresponding motor pigtails fused (open circuited).

The tests demonstrated that when ignition occurred, the fire never propagated to an adjacent target cable even when both were touching. The fires that occurred were self-extinguishing when the electrical fault was interrupted. The amount of smoke created by the overload was extremely dense and would be readily detected by the plant fire detection system.

Although, the most likely type of fire would be a small self-extinguishing fire that would generate a lot of smoke, CPCo personnel assumed a much worse fire for the purpose of analysis (one which would be most likely initiated by an external source). Using accepted heat release equations, the fire of analysis burns for fifteen minutes and generates 2674.1 KW of heat.

This fire of analysis represents over 68 feet of 12-inch wide cable tray with 50% fill. The assumed total volume of combustibles for this fire of analysis exceeds the volume of either right or left channel trays in the Containment Air Room. This is considered a worst-case fire. A slower burning fire is more likely, however, a slower fire would not produce as high a temperature as a faster fire.

The worst-case fire data was then used in a fire modeling program called Hazard I developed by the National Institute of Standards and Technology. Two models were run; the first placing the fire in the center of the Containment Air Room, the second, against a wall near the stairway at a height of 9.8 feet. The Hazard I model separates the air in the rooms into upper and lower thermal layers. In the main part of the room, equipment below elevation 601'4" will be in the cooler part of the room. In the stairway, equipment below elevation 607' will be in the cooler part of the room.

The majority of instruments in the Containment Air Room are environmentally qualified (EQ) and will be exposed to the lower thermal layers in the event of a fire in the room. (The four instruments not environmentally qualified will be discussed in section V.) Temperatures seen in the lower layers of a fire in the room and stairway (126 °F) are significantly lower than the temperature the EQ instruments are qualified for (408 °F). Therefore, the licensee maintains that the instruments will operate satisfactory in the event of a worst-case fire in the room.

Finally, after assuming the type and location of a worst-case fire in the Containment Air Room, the licensee assessed the impact this fire would have on instruments the operators would need to safely shut down the plant. Two instrument matrices were developed. The first lists right and left channel instruments, showing the distance between the redundant instrumentation. The second matrix shows instrument elevation relative to the hot thermal layer of gases that will be experienced in a worst-case fire. The licensee reviewed the effects of a fire initiating in either the right or left channel cable trays, and the resulting impact on redundant instrumentation in the room, and concluded that sufficient instrumentation is available to the operators to safely shut down the plant. The licensee's discussion of various fire scenarios has been incorporated in the staff's evaluation in the following section.

V

The staff has reviewed the information supplied by the licensee and has had numerous discussions with Consumers Power Company concerning the design and circumstances of the Containment Air Room. Additionally, staff personnel have toured the Containment Air Room on several occasions, noting instrument and cable tray locations and independently assessing the combustible loading in the room.

The staff agrees with the licensee's determination that a cable tray fire is the most probable fire considering the design of the room and the strict administrative controls preventing the local storage of loose combustibles. Written guidance in three procedures call for the removal of transient combustibles from safety-related areas such as the Containment Air Room. An Administrative Procedure on plant housekeeping requires a thorough containment inspection for unnecessary debris and material which could pose a

fire threat. Particular attention is drawn to the 590' level of containment (the Containment Air Room Level).

The staff also accepts the licensee's assumption that a worst-case fire involves one channel of cable trays during plant operation. A previous Appendix R exemption (dated July 23, 1985) recognizes the use of cable tray fire stops and other protective features, thereby assuming that one train of instrumentation circuits will be free of fire damage for anticipated fires in containment. Instrumentation in the Containment Air Room is necessary to safely shut down the plant. Therefore, a fire during plant operation is considered to be the worst case, even though transient combustible material control is much tighter during plant operation than in an outage situation where room access and maintenance (and, therefore, combustible material) would be more prevalent.

The likelihood of a fire in the Containment Air Room during operation is remote. External sources of ignition are unlikely due to:

1. The administrative controls covering combustible material in safety-related spaces, and

2. The controls over access to containment during operation (e.g., access is limited, material is discarded outside containment, and flammable liquids are not brought into containment).

Therefore, the staff concurs with the licensee that the most probable fire would be a self-initiated cable tray fire.

Consumers Power Company analyzed a cable tray fire that lasted for fifteen minutes and which consumed 11.4 cubic feet of cable. There are two cable trays present in the room. The right tray contains the larger total volume of cable at 7.62 cubic feet. The licensee, therefore, conservatively input a larger combustible loading into the fire model (approximately 150 percent of the combustible material present in the larger tray). Also, although a slower burning fire is considered more likely due to the nature of self-initiated cable tray fire scenarios, the licensee was conservative in assuming a relatively fast burning fire for the fire of analysis. A slower fire would not produce as high upper and lower room air temperatures as this model provided and, therefore, would not have as significant an impact on room instrumentation. This relatively fast burning fire is, therefore, considered the worst-case fire for the room.

The Hazard I model does not provide a totally realistic assessment of air temperatures in a room during a fire. The model basically separates the room into upper layer temperatures (Hot Gases) and lower layer temperatures (Cooler Gases). However, the model, (which is approved by the National Institute of Standards and Technology) is a useful tool in determining operability of instruments remaining in the "cool gas" region.

The lower layer height (cool gas region) starts at approximately the 601.5' elevation in the Containment Air Room and the 607' elevation in the adjoining stairway. These elevations correspond to approximately two feet below the ceiling elevation in the main room and seventeen feet below ceiling level in the stairway region. Lower layer air temperatures in both regions are calculated to be below 56 °C (132.8 °F) for the duration of the fire (as compared to upper layer air temperatures in the 400 °C range (approximately 750 °F)).

The licensee chose a location for the fire of analysis to be at a height of 9.8 feet in the center of the room. Staff review of drawings supplied by the licensee show the lower cable tray at a height of approximately 8.4 feet, or 1.4 feet below the assumed fire location. The licensee was questioned concerning this apparent non-conservative selection of fire location. Consumers Power Company responded that a fire location roughly corresponding to the actual cable tray locations was chosen. A value of 3 meters (9.8 feet) was selected simply because it was a round number. The Hazard I model was re-run using the more conservative fire height corresponding to the lower instrument tray. The reanalysis had minor affects on the thermal layer heights and temperatures. The upper layer region was expanded by five inches. This lowering of the Hot Gas region did not envelope additional instrumentation; the majority of instruments are still located approximately two feet below the upper layer Hot Gas region. Room air temperatures experienced a trade-off as fire locations was lowered. Upper air temperature decreased approximately 50 °F and lower air temperature increased 11 °F. This reanalysis, and its effect on fire parameters, is acceptable.

The safety-related instruments in the Containment Air Room were reviewed to verify adequate instrumentation would be available to safely shut down the plant. Not only was instrument elevation reviewed relative to the Hot Gas region, but also process tubing and cabling elevations. All but four of the thirty-eight instruments located in the room are EQ, which means they have been tested to operate properly in temperatures up to 408 °F. The temperatures calculated for the lower air layer are significantly lower than such accident scenario temperatures; therefore, it is appropriate to assume instrument operability for lower air layer instruments.

The licensee states that the four instruments which are not EQ are qualified for temperatures up to 160 °F. This rating, although much lower than the EQ rated instrumentation, still provides adequate margin to the highest temperatures seen in the lower air layer. Additionally, all instruments have steel noncombustible cases surrounding them, which to a certain degree act as radiant energy shields. All wiring is run in conduit from cable trays. The cases and conduit assist in blocking the radiant energy from the fire to the instrument of concern.

The following discussion addresses the operator's ability to safety shut down the plant with available instrumention in the case of either a right or left cable fire. Instruments that have conduit, process tubing, or the instruments themselves located in the "Hot Gas" region are, in general, not credited for operation.

Steam Generator Pressure

For a right channel cable tray fire, left channel steam generator pressure instruments are available for both steam generators (PT–0751C and PT–0752C).

For a left channel cable tray fire, PT–0751D and its cables are located in the hot layer. However, the corresponding instrument for Steam Generator B (PT–0752D) is not affected. Since steam generator pressure would be the same in both steam generators, PT–0752D can be used as sufficient indication for steam generator pressure.

Steam Generator Level

For a right channel cable tray fire, left channel steam generator level instruments are available for both steam generators (LT–0751C and LT–0752C). Wide range steam generator level is available using LT–0757A and LT–0758A.

For a left channel cable tray fire, the cables for LT–0751D are located in the hot layer. In addition, wide range steam generator level instruments LT–0757B and LT–0758B have cables that extend into the hot layer in the stairwell area.

Regarding the wide range steam generator level instruments, the licensee states that during normal shutdowns, steam generator levels do not usually go below the narrow range instrumentation. Therefore, shutdown can be accomplished without wide range steam generator level indication.

Regarding LT–0751D, the corresponding instrument for Steam Generator B, LT–0752D, located a

VOL 56 ISS 125 JE 28 1991 UMI

minimum of 15 feet from LT-0751D, is not affected by the fire. In addition, the operators have other indications as to the adequacy of the Steam Generator function; e.g., primary coolant temperatures, main steam flows, and feedwater flow.

Pressurizer Pressure

For a right channel cable tray fire, left channel wide range and narrow range pressurizer pressure instruments are available (PT-0104A and PT-0106A).

For a left channel cable tray fire, right channel wide range and narrow range pressurizer pressure instruments are available (PT-0104B and PT-0105B).

For a right channel cable tray fire, left channel pressurizer level instrument LT-0102 has instrument tubing that extends into the hot layer. There is a possibility that the water in the process tubing will flash to steam since the upper layer temperature is above the saturation temperature at this pressure. However, it is expected that the heat will be conducted away by the tubing during the short period of time the process tubing is exposed to the hot layer. This is based on several considerations:

1. Only a short section of the tubing (approximately 2 feet) is in the "Hot Gas" layer.

2. The section of tubing in the hot layer is mounted on the wall, thus its temperature will more closely approximate the wall temperature.

3. The tubing is only in the hot layer for approximately 1 minute.

4. The upper layer air temperature is only above saturation for a maximum of 200 seconds.

Even if some flashing would occur, it is expected that transmitter accuracy would recover after approximately one minute as the hot layer rises. In addition, LT-0101A is available to provide pressurizer level indication should LT-0102 fail.

For a left channel cable tray fire, right channel pressurizer level instrument LT-0103 has cables that extend into the hot layer. LT-0101B is available to provide pressurizer level indication should LT-0103 fail. This provides adequate information to safely shut down the plant.

A plant review and walkdown of the control room panels was conducted by the NRC staff to ensure that all instrumentation credited to be available for safely shutting down the plant is readily accessible by the operators. The results of this review were acceptable.

The licensee has shown that sufficient instrumentation is available to safely shut down. However, two issues were not addressed in the licensee's evaluation which have the potential to complicate a shutdown. Both of these issues were discussed with the licensee. First, the impact of having certain instruments out-of-service for maintenance was not addressed. It is possible, especially in the case of pressurizer level, to have a backup instrument (that is being relied on for indication in the event of a worst-case fire), out-of-service for maintenance. In such an instance, the operator would have to rely on secondary indications (e.g., charging flow, core exit thermocouples) to assist in assessing proper plant parameters. The licensee responded that the combination of Technical Specification Limiting Conditions for Operation, coupled with a high priority for returning control room indications to service, will result in a negligible probability that necessary instrumentation will not be available if needed. The staff reviewed the Technical Specification limits on removing instrumentation from service. Also, a review of the work order history for pressurizer level instruments LT-0101 A and B was conducted by the licensee for the time period from 1986 to present. No work orders were found indicating these instruments were inoperable during power operation. Additionally, the licensee does have an approved procedure for performing a safe shutdown in the event containment instrumentation is unreliable; Emergency Operating Procedure (EOP) 9.0, Functional Recovery. The NRC staff finds the licensee's response acceptable.

Secondly, the control room operator's ability to recognize and assess the effects of a fire in the Containment Air Room was not adequately addressed in that no procedural guidance is available. The staff reviewed the licensee's procedure entitled Fire Which Threatens Safety Related Equipment, ONP25.1, and found that it does not address a fire in the Containment Air Room. The licensee committed to address a Containment Air Room fire in both this procedure and Emergency Maintenance Procedure PFM-E-1, Emergency Post Fire Maintenance Guideline Repair Procedure in a Safe and Expedient Manner. These procedures were updated prior to start-up from the recent refueling outage. The NRC staff finds this acceptable.

VI.

Consumers Power Company has shown that based on the amount and type of combustibles, and type of ignition source, a fire in the Containment Air Room is extremely unlikely. If a fire were to occur it would most likely be a small self-extinguishing fire that would generate dense smoke. If a much larger fire were to occur, the licensee has analyzed for its effect on safety-related instrumentation in the room and shown that sufficient instruments would be operable to safely shut down the plant. The staff agrees with the licensee's determination and considers the Containment Air Room configuration, coupled with the administrative controls to minimize combustibles and provide procedural guidance to operators in case of fire, acceptable.

Accordingly, the Commission has determined pursuant to 10 CFR 50.12(a), that (1) this exemption as described in Section IV is authorized by law, will not present an undue risk to the public health and safety, and is consistent with the common defense and security, and (2) special circumstances are present for this exemption in that application of the regulation in this particular circumstance is not necessary to achieve the underlying purposes of appendix R to 10 CFR part 50. Specifically, the underlying purpose of appendix R, section III.G.2.d is to assure that a suitable complement of safe-shutdown equipment will be available, post-fire, to achieve and maintain hot shutdown of the reactor. The analysis of worst-case fire in the Containment Air Room indicates that instrumentation will be capable of performing their post-fire shutdown role without additional fire protection enhancements. Therefore, the Commission hereby grants the Exemption request identified in section IV. above.

Pursuant to 10 CFR 51.32, the Commission has determined that the granting of this Exemption will have no significant impact on the environment (55 FR 50063).

This exemption is effective upon issuance.

Dated at Rockville, Maryland this 21st day of June 1991.

For the Nuclear Regulatory Commission.

John A. Zwolinski,

Acting Director, Division of Reactor Projects III/IV/V, Office of Nuclear Reactor Regulation.

[FR Doc. 91-15407 Filed 6-27-91; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 50-272 and 50-311]

Public Service Electric & Gas Co., et al.; Consideration of Issuance of Amendment to Facility Operating License, Proposed no Significant Hazards Consideration Determination, and Opportunity for Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License Nos. DPR-70 and DPR-75 issued to Public Service Electric & Gas Company, Philadelphia Electric Company, Delmarva Power and Light Company and Atalantic City Electric Company (the licensees) for operation of Salem Nuclear Generating Station, Unit Nos. 1 and 2, located in Salem County, New Jersey.

The proposed amendments would revise Technical Specifications (TS) sections 5.3.1 and 5.6.3 by removing the current maximum U-235 enrichment limit. TS 5.6.1 would be revised to allow storage of Westinghouse Standard or Vantage 5H (V5H) fuel with a maximum enrichment limit of 4.55 weight percent (w/o) U-235 provided that the reference infinite multiplication factor (Kinf) for the fuel assemblies is less than or equal to 1.453 in unborated water at 68 degrees F, in core geometry. The uncertainty values contained in TS 5.6.1.a would be updated to include an uncertainty for Westinghouse Standard and V5H fuel assemblels containing Integral Fuel Burnable Absorber pins. This is in response to the licensees' application for amendment dated November 19, 1990 as supplemented April 1, 1991, May 20, 1991 and June 14, 1991. This was previously noticed on June 12, 1991 (56 FR 27047). This notice supersedes the previous notice in its entirety.

Before issuance of the proposed license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

The Commission has made a proposed determination that the request for amendment involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety.

As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Involve a significant increase in the probability or consequences of an accident previously analyzed. Because of the conservative methods and assumptions used to evaluate the maximum possible assembly multiplication factor, there is more than reasonable assurance that no significant hazard based on critcality safety is invovled in storing fuel assemblies with enrichments of up to 4.55 w/o U-235, with sufficient IFBAs [Integral Fuel Burnable Assembly], in the spent fuel storage racks under both normal and postulated accident conditions. The calculations used to determine the minimum number of IFBA rods required as a function of enrichment assured an assembly Kinf less than or equal to that of a fresh 4.05 w/o U-235 assembly with no IFBA under 0 ppm soluble boron conditions. The criticality accidents for 4.05 w/o U-235 fuel have been analyzed previously and there will be no increase in assembly Kinf.

Additionally, evaluations of reload core designs (using any enrichment) will be performed on a cycle by cycle basis as part of the Reload Safety Evaluation (RSE) process to ensure that the reactor operation is consistent with the current safety analysis. Therefore, there is no increase in the probability or consequences of any accident previously analyzed.

2. Create the possibility of a new or different kind of accident. The increase in enrichment to 4.55 w/o U-235 involved the performance of evalautions to envelope the corresponding changes in reactivity. Use of the reactivity equivalencing procedures ensures that the spend fuel pool criticality limits are not exceeded. Additionally, there are no proposed changes to the spent fuel rack geometry. (Therefore, the changes do not create the possibility of a new or different kind of accident from any previously evaluated.)

3. Involve a significant reduction in a margin of safety. As discussed above, for worst case assumptions the assembly Kinf values for a maximum enrichment of 4.55 w/o U-235, with a sufficient number of IFBA rods do not exceed thsoe for the previously analyzed 4.05 w/o U-235. Therefore there are no reductions in any margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination. The Commission will not normally make a final determination unless it receives a request for a hearing.

Written comments may be submitted by mail to the Regulatory Publications Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and should cite the publication date and page number of this Federal Register notice. Written comments may also be delivered to Room P-223, Phillips Building, 7920 Norfolk Avenue, Bethesda, Maryland, from 7:30 a.m. to 4:15 p.m. Copies of written comments received may be examined at the NRC Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555. The filing of requests for hearing and petitions for leave to intervene is discussed below.

By July 29, 1991, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written petition for leave to intervene. Request for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's Rules of practice for Domestic Licensing Proceedings in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.714 which is available at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555 and at the Local Public Document Room located at the Salem Free Public Library, 112 West Broadway, Salem, New Jersey 08079. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the

VOL 56 ISS 125 JE 28 1991 UMI

Board up to fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held.

If the final determination is that the request for amendment involves no significant hazards consideration, the Commission may issue the amendment and make it effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If a final determination is that the amendment involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

Normally, the Commission will not issue the amendment until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendment before the expiration of the 30-day notice period, provided that its final determination is that the amendment involves no significant hazards consideration. The final determination will consider all public and State comments received. Should the Commission take this action, it will publish a notice of issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to take this action will occur very infrequently.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555, by the above date. Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at 1-(800) 325-6000 (in Missouri 1-(800) 342-6700). The Western Union operator should be given Datagram Identification Number 3737 and the following message addressed to Walter R. Butler: (petitioner's name and telephone number), (date petition was mailed), (plant name), and (publication date and page number of this Federal Register notice). A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to Mark J. Wetterhahn, Esquire, Winston and Strawn, 1400 L Street NW., Washington, DC, 20005-3502, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

For further details with respect to this action, see the application for amendment dated November 19, 1990, as supplemented April 1, 1991, May 20, 1991 and June 14, 1991, which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555 and at the Local Public Document Room located at Salem Free Public Library, 112 West Broadway, Salem, New Jersey 08079.

Dated at Rockville, Maryland, this 25th day of June 1991.

James C. Stone,

Project Manager, Project Directorate I-2 Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

OFFICE OF PERSONNEL MANAGEMENT

Proposed Information Collection Submitted to OMB for Expedited Clearance

AGENCY: Office of Personnel Management.

ACTION: Notice of proposed information collection.

SUMMARY: In accordance with the Paperwork Reduction Act of 1980, (chapter 35 of title 44, United States Code), this notice announces a request submitted by the Office of Personnel Management (OPM) to the Office of Management and Budget (OMB) for expedited clearance of two new information collections: Nonforeign Area Cost-of-Living Allowance Background Survey and Nonforeign Area Cost-of-Living Allowance Price Survey. These information collections will be used for annual living cost surveys and for background surveys that will be conducted approximately once every 5 years to evaluate the program. Selected retail, service, realty, and other businesses and local governments will be surveyed in nonforeign allowance areas and in the Washington, DC, area to obtain living cost data. OPM will use these data to develop cost-of-living allowances as authorized by section 5941 of title 5, United States Code. Approximately 300 establishments will be contacted in the background survey, and approximately 5,600 establishments will be contacted in the price survey. OPM estimates that the average background survey interview will take approximately 10 minutes, for a total burden of 50 hours. The average price survey interview will take approximately 7 minutes, for a total burden of 650 hours. A copy of this proposal is reproduced below.

OPM is requesting that OMB approve these information collections within 14 days after the date of publication in the Federal Register.

DATES: Comments on this proposal should be received on or before July 8, 1991.

ADDRESSES: Send or deliver comments to:

Phyllis G. Foley, Chief, Wage Systems Division, U.S. Office of Personnel Management, room 7H30, 1900 E Street, NW., Washington, DC 20415,

and

Joseph Lackey, OPM Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, room 3002, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Phyllis G. Foley (202) 606-2848.

U.S. Office of Personnel Management.

Constance Berry Newman,

Director.

BILLING CODE 6325-01-C

Nonforeign Area Cost-of-Living Allowances Background Survey Data Collection Procedures—Survey Description

The following information will be provided to the participants verbally or in writing. Participants who are familiar with the program and the survey may be provided with less information as appropriate.

Purpose

The Federal Government pays Cost-Of-Living-Allowances (COLA) in Alaska, Hawaii, and certain U.S. territories and possessions. Living cost differences are determined by comparing cost of goods, services, housing, transportation, and other items in the allowance area with the cost of the same or similar items and services in the Washington, DC, area. The U.S. Office of Personnel Management (OPM) is responsible for the operation of the COLA program. OPM, or its representative, conducts annual surveys to determine living cost differences. OPM conducts fullscale Background Surveys approximately once every five years to review the appropriateness of items, services, and businesses covered in the annual Price surveys. Elements of the Background Survey may be repeated annually on a limited basis as part of the maintenance of and preparation for the annual Price Surveys.

OPM uses the Background Survey to identify the services, items, quantities, outlets, and locations that will be surveyed to collect living cost data within the allowance areas and the Washington, DC, area. The Background Survey also is used to collect information on local trade practices, consumer buying patterns, taxes and fees, and other economic characteristics related to living costs.

Data Collection

Full-scale Background Surveys are conducted approximately once every five years. OPM identifies major manufacturers, local governments, retail outlets, realty firms, and businesses providing professional services to be surveyed on the basis of business volume and local prominence. Participation is voluntary. Data are collected by telephone and/or personal interview.

Confidentiality

All data collected are used only for the purposes described above. The Government pledges to hold all micro or raw data collected in confidence. Names of participating businesses and institutions may be released. Names of individuals are not released. Summary data will be made available to the public only to the extent that micro data cannot be associated with data sources.

Public Burden Information

Public burden reporting for this collection of information is estimated to vary from 5 minutes to 30 minutes per response. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestion for reducing this burden to Reports and Forms Management Officer, U.S. Office of Pesonnel Management, 1900 E Street NW., room CHP 500, Washington, DC, 20415; and to the Office of Management and Budget, Paperwork Reduction Project (3206-xxxx), Washington, DC, 20503.

Nonforeign Area Cost-of-Living Allowances Background Survey Data Collection Procedures—Interview Guidelines

Seven types of information are collected in background surveys. Information is collected on products and services, outlet availability and usage, transportation, local taxes and fees, mortgage, real estate, and other topics related to the measurement of living costs (e.g., specialized information from local chambers of commerce, colleges, and universities). The following are the typical interview questions used to collect these data.

Product or Service Information

1. As a major manufacturer/supplier of _____ (a specific product or service, e.g., women's apparel), please identify your items/services that are most popular (e.g., your 'volume sellers').

2. Which of these items are apt to be readily available in the following geographic locations: Alaska (i.e., Anchorage, Fairbanks, and Juneau); Hawaii; Guam; Puerto Rico; the Virgin Islands; and Washington, DC, and suburbs?

3. If the items or services are not universally available, are there other items or services that are of similar function, quality, quantity, size, and type that can be substituted?

4. Is there anything else we should know about your product or service? Are there recommendations you wish to make that would help us in our data collection?

Outlet Availability and Usage (Retail)

1. What is your product or service? What is the address(es) of your establishment(s)? If you have multiple locations, which locations have the greatest sales volumes (i.e., are most utilized by consumers)?

2. What are your store/office hours? Do these vary by location?

3. Is your full line of products or services available at all locations?

4. Is there anything else we should know about your outlet(s) or recommendations you wish to make?

Transportation Information—Private and Public Services

1. What type of transportation services do you provide (e.g., taxi, bus, subway)?

2. What geographic areas do you service? Which routes are 'typical' or most heavily utilized?

3. What is your rate structure? Does it vary by time of day or season?

4. Is there anything else we should know about transportation usage and services in your area? Are there recommendations you wish to make about our data collection?

Transportation Information—Private Use and Maintenance

1. What types of driving are most common in your area? What is the annual distance driven?

2. What types roads and highways are common in your area? What are the road surfaces and conditions?

3. Are there unusual climatic or other factors that affect the fuel economy, maintenance, and depreciation of vehicles?

4. Is there anything else we should know about private transportation usage and maintenance in your area? Are there suggestions or recommendations you wish to make?

Local Taxes and Fees

1. What types of taxes, licenses, or fees does your State, territory, or local jurisdiction levy on real estate; personal property; sales (including sales of property); automobiles; utilities; or other goods, services, or transactions?

2. Who levies these taxes, licenses or fees (i.e., State, territory, county, city, other jurisdiction)?

3. What are the rates or schedules for these? How often and when are they levied? Do the rates/schedules vary by location, season, or other factors?

4. Is there anything else we should know about taxes and fees in your area? Are there suggestions or recommendations you wish to make?

Mortgage Information

1. What forms of home financing are most common in _____ (the allowance area or Washington DC metropolitan area)? (Do not include second mortgages.)

VOL
56
ISS
125
JE
28
1991
UMI

2. What are the typical conditions and limitations on loans?

3. What is the typical amount(s) of down payment required? What are the terms and rates?

4. Are there special subsidies or other practices that influence home financing in your area?

5. Looking back 6 years, what types of changes have occurred that affect home financing?

6. Is there anything else we should know about the housing market in your area? Are there suggestions or recommendations you wish to make that would help us in our data collection?

Real Estate Information

1. What is the availability of housing in _____ (the allowance area or Washington DC metropolitan area)? Of principal interest is housing for typical salary and wage earners (as distinguished from retirees, tourists, or other special groups) for persons with low, moderate, and high incomes.

2. Describe the communities within your area in which persons _____ (specify occupation/income characteristics) typically live. If appropriate, identify separate communities for renters and home owners. Where are these communities located relative to the major Federal activities in the area?

3. Describe the type of housing (e.g., apartment, condominium, town house, detached house).

4. For each type of housing, what are the usual number of rooms, bedrooms, baths, total square footage, lot size, type of construction, and similar characteristics?

5. What types of utilities are available and typically used in these communities: sewer, water, natural gas, electricity, other?

6. Are there any unusual factors that might affect maintenance requirements in your area?

7. Looking back 6 years, describe the changes that significantly affected the housing market (both rental and owner markets).

8. Is there anything else we should know about the housing market in your area? Are there suggestions or recommendations you wish to make that would help us in our data collection?

Other Types of Information

Occasionally, it is necessary to collect information from colleges, universities, chambers of commerce, trade associations, and other groups on specific subjects relating to the analysis of living costs. For example, a university known to be involved in home energy research may be contacted to determine whether there are consumption data by region or allowance area that could have application in the COLA program.

When such data are collected, the purpose and basic structure of the interview will follow the patterns shown above. The substance, however, will vary with the subject matter.

Nonforeign Area Cost-of-Living Allowances Price Survey Data Collection Procedures—Survey Description

The following information will be provided to the participants verbally or in writing. Participants who are familiar with the program and the survey may be provided with less information as appropriate.

urpose

The Federal Government pays Cost-of-Living Allowances (COLA) in Alaska, Hawaii, and certain U.S. territories and possessions. Living cost differences are determined by comparing costs of goods, services, housing, transportation, and other items in the allowance area with the cost of the same or similar items and services in the Washington DC area. The U.S. Office of Personnel Management (OPM) is responsible for the operation of the COLA program.

Data Collection

OPM, or its representatives, conducts annual Price Surveys to determine living cost differences. Local governments, retail outlets, realty firms, and businesses providing professional and other services to be surveyed are identified through the use of full-scale Background Surveys, conducted approximately once every five years. Participation in the Price Surveys is voluntary. Data are collected by telephone and/or personal interview.

Wherever practical and appropriate, the price of each good or service is obtained from at least three outlets in each allowance area and at least six outlets in the reference area (i.e., the Washington, DC, area). Realty data may be obtained from one or multiple sources, as appropriate.

Confidentiality

All data collected are used only for the purposes described above. The Government pledges to hold all micro or raw data collected in confidence. Names of participating businesses and institutions may be released. Names of individuals are not released. Summary data will be made available to the public only to the extent that micro data cannot be associated with data sources.

Public Burden Information

Public burden reporting for this collection of information is estimated to vary from 1 to 20 minutes per response. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestion for reducing this burden to Reports and Forms Management Officer, U.S. Office of Personnel Management, 1900 E Street, NW., room 6410, Washington, DC, 20415; and to the Office of Management and Budget, Paperwork Reduction Project (3206-xxxx), Washington, DC, 20503.

Nonforeign Area Cost-of-Living Allowances Price Survey Data Collection Procedures—Interview Guidelines

Three types of information are collected in price surveys: price of goods and services, rental prices and related information, and home owner prices and related information. The following are the typical interview questions used to collect these data.

Price Information Collection

1. What is the regular (non-sale) price of _____ (a specific item or service)?

Examples of items include, but are not limited to:

Chuck Roast, Bone In.
- Price per pound. Average size package (e.g., not a 'family' or 'bonus' pack).
- 1st Choice: Arm pot roast.
- 2nd Choice: Eye roast.

Peas, Frozen.
- Price for 10 ounce package.
- 1st Choice: Bird's Eye
- 2nd Choice: Major brand of equivalent quality.

Men's Jeans.
- Price for one pair of blue jeans.
- 1st Choice: Levi's # 501 jeans.
- 2nd Choice: Equivalent quality jeans.

Automobile, New.
- 'Sticker' price of current year model Honda Civic DX, four door sedan, 1.5 liter, four cylinder engine (Price options, fees, financing, and taxes separately.)

Example of services include, but are not limited to:

Restaurant Service.
- Price of seafood platter—mixed seafood (e.g., not 'steak and lobster' or 'crab leg' platter). If salad and side dish not included with entree, price house salad and baked potato or order of french fries. Include price of coffee, tax, and 15 percent tip.

Film Developing.
- Price to process and print 35 millimeter, 24 exposure, 100 ASA color roll film. Single prints only, standard size and finish.

Doctor, Office Visit.
- Typical fee, after the initial visit, for an office visit when medical advice or simple treatment is all that is needed. Do not include the charge for a complete physical examination, injections, medication, laboratory tests, or similar services.

Oil Change.
- Price of a regular oil change including oil and filter for a current year model Honda Civic DX sedan, 1.5 liter, 4 cylinder engine.

2. Prices of many of the items can be obtained "off-the-shelf" without assistance. Occasionally, when a specific item is not available, assistance from sales or other personnel may be required to identify and price substitution items of comparable quality and quantity.

3. Prices of cost services are obtained by telephone or personal interview. A few services are priced with little or no assistance. For example prices may be obtainable from a displayed price schedule, list, and menu.

Housing Component—Rental Information Collection

1. Describe the location, size, layout, number and types or rooms, and square footage of your rental units.

2. Are they apartments, duplexes, town houses, detached houses, or other types of units? Describe.

3. Are there additional amenities (e.g., pool, sauna, tennis courts, gym)? If so, describe.

4. What is the monthly rent? What is the amount of the security deposit (if any)? What other kinds of fees or assessments are there?

5. Are utilities included? Which ones? If you can, please provide information on average monthly or annual costs of utilities paid by tenants.

6. Are term leases usually required? What are the conditions and penalties associated with the lease?

7. Are there any special restrictions or other factors we should know about (e.g., seasonal tourist trade)?

Housing Component—Information Collection for Comparable Sales

1. Describe the location, size, layout, number and types or rooms, and square footage of some your recent home sales.

2. Were they condominiums, duplexes, town houses, detached houses, or other types of dwellings? Describe.

3. Were there any atypical characteristics (e.g., extra large lot sizes, beach front, desirable/undesirable locations)?

4. Are there additional amenities provided by the developer, homeowners association, or similar community group (e.g., pool, sauna, tennis courts, gym)? If so, describe facilities and charges.

5. What was the selling price and date of sale?

6. What are the real estate taxes?

7. Do you have any data on utilities relating to these homes?

8. In the past year or so, what has been the average appreciation rate of property in this community? Looking back over the past six years, has this rate changed? How?

9. Describe current market conditions (e.g., soft, booming, so-so). How has this affected housing prices? Describe the housing market over the past six years.

10. Are there any special considerations or other factors we should know about (e.g., retirement/tourist trade) that might affect the housing market in this community?

DEPARTMENT OF TRANSPORTATION

Aviation Proceedings; Agreements filed during the Week Ended June 21, 1991

The following agreements were filed with the Department of Transportation under the provisions of 49 U.S.C. 412 and 414. Answers may be filed within 21 days of date of filing.

Docket Number: 47609.
Date filed: June 21, 1991.
Parties: Members of the International Air Transport Association.
Subject: MV/PSC/076 dated May 2, 1991; MV S053 (Reso 740—Interline baggage tag).
Proposed Effective Date: August 1, 1991.

Phyllis T. Kaylor,
Chief, Documentary Service Division.

BILLING CODE 4910-62-M

Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits Filed Under Subpart Q During the Week Ended June 21, 1991

The following applications for certificates of public convenience and necessity and foreign air carrier permits were filed under subpart Q of the Department of Transportation's Procedural Regulations (See 14 CFR 302.1701 *et seq.*). The due date for answers, conforming application, or motion to modify scope are set forth below for each application. Following the answer period DOT may process the application by expedited procedures. Such procedures may consist of the adoption of a show-cause order, a tentative order, or in appropriate cases a final order without further proceedings.

Docket Number: 47603
Date filed: June 18, 1991.
Due Date for Answers, Conforming Applications, or Motion to Modify Scope: July 16, 1991.
Description: Application of Air Outre Mer, S.A., pursuant to section 402 of the Act and subpart Q of the regulations requests a foreign air carrier permit authorizing it to engage in scheduled foreign air transportation of persons, property and mail between Paris, France, and Miami, Florida, and in charter air transportation between points in France and points in the United States, subject to the regulations of the Department.

Docket Number: 47605
Date filed: June 19, 1991.
Due Date for Answers, Conforming Applications, or Motion to Modify Scope: July 17, 1991.
Description: Application of Jetall Holdings Corporation, pursuant to section 402 of the Act and subpart Q of the regulations, applies for a charter-only foreign air carrier permit to operate charter foreign air transportation of property with Convair 580 or equivalent aircraft on routes between Canada and the United States, each of which would be between one or more coterminal points in Canada, on the one hand, and a terminal point in the United States, on the other.

Docket Number: 47606
Date filed: June 21, 1991.
Due Date for Answers, Conforming Applications, or Motion to Modify Scope: July 19, 1991.
Description: Application of Southeast Airlines Corporation, pursuant to section 401(d)(1) of the Act and subpart Q of the regulations, applies for a certificate of public convenience and necessity authorizing interstate and overseas scheduled air transportation.

Docket Number: 47607
Date filed: June 21, 1991.
Due Date for Answers, Conforming Applications, or Motion to Modify Scope: July 19, 1991.
Description: Application of Viscount Air Service, Inc., pursuant to section 401(d) of the Act and subpart Q of the regulations applies for a certificate of public convenience and necessity authorizing in interstate and overseas charter air transportation of persons, property and mail.

Docket Number: 47608
Date filed: June 21, 1991.
Due Date for Answers, Conforming Applications, or Motion to Modify Scope: July 19, 1991.
Description: Application of Viscount Air Service, Inc., pursuant to section 401(d) of the Act and subpart Q of the regulations applies for a certificate of public convenience and necessity authorizing it to engage in foreign charter air transportation of persons, property, and mail between a point or points in the United States, its territories and possessions (including the District of Columbia) and a point or points in the Caribbean Basin, Mexico, and Central America as far south as Panama.

BILLING CODE 4910-62-M

Office of the Secretary

Reports, Forms, and Recordkeeping Requirements: Submittals to OMB on June 24, 1991

AGENCY: Department of Transportation (DOT), Office of the Secretary.

ACTION: Notice.

SUMMARY: This notice lists those forms, reports, and recordkeeping requirements imposed upon the public which were transmitted by the Department of Transportation on June 24, 1991, to the Office of Management and Budget (OMB) for its approval in accordance with the requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35).

FOR FURTHER INFORMATION CONTACT: John Chandler, Annette Wilson or Susan Pickrel, Information Requirements Division, M-34, Office of the Secretary of Transportation, 400 Seventh Street, SW., Washington, DC 20590, telephone, (202) 366-4735, or Edward Clarke or Wayne Brough, Office of Management and Budget, New Executive Office Building, room 3228, Washington, DC 20503, (202) 395-7340.

SUPPLEMENTARY INFORMATION:

Background

Section 3507 of title 44 of the United States Code, as adopted by the Paperwork Reduction Act of 1980, requires that agencies prepare a notice for publication in the Federal Register, listing those information collection requests submitted to the Office of Management and Budget (OMB) for initial, approval, or for renewal under that Act. OMB reviews and approves agency submittals in accordance with criteria set forth in that Act. In carrying out its responsibilities, OMB also considers public comments on the

VOL 56 ISS 125 JE 28 1991 UMI

proposed forms, reporting and recordkeeping requirements. OMB approval of an information collection requirement must be renewed at least once every three years.

Information Availability and Comments

Copies of the DOT information collection requests submitted to OMB may be obtained from the DOT officials listed in the "For Further Information Contact" paragraph set forth above. Comments on the requests should be forwarded, as quickly as possible, directly to the OMB officials listed in the "For Further Information Contact" paragraph set forth above. If you anticipate submitting substantive comments, but find that more than 10 days from the date of publication are needed to prepare them, please notify the OMB officials of your intent immediately.

Items Submitted for Review by OMB

The following information collection requests were submitted to OMB on June 24, 1991.

DOT No: 3502.
OMB No: New.
Administration: Federal Aviation Administration.
Title: FAA Research and Development Grants.
Need for Information: To administer the FAA grants program for research and development.
Proposed Use of Information: Information is required from grantees for the purpose of grant administration and review in accordance with applicable OMB circulars.
Frequency: On occasion, quarterly, and semi-annually.
Burden Estimate: 2,800 hours.
Respondents: State and local governments, Businesses, Non-profit institutions.
Form(s): FAA Forms 9550–VV, 9550–XX, 9550–YY, 9550–ZZ, and SF–269, 270, and 272.
Average Burden Hours Per Response: 3 hours (Form 9550–VV); 2 hours (Form 9550–XX); 3 hours (Form 9550–YY); 1 hour (Form 9550–ZZ); 2 hours (SF–269); 1 hour (SF–270); and 2 hours (SF–272).
DOT No: 3503.
OMB No: 2120–0043.
Administration: Federal Aviation Administration.
Title: Recording of Aircraft Conveyances and Security Documents.
Need for Information: Information is needed for security conveyances such as mortgages submitted by the public for recording against aircraft, engines, propellers and spare parts locations.
Proposed Use of Information: To maintain a system for the recording of security conveyances affecting title to or interest in U.S. civil aircraft.
Frequency: On occasion.
Burden Estimate: 60,973 hours.
Respondents: Anyone.
Form(s): AC Form 8050–41.
Average Burden Hours Per Response: 1 hour.
DOT No: 3504.
OMB No: New.
Administration: Federal Railroad Administration.
Title: Qualification of Locomotive Engineers.
Need for Information: To determine a person's qualifications to be a locomotive engineer.
Proposed Use of Information: To evaluate the qualifications and fitness of locomotive engineers.
Frequency: On occasion and recordkeeping.
Estimated Number of Respondents: 605 Railroads.
Burden Estimate: 218,280 hours.
Respondents: 361 hours.
Form(s): None.
DOT No: 3505.
OMB No: 2106–0023.
Administration: Department of Transportation, Office of the Secretary.
Title: Procedures and Evidence Rules for Air Carrier Authority Applications.
Need for Information: Regulatory Compliance.
Proposed Use of Information: For review of an air carrier's fitness to provide passenger and cargo service.
Frequency: On occasion.
Burden Estimate: 8,048 hours.
Respondents: U.S. air carriers.
Form(s): None.
Average Burden Hours Per Response: 39 hours, 48 minutes.
DOT No: 3506.
OMB No: 2138–0009.
Administration: Research and Special Programs Administration.
Title: Form 298–C Report of Financial and Operating Statistics for Small Aircraft Operators.
Need for Information: To analyze airline enplanement data and financial statistics.
Proposed Use of Information: Monitor air carrier fitness, set Essential Air Service subsidy levels, set Alaska mail rates and administer airport development.
Frequency: Quarterly.
Burden Estimate: 7,092 hours.
Respondents: Small certificated/commuter air carriers.
Form(s): Form 298–C.
Average Burden Hours Per Respondent: 9 hours per commuter air carrier and 13 hours, 30 minutes per small certificated air carrier (quarterly).
DOT No: 3507.
OMB No: 2130–0035.
Administration: Federal Railroad Administration.
Title: Railroad Operating Rules.
Need for Information: To determine the condition of operating rules and practices with respect to trains and the instructions railroads provide their employees.
Proposed Use of Information: This information is utilized to consider waiver and petition applications, and to conduct accident investigations involving operating practices.
Frequency: Recordkeeping, on occasion and annually.
Burden Estimate: 88,285 hours.
Respondents: 605 Railroads.
Form(s): FRA–F–6180.77.
Average Burden Hours Per Response: 146 hours.
DOT No: 3508.
OMB No: 2130–0524.
Administration: Federal Railroad Administration.
Title: Transmission of Train Orders by Radio.
Need for Information: To assure safe operating practices in the use of radio communications in railroad operations.
Proposed Use of Information: FRA uses this information to assure safe uniform procedures covering the use of radio phone technology in railroad operations.
Frequency: Recordkeeping.
Burden Estimate: 240,000 hours.
Respondents: 400 Railroads.
Form(s): None.
Average Burden Hours Per Respondent: 600 hours
DOT No: 3509.
OMB No: 2130–0532.
Administration: Federal Railroad Administration.
Title: Railroad User Fees.
Need for Information: To determine a railroad's equitable share of the total industry user fee.
Proposed Use of Information: To assure that each railroad is assessed their fair share of the industry-wide user fee.
Frequency: On occasion, annually and recordkeeping.
Burden Estimate: 2,279 hours.
Respondents: 586 Railroads.
Form(s): FRA–F–6180.89 and FRA–F–6180.90.
Average Burden Hours Per Respondent: 4 hours.
DOT No: 3510.
OMB No: 2130–0004.
Administration: Federal Railroad Administration.
Title: Railroad Locomotive Safety Standards.

Need for Information: To provide a written record that a locomotive has been inspected and is in proper condition for service.
Proposed Use of Information: This information is utilized to assure and promote safe and suitable locomotives and as the written record in post-accident investigations.
Frequency: Recordkeeping and on occasion.
Burden Estimate: 1,114,661 hours.
Respondents: 605 Railroads.
Form(s): FRA–F–6180.49A.
Average Burden Hours Per Respondent: 1.824 hours.
DOT No: 3511.
OMB No: 2125–0019.
Administration: Federal Highway Administration.
Title: Federal-aid Highway Construction Equal Employment Opportunity.
Need for Information: For the FHWA to carry out its responsibility to ensure equal opportunity in contractors' employment practices on Federal-aid projects.
Proposed Use of Information: For FHWA to determine patterns and trends of equal employment in the highway construction industry, and for State highway agencies to report to FHWA a summary of Federal-aid highway construction information.
Frequency: Annually.
Burden Estimate: 6,560 hours.
Respondents: State highway agencies.
Form(s): PR–1391 and PR–1392.
Average Burden Hours Per Respondent: 1 hour (Form PR–1391) and 40 hours (Form PR–1392).
DOT No: 3512.
OMB No: 2137–0034.
Administration: Research and Special Programs Administration.
Title: Hazardous Materials Shipping Papers.
Need for Information: Shipping papers are used in transportation to identify the presence of hazardous materials, their quantity, and identification. This information is used to promote transportation safety by assuring that carriers are properly loaded and identifies hazardous cargo to emergency response personnel in case of incident.
Proposed Use of Information: To assist emergency response personnel in mitigation actions at hazardous materials incidents, and to inform carriers and transportation facility operators of the risks and precautions associated with the materials.
Frequency: Each shipment (hazardous materials).
Burden Estimate: 6,288,750 hours.
Respondents: Shippers and carriers.
Form(s): None.
Average Burden Hours Per Respondent: 2 hours, 15 minutes.
DOT No: 3513.
OMB No: 2137–0022.
Administration: Research and Special Programs Administration.
Title: Recordkeeping and Information Collection for Cylinders.
Need for Information: To verify that charged cylinders are safe for shipment in interstate commerce.
Proposed Use of Information: To verify that cylinders are properly marked, restested, and repaired, and safely charged so as to maintain the safety standards set forth in the Federal regulations for hazardous materials transportation.
Frequency: As required in 49 CFR 173.34 and 173.303(d) for various cylinders.
Burden Estimate: 122,064 hours.
Respondents: Businesses, Farmers, Individuals, State and Local Governments.
Form(s): Application for Registration of Cylinder Requalification Facility.
Average Burden Hours Per Respondent: 1 hour, 12 minutes.
DOT No: 3514.
OMB No: 2125–0034.
Administration: Federal Highway Administration.
Title: Certification of Enforcement of Vehicle Size and Weight Laws.
Need for Information: For each State to annually certify that it is enforcing all size and weight law regulations.
Proposed Use of Information: For FHWA to evaluate the effectiveness of a State's vehicle size and weight law program.
Frequency: Annually.
Burden Estimate: 4,160 hours.
Respondents: State highway agencies.
Form(s): None.
Average Burden Hours Per Respondent: 40 hours.
DOT No: 3515.
OMB No: 2132–0529.
Administration: Urban Mass Transportation Administration.
Title: Unified Planning Work Program (UPWP), Transportation Plan and the Transportation Improvement Program (TIP).
Need for Information: To describe transportation planning activities to be funded during the next two-year period using FHWA and UMTA funds.
Proposed Use of Information: The information is used for the grant review and approval process by State and Metropolitan Planning Organizations as the basis for making investment decisions and as a management tool regarding the use of Federal and non-Federal capital funds.
Frequency: Annually and biennially.
Burden Estimate: 294,768 hours.
Respondents: State and local governments and Metropolitan Organizations.
Form(s): None.
Average Burden Hours Per Respondent: 482 hours.
DOT No: 3516.
OMB No: 2133–0006.
Administration: Maritime Administration.
Title: Request for transfer of Ownership, Registry, and Flag, or Charter, Lease, or Mortgage of U.S. Citizen-Owned Documented Vessels.
Need for Information: To comply with section 9, Shipping Act, 1916, as amended, which requires MARAD's approval of transfers.
Proposed Use of Information: To assist in determination as to whether vessel proposed for transfer is needed for retention under U.S. Flag.
Frequency: On occasion.
Burden Estimate: 550 hours.
Respondents: Businesses and Individuals.
Form(s): MA–29, MA–29A, and MA–29B.
Average Burden Hours Per Respondent: 2½ hours.
DOT No: 3517.
OMB No: New.
Administration: National Highway Traffic Safety Administration.
Title: Drug Offender's License Suspension Certification.
Need for Information: To encourage States to enact and enforce drug offenders's driver's license suspension.
Proposed Use of Information: To provide procedures to State highway construction grant recipients on how to certify compliance with the provisions of Public Law 101–215. The law requires a driver's license suspension, or revocation, for individuals convicted of any drug-related offense.
Frequency: Annually.
Burden Estimate: 260 hours.
Respondents: States.
Form(s): Forms HS–62, 62A, and 217 may be used; these forms are cleared under 2127–0003.
Average Burden Hours Per Respondent: 5 hours.
DOT No: 3518.
OMB No: 2127–0044.
Administration: National Highway Traffic Safety Administration.
Title: Names and Addresses of First Purchasers of Motor Vehicles.
Need for Information: To directly notify first purchasers of new motor vehicles in case there is a recall of their vehicle.
Proposed Use of Information: Motor vehicle manufacturers are required to

VOL 56 ISS 125 JE 28 1991 UMI

record and retain the names and addresses of first purchasers of new motor vehicles, so that the manufacturer can directly notify those persons if their vehicle is recalled.

Frequency: On occasion.
Burden Estimate: 950,000 hours.
Respondents: Businesses.
Form(s): None.
Average Burden Hours Per Respondent: 3 minutes.

Issued in Washington, DC on June 24, 1991.

Cynthia C. Reed,
Director of Information Resource Management.

Federal Aviation Administration

[File No. AC 21-XX]

Proposed Advisory Circular: Application Procedures for Alteration Approvals

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of availability of Proposed Advisory Circular 21-XX and request for comments.

SUMMARY: This notice announces the availability of and requests comment on a proposed Advisory Circular (AC) 21-XX which describes the application procedures for alteration approvals performed using the field approval process. It also provides a method that may be used by applicants and FAA flight standards and type certification personnel to accomplish field approvals. This notice is necessary to give all interested persons an opportunity to present their views on the proposed AC.

DATES: Comments must be received on or before August 27, 1991.

ADDRESSES: Comments on proposed AC 21-XX may be mailed or delivered to: Federal Aviation Administration; Policy and Procedures Branch (AIR-110); 800 Independence Avenue SW.; Washington, DC 20591. A copy of proposed AC 21-XX, Application Procedures for Alteration Approvals, may be obtained by writing to the above address.

FOR FURTHER INFORMATION CONTACT: Ms. T. Lynn Brown, Policy and Procedures Branch, AIR-110, at the address above, telephone (202) 267-9589.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to submit such written data, views, or arguments as they may desire. Communications should identify the AC number and be submitted to the address specified above. All communications received on or before the closing date for comments will be considered before issuing AC 21-XX. Comments may be inspected at the above address between 8 a.m. and 4 p.m. weekdays, except Federal holidays.

Background

The Federal Aviation Act of 1958 directs the Federal Aviation Administration (FAA) to promote safety of flight of civil aircraft in air commerce by prescribing and revising minimum standards governing the design, materials, workmanship, construction, and performance of aircraft, aircraft engines, and propellers. The Aircraft Certification Regulatory Program (ACRP) was developed to accomplish this mission. As part of the ACRP, the Aircraft Certification Service administers the aircraft alteration program to find compliance with the prescribed standards and to maintain certificate integrity (continued airworthiness).

Proposed AC 21-XX describes the alteration approval process. It also provides a method for accomplishing aircraft alternations. The draft AC is intended to provide guidance to the general public and to FAA flight standards and type certification personnel for administering the alteration approval process. The method of accomplishing the alteration approval process described in the AC is not mandatory. As such, the terms "shall" and "must" used in the AC pertain to an applicant who chooses to follow the method.

Issued in Washington, DC, on March 8, 1991.

John K. McGrath,
Manager, Aircraft Engineering Division, Aircraft Certification Service.

[Summary Notice No. PE-91-24]

Petitions for Exemption, Summary of Petitions Received; Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemption received and of dispositions of prior positions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR chapter I), dispositions of certain petitions previously received, and corrections. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATES: Comments on petitions received must identify the petition docket number involved and must be received on or before July 18, 1991.

ADDRESSES: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, attn: Rule Docket (AGC-10), Petition Docket No. _____, 800 Independence Avenue, SW., Washington, DC 20591.

The petition, any comments received, and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC-10), room 915G, FAA Headquarters Building (FOB 10A), 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267-3132.

FOR FURTHER INFORMATION CONTACT: Miss Jean Casciano, Office of Rulemaking (ARM-1), Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267-9683.

This notice is published pursuant to paragraphs (c), (e), and (g) of § 11.27 of part 11 of the Federal Aviation Regulations (14 CFR part 11).

Issued in Washington, DC, on June 20, 1991.

Annette Pitts,
Acting Manager, Program Management Staff, Office of the Chief Counsel.

Petitions for Exemption

Docket No.: 25918.
Petitioner: AFM Corporation dba Executive Jet Westfield.
Sections of the FAR Affected: 14 CFR 91.511(a)(2) and 135.165(b).
Description of Relief Sought: To extend Exemption No. 5112, which allows petitioner to operate specific aircraft in extended overwater operations using one long-range navigation system and one high-frequency communication system.

Dispositions of Petitions

Docket No.: 23465.
Petitioner: Everts Air Fuel, Inc.
Sections of the FAR Affected: 14 CFR 91.9(a) (old 91.31(a)).
Description of Relief Sought/Disposition: To extend Exemption No. 4296, as amended, which allows the operation of Douglas DC-6 cargo-only aircraft, N151 and N251CE, at a 5 percent increase of zero fuel weight and landing weight. *Grant, June 12, 1991, Exemption No. 4296C.*

Docket No.: 26169.
Petitioner: Clackamas County Sheriff's Department.
Sections of the FAR Affected: 14 CFR 61.113.
Description of Relief Sought/Disposition: To allow petitioner's Aero Squadron members to be reimbursed for fuel, oil, and maintenance while serving as pilot in command during Aero Squadron missions. *Grant, June 10, 1991, Exemption No. 5321.*

Docket No.: 26194.
Petitioner: Northeast Jet Company dba Private Jet Services.
Sections of the FAR Affected: 14 CFR 91.511(a)(1)(iv), 135.165 (a)(5) and (a)(6), and 135.165 (b)(5), (b)(6), and (b)(7).
Description of Relief Sought/Disposition: To allow petitioner to operate certain extended overwater flights with only one long-range navigation system and one high-frequency communications system. *Grant, May 23, 1991, Exemption No. 5314.*

Docket No.: 26200.
Petitioner: Security Aviation, Inc.
Sections of the FAR Affected: 14 CFR 43.3(g).
Description of Relief Sought/Disposition: To allow pilots employed by petitioner to remove or replace passenger seats and/or medivac beds for aircraft used in part 135 operations. *Grant, June 5, 1991, Exemption No. 5319.*

Docket No.: 26440.
Petitioner: Falcon Jet Corporation.
Sections of the FAR Affected: 14 CFR 47.65 and 47.69(b).
Description of Relief Sought/Disposition: To allow petitioner to obtain a Dealer's Aircraft Registration Certificate without meeting the U.S. citizenship requirements and to conduct limited flights outside of the United States under a Dealer's Aircraft Registration Certificate. *Grant, May 30, 1991, Exemption No. 5315.*

Docket No.: 26464.
Petitioner: Av Atlantic Airline.
Sections of the FAR Affected: 14 CFR 121.359(c)(1).
Description of Relief Sought/Disposition: To allow petitioner to submit a request for approval of a retrofit schedule for approved windshear equipment after the June 1, 1990, deadline. *Grant, May 23, 1991, Exemption No. 5313.*

Docket No.: 26467.
Petitioner: Regional Airline Association.
Sections of the FAR Affected: 14 CFR 135.152(b).
Description of Relief Sought/Disposition: To allow U.S. regional airlines to operate the Shorts 330 aircraft in revenue service until May 1, 1991, without requiring those aircraft to be retrofitted with flight data recorders. *Denial, June 7, 1991, Exemption No. 5320.*

Docket No.: 26507.
Petitioner: Llano Estacado Soaring Society.
Sections of the FAR Affected: 14 CFR 61.3 and 91.203.
Description of Relief Sought/Disposition: To allow foreign-built gliders and foreign pilots to practice for and participate in the 15-meter National Soaring Championships from June 12 through 28, 1991, in Hobbs, New Mexico. *Partial Grant, May 23, 1991, Exemption No. 5306.*

Docket No.: 26510.
Petitioner: Enstrom Helicopter Corporation.
Sections of the FAR Affected: 14 CFR 47.65.
Description of Relief Sought/Disposition: To allow petitioner to obtain a Dealer's Aircraft Registration Certificate without meeting the U.S. citizenship requirements. *Grant, May 30, 1991, Exemption No. 5316.*

BILLING CODE 4910-13-M

Emergency Evacustion Subcommittee of the Aviation Rulemaking Advisory Committee; Meeting

AGENCY: Federal Aviation Administration FAA), DOT.

ACTION: Notice of meeting.

SUMMARY: The FAA is issuing this notice to advise the public of a meeting of the Federal Aviation Administration Emergency Evacuation Subcommittee of the Aviation Rulemaking Advisory Committee.

DATES: The meeting will be held on July 23, 1991, at 9 a.m. Arrange for oral presentations by July 16, 1991.

ADDRESSES: The meeting will be held in the Boardroom, Air Transport Association of America, 5th floor, New York Avenue NW., Washington, DC 20006-5206.

FOR FURTHER INFORMATION CONTACT: Ms. Marge Ross, Aircraft Certification Service (AIR-1), 800 Independence Avenue SW., Washington, DC 20591, telephone (202) 267-8235.

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. app. II), notice is hereby given of a meeting of the Emergency Evacuation Subcommittee to be held on July 23, 1991, at the Air Transport Association of America Headquarters, 1709 New York Avenue NW., Washington, DC 20006-4000. The agenda for this meeting will include:

(1) A briefing from the Chair of the Performance Standards Working Group, which is considered whether new or revised standards for emergency evacuation can and should be stated in terms of safety performance, rather than as specific design requirements. The Chair will report on the organization and membership of the working group, the tasks completed thus far, the tasks planned for the future, and the timetable for completion of those tasks.

(2) A discussion of the presentation, consideration of new tasks resulting from those discussions, and the formation or modification of working groups to perform existing or new tasks identified during the discussion.

Attendance is open to the interested public but will be limited to the space available. The public must make arrangements by July 16, 1991, to present oral statements at the meeting. The public may present written statements to the committee at any time by providing 25 copies to the Executive Director, or by bringing the copies to him at the meeting. Arrangements may be made by contacting the person listed under the heading "FOR FURTHER INFORMATION CONTACT."

Issued in Washington, DC, on June 21, 1991.

William J. Sullivan,
Executive Director, Emergency Evacuation Subcommittee, Aviation Rulemaking Advisory Committee.

BILLING CODE 4910-13-M

Air Carrier/General Aviation Maintenance Subcommittee of the Aviation Rulemaking Advisory Committee; Meeting

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of meeting.

SUMMARY: The FAA is issuing this notice to advise the public of a meeting of the Federal Aviation Administration Aviation Rulemaking Advisory

VOL
56
ISS
125
JE
28
1991
UMI

Committee Air Carrier/General Aviation Maintenance Subcommittee.

DATES: The meeting will be held on July 17, 1991, at 9 a.m. Arrange for oral presentations by July 10, 1991.

ADDRESSES: The meeting will be held in the DOT Headquarters building, 400 Seventh Street, SW., Washington, DC 20509, room 4234/36/38.

FOR FURTHER INFORMATION CONTACT: Ms. Jacqueline Renaud, Meeting Coordinator, Aircraft Maintenance Division, 800 Independence Avenue, SW., Washington, DC 20591, telephone (202) 267-7461.

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. app. II), notice is hereby given of a meeting of the Air Carrier/General Aviation Maintenance Subcommittee to be held on July 17, 1991. The agenda for the committee will include discussions on rulemaking and/or guidance relating to establishment of current standard weights for passengers and baggage, development of a notice of proposed rulemaking (NPRM) for part 65 of the Federal Aviation Regulations (FAR), development of a NPRM for reporting requirements of §§ 121.703 and 121.705 of the FAR, development of an advisory circular for Special Federal Aviation Regulation (SFAR 36), and development of an NPRM and advisory circular for maintenance recordkeeping and retention of records.

Attendance is open to the interested public but may be limited to the space available. The public must make arrangements on or before July 10, 1991, to present oral statements at the meeting. Written statements (75 copies) may be presented to the committee at any time through the meeting coordinator. Arrangements may be made by contacting the meeting coordinator listed under the heading "FOR FURTHER INFORMATION CONTACT."

Because of increased security in Federal buildings, members of the public who wish to attend are advised to arrive in sufficient time to be cleared through building security.

Issued in Washington, DC, on June 24, 1991.

William J. White,

Executive Director, Air Carrier/General Aviation Maintenance Subcommittee, Aviation Rulemaking Advisory Committee.

BILLING CODE 4910-13-M

Maritime Administration

[Docket A-182]

Central Gulf Lines, Inc.; Remand of April 24, 1991 Decision of the Maritime Subsidy Board on Section 615 of the Merchant Marine Act, 1936, as Amended

Section 615 of the Merchant Marine Act, 1936, as amended, 46 App. U.S.C. 1185, temporarily enabled the grant of authorization to operators receiving or applying for operating-differential subsidy to construct, reconstruct, or acquire vessels of over five thousand deadweight tons in a foreign shipyard.

On November 10, 1961, the Maritime Subsidy Board (Board) made certain determinations with respect to implementation of section 615 among which was:

IX. Determined that the meaning of "acquire" as set forth in section 615 pertains to a vessel already under construction in a foreign shipyard or not yet delivered to the original vessel purchaser, e.g., a vessel on which title has not passed from the shipyard.

The Board authorized the assignment of three section 615 authorizations to Central Gulf Lines, Inc. (CGL) on April 1, 1987. On April 24, 1991, the Board modified its November 10, 1961, action to determine, with regard to the proposed use of the section 615 authorizations by CGL, that the term "acquire" in section 615 of the Act, does not preclude acquisition in a foreign shipyard of a modern technologically advanced existing vessel not more than 10 years of age that has been reconstructed or modified.

Parties objecting to the Board's April 24, 1991 decision—Liberty Maritime Corporation; Marine Transport Lines, Inc.; Afram Lines (USA), Ltd.; OMI Corp.; the Equity companies—requested Secretarial review.

The Secretary of Transportation on June 17, 1991, found that the petitioners raised issues that were not before the Board at the time of its decision and remanded the matter to the Board for further development of the record of the Board's action of April 24, 1991. The remand is without prejudice to the Board in whatever decision it may decide to make.

Any person, firm, or corporation having any interest in the subject matter and desiring to submit comments must file written comments in triplicate with the Secretary, Maritime Administration, room 7300, Nassif Building, 400 Seventh Street SW., Washington, DC 20590. The petitions for Secretarial review submitted by the above-named parties will be placed in this docket and considered by the Board on remand. Comments or further comments must be received no later than 5 p.m. on July 9, 1991. The Maritime Subsidy Board will consider any comments submitted and take such action with respect thereto as may be deemed appropriate.

Dated: June 25, 1991.

By Order of the Maritime Subsidy Board.

James E. Saari,

Secretary.

[FR Doc. 91-15559 Filed 6-27-91; 8:45 am]

BILLING CODE 4910-81-M

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Department Circular—Public Debt Series—No. 19-91]

Treasury Notes of June 30, 1993, Series AC-1993

June 20, 1991.

1. Invitation for Tenders

1.1. The Secretary of the Treasury, under the authority of chapter 31 of title 31, United States Code, invites tenders for approximately $12,500,000,000 of United States securities, designated Treasury Notes of June 30, 1993, Series AC-1993 (CUSIP No. 912827 B3 5), hereafter referred to as Notes. The Notes will be sold at auction, with bidding on the basis of yield. Payment will be required at the price equivalent of the yield of each accepted bid. The interest rate on the Notes and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of the Notes may be issued to Federal Reserve Banks for their own account in exchange for maturing Treasury securities. Additional amounts of the Notes may also be issued at the average price to Federal Reserve Banks, as agents for foreign and international monetary authorities.

2. Description of Securities

2.1. The Notes will be dated July 1, 1991, and will accrue interest from that date, payable on a semiannual basis on December 31, 1991, and each subsequent 6 months on June 30 and December 31 through the date that the principal becomes payable. They will mature June 30, 1993, and will not be subject to call for redemption prior to maturity. In the event any payment date is a Saturday, Sunday, or other nonbusiness day, the amount due will be payable (without additional interest) on the next business day.

2.2. The Notes are subject to all taxes imposed under the Internal Revenue Code of 1954. The Notes are exempt from all taxation now or hereafter imposed on the obligation or interest thereof by any State, any possession of the United States, or any local taxing authority, except as provided in 31 U.S.C. 3124.

2.3. The Notes will be acceptable to secure deposits of Federal public monies. They will not be acceptable in payment of Federal taxes.

2.4. The Notes will be issued only in book-entry form in a minimum amount of $5,000 and in multiples of that amount. They will not be issued in registered definitive or in bearer form.

2.5. The Department of the Treasury's general regulations governing United States securities, i.e., Department of the Treasury Circular No. 300, current revision (31 CFR part 306), as to the extent applicable to marketplace securities issued in book-entry form, and the regulations governing book-entry Treasury Bonds, Notes, and Bills, as adopted and published as a final rule to govern securities held in the Treasury Direct Book-Entry Securities System in Department of the Treasury Circular, Public Debt Series, No. 2-86 (31 CFR part 357), apply to the Notes offered in this circular.

3. Sale Procedures

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, DC 20239-1500, Tuesday, June 25, 1991, prior to 12 noon, Eastern Daylight Saving time, for noncompetitive tenders and prior to 1 p.m., Eastern Daylight Saving time, for competitive tenders. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Monday, June 24, 1991, and received no later than Monday, July 1, 1991.

3.2. The par amount of Notes bid for must be stated on each tender. The minimum bid is $5,000, and larger bids must be in multiples of that amount. Competitive tenders must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g. 7.10%. Fractions may not be used. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a specified yield.

3.3. A single bidder, as defined in Treasury's single bidder guidelines, shall not submit noncompetitive tenders totaling more than $1,000,000. A noncompetitive bidder may not have entered into an agreement, nor make an agreement to purchase or sell or otherwise dispose of any noncompetitive awards of this issue being auctioned prior to the designated closing time for receipt of competitive tenders.

3.4. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers, which for this purpose are defined as dealers who make primary markets in Government securities and are on the list of reporting dealers published by the Federal Reserve Bank of New York, may submit tenders for accounts of customers if the names of the customers and the amount for each customer are furnished. Others are permitted to submit tenders only for their own account.

3.5. Tenders for their own account will be received without deposit from commercial banks and other banking institutions; primary dealers, as defined above; Federally-insured savings and loan associations; States, and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; and Federal Reserve Banks. Tenders from all others must be accompanied by full payment for the amount of Notes applied for, or by a guarantee from a commercial bank or a primary dealer of 5 percent of the par amount applied for.

3.6. Immediately after the deadline for receipt of competitive tenders, tenders will be opened, followed by a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in section 4, noncompetitive tenders will be accepted in full, and then competitive tenders will be accepted, starting with those at the lowest yields, through successively higher yields to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, an interest rate will be established, at a 1/8 of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit of 99.750. That stated rate of interest will be paid on all of the Notes. Based on such interest rate, the price of each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive tenders will pay the price equivalent to the weighted average yield of accepted competitive tenders. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive tenders received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the yield. Tenders received from Federal Reserve Banks will be accepted at the price equivalent to the weighted average yield of accepted competitive tenders.

3.7. Competitive bidders will be advised of the acceptance of their bids. Those submitting noncompetitive tenders will be notified only if the tender is not accepted in full, or when the price at the average yield is over par.

4. Reservations

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders in whole or in part, to allot more or less than the amount of Notes specified in section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this section is final.

5. Payment and Delivery

5.1. Settlement for the Notes allotted must be made at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Settlement on Notes allotted to institutional investors and to others whose tenders are accompanied by a guarantee as provided in section 3.5. must be made or completed on or before Monday, July 1, 1991. Payment in full must accompany tenders submitted by all other investors. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury notes or bonds maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by check drawn to the order of the institution to which the tender was submitted, which must be received from institutional investors no later than Thursday, June 27, 1991.

When payment has been submitted with the tender and the purchase price of the Notes allotted is over par, settlement for the premium must be completed timely, as specified above. When payment has been submitted with the tender and the purchase price is under par, the discount will be remitted to the bidder.

5.2. In every case where full payment has not been completed on time, an amount of up to 5 percent of the per

VOL 56 ISS 125 JE 28 1991 UMI

amount of Notes allotted shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered definitive securities tendered in payment for the Notes allotted and to be held in Treasury Direct are not required to be assigned if the inscription on the registered definitive security is identical to the registration of the note being purchased. In any such case, the tender form used to place the Notes allotted in Treasury Direct must be completed to show all the information required thereon, or the Treasury Direct account number previously obtained.

6. General Provisions

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized, as directed by the Secretary of the Treasury, to receive tenders, to make allotments, to issue such notices as may be necessary, to receive payment for, and to issue, maintain, service, and make payment on the Notes.

6.2. The Secretary of the Treasury may, at any time, supplement or amend provisions of this circular if such supplements or amendments do not adversely affect existing rights of holders of the Notes. Public announcement of such changes will be promptly provided.

6.3. The Notes issued under this circular shall be obligations of the United States, and, therefore, the faith of the United States Government is pledged to pay, in legal tender, principal and interest on the Notes.

Gerald Murphy,

Fiscal Assistant Secretary.

[FR Doc. 91-15400 Filed 6-25-91; 8:45 am]

BILLING CODE 4810-40-M

[Department Circular—Public Debt Series—No. 20-91]

Treasury Notes of June 30, 1996, Series Q-1996

June 20, 1991.

1. Invitation for Tenders

1.1 The Secretary of the Treasury, under the authority of chapter 31 of title 31, United States Code, invites tenders for approximately $8,250,000,000 of United States securities, designated Treasury Notes of June 30, 1996, Series Q-1996 (CUSIP No. 912827 B4 3), hereafter referred to as Notes. The Notes will be sold at auction, with bidding on the basis of yield. Payment will be required at the price equivalent of the yield of each accepted bid. The interest rate on the Notes and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of the Notes may be issued to Federal Reserve Banks for their own account in exchange for maturing Treasury securities. Additional amounts of the Notes may also be issued at the average price to Federal Reserve Banks, as agents for foreign and international monetary authorities.

2. Description of Securities

2.1. The Notes will be dated July 1, 1991, and will accrue interest from that date, payable on a semiannual basis on December 31, 1991, and each subsequent 6 months on June 30 and December 31 through the date that the principal becomes payable. They will mature June 30, 1996, and will not be subject to call for redemption prior to maturity. In the event any payment date is a Saturday, Sunday, or other nonbusiness day, the amount due will be payable (without additional interest) on the next business day.

2.2 The Notes are subject to all taxes imposed under the Internal Revenue Code of 1954. The Notes are exempt from all taxation now or hereafter imposed on the obligation or interest thereof by any State, any possession of the United States, or any local taxing authority, except as provided in 31 U.S.C. 3124.

2.3. The Notes will be acceptable to secure deposits of Federal public monies. They will not be acceptable in payment of Federal taxes.

2.4. The Notes will be issued only in book-entry form in a minimum amount of $1,000 and in multiples of that amount. They will not be issued in registered definitive or in bearer form.

2.5. The Department of the Treasury's general regulations governing United States securities, i.e., Department of the Treasury Circular No. 300, current revision (31 CFR part 306), as to the extent applicable to marketable securities issued in book-entry form, and the regulations governing book-entry Treasury Bonds, Notes, and Bills, as adopted and published as a final rule to govern securities held in the Treasury Direct Book-Entry Securities System in Department of the Treasury Circular, Public Debt Series, No. 2-86 (31 CFR part 357), apply to the Notes offered in this circular.

3. Sale Procedures

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, DC 20239-1500, Wednesday, June 26, 1991, prior to 12:00 noon, Eastern Daylight Saving time, for noncompetitive tenders and prior to 1:00 p.m., Eastern Daylight Saving time, for competitive tenders. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Tuesday, June 25, 1991, and received no later than Monday, July 1, 1991.

3.2. The par amount of Notes bid for must be stated on each tender. The minimum bid is $1,000, and larger bids must be in multiples of that amount. Competitive tenders must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g., 7.10%. Fractions may not be used. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a specified yield.

3.3. A single bidder, as defined in Treasury's single bidder guidelines, shall not submit noncompetitive tenders totaling more than $1,000,000. A noncompetitive bidder may not have entered into an agreement, nor make an agreement to purchase or sell or otherwise dispose of any noncompetitive awards of this issue being auctioned prior to the designated closing time for receipt of competitive tenders.

3.4. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers, which for this purpose are defined as dealers who make primary markets in Government securities and are on the list of reporting dealers published by the Federal Reserve Bank of New York, may submit tenders for accounts of customers if the names of the customers and the amount for each customer are furnished. Others are permitted to submit tenders only for their own account.

3.5. Tenders for their own account will be received without deposit from commercial banks and other banking institutions; primary dealers, as defined above; Federally-insured savings and loan associations; States, and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; and Federal Reserve Banks. Tenders from all others must be accompanied by full payment for the amount of Notes applied for, or by a guarantee from a commercial bank or a primary dealer of 5 percent of the par amount applied for.

3.6. Immediately after the deadline for receipt of competitive tenders, tenders will be opened, followed by a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in section 4, noncompetitive tenders will be accepted in full, and then competitive tenders will be accepted, starting with those at the lowest yields, through successively higher yields to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, an interest rate will be established, at a 1/8 of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit of 99.000. That stated rate of interest will be paid on all of the Notes. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive tenders will pay the price equivalent to the weighted average yield of accepted competitive tenders. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive tenders received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the yield. Tenders received from Federal Reserve Banks will be accepted at the price equivalent to the weighted average yield of accepted competitive tenders.

3.7. Competitive bidders will be advised of the acceptance of their bids. Those submitting noncompetitive tenders will be notified only if the tender is not accepted in full, or when the price at the average yield is over par

4 Reservations

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders in whole or in part, to allot more or less than the amount of Notes specified in section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this section is final.

5. Payment and Delivery

5.1. Settlement for the Notes allotted must be made at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Settlement on Notes allotted to institutional investors and to others whose tenders are accompanied by a guarantee as provided in section 3.5. must be made or completed on or before Monday, July 1, 1991. Payment in full must accompany tenders submitted by all other investors. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury notes or bonds maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by check drawn to the order of the institution to which the tender was submitted, which must be received from institutional investors no later than Thursday, June 27, 1991.

When payment has been submitted with the tender and the purchase price of the Notes allotted is over par, settlement for the premium must be completed timely, as specified above. When payment has been submitted with the tender and the purchase price is under par, the discount will be remitted to the bidder.

5.2. In every case where full payment has not been completed on time, an amount of up to 5 percent of the par amount of Notes allotted shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered definitive securities tendered in payment for the Notes allotted and to be held in Treasury Direct are not required to be assigned if the inscription on the registered definitive security is identical to the registration of the note being purchased. In any such case, the tender form used to place the Notes allotted in Treasury Direct must be completed to show all the information required thereon, or the Treasury Direct account number previously obtained.

6. General Provisions

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized, as directed by the Secretary of the Treasury, to receive tenders, to make allotments, to issue such notices as may be necessary, to receive payment for, and to issue, maintain, service, and make payment on the Notes.

6.2. The Secretary of the Treasury may, at any time, supplement or amend provisions of this circular if such supplements or amendments do not adversely affect existing rights of holders of the Notes. Public announcement of such changes will be promptly provided.

6.3. The Notes issued under this circular shall be obligations of the United States, and, therefore, the faith of the United States Government is pledged to pay, in legal tender, principal and interest on the Notes.

Gerald Murphy,

Fiscal Assistant Secretary.

Surety Companies Acceptable on Federal Bonds, Termination of Authority; United Southern Assurance Company

Notice is hereby given that the Certificate of Authority issued by the Treasury to United Southern Assurance Company of Melbourne, Florida, under the United States Code, title 31, sections 9304-9308, to qualify as an acceptable surety on Federal bonds is terminated effective today.

The Company was last listed as an acceptable surety on Federal bonds at 55 FR 27369, July 2, 1990.

With respect to any bonds currently in force with United Southern Assurance Company, bond-approving officers should secure new bonds with acceptable sureties in those instances where a significant amount of liability remains outstanding. In addition, bonds that are continuous in nature should not be renewed.

Questions concerning this notice may be directed to the Department of the Treasury, Financial Management Service, Funds Management Division, Surety Bond Branch, Washington, DC 20227, telephone (202) 287-3921.

BILLING CODE 4810-35-M

UNITED STATES SENTENCING COMMISSION

Sentencing Guidelines for United States Courts

AGENCY: United States Sentencing Commission.

ACTION: Notice of priority topics for the 1992 amendment cycle.

SUMMARY: The Commission is continuing its ongoing study of the implementation of the sentencing guidelines and has designated specific issues and projects for priority consideration over the course of the next year. Comment is requested on these issues. Additionally, in preparation for the 1992 amendment cycle that culminates in the submission to Congress of proposed guideline amendments no later than May 1, 1992, the Commission solicits comment on: (1) Additional areas of Commission study; (2) specific problem areas in guideline application; and (3) the adequacy of current training programs and informational materials.

DATES: Public comment for this information-gathering phase of the 1992 amendment cycle should be received by the Commission no later than August 31, 1991.

ADDRESSES: Comment should be sent to: United States Sentencing Commission, 1331 Pennsylvania Avenue NW., suite 1400, Washington, DC 20004. Attn: Michael Courlander.

FOR FURTHER INFORMATION CONTACT: Michael Courlander, Public Information Specialist (202) 628-8500.

SUPPLEMENTARY INFORMATION: The United States Sentencing Commission is an independent agency in the judicial branch of the U.S. Government. The Commission is empowered by 28 U.S.C. 994(a) to promulgate sentencing guidelines and policy statements for federal sentencing courts. The statute further directs the Commission to periodically review and revise promulgated guidelines and authorizes it to submit guideline amendments to the Congress no later than the first day of May each year. See 28 U.S.C. 994(o), (p).

The Commission is beginning the formal 1992 amendment process by soliciting comment on guideline issues and potential amendments early in the amendment cycle. This solicitation is in addition to the Commission's traditional formal publication of proposed amendments and amendment issues in the **Federal Register** that occurs after January 1st of each year.

To assist in setting priorities and allocating resources, the Commission requests comment on the following topics: (1) Problem areas in guideline application; (2) issues identified by the Commission and assigned to staff working groups; (3) additional issues for Commission study; (4) specific suggestions for amendments to the guidelines; and (5) adequacy of current training programs and informational materials.

As in past amendment cycles, the Commission intends to utitlize interdisciplinary staff working groups to comprehensively analyze designated priority issues using legal, research, monitoring, and training resources. The working groups will present the Commission with recommendations that may include improved training, amendments, statutory changes, and areas for further research and study. Because of the nature and scope of the issues under review, not every working group is designed to complete its work in time for action during the 1992 amendment cycle.

Currently, the Commission has formed working groups to study the following priority areas: (1) Acceptance of responsibility; (2) alternatives to imprisonment; (3) criminal history; (4) departures; (5) drug offenses (focusing primarily on the appropriateness of the role in the offense adjustment for less culpable offenders); (6) the Congressionally mandated four-year evaluation of the guidelines; (7) mandatory minimum sentencing statutes; (8) fine guidelines for organizations committing environmental offenses (and review of the environmental guidelines for invividual offenders); (9) and sexual offenses involving child victims.

As resources permit, the Commission also intends to establish working groups to address the following issues: fine guidelines for food and drug offenses committed by organizations; directives to the Commission concerning prison sentence implementation, immigration offenses, fraud offenses and other guidelines employing similarly-structured monetary tables, and review of the probation and supervised release revocation policy statements.

The Commission also intends to study discrete guideline topics such as money laundering and the Chapter Three grouping rules, but does not presently contemplate establishing formal staff working groups to address these issues.

Authority: 28 U.S.C. 994(o), (p).

William W. Wilkins, Jr.
Chairman.

BILLING CODE 2210-40-M

DEPARTMENT OF VETERANS AFFAIRS

Wage Committee; Meetings

The Department of Veterans Affairs (VA) in accordance with Public Law 92-463, gives notice that meetings of the VA Wage Committee will be held on:

Wednesday, July 10, 1991, at 2 p.m.
Wednesday, July 24, 1991, at 2 p.m.
Wednesday, August 7, 1991, at 2 p.m.
Wednesday, August 21, 1991, at 2 p.m.
Wednesday, September 4, 1991, at 2 p.m.
Wednesday, September 18, 1991, at 2 p.m.

The meetings will be held in room 1161, Veterans Affairs Central Office, 810 Vermont Avenue, NW., Washington, DC 20420.

The Committee's purpose is to advise the Chief Medical Director on the development and authorization of wage schedules for Federal Wage System (blue-collar) employees.

At these meetings the Committee will consider wage survey specifications, wage survey data, local committee reports and recommendations, statistical analyses, and proposed wage schedules.

All portions of the meetings will be closed to the public because the matters considered are related solely to the internal personnel rules and practices of the Department of Veterans Affairs and because the wage survey data considered by the Committee have been obtained from officials of private business establishments with a guarantee that the data will be held in confidence. Closure of the meetings is in accordance with subsection 10(d) of Public Law 92-463, as amended by Public Law 94-409, and as cited in 5 U.S.C. 552b(c) (2) and (4).

However, members of the public are invited to submit material in writing to the Chairperson for the Committee's attention.

Additional information concerning these meetings may be obtained from the Chairperson, VA Wage Committee, room 1175, 810 Vermont Avenue, NW., Washington, DC 20420.

Dated: June 19, 1991.

By Direction of the Secretary.
Sylvia Chaves Long,
Committee Management Officer.

Sunshine Act Meetings

Federal Register
Vol. 56, No. 125
Friday, June 28, 1991

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Changes in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its open meeting held at 2:02 p.m. on Tuesday, June 25, 1991, the Corporation's Board of Directors determined, on motion of Director C.C. Hope, Jr. (Appointive), seconded by Vice Chairman Andrew C. Hove, Jr., concurred in by Director T. Timothy Ryan, Jr. (Office of Thrift Supervision), Mr. Dean S. Marriott, acting in the place and stead of Director Robert L. Clarke (Comptroller of the Currency), and Chairman L. William Seidman, that Corporation business required the addition to the agenda for consideration at the meeting on less than seven days' notice to the public, of the following matter:

Memorandum and resolution re: FDIC Appointment of FDIC as Receiver of Insured State Depository Institutions.

The Board further determined, by the same majority vote, that Corporation business required the withdrawal from the agenda for consideration at the meeting, on less than seven days' notice to the public, of the following matter:

Memorandum re: Changes to the Section 19 Policy Statement and Guidelines.

By the same majority vote, the Board further determined that no notice earlier than June 20, 1991, of these changes in the subject matter of the meeting was practicable.

Dated: June 26, 1991.
Federal Deposit Insurance Corporation.
Robert E. Feldman,
Deputy Executive Secretary.

BILLING CODE 6714-01-M

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Change in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2), notice is hereby given that at its meeting held at 2:44 p.m. on Tuesday, June 25, 1991, the Corporation's Board of Directors determined, on motion of Director C.C. Hope, Jr. (Director), seconded by Mr. Dean S. Marriott, acting in the place and stead of Director Robert L. Clarke (Comptroller of the Currency), concurred in by Vice Chairman Andrew C. Hove, Jr. and Chairman L. William Seidman, that Corporation business required the addition to the agenda for consideration at the meeting on less than seven days' notice to the public, of a matter relating to the Corporation's corporate activities.

The Board further determined, by the same majority vote, that no earlier notice of the change in the subject matter of the meeting was practicable; that the public interest did not require consideration of the matter in a meeting open to public observation; and that the matter could be considered in a closed meeting by authority of subsections (c)(2) and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552 (b)(c)(2) and (c)(9)(B)).

Dated: June 26, 1991.
Federal Deposit Insurance Corporation.
Robert E. Feldman,
Deputy Executive Secretary.

BILLING CODE 6714-01-M

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 9:03 a.m. on Wednesday, June 26, 1991, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session to consider matters relating to the probable failure of a certain insured bank.

In calling the meeting, the Board determined, on motion of Director C.C. Hope, Jr. (Appointive), seconded by Director Robert L. Clarke (Comptroller of the Currency), concurred in by Vice Chairman Andrew C. Hove, Jr., Mr. Jonathan Fiechter, acting in the place and stead of Director T. Timothy Ryan, Jr. (Office of Thrift Supervision), and Chairman L. William Seidman, that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matter could be considered in a closed meeting by authority of subsections (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(8), (c)(9)(A)(ii), and (c)(9)(B)).

The meeting was held in the Board Room of the FDIC Building located at 550—17th Street, NW., Washington, DC.

Dated: June 26, 1991.
Federal Deposit Insurance Corporation.
Robert E. Feldman,
Deputy Executive Secretary.

LEGAL SERVICES CORPORATION BOARD OF DIRECTORS

Office of the Inspector General Oversight Committee Changes

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: 56 FR 28957.

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: A meeting of the Board of Directors Office of the Inspector General Oversight Committee will be held on July 9, 1991. The meeting will commence at 9:30 a.m. in the Bryce Room of the Hyatt Regency Washington Hotel, 525 New Jersey Avenue, N.W., Washington, D.C.

CHANGES IN THE MEETING:

The meeting will commence at 8:15 a.m. on July 9, 1991;

The meeting will be held at the Hyatt Regency Washington Hotel at 400 New Jersey Avenue, N.W., Washington, D.C., not at 525 New Jersey Avenue, N.W. as previously announced;

The meeting will commence in the Concord Room; and

The minutes of the Office of the Inspector General Oversight Committee meeting of June 24, 1991 will be subject to approval, not the minutes of the June 3, 1991 meeting as previously announced.

PLACE: Hyatt Regency Washington, 400 New Jersey Avenue, N.W., The Concord Room, Washington, D.C. 20001, (202) 737-1234.

STATUS OF MEETING: Open [A portion of the meeting will be closed, pursuant to the following vote by a majority of the Board of Directors, to discuss personnel-related and personal matters as authorized by the relevant sections of the Government in the Sunshine Act [5 U.S.C. 552b(c) (2) and (6)], and the corresponding regulations of the Legal Services Corporation [45 C.F.R. Sections 1622.5 (a) and (e)].

Board member	Vote
Howard Dana, Jr.	Yes.
J. Blakeley Hall	Yes.
Jo Betts Love	Yes.
Penny L. Pullen	Yes.
Thomas D. Rath	Yes.
Basile Uddo	Yes.
George W. Wittgraf	Yes.
Jeanine E. Wolbeck	Yes.

A portion of the meeting will be closed to preserve the applicants' personal privacy and to discuss strictly internal personnel rules and practices. Specifically, the Committee will interview candidates for the position of Inspector General in the closed session. Additionally, the Committee may resolve to recommend certain candidates interviewed by the Committee to the Board of Directors for further consideration by the Board of Directors for the position of Inspector General.

MATTERS TO BE CONSIDERED:

Open Session

1. Approval of Agenda.
2. Approval of Minutes of June 24, 1991 Meeting.

Closed Session

3. Interview of Applicants for the Position of Inspector General of the Legal Services Corporation and Consider and/or Settle on Possible Recommendation to the Board of Directors Regarding Applicants to be Considered by the Board of Directors for Position of Inspector General.

CONTACT PERSON FOR INFORMATION: Patricia D. Batie, Executive Office, (202) 863-1839.

Date Issued: June 26, 1991.
Patricia D. Batie,
Corporate Secretary.

George W. Wittgraf	Yes
Jeanine E. Wolbeck	Yes

A portion of the meeting will be closed to preserve the personal privacy of the employees and applicants for positions, to discuss strictly internal personnel rules and practices, and to discuss matters related to ongoing investigations and litigation. Specifically, the Board of Directors will hear the Corporation's Acting General Counsel's report on pending litigation to which the Corporation is a party, and may discuss pending personnel actions, to include the status of the recruitment effort related to the position of Inspector General of the Legal Services Corporation. In addition, the Board of Directors may discuss matters related to current investigations being undertaken by the Corporation's Office of the Inspector General, as well as matters related to litigation in which the Corporation is involved.

MATTERS TO BE CONSIDERED:

1. Approval of Agenda.
2. Approval of Minutes—April 29, 1991.
3. Chairman's Report.
4. President's Report.
5. Consideration of A Motion to Amend Resolution on Board Compensation Adopted on March 25, 1991.
6. Consideration of Report by Office of the Inspector General Oversight Committee.
7. Consideration of Legislative Report and Report by Special Reauthorization Committee.
8. Consideration of Report by Staff on Status of the Competition Study Authorized by the Board of Directors at its March 25, 1991 Meeting.
9. Consideration of Report by Staff on Status of Pending Regulations.
10. Consideration of Annual Meeting with Legal Services Project Representatives.
11. Consideration of Meeting Schedule of the Board of Directors for the Remainder of 1991.
12. Consideration of and, if necessary, Vote on Closure of a Portion of All or Some Meetings Scheduled in Item 11 of this Agenda.

CONTACT PERSON FOR INFORMATION: Patricia D. Batie, Executive Office, (202) 863-1839.

Date Issued: June 26, 1991.
Patricia D. Batie,
Corporate Secretary.

Correction

In rule document 91-14258 beginning on page 28003, in the issue of Tuesday, June 18, 1991, make the following corrections:

§ ———.101 [Corrected]

1. On page 28012, in the third column, in § ———.101(b)(5), in the third line "of" should read "or".

§ ———.103 [Corrected]

2. On page 28014, in the third column, in § ———.103(f), in the ninth line"§ ———.03" should read "§ ———.103".

3. On page 28019, in the second column, in the first line "Dated: January 21, 1991.> should read "Dated: December 20, 1990.".

4. On page 28023, in the first column, in the second line from the bottom "need" should read "end".

5. On pages 28018-28023, the footnote reference (1) is added at the end of each separate agency's adopting statement (following the word "document." and preceding the CFR part heading). On page 28023 the footnote text set forth below is added at the end of the first column.

[1]Due to an error in the order of the document pages submitted to the Office of the Federal Register, the text of the common rule appears at the end of the common preamble for this document at page 28012.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

41 CFR Parts 51–1, 51–2, 51–3, 51–4, 51–5, 51–6, 51–7, 51–8, 51–9, and 51–10 (Ch. 51)

Revisions to Committee Regulations

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule is intended to clarify and update the language of regulations governing the Committee for Purchase from the Blind and Other Severely Handicapped and its administration of the Javits-Wagner-O'Day (JWOD) Act. The rule states Government and Committee policy on implementation of the JWOD Act and the duties and responsibilities of the Committee, central nonprofit agencies, nonprofit agencies employing persons who are blind or have severe disabilities, and Government agencies in connection with the JWOD Program. Procedures for environmental analysis are revised in accordance with current guidance from the Council on Environmental Quality. The minimum figure below which fees will not be charged for processing requests under the Freedom of Information Act is changed. The proposed rule will lessen the administrative burden of operating the JWOD Program without increasing the burden on its participants.

DATES: Comments must be submitted on or before August 27, 1991.

ADDRESSES: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202–3509.

FOR FURTHER INFORMATION CONTACT: Beverly L. Milkman, (703) 557–1145. Copies of this notice will be made available on request in computer diskette format.

SUPPLEMENTARY INFORMATION: This proposed regulation is the result of an extensive review and update by the Committee of its regulations. The regulations have not been reviewed in this comprehensive a fashion since they were promulgated in 1973.

The proposed regulation reflects a general attempt to clarify regulatory language and reflect actual practice at this time. Obsolete references have been updated: e.g., "Department of Health, Education and Welfare" and "Defense Supply Agency" are now "Department of Education" and "Defense Logistics Agency." Except where quoting the Javits-Wagner-O'Day (JWOD) Act, terminology referring to the community the JWOD Program serves has been modernized as well and changed to reflect a "people first" orientation. "Workshop for the blind" and "workshop for the other severely handicapped," are now "nonprofit agency for the blind" and "nonprofit agency employing persons with severe disabilities." "National Industries for the Severely Handicapped" has been changed to "NISH" to reflect a name change effective May 1, 1991. The term "ordering office" has been deleted in favor of the more broadly defined "contracting activity."

Among the more significant changes made by this proposed regulation, part 51–1, General, has been revised to state at the very beginning of the regulations that it is the policy of the Government to increase employment and training opportunities for persons who are blind or have other severe disabilities through the JWOD Program, and that it is the policy of the Committee to encourage all Federal entities and employees to provide the necessary support to ensure that the JWOD Act is implemented in an effective manner. Part 51–1 has also been rearranged to put the discussion of mandatory source priorities ahead of the list of definitions.

Part 51–2 on Committee responsibilities has been expanded and rearranged to relate more clearly to the steps in the Procurement List addition process. A time limitation on submitting reconsideration requests has been added to § 51–2.6 on Committee reconsideration of Procurement List decisions. A new § 51–2.9 has been added to inform the public of the procedure for presentations at Committee meetings by persons interested in proposed additions to the Procurement List. This information is currently contained in an internal memorandum. In part 51–3 on central nonprofit agencies (CNAs), a new provision has been added to the list of CNA responsibilities under the JWOD Act to permit them to perform other administrative functions reasonably related to the JWOD Program but not specifically mentioned in the list (§ 51–3.2(m)).

Several changes have been made in part 51–4 on nonprofit agency responsibilities. The responsibility of a nonprofit agency to maintain assessments of a direct labor individual's ability to engage in normal competitive employment has been clarified in § 51–4.3. Section 51–4.4 on subcontracting has been changed to encourage subcontracting to other nonprofit agencies, as well as small businesses, and to provide additional guidance on the permissible limits of subcontracting portions of production processes for commodities on the Procurement List. Former § 51–4.5 on production of commodities has been deleted because the matter is addressed in one of the expanded provisions on suitability of an item for addition to the Procurement List, at § 51–2.4(c). Former § 51–4.6 has been renumbered to § 51–4.5 and changed to clarify the procedure for dealing with violations of nonprofit agency responsibilities and to state that removal from the JWOD Program is a possible penalty.

Part 51–5, Procurement Requirements and Procedures, which addresses requirements placed on Government contracting and ordering personnel by the JWOD Program, has been split into two parts reflecting the two areas it covers. The new part 51–5, Contracting Requirements, deals with general requirements, mandatory procurement, purchase exceptions, pricing, and related matters. A new part 51–6, Procurement Procedures, provides more order-specific guidance on matters such as orders and allocations, complaints and disputes, and specification changes for individual commodities and services.

Among the changes in the new part 51–5, the mandatory nature of JWOD procurements has been made clearer in § 51–5.2. Granting of purchase exceptions has been slightly restricted and the threshold for Committee approval of CNA action has been raised from $2,500 to $25,000, the current Government small purchase limitation (§ 51–5.4). Section 51–5.7 on payments for orders, which predates the Prompt Payment Act, has been brought into line with that Act. A new § 51–5.8 has been added to permit the Committee to investigate alleged violations of the JWOD Act or these regulations by Government entities.

The new part 51–6 clarifies guidance on the direct order and allocation processes, waivers of specifications, orders in excess of nonprofit agency capability, and deletions from the Procurement List. A new § 51–6.3 encourages the use of long-term ordering agreements. A new § 51–6.14 expands a former provision giving the Committee a role in quality complaints not resolved at a lower level to cover any disputes arising under the new part 51–6.

Creation of a new part 51–6 has required a renumbering of existing parts 51–6 through 51–9 as parts 51–7 through 51–10. The new part 51–7, Procedures for Environmental Analysis, is a complete rewrite of the existing part 51–6 following a model provided by the Council on Environmental Quality. It is expected to lessen the administrative burden in this area connected with Procurement List additions.

The only change in the text of the last three parts of the regulations appears at § 51–8.44(c), where the threshold for charging fees for requests under the Freedom of Information Act is lowered from $20 to $10, the threshold used by the General Services Administration, and the rationale for the threshold is stated in terms consistent with that Act.

I certify that this proposed revision of the Committee regulations will not have a significant economic impact on a substantial number of small entities because the revisions basically update and clarify program policies and procedures and do not essentially change the impact of the regulations upon small entities.

Paperwork Reduction Act

Sections 51–4.2 and 51–4.3 contain information collection and record keeping requirements. Although these requirements are unchanged from those in the current Committee regulations, which have been approved by the Office of Management and Budget (OMB), the Committee will submit a copy of these sections to OMB for its review as required by the Paperwork Reduction Act, 44 U.S.C. 3504(h).

Nonprofit agencies employing persons with severe disabilities throughout the United States may qualify to participate in the JWOD Program, which currently provides employment for nearly 19,000 Americans with severe disabilities. The Committee needs and uses the information submitted by these agencies and the records maintained by them to determine that they meet the regulatory requirements contained in the sections listed above. The annual public reporting and record keeping burden for this information collection by each nonprofit agency entering or participating in the JWOD Program is estimated at approximately six hours per agency, including the time for gathering the data needed and completing and reviewing the collection of information.

Organizations and individuals desiring to submit comments on the information collection and record keeping requirements should direct them to the Office of Information and Regulatory Affairs, OMB, room 3002, New Executive Office Building, Washington, DC 20503; Attention: Daniel J. Chenok.

Chapter 51 of title 41 of the Code of Federal Regulations is proposed to be amended as follows:

1. Parts 51–1 through 51–5 are revised to read as follows:

PART 51–1—GENERAL

Sec.

51–1.1 Policy.
51–1.2 Mandatory source priorities.
51–1.3 Definitions.

Authority: 41 U.S.C. 46–46c.

§ 51–1.1 Policy.

(a) It is the policy of the Government to increase employment and training opportunities for persons who are blind or have other severe disabilities through the purchase of commodities and services from qualified nonprofit agencies employing persons who are blind or have other severe disabilities. The Committee for Purchase from the Blind and Other Severely Handicapped (hereinafter the Committee) was established by the Javits-Wagner-O'Day Act, Public Law 92–28, 85 Stat. 77 (1971), as amended, 42 U.S.C. 46–48c (hereinafter the JWOD Act). The Committee is responsible for implementation of a comprehensive program designed to enforce this policy.

(b) It is the policy of the Committee to encourage all Federal entities and employees to provide the necessary support to ensure that the JWOD Act is implemented in an effective manner. This support includes purchase of products and services published on the Committee's Procurement List through appropriate channels from nonprofit agencies employing persons who are blind or have other severe disabilities designated by the Committee; recommendations to the Committee of new commodities and services suitable for addition to the Procurement List; and cooperation with the Committee and the central nonprofit agencies in the provision of such data as the Committee may decide is necessary to determine suitability for addition to the Procurement List.

§ 51–1.2 Mandatory source priorities.

(a) The JWOD Act mandates that commodities or services on the Procurement List required by Government entities be procured, as prescribed in this regulation, from a nonprofit agency employing persons who are blind or have other severe disabilities, at a price established by the Committee, if that commodity or service is available within the normal period required by that Government entity. Except as provided in paragraph (b) of this section, the JWOD Act has priority, under the provisions of 41 U.S.C. 48, over any other supplier of the Government's requirements for commodities and services on the Committee's Procurement List.

(b) Federal Prison Industries, Inc. has priority, under the provisions of 18 U.S.C. 4124, over nonprofit agencies employing persons who are blind or have other severe disabilities in furnishing commodities for sale to the Government. All or a portion of the Government's requirement for a commodity for which Federal Prison Industries, Inc. has exercised its priority may be added to the Procurement List. However, such addition is made with the understanding that procurement under the JWOD Act shall be limited to that portion of the Government's requirement for the commodity which is not available or not required to be procured from Federal Prison Industries, Inc.

(c) The JWOD Act requires the Committee to prescribe regulations providing that, in the purchase by the Government of commodities produced and offered for sale by qualified nonprofit agencies employing persons who are blind and nonprofit agencies employing persons who have other

VOL
56
ISS
125
JE
28
1991
UMI

severe disabilities, priority shall be accorded to commodities produced and offered for sale by qualified nonprofit agencies for the blind. In approving the addition of commodities, to the Procurement List, the Committee accords priority to nonprofit agencies for the blind. Nonprofit agencies for the blind and nonprofit agencies employing persons with severe disabilities have equal priority for services.

§ 51-1.3 Definitions.

As used in this chapter:

Agency and *Federal agency* mean *Entity of the Government*, as defined herein.

Blind means an individual or class of individuals whose central visual acuity does not exceed 20/200 in the better eye with correcting lenses or whose visual acuity, if better than 20/200, is accompanied by a limit to the field of vision in the better eye to such a degree that its widest diameter subtends an angle no greater than 20 degrees.

Central nonprofit agency means an agency organized under the laws of the United States or of any State, operated in the interest of the blind or persons with other severe disabilities, the net income of which does not inure in whole or in part to the benefit of any shareholder or other individual, and designated by the Committee to facilitate the distribution (by direct allocation, subcontract, or any other means) of orders of the Government for commodities and services on the Procurement List among nonprofit agencies employing persons who are blind or have other severe disabilities, to provide information required by the Committee to implement the JWOD Program, and to otherwise assist the Committee in administering these regulations as set forth herein by the Committee.

Committee means the Committee for Purchase from the Blind and Other Severely Handicapped.

Contracting activity means any element of an entity of the Government that has responsibility for identifying and/or procuring Government requirements for commodities or services. Components of a contracting activity, such as a contracting office and an ordering office, are incorporated in this definition, which includes all offices within the definitions of "contracting activity," "contracting office," and "contract administration office" contained in the Federal Acquisition Regulation, 48 CFR 2.101.

Direct labor means all work required for preparation, processing, and packing of a commodity or work directly related to the performance of a service, but not supervision, administration, inspection or shipping.

Fiscal year means the 12-month period beginning on October 1 of each year.

Government and *Entity of the Government* mean any entity of the legislative branch or the judicial branch, any executive agency, military department, Government corporation, or independent establishment, the U.S. Postal Service, and any nonappropriated fund instrumentality under the jurisdiction of the Armed Forces.

Interested person means an individual or legal entity affected by a proposed addition of a commodity or service to the Procurement List or a deletion from it.

JWOD Program means the program authorized by the JWOD Act to increase employment and training opportunities for persons who are blind or have other severe disabilities through Government purchasing of commodities and services from nonprofit agencies employing these persons.

Military resale commodities means commodities on the Procurement List sold for the private, individual use of authorized patrons of Armed Forces commissaries and exchanges, or like activities of other Government departments and agencies.

Nonprofit agency (formerly workshop) means a nonprofit agency for the blind or a nonprofit agency employing persons with severe disabilities, as appropriate.

Other severely handicapped and *severely handicapped individuals* (hereinafter persons with severe disabilities) mean a person other than a blind person who has a severe physical or mental impairment (a residual, limiting condition resulting from an injury, disease, or congenital defect) which so limits the person's functional capabilities (mobility, communication, self-care, self-direction, work tolerance or work skills) that the individual is unable to engage in normal competitive employment over an extended period of time.

(1) Capability for normal competitive employment shall be determined from information developed by an ongoing evaluation program conducted by or for the nonprofit agency and shall include as a minimum, a preadmission evaluation and a reevaluation at least annually of each individual's capability for normal competitive employment.

(2) A person with a severe mental or physical impairment who is able to engage in normal competitive employment because the impairment has been overcome or the condition has been substantially corrected is not "other severely handicapped" within the meaning of the definition.

Participating nonprofit agency (formerly participating workshop) means any nonprofit agency which has been authorized by the Committee to furnish a commodity or service to the Government under the JWOD Act.

Procurement List means a list of commodities (including military resale commodities) and services which the Committee has determined to be suitable to be furnished to the Government by nonprofit agencies for the blind or nonprofit agencies employing persons with severe disabilities pursuant to the JWOD Act and these regulations.

Qualified nonprofit agency for other severely handicapped (hereinafter nonprofit agency employing persons with severe disabilities) (formerly workshop for other severely handicapped) means an agency organized under the laws of the United States or any State, operated in the interests of persons with severe disabilities who are not blind, and the net income of which does not inure in whole or in part to the benefit of any shareholder or other individual; which complies with applicable occupational health and safety standards prescribed by the Secretary of Labor; and which in furnishing commodities and services (whether or not the commodities or services are procured under these regulations) during the fiscal year employs persons with severe disabilities (including blind) for not less than 75 percent of the work-hours of direct labor required to furnish such commodities or services.

Qualified nonprofit agency for the blind (hereinafter nonprofit agency for the blind (formerly workshop for the blind) means an agency organized under the laws of the United States or of any State, operated in the interest of blind individuals, and the net income of which does not inure in whole or in part to the benefit of any shareholder or other individual; which complies with applicable occupational health and safety standards prescribed by the Secretary of Labor; and which in furnishing commodities and services (whether or not the commodities or services are procured under these regulations) during the fiscal year employs blind individuals for not less than 75 percent of the work-hours of direct labor required to furnish such commodities or services.

State means the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any territory remaining under the jurisdiction of the Trust Territory of the Pacific Islands.

PART 51-2—COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

Sec.

51-2.1 Membership.
51-2.2 Powers and responsibilities.
51-2.3 Notice of proposed addition.
51-2.4 Determination of suitability.
51-2.5 Committee decision.
51-2.6 Reconsideration of Committee decision.
51-2.7 Fair market price.
51-2.8 Procurement list.
51-2.9 Oral presentations by interested persons at Committee meetings.

Authority: 41 U.S.C. 46-48c.

§ 51-2.1 Membership.

Under the JWOD Act, the Committee is composed of 15 members appointed by the President. There is one representative from each of the following departments or agencies of the Government: The Department of Agriculture, the Department of Defense, the Department of the Army, the Department of the Navy, the Department of the Air Force, the Department of Education, the Department of Commerce, the Department of Justice, the Department of Labor, the Department of Veterans Affairs, and the General Services Administration. Four members are private citizens: One who is conversant with the problems incident to the employment of blind individuals; one who is conversant with the problems incident to the employment of persons with other severe disabilities; one who represents blind individuals employed in qualified nonprofit agencies for the blind; and one who represents persons with severe disabilities (other than blindness) employed in qualified nonprofit agencies employing persons with severe disabilities.

§ 51-2.2 Powers and responsibilities.

The Committee is responsible for carrying out the following functions in support of its mission of providing employment and training opportunities for persons who are blind or have other severe disabilities and, whenever possible, preparing those individuals to engage in competitive employment:

(a) Establish rules, regulations, and policies to assure effective implementation of the JWOD Act.

(b) Determine which commodities and services procured by the Federal Government are suitable to be furnished by qualified nonprofit agencies employing persons who are blind or have other severe disabilities and add those items to the Committee's Procurement List. Publish notices of addition to the Procurement List in the **Federal Register**. Disseminate information on Procurement List items to Federal agencies. Delete items no longer suitable to be furnished by nonprofit agencies.

(c) Determine fair market prices for items added to the Procurement List and revise those prices in accordance with changing market conditions to assure that the prices established are reflective of the market.

(d) Monitor nonprofit agency compliance with Committee regulations and procedures.

(e) Inform Federal agencies about the JWOD Program and the statutory mandate that items on the Procurement List be purchased from qualified nonprofit agencies, and encourage and assist entities of the Federal Government to identify additional commodities and services that can be purchased from qualified nonprofit agencies. To the extent possible, monitor Federal agencies' compliance with JWOD requirements.

(f) Designate, set appropriate ceilings on fee paid to these central nonprofit agencies by nonprofit agencies selling items under the JWOD Program, and provide guidance to central nonprofit agencies engaged in facilitating the distribution of Government orders and helping State and private nonprofit agencies participate in the JWOD Program.

(g) Conduct a continuing study and evaluation of its activities under the Act for the purpose of assuring effective and efficient administration of the Act. The Committee may study, independently, or in cooperation with other public or nonprofit private agencies, problems relating to:

(1) The employment of the blind or individuals with other severe disabilities.

(2) The development and adaptation of production methods which would enable a greater utilization of these individuals.

(h) Provide technical assistance to the central nonprofit agencies and the nonprofit agencies to contribute to the successful implementation of the JWOD Act.

(i) Assure that nonprofit agencies employing persons who are blind will have priority over nonprofit agencies employing persons with severe disabilities in furnishing commodities.

§ 51-2.3 Notice of proposed addition.

At least 30 days prior to the Committee's consideration of the addition of a commodity or service to the Procurement List, the Committee publishes a notice in the **Federal Register** announcing the proposed addition and providing interested persons an opportunity to submit written data or comments on the proposed addition.

§ 51-2.4 Determination of suitability.

The Committee has established the following criteria, each of which must be satisfied, for determining if a commodity or service is suitable for addition to the Procurement List:

(a) *Employment potential.* The proposed addition must demonstrate a potential to generate employment for persons who are blind or have other severe disabilities.

(b) *Nonprofit agency qualifications.* The nonprofit agency (or agencies) proposing to furnish the item must qualify as a nonprofit agency serving persons who are blind or have other severe disabilities, as set forth in part 51-4 of this chapter.

(c) *Capability.* The nonprofit agency (or agencies) desiring to furnish a commodity or service under the JWOD program must satisfy the Committee as to the extent of the labor operations to be performed and that it will have the capability to meet Government quality standards and delivery schedules by the time it assumes responsibility for supplying the Government.

(d) *Fair market price.* The commodity or service will be provided at a fair market price under the procedures established by § 51-2.7.

(e) *Level of impact on the current or most recent contractor for the commodity or service.* In deciding whether or not a proposed addition to the Procurement List would have a severe adverse impact on the current or most recent contractor for the specific commodity or service, the Committee gives particular attention to:

(1) The possible impact on the contractor's sales. In addition, the Committee considers the effects of previous Committee actions.

(2) Whether that contractor has been a continuous supplier to the Government of the specific commodity or service proposed for addition and is, therefore, more dependent on the income from such sales to the Government.

(3) Any substantive comments received as the result of the notice of the proposed addition in the **Federal Register**.

§ 51-2.5 Committee decision.

The Committee considers the particular facts and circumstances in each case in determining if a commodity

VOL
56
ISS
125
JE
28
1991
UMI

or service is suitable for addition to the Procurement List. When the Committee determines that a proposed addition to the Procurement List would have a severe adverse impact on a particular company, it takes this fact into consideration in deciding whether or not the commodity or service in question, or a portion of the Government requirement for it, should be added to the Procurement List. If the Committee decides to add a commodity or service to the Procurement List, that decision is announced in the Federal Register with a notice that includes information on the effective date of the addition.

§ 51-2.6 Reconsideration of Committee decision.

The Committee may reconsider its decision to add items to the Procurement List if it receives pertinent information which was not before it when it initially made the decision. Unless otherwise provided by the Committee, requests for reconsideration from interested persons must be received by the Committee within 60 days following the effective date of the addition in question. A request for reconsideration must include the specific facts believed by the interested person to justify a decision by the Committee to modify or reverse its earlier action.

§ 51-2.7 Fair market price.

The Committee is responsible for determining the fair market prices, and changes thereto, for commodities or services on the Procurement List. The Committee considers recommendations from the contracting activities and the central nonprofit agency concerned. Recommendations for fair market prices or changes thereto shall be submitted by the nonprofit agencies to the central nonprofit agency representing the nonprofit agency. Contracting activities should submit recommendations directly to the Committee. The central nonprofit agency shall analyze the data and submit a recommended fair market price to the Committee along with the detailed justification necessary to support the recommended price.

§ 51-2.8 Procurement list.

(a) The Committee maintains a Procurement List which includes the commodities and services which shall be procured by Government departments and agencies under the JWOD Act from the nonprofit agency(ies) designated by the Committee. Copies of the Procurement List, together with information on procurement requirements and procedures, are available to contracting activities upon request.

(b) For commodities, including military resale commodities, the Procurement List identifies the name and national stock number or item designation for each commodity, and where appropriate, any limitation on the portion of the commodity which must be procured under the JWOD Act.

(c) For services, the Procurement List identifies the type of service to be furnished, the Government department or agency responsible for procuring the service, and, where appropriate, the activity or item to be serviced.

(d) Additions to and deletions from the Procurement List are published in the Federal Register as they are approved by the Committee.

§ 51-2.9 Oral presentations by interested persons at Committee meetings.

(a) Upon written request from an interested person, that person may, at the discretion of the Committee Chair, be permitted to appear before the Committee to present views orally. Generally, only those persons who have raised significant issues which, if valid, could influence the Committee's decision in the matter under consideration will be permitted to appear.

(b) When the Chair has approved the appearance before the Committee of an interested person who has made a written request:

(1) The name of the spokesperson and the names of any other persons planning to appear shall be provided to the Committee staff by telephone at least three working days before the meeting.

(2) In the absence of prior authorization by the Chair, only one person representing a particular agency or organization will be permitted to speak.

(3) Oral statements to the Committee and written material provided in conjunction with the oral statements shall be limited to issues addressed in written comments which have previously been submitted to the Committee as the result of notice of proposed rulemaking in the Federal Register.

(4) Written material to be provided in conjunction with the oral presentation and an outline of the presentation shall be submitted to the Committee staff at least three working days before the meeting.

(c) The Committee may also invite other interested persons to make oral presentations at Committee meetings when it determines that these persons can provide information which will assist the Committee in making a decision on a proposed addition to the Procurement List. Terms of appearance of such persons shall be determined by the Chair.

PART 51-3—CENTRAL NONPROFIT AGENCIES

Sec.
51-3.1 General.
51-3.2 Responsibilities under the JWOD Program.
51-3.3 Assignment of commodity or service.
51-3.4 Distribution of orders.
51-3.5 Fees.
51-3.6 Reports to central nonprofit agencies.

Authority: 41 U.S.C. 46-48c.

§ 51-3.1 General.

Under the provisions of section 2(c) of the JWOD Act, the following are currently designated central nonprofit agencies: (a) To represent nonprofit agencies for the blind: National Industries for the Blind.

(b) To represent nonprofit agencies employing persons with other severe disabilities: NISH.

§ 51-3.2 Responsibilities under the JWOD Program.

Each central nonprofit agency shall:

(a) Represent its participating nonprofit agencies in dealing with the Committee under the JWOD Act.

(b) Evaluate the qualifications and capabilities of its nonprofit agencies and provide the Committee with pertinent data concerning its nonprofit agencies, their status as qualified nonprofit agencies, their manufacturing or service capabilities, and other information concerning them required by the Committee.

(c) Obtain from Federal contracting activities such procurement information as is required by the Committee to determine the suitability of a commodity or service being recommended to the Committee for addition to the Procurement List.

(d) Recommend to the Committee, with appropriate justification including recommended prices, suitable commodities or services for procurement from its nonprofit agencies.

(e) Distribute within the policy guidelines of the Committee (by direct allocation, subcontract, or any other means) orders from Government activities among its nonprofit agencies.

(f) Maintain the necessary records and data on its nonprofit agencies to enable it to allocate orders equitably.

(g) Oversee and assist its nonprofit agencies to insure contract compliance in furnishing a commodity or a service.

(h) As market conditions change, recommend price changes with appropriate justification for assigned commodities or services on the Procurement List.

(i) Monitor and inspect the activities of its nonprofit agencies to ensure compliance with the JWOD Act and appropriate regulations.

(j) When authorized by the Committee, enter into contracts with Federal contracting activities for the furnishing of commodities or services provided by its nonprofit agencies.

(k) At the time designated by the Committee, submit a completed, original copy of the appropriate Initial Certification (Committee Form 401 or 402) for the nonprofit agency concerned. This requirement does not apply to a nonprofit agency that is already authorized to furnish a commodity or service under the JWOD Act.

(l) Review and forward to the Committee by December 15 of each year a completed, original copy of the appropriate Annual Certification (Committee Form 403 or 404) for each of its participating nonprofit agencies covering the fiscal year ending the preceding September 30.

(m) Perform other JWOD administrative functions, including activities to increase Government and public awareness of the JWOD Act subject to the oversight of the Committee.

§ 51-3.3 Assignment of commodity or service.

(a) The assignment of a commodity or service to a central nonprofit agency for the purpose of evaluating its potential for possible future addition to the Procurement List shall be as agreed between the two central nonprofit agencies, except for commodities proposed by NISH when the National Industries for the Blind has exercised its priority. The Committee shall initially assign these commodities to the National Industries for the Blind.

(b) NISH, at the time it requests a decision from the National Industries for the Blind on the waiver or exercise of the blind priority for a commodity, shall provide to the National Industries for the Blind the procurement information necessary for the National Industries for the Blind to make a determination on the waiver or exercise of its priority. The National Industries for the Blind shall normally provide its decision within 30 days, but not later than 60 days after receipt of the essential procurement information it requires. The time for this decision may be extended beyond 60 days by mutual agreement between the two central nonprofit agencies. Disagreements on extensions shall be referred to the Committee for resolution.

(c) The National Industries for the Blind shall notify NISH and the Committee of its decision to exercise the blind priority and shall complete the essential steps to place the commodity on the Procurement List within nine months after the Committee is notified. The Committee may extend the nine-month period when the National Industries for the Blind has been delayed by conditions beyond its control. Upon expiration of the assignment period, the Committee shall reassign the commodity to NISH for development by its nonprofit agencies.

(d) The appropriate central nonprofit agency shall obtain a decision from the Federal Prison Industries on the waiver or exercise of its priority for commodities. Procurement information required by the Federal Prison Industries to make a determination on the waiver or exercise of its priority shall be provided by the central nonprofit agency at the time it requests the waiver. The Federal Prison Industries shall provide its decision to the central nonprofit agency within 30 days, but not later than 60 days after it receives the essential procurement information. The period for the decision may be extended beyond 60 days by mutual agreement between the Federal Prison Industries and the central nonprofit agency. Disagreements on extensions shall be referred by the central nonprofit agency to the Committee for resolution with the Federal Prison Industries.

(e) The central nonprofit agency shall provide to the Committee written documentation from the Federal Prison Industries indicating its decision on the waiver or exercise of its priority at the time it requests the addition of the commodity to the Procurement List. NISH shall also include the written decision from the National Industries for the Blind indicating its waiver of the blind priority.

§ 51-3.4 Distribution of orders.

Central nonprofit agencies shall distribute orders from the Government only to nonprofit agencies which the Committee has approved to furnish the specific commodity or service. When the Committee has approved two or more nonprofit agencies to furnish a specific commodity or service, the central nonprofit agency shall distribute orders among those nonprofit agencies in a fair and equitable manner.

§ 51-3.5 Fees.

The fees the central nonprofit agency shall charge nonprofit agencies for facilitating participation by their nonprofit agencies under the JWOD Act shall not exceed the fee limit approved by the Committee.

§ 51-3.6 Reports to central nonprofit agencies.

Any information, other than that contained in the Annual Certification required by § 51-4.3(a) of this chapter, which a central nonprofit agency requires its nonprofit agencies to submit on an annual basis, shall be requested separately from the Annual Certification. If the information is being sought in response to a request by the Committee, nonprofit agencies shall be advised of that fact and the central nonprofit agency shall, prior to distribution, provide to the Committee a copy of each form which it plans to use to obtain such information from its nonprofit agencies.

PART 51-4—NONPROFIT AGENCIES

Sec.
51-4.1 General.
51-4.2 Initial qualification.
51-4.3 Maintaining qualification.
51-4.4 Subcontracting.
51-4.5 Violations.

Authority: 41 U.S.C. 46-48c.

§ 51-4.1 General.

To participate in the program established by the JWOD Act, a nonprofit agency shall be represented by the central nonprofit agency assigned by the Committee on the basis of the nonprofit agency's articles of incorporation and bylaws.

§ 51-4.2 Initial qualification.

(a) To qualify for participation under the JWOD Act:

(1) Except as provided in paragraph (a)(2) of this section, a nonprofit agency shall submit to the Committee through its central nonprofit agency the following documents, transmitted by a letter signed by an officer of the corporation or chief executive:

(i) A legible copy (preferably a photocopy) of the articles of incorporation showing the date of filing and the signature of an appropriate State official.

(ii) A copy of the bylaws certified by an officer of the corporation.

(iii) If the articles of incorporation or bylaws do not include a statement to the effect that no part of the net income of the nonprofit agency may inure to the benefit of any shareholder or other individual, one of the following shall be submitted:

(A) A certified true copy of the State statute under which the nonprofit

VOL 56 ISS 125 JE 28 1991 UMI

agency was incorporated which includes wording to the effect that no part of the net income of the nonprofit agency may inure to the benefit of any shareholder or other individual.

(B) A copy of a resolution approved by the governing body of the corporation, certified by an officer of the corporation, to the effect that no part of the net income of the nonprofit agency may inure to the benefit of any shareholder or other individual.

(2) A State-owned or State-operated nonprofit agency for persons who are blind or have other severe disabilities, or a nonprofit agency established or authorized by a State statute other than the State corporation laws and not privately incorporated, shall submit to the Committee through its central nonprofit agency the following documents, transmitted by a letter signed by an officer of the wholly-owned State corporation or an official of the agency that directs the operations of the nonprofit agency, as applicable:

(i) A certified true copy of the State statute establishing or authorizing the establishment of nonprofit agency(ies) for persons who are blind or have other severe disabilities.

(ii) In the case of a wholly-owned State corporation, a certified true copy of the corporation bylaws; and, in the case of a State or local government agency, a certified true copy of implementing regulations, operating procedures, notice of establishment of the nonprofit agency, or other similar documents.

(b) The Committee shall review the documents submitted and, if they are acceptable, notify the nonprofit agency by letter, with a copy to its central nonprofit agency, that the Committee has verified its nonprofit status under the JWOD Act.

(c) A nonprofit agency shall submit two completed copies of the appropriate Initial Certification (Committee Form 401 or 402) to its central nonprofit agency at the time designated by the Committee. This requirement does not apply if a nonprofit agency is already authorized to furnish a commodity or service under the JWOD Act.

§ 51–4.3 Maintaining qualification.

(a) To maintain its qualification under the JWOD Act, each nonprofit agency authorized to furnish a commodity or a service shall continue to comply with the requirements of an "nonprofit agency for other severely handicapped" or a "nonprofit agency for the blind" as defined in § 51–1.3 of this chapter. In addition, each such nonprofit agency must submit to its central nonprofit agency by November 15 of each year, two completed copies of the appropriate Annual Certification covering the fiscal year ending the preceding September 30.

(b) In addition to paragraph (a) of this section, each nonprofit agency participating under the JWOD Act shall:

(1) Furnish commodities or services in strict accordance with Government orders.

(2) Comply with the applicable compensation, employment, and occupational health and safety standards prescribed by the Secretary of Labor.

(3) Comply with directives or requests issued by the Committee in furtherance of the objectives of the JWOD Act or its implementing regulations.

(4) Make its records available for inspection at any reasonable time to representatives of the Committee or the central nonprofit agency representing the nonprofit agency.

(5) Maintain records of direct labor hours performed in the nonprofit agency by each worker.

(6) Maintain a file on each blind individual performing direct labor which contains a written report reflecting visual acuity and field of vision of each eye, with best correction, signed by a person licensed to make such an evaluation.

(7) Maintain in the file for each blind individual performing direct labor annual reviews of ability to engage in normal competitive employment. These reviews must be signed by an individual qualified by training and/or experience to make this determination.

(8) Maintain an ongoing placement program operated by or for the nonprofit agency to include liaison with appropriate community services such as the State employment service, employer groups and others. Those individuals determined capable and desirous of normal competitive employment shall be assisted in obtaining such employment.

(9) Establish written procedures to encourage, where appropriate, filling of vacancies within the nonprofit agency by promotion of qualified employees who are blind or have other severe disabilities.

(10) Upon receipt of payment by the Government for commodities or services furnished under the JWOD Act, pay to the central nonprofit agency the fee not to exceed the limit authorized by the Committee under the authority of § 51–3.5 of this chapter.

(c) Each nonprofit agency employing persons with severe disabilities participating under the JWOD Act shall, in addition to the requirements of paragraphs (a) and (b) of this section, maintain in each individual with a severe disability's file:

(1) A written report signed by a licensed physician, psychiatrist, or qualified psychologist, as appropriate, reflecting the nature and extent of the disability or disabilities that cause such person to qualify as a person with a severe disability.

(2) Reports which state whether that individual is capable of engaging in normal competitive employment. These reports shall be signed by a person or persons qualified by training and experience to evaluate the work potential, interests, aptitudes, and abilities of persons with disabilities and shall normally consist of preadmission evaluations and reevaluations prepared at least annually. The file on individuals who have been in the nonprofit agency for less than two years shall contain the preadmission report and, where appropriate, the next annual reevaluation. The file on individuals who have been in the nonprofit agency for two or more years shall contain, as a minimum, the reports of the two most recent annual reevaluations.

(d) The information collection requirements of § 51–4.2 and § 51–4.3 and the record keeping requirements of § 51–4.3 have been approved by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act of 1980 (Pub. L. 96–511). The information collection requirements have been assigned the following OMB control numbers:

Committee form	OMB control No.
Committee form 401	3037–0004
Committee form 402	3037–0003
Committee form 403	3037–0001
Committee form 404	3037–0002

The record keeping requirements have been assigned OMB control number 3037–0005.

§ 51–4.4 Subcontracting.

(a) Nonprofit agencies shall seek broad competition in the purchase of materials and components used in the commodities and services furnished to the Government under the JWOD Act. Nonprofit agencies shall inform the Committee, through their central nonprofit agency, before entering into multiyear contracts for materials or components used in the commodities and services furnished to the Government under the JWOD Act.

(b) Each nonprofit agency shall accomplish the maximum amount of subcontracting with other nonprofit agencies and small business concerns that the nonprofit agency finds to be consistent both with efficient performance in furnishing commodities or services under the JWOD Act and maximizing employment for persons who are blind or have other severe disabilities.

(c) Nonprofit agencies may subcontract a portion of the process for producing a commodity on the Procurement List provided that the portion of the process retained by the prime nonprofit agency generates employment for persons who are blind or have other severe disabilities.

(d) A nonprofit agency may not subcontract the entire production process for all or a portion of an order without the Committee's prior approval.

§ 51–4.5 Violations.

(a) Any alleged violations of these regulations by a nonprofit agency shall be investigated by the appropriate central nonprofit agency which shall notify the nonprofit agency concerned and afford it an opportunity to submit a statement of facts and evidence. The central nonprofit agency shall report its findings to the Committee, together with its recommendation. In reviewing the case, the Committee may request the submission of additional evidence or may conduct its own investigation of the matter. Pending a decision by the Committee, the central nonprofit agency concerned may be directed by the Committee to temporarily suspend allocations to the nonprofit agency.

(b) If a nonprofit agency fails to correct its violations of these regulations, the Committee, after affording the nonprofit agency an opportunity to address the Committee on the matter, may terminate the nonprofit agency's eligibility to participate in the JWOD Program.

PART 51–5—CONTRACTING REQUIREMENTS

Sec.

51–5.1 General.
51–5.2 Mandatory procurement.
51–5.3 Scope of requirement.
51–5.4 Purchase exceptions.
51–5.5 Prices.
51–5.6 Shipping and packing.
51–5.7 Payments.
51–5.8 Violations.

Authority: 41 U.S.C. 46–48c.

§ 51–5.1 General.

(a) Contracting activities are encouraged to assist the Committee and the central nonprofit agencies in identifying suitable commodities and services to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities so that the Committee can attain its objective of increasing employment and training opportunities for individuals who are blind or have other severe disabilities. For items which appear to be suitable to be furnished by nonprofit agencies, the contracting activity should refer the candidate commodities and services to the Committee or a central nonprofit agency.

(b) Contracting activities shall provide the Committee and designated central nonprofit agencies with information needed to enable the Committee to determine whether a commodity or service is suitable to be furnished by a nonprofit agency. For commodities, information such as the latest solicitation and amendments, bid abstracts, procurement history, estimated annual usage quantities, and anticipated date of next solicitation issuance and opening may be needed. For services, similar information including the statement of work and applicable wage determination may be required. In order to assist in evaluating the suitability of an Office of Management and Budget Circular No. A–76 conversion, contracting activities should provide a copy of the draft statement of work and applicable wage determination to the central nonprofit agency upon its request.

§ 51–5.2 Mandatory procurement.

(a) Nonprofit agencies designated by the Committee are mandatory sources of supply for all Federal entities for commodities and services listed on the Procurement List, as provided in § 51–1.2 of this chapter.

(b) Purchases by Federal agencies shall be accomplished from sources listed in the Procurement List unless exception is authorized by the Committee.

(c) The Defense Logistics Agency (DLA), the General Services Administration (GSA), and the Department of Veterans Affairs (VA) are responsible for buying broad categories of common commodities from a central nonprofit agency or nonprofit agency(ies) and serve as the distribution agents thereof. Unless otherwise provided by the Committee, when a commodity is identified on the Procurement List as being available from DLA, GSA, or VA, Federal agencies shall order, and shall require other persons providing such commodities to them by contract to order, those commodities from the appropriate contracting agency in accordance with the requisitioning procedures of their agency.

(d) The Procurement List also identifies other Federal agencies with responsibility for purchasing commodities for contracting activities in their own agencies and, in some cases, contracting activities in other agencies and serving as the distribution agent thereof. In such cases, these contracting activities shall order, and shall require other persons providing such commodities to them by contract to order, the commodities from the appropriate contracting agency in accordance with the requisition procedures of their agency(ies).

(e) Commodities not available through paragraphs (c) or (d) of this section shall be ordered from the designated central nonprofit agency or nonprofit agency(ies).

(f) Procedures for obtaining military resale commodities are contained in § 51–6.4 of this chapter.

§ 51–5.3 Scope of requirement.

(a) When a commodity is included on the Procurement List, only the National Stock Number or item designation listed is covered by the mandatory requirement. In some instances, only a portion of the Government requirement for a National Stock Number or item designation is specified by the Procurement List. Where geographic areas, quantities, percentages or specific supply locations for a commodity are listed, the mandatory provisions of the JWOD Act apply only to the portion or portions of the commodity indicated by the Procurement List.

(b) For services, where an agency and location or geographic area are listed on the Procurement List, only the service for the location or geographic area listed must be procured from the nonprofit agency. Where no location or geographic area is indicated by the Procurement List, it is mandatory that the total Government requirement for that service be procured from a nonprofit agency.

§ 51–5.4 Purchase exceptions.

(a) A central nonprofit agency will normally grant a purchase exception for a contracting activity to procure from commercial sources commodities or services on the Procurement List when both of the following conditions are met:

(1) The central nonprofit agency or its nonprofit agency(ies) cannot furnish a commodity or service within the period specified, and

(2) The commodity or service is available from commercial sources in the quantities needed and significantly sooner than it will be available from the nonprofit agency(ies).

(b) The central nonprofit agency may grant a purchase exception when the quantity involved is not sufficient to be

VOL
56
ISS
125
JE
28
1991
UMI

furnished economically by the nonprofit agency(ies).

(c) The Committee may also grant a purchase exception for the reasons set forth in paragraphs (a) and (b) of this section.

(d) The central nonprofit agency shall obtain approval of the Committee before granting a purchase exception when the value of the procurement is $25,000 or more.

(e) When the central nonprofit agency grants a purchase exception under the above conditions, it shall do so promptly and shall specify the quantities and delivery period covered by the exception.

(f) When a purchase exception is granted under paragraph (a) of this section:

(1) Contracting activities shall initiate purchase actions within 15 days following the date of the purchase exception. The deadline may be extended by the central nonprofit agency with, in cases of procurements of $25,000 or more, the concurrence of the Committee.

(2) Contracting activities shall furnish a copy of the solicitation to the appropriate central nonprofit agency at the time it is issued, and a copy of the annotated bid abstract upon awarding of the commercial contract.

(g) Any decision by a central nonprofit agency regarding a purchase exception may be appealed to the Committee by the contracting activity.

§51-5.5 Prices.

(a) The prices for items on the Procurement List are fair market prices established by the Committee.

(b) Prices for commodities, except for military resale commodities, are for delivery aboard the vehicle of the initial carrier at point of production (f.o.b. origin), and include applicable packaging, packing, and marking.

(c) Price changes for commodities and services shall usually apply to orders received by the nonprofit agency on or after the effective date of the change. In special cases, after considering the views of the contracting activity, the Committee may make price changes applicable to orders received by the nonprofit agency prior to the effective date of the change.

(d) To assist the Committee in revising the fair market prices for services on the Procurement List, upon request from the central nonprofit agency, the contracting activity should take the following actions:

(1) Submit to the Department of Labor in a timely fashion a request for wage determination rate.

(2) Provide a copy of the new wage determination rate or the Department of Labor document stating that the wage determination rate is unchanged and a completed Standard Form 98, "Notice of Intention to Make a Service Contract and Response to Notice," to the central nonprofit agency at least 90 days before the beginning of the new service period.

(3) Provide to the central nonprofit agency at least 90 days before the beginning of the new service period a copy of the statement of work applicable to the new service period.

(e) If a contracting activity desires packing, packaging, or marking of products other than the standard pack or as provided in the Procurement List, the difference in cost thereof, if any, shall be added as a separate item on the purchase order.

§51-5.6 Shipping and packing.

For commodities, except for military resale commodities, delivery is accomplished when a shipment is placed aboard the vehicle of the initial carrier. Time of delivery is the date shipment is released to and accepted by the initial carrier. Method of transportation to destination shall normally be by Government bills of lading. However, for small shipments, the contracting activity may designate another method of transportation on its order. When shipments are under Government bills of lading, the bills of lading may accompany orders or be otherwise furnished, but they shall be supplied promptly. Failure by a contracting activity to furnish bills of lading promptly, or to designate a method of transportation, may result in an excusable cause for delay in delivery. When the nonprofit agency pays for transportation to destination, these costs shall be included as a separate item on the nonprofit agency's invoice and the nonprofit agency shall be reimbursed by the contracting activity for these costs.

§ 51-5.7 Payments.

Payments for products or services of persons who are blind or have other severe disabilities shall be made within 30 days after shipment or receipt of a proper invoice or voucher.

§ 51-5.8 Violations.

Any alleged violations of the JWOD Act or these regulations by entities of the Government shall be investigated by the Committee, which shall notify the entity and afford it an opportunity to submit a statement.

PARTS 51-7—51-10 [REDESIGNATED FROM PARTS 51-6—51-9]

2. Parts 51-6 through 51-9 are redesignated as parts 51-7 through 51-10 and the cross references revised accordingly.

3. A new part 51-6 is added to read as follows:

PART 51-6—PROCUREMENT PROCEDURES

Sec.
51-6.1 Direct order process.
51-6.2 Allocation process.
51-6.3 Long-Term Ordering Agreements.
51-6.4 Military resale commodities.
51-6.5 Adjustment and cancellation of orders.
51-6.6 Request for waiver of specification requirement.
51-6.7 Orders in excess of nonprofit agency capability.
51-6.8 Deletion of items from the Procurement List.
51-6.9 Correspondence and inquiries.
51-6.10 Quality of merchandise.
51-6.11 Quality complaints.
51-6.12 Specification changes and similar actions.
51-6.13 Replacement commodities.
51-6.14 Disputes.

Authority: 41 U.S.C. 46-48c.

§ 51-6.1 Direct order process.

(a) Once a commodity or service is added to the Procurement List, the central nonprofit agency may authorize the contracting activity to issue orders directly to a nonprofit agency without requesting an allocation for each order. This procedure is known as the direct order process.

(b) In these cases, the central nonprofit agency shall specify the normal leadtime required for orders transmitted directly to the nonprofit agencies. This method shall be used whenever possible since it eliminates double handling and decreases the time required for processing orders.

(c) An order for commodities or services shall provide leadtime sufficient for purchase of materials, production or preparation, and delivery or completion.

(d) The central nonprofit agency shall keep the contracting activity informed of any changes in leadtime experienced by its nonprofit agencies in order to keep to a minimum requests for extensions once an order is placed. Where, due to unusual conditions, an order does not provide sufficient leadtime, the central nonprofit agency or the individual nonprofit agency may request an extension of delivery or completion date which should be granted, if feasible. If extension of delivery or completion date is not feasible, the contracting activity shall:

(1) Notify the central nonprofit agency and the individual nonprofit agency(ies) as appropriate.

(2) Request the central nonprofit agency to reallocate or to issue a purchase exception authorizing procurement from commercial sources as provided in 51-5.4 of this chapter.

(e) The contracting activity shall promptly provide to the central nonprofit agency concerned a copy of all orders issued to nonprofit agencies.

(f) The written direct order authorization remains valid until it is revoked by the central nonprofit agency.

§ 51-6.2 Allocation process.

(a) In those cases where a direct order authorization has not been issued as described in § 51-6.1, the contracting activity shall submit written requests for allocation to the appropriate central nonprofit agency indicated by the Procurement List at the address listed below:

Agency	Agency symbol
National Industries for the Blind, 1901 North Beauregard Street, Suite 200, Alexandria, Virginia 22311-1727.	IB
NISH, 2235 Cedar Lane, Vienna, Virginia 22182-5200.	SH

(b) Requests for allocations shall contain, as a minimum:

(1) For commodities. Name, stock number, latest specification, quantity, unit price, and place and time of delivery.

(2) For services. Type and location of service required, latest specification, work to be performed, estimated volume, and time for completion.

(c) Contracting activities shall request allocations in sufficient time for the central nonprofit agency to reply, for the order(s) to be placed, and for the nonprofit agencies to furnish the commodity or service (see paragraph (i) of this section).

(d) When a commodity on the Procurement List also appears on the Federal Prison Industries' "Schedule of Products," the contracting activity shall obtain clearance from the Federal Prison Industries prior to requesting an allocation or placing an order directly to the nonprofit agency(ies).

(e) The central nonprofit agency shall make allocations to the appropriate nonprofit agency(ies) upon receipt of a request from the contracting activity and instruct that the orders be forwarded to the central nonprofit agency or direct to the nonprofit agency(ies) with a copy provided promptly to the central nonprofit agency.

(f) Central nonprofit agencies shall reply promptly to requests for allocation. When a request for allocation provides a delivery schedule (based on established lead times and time required for processing the allocation request) which cannot be met, the central nonprofit agency shall request a revision, which the contracting activity should grant, if feasible, or the central nonprofit agency shall issue a purchase exception authorizing procurement from commercial sources as provided in § 51-5.4 of this chapter.

(g) An allocation is not an obligation to supply a commodity or service, or an obligation for the contracting activity to issue an order. Nonprofit agencies are not authorized to commence production until receipt of an order.

(h) Upon receipt of an allocation, the contracting activity shall promptly submit an order to the appropriate central nonprofit agency or designated nonprofit agency(ies). Where this cannot be done promptly, the contracting activity shall advise the central nonprofit agency and the nonprofit agency(ies) immediately.

(i) An order for commodities or services shall provide leadtime sufficient for purchase of materials, production or preparation, and delivery or completion.

(j) The central nonprofit agency shall keep the contracting activity informed of any changes in leadtime experienced by its nonprofit agency(ies) in order to keep to a minimum requests for extensions once an order is placed. Where, due to unusual conditions, an order does not provide sufficient leadtime, the central nonprofit agency or nonprofit agency may request an extension of delivery or completion date which should be granted, if feasible. If extension of delivery or completion date is not feasible, the contracting activity shall:

(1) Notify the central nonprofit agency and nonprofit agency(ies) as appropriate.

(2) Request the central nonprofit agency to reallocate or to issue a purchase exception authorizing procurement from commercial sources as provided in § 51-5.4 of this chapter.

(k) In those instances where the central nonprofit agency is the prime contractor rather than the nonprofit agency, the central nonprofit agency will designate the nonprofit agency(ies) authorized by the Committee to furnish definite quantities of commodities or specific services upon receipt of an order from the contracting activity.

§ 51-6.3 Long-term ordering agreements.

Contracting activities are encouraged to investigate long-term ordering agreements for commodities listed on the Procurement List to level off demand, thereby helping ensure stability of employment and development of job skills for persons who are blind or have other severe disabilities.

§ 51-6.4 Military resale commodities.

(a) Purchase procedures for ordering military resale commodities are contained in instructions issued by the designated central nonprofit agency and are available upon request from that agency. Military commissary stores, Armed Forces exchanges and like activities of other Government departments and agencies (authorized resale outlets) shall request the central nonprofit agency to designate the nonprofit agency to which orders will be forwarded.

(b) Authorized resale outlets shall stock military resale commodities in as broad a range as is practicable. Authorized resale outlets may stock items procured from commercial sources which are comparable to a military resale commodity, provided the military resale commodity is also stocked, except that in military commissary stores military resale commodities in the 900-series normally shall be stocked exclusively. The stocking of commercial items in military commissary stores which are comparable to 900-series military resale commodities shall be restricted to those individual items, on a store-by-store basis, for which there is a significant customer demand.

(c) The Defense Commissary Agency shall, after consultation with the Committee:

(1) Establish mandatory lists of military resale commodities to be stocked in commissary stores.

(2) Require the stocking in commissary stores of military resale commodities in both the 500-, 600- and 900-series in as broad a range as is practicable.

(3) Issue guidance to commissary store personnel to take those actions required to achieve the maximum sales potential of military resale commodities.

(4) Establish policies and procedures which reserve at a level not lower than its miltary commissary headquarters the authority to grant exceptions to the exclusive stocking of 900-series military resale commodities.

(d) The Defense Commissary Agency shall provide the Committee a copy of each directive which relates to the stocking of military resale commodities in commissary stores, including

VOL 56 ISS 125 JE 28 1991 UMI

exceptions authorising the stocking of commercial items in competition with 900-series military resale commodities.

(e) The prices of military resale commodities include delivery to destination or, in the case of destinations overseas, to designated depots at ports of embarkation. Zone pricing is used for delivery to Alaska, Hawaii and Puerto Rico.

§ 51-6.5 Adjustment and cancellation of orders.

When the central nonprofit agency or an individual nonprofit agency fails to comply with the terms of a Government order, the contracting activity shall make every effort to negotiate an adjustment before taking action to cancel the order. When a Government order is canceled for failure to comply with its terms, the central nonprofit agency shall be notified, and, if practicable, requested to reallocate the order. The central nonprofit agency shall notify the Committee of any cancellation of an order and the reasons for that cancellation.

§ 51-6.6 Request for waiver of specification requirement.

(a) Nonprofit agencies and central nonprofit agencies are encouraged to recommend changes to specification requirements or request waivers where there are opportunitities to provide equal or improved products at a lower cost to the Government.

(b) A nonprofit agency shall not request a waiver of a specification requirement except when it is not possible to obtain the material meeting the specification or when other requirements contained in the specification cannot be met.

(c) Requests for waiver of specification shall be transmitted by the nonprofit agency to its central nonprofit agency.

(d) The central nonprofit agency shall review the request and the specification to determine if the request is valid and shall submit to the contracting activity only those requests which it has determined are necessary to enable the nonprofit agency to furnish the item.

(e) The central nonprofit agency request for waiver shall be transmitted in writing to the contracting activity. In addition, a copy of the request shall be transmitted to the Committee, annotated to include a statement concerning the impact on the cost of producing the item if the waiver is approved.

§ 51-6.7 Orders in excess of nonprofit agency capability.

(a) Nonprofit agencies are expected to furnish commodities on the Procurement List within the timeframes specified by the Government. The nonprofit agency must have the necessary production facilities to meet normal fluctuations in demand.

(b) Nonprofit agencies shall take those actions necessary to ensure that they can ship commodities within the time frames specified by the Government. In instances where the nonprofit agency determines that it cannot ship the commodity in the quantities specified by the required shipping date, it shall notify the central nonprofit agency and the contracting activity. The central nonprofit agency shall request a revision of the shipping schedule which the contracting activity should grant, if feasible, or the central nonprofit agency shall issue a purchase exception authorizing procurement from commercial sources as provided in 51-5.4 of this chapter.

§ 51-6.8 Deletion of items from the Procurement List.

(a) When a central nonprofit agency decides to request that the Committee delete a commodity or service from the Procurement List, it shall notify the Committee staff immediately. Before reaching a decision to request a deletion of an item from the Procurement List, the central nonprofit agency shall determine that none of its nonprofit agencies is capable and desirous of furnishing the commodity or service involved.

(b) Except in cases where the Government is no longer procuring the item in question, the Committee shall, prior to deleting an item from the Procurement List, determine that none of the nonprofit agencies of the other central nonprofit agency is desirous and capable of furnishing the commodity or service involved.

(c) Nonprofit agencies will normally be required to complete production of any orders for commodities on hand regardless of the decision to delete the item. Nonprofit agencies shall obtain concurrence of the contracting activity and the Committee prior to returning a purchase order to the contracting activity.

(d) For services, a nonprofit agency shall notify the contracting activity of its intent to discontinue performance of the service 90 days in advance of the termination date to enable the contracting activity to assure continuity of the service after the nonprofit agency's discontinuance.

§ 51-6.9 Correspondence and inquiries.

Routine contracting activity correspondence or inquiries concerning deliveries of commodities being shipped from or performance of services by nonprofit agencies employing persons who are blind or have other severe disabilities shall be with the nonprofit agency involved. Major problems shall be referred to the appropriate central nonprofit agency. In those instances where the problem cannot be resolved by the central nonprofit agency and the contracting activity involved, the contracting activity or central nonprofit agency shall notify the Committee of the problem so that action can be taken by the Committee to resolve it.

§ 51-6.10 Quality of merchandise.

(a) Commodities furnished under Government specification by nonprofit agencies employing persons who are blind or have other severe disabilities shall be manufactured in strict compliance with such specifications. Where no specifications exist, commodities furnished shall be of a quality equal to or higher than similar items available on the commercial market. Commodities shall be inspected utilizing nationally recognized test methods and procedures for sampling and inspection.

(b) Services furnished by nonprofit agencies employing persons who are blind or have other severe disabilities shall be performed in accordance with Government specifications and standards. Where no Government specifications and standards exist, the services shall be performed in accordance with commercial practices.

§ 51-6.11 Quality complaints.

(a) When the quality of a commodity received is not considered satisfactory by the using activity, the activity shall take the following actions as appropriate:

(1) For commodities received from Defense Logistics Agency supply centers, General Services Administration supply distribution facilities, Department of Veterans Affairs distribution division or other central stockage depots, or specifically authorized supply source, notify the supplying agency in writing in accordance with that agency's procedures. The supplying agency shall, in turn, provide copies of the notice to the nonprofit agency involved and its central nonprofit agency.

(2) For commodities received directly from nonprofit agencies employing persons who are blind or have other severe disabilities, address complaints to the nonprofit agency involved with a copy to the central nonprofit agency with which it is affiliated.

(b) When the quality of a service is not considered satisfactory by the contracting activity, it shall address

complaints to the nonprofit agency involved with a copy to the central nonprofit agency with which it is affiliated.

§ 51-6.12 Specification changes and similar actions.

(a) Specifications or other descriptions for commodities on the Procurement List may undergo a series of changes to keep current with industry changes and agency needs. Since it is not feasible to show the latest revision as of the publication date, only the basic specification or description is referenced in the Procurement List. Contracting activities shall notify the nonprofit agency and the central nonprofit agency concerned of any change to the applicable specification or description.

(b) When a Government entity is changing the specification or description of a commodity on the Procurement List, including a change that involves the assignment of a new national stock number or item designation, the office assigned responsibility for the action shall obtain the comments of the Committee and the central nonprofit agency concerned on the proposed change and shall notify the nonprofit agency and the central nonprofit agency concerned at least 90 days prior to placing an order for a commodity covered by the new specification or description.

(c) Similarly for services, the contracting activity shall notify the nonprofit agency and the central nonprofit agency concerned at least 90 days prior to the date that any changes in the statement of work or other conditions will be required.

(d) When, in order to meet emergency needs, a contracting activity is unable to give the 90-day notification required in paragraphs (b) and (c) of this section, the contracting activity shall, at the time it places the order or change notice, inform the nonprofit agency and the central nonprofit agency in writing of the reasons it cannot meet the 90-day notification requirement.

§ 51-6.13 Replacement commodities.

When a commodity on the Procurement List is replaced by another commodity which has not been previously procured, and a qualified nonprofit agency can furnish the replacement commodity in accordance with the Government's quality standards and delivery schedules at a fair market price, the replacement commodity is automatically considered to be on the Procurement List and shall be procured from the nonprofit agency designated by the Committee. The commodity being replaced shall continue to be included on the Procurement List until there is no longer a requirement for that commodity.

§ 51-6.14 Disputes.

Disputes between a nonprofit agency and a contracting activity arising out of matters covered by this part 51-6 should be resolved, where possible, by the contracting activity and the nonprofit agency, with assistance from the appropriate central nonprofit agency. Disputes which cannot be resolved by these parties shall be referred to the Committee for resolution.

4. Newly redesignated part 51-7 is revised to read as follows:

PART 51-7—PROCEDURES FOR ENVIRONMENTAL ANALYSIS

Sec.

51-7.1 Purpose and scope.
51-7.2 Early involvement in private, State, and local activities requiring Federal approval.
51-7.3 Ensuring environmental documents are actually considered in agency determinations.
51-7.4 Typical classes of action.
51-7.5 Environmental information.

Authority: 42 U.S.C. 4321 et seq.

§ 51-7.1 Purpose and scope.

(a) *Purpose.* This part implements the National Environmental Policy Act of 1969 (NEPA) and provides for the implementation of those provisions identified in 40 CFR 1507.3(b) of the regulations issued by the Council on Environmental Quality (CEQ) (40 CFR parts 1500-1508) published pursuant to NEPA.

(b) *Scope.* This part applies to all actions of the Committee for Purchase from the Blind and Other Severely Handicapped which may affect environmental quality in the United States.

§ 51-7.2 Early involvement in private, State, and local activities requiring Federal approval.

(a) 40 CFR 1501.2(d) requires agencies to provide for early involvement in actions which, while planned by private applicants or other non-Federal entities, require some sort of Federal approval. Pursuant to the JWOD Act (41 U.S.C. 46-48c), the Committee for Purchase from the Blind and Other Severely Handicapped makes the determination as to which qualified nonprofit agency serving persons who are blind or have other severe disabilities will furnish designated products and services to the Government.

(b) To implement the requirements of 40 CFR 1501.2(d) with respect to these actions, the Committee staff shall consult as required with other appropriate parties to initiate and coordinate the necessary environmental analysis. The Executive Director shall determine on the basis of information submitted by private agencies and other non-Federal entities or generated by the Committee whether the proposed action is one that normally does not require an environmental assessment or environmental impact statement (EIS) as set forth in § 51-7.4, or is one that requires an environmental assessment as set forth in 40 CFR 1501.4.

(c) To facilitate compliance with these requirements, private agencies and other non-Federal entities are expected to:

(1) Contact the Committee staff as early as possible in the planning process for guidance on the scope and level of environmental information required to be submitted in support of their request;

(2) Conduct any studies which are deemed necessary and appropriate by the Committee to determine the impact of the proposed action on the human environment;

(3) Consult with appropriate Federal, regional, State and local agencies and other potentially interested parties during preliminary planning stages to ensure that all environmental factors are identified;

(4) Submit applications for all Federal, regional, State and local approvals as early as possible in the planning process;

(5) Notify the Committee as early as possible of all other Federal, regional, State, local and Indian tribe actions required for project completion so the Committee may coordinate all Federal environmental reviews; and

(6) Notify the Committee of all known parties potentially affected by or interested in the proposed action.

§ 51-7.3 Ensuring environmental documents are actually considered in agency determinations.

(a) 40 CFR 1505.1 of the NEPA regulations contains requirements to ensure adequate consideration of environmental documents in agency decision-making. To implement these requirements, the Committee staff shall:

(1) Consider all relevant environmental documents in evaluating proposals for agency action;

(2) Ensure that all relevant environmental documents, comments and responses accompany the proposal through the agency review processes;

(3) Consider only those alternatives discussed in the relevant environmental documents when evaluating proposals for agency action; and

VOL
56
ISS
125
JE
28
1991
UMI

(4) Where an EIS has been prepared, consider the specific alternative analysis in the EIS when evaluating the proposal which is the subject of the EIS.

(b) For each of the Committee's actions authorized by the JWOD Act, the following list identifies the point at which the NEPA process begins, the point at which it ends, and the key agency official or office required to consider the relevant environmental documents as a part of their decision-making:

(1) Action: Request.

(2) Start of NEPA process: Upon receipt of request.

(3) Completion of NEPA process: When the deciding official reviews the proposal and makes a determination.

(4) Key official or office required to consider environmental document: When a positive determination is made under § 51-7.2(b), the applicant in conjunction with the Committee staff will prepare the necessary papers.

§ 51-7.4 Typical classes of action.

(a) 40 CFR 1507.3(b)(2) in conjunction with 40 CFR 1508.4 requires agencies to establish three typical classes of action for similar treatment under NEPA. These typical classes of action are set forth below:

(1) Actions normally requiring EIS: None.

(2) Actions normally requiring assessments but not necessarily EISs: Requests for actions for which determinations under § 51-7.2(b) are found to be affirmative.

(3) Actions normally not requiring assessments or EISs: Request for actions by nonprofit agencies through the central nonprofit agencies to add a commodity or service to the Committee's Procurement List.

(b) The Committee shall independently determine, by referring to 40 CFR 1508.27, whether an EIS or an environmental assessment is required where:

(1) A proposal for agency action is not covered by one of the typical classes of action above; or

(2) For actions which are covered, but where the presence of extraordinary circumstances indicates that some other level of environmental review may be appropriate.

§ 51-7.5 Environmental information.

Interested parties may contact the Executive Director at (703) 557-1145 for information regarding the Committee's compliance with NEPA.

PART 51-9—PUBLIC AVAILABILITY OF AGENCY MATERIALS

5. The authority citation for newly redesignated part 51-6 continues to read as follows:

Authority: 5 U.S.C. 552.

6. Newly redesignated § 51-6.14 is amended by revising paragraph (c) to read as follows:

§ 51-6.14. Fee waivers and reductions.

* * * * *

(c) Fees shall be waived in all circumstances where the amount of the fee is $10 or less as the cost of collection would be greater than the fee.

Dated: June 17, 1991.

Beverly L. Milkman,

Executive Director.

RIN 1029-AB40

Surface Coal Mining and Reclamation Operations; Permanent Regulatory Program; Performance Standards; Permanent and Temporary Impoundments

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Proposed rule.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSM) of the United States Department of the Interior (DOI) proposes to amend portions of its permanent program regulations governing permanent and temporary impoundments at surface and underground mining operations. The revisions are in response to a court action, and for clarification.

The proposed rule, which concerns the design, construction and inspection requirements that apply to impoundments, would: (1) Incorporate by reference the U.S. Department of Agriculture, Soil Conservation Service publications, Technical Release No. 60 and Practice Standard 378; (2) Require stability and margin of safety requirements to be compatible with Technical Release No. 60; and (3) Relocate several related definitions.

DATES: Written comments: OSM will accept written comments on the proposed rule until 5 p.m. Eastern time on August 27, 1991.

Public hearings: Upon request, OSM will hold public hearings on the proposed rule in Washington, DC; in Denver, Colorado, and in Knoxville, Tennessee on August 22, 1991. Upon request, OSM will also hold public hearings in the States of California, Georgia, Idaho, Massachusetts, Michigan, North Carolina, Oregon, Rhode Island, South Dakota, Tennessee, and Washington at times and on dates to be announced prior to the hearings. OSM will accept requests for public hearings until 5 p.m. Eastern time on July 29, 1991. Individuals wishing to attend but not testify at any hearing should contact the person identified under "FOR FURTHER INFORMATION CONTACT" beforehand to verify that the hearing will be held.

ADDRESSES: Written comments: Hand-deliver to the OSM, Administrative Record, room 5131, 1100 L Street NW., Washington, DC; or mail to the OSM, Administrative Record, room 5131–L, 1951 Constitution Avenue, NW., Washington, DC 20240.

Public hearings: Department of the Interior Auditorium, 18th and C Streets, NW., Washington, DC; Brooks Towers, 2nd Floor Conference Room, 1020 15th St., Denver, Colorado; and the Hyatt, 500 Hill Avenue SE., Knoxville, Tennessee. The addressees for any hearings scheduled in the States of California, Georgia, Idaho, Massachusetts, Michigan, North Carolina, Oregon, Rhode Island, South Dakota, Tennessee, and Washington will be announced prior to the hearings.

Request for public hearings: Submit orally or in writing to the person and address specified under "FOR FURTHER INFORMATION CONTACT."

FOR FURTHER INFORMATION CONTACT: Robert A. Wiles, P.E., Office of Surface Mining Reclamation and Enforcement, U.S. Department of the Interior, 1951 Constitution Avenue, NW., Washington, DC 20240; Telephone: 202–343–1502 (Commercial or FTS).

SUPPLEMENTARY INFORMATION:

I. Public Comment Procedures.
II. Background.
III. Discussion of Proposed Rule.
IV. Procedural Matters.

I. Public Comment Procedures

Written Comments

Written comments submitted on the proposed rule should be specific, should be confined to issues pertinent to the proposed rule, and should explain the reason for any recommended change. Where practicable, commenters should submit three copies of their comments. Comments received after the close of the comment period (see "DATES") or delivered to an address other than those listed above (see "ADDRESSES") may not necessarily be considered or included in the Administrative Record for the final rule.

Public Hearings

OSM will hold public hearings on the proposed rule on request only. The dates and addresses scheduled for the hearings at three locations are specified previously in this notice (see "DATES" and "ADDRESSES"). The dates and addresses for the hearings at the remaining locations have not yet been scheduled, but will be announced in the Federal Register at least 7 days prior to any hearings held in those locations.

Any person interested in participating at a hearing at a particular location should inform Mr. Wiles (see "FOR FURTHER INFORMATION CONTACT") either orally or in writing of the desired hearing location by 5 p.m. Eastern time July 29, 1991. If no one has contacted Mr. Wiles to express interest in participating in a hearing at a given location by that date, the hearing will not be held. If only one person expresses an interest, a public meeting rather than a hearing may be held and the results included in the Administrative record.

If a hearing is held, it will continue until all persons wishing to testify have been heard. To assist the transcriber and ensure an accurate record, OSM requests that persons who testify at a hearing give the transcriber a copy of their testimony. To assist OSM in preparing appropriate questions, OSM also requests that persons who plan to testify submit to OSM at the address previously specified for the submission of written comments (see "ADDRESSES") an advance copy of their testimony.

II. Background

The Surface Mining Control and Reclamation Act of 1977 (the Act, or SMCRA), 30 U.S.C. 1201 *et seq.*, sets forth general regulatory requirements governing surface coal mining and the surface impacts of underground coal mining. Environmental protection performance standards for permanent water impoundments constructed during surface mining activities appear in section 515(b)(8) of the Act, 30 U.S.C. 1265(b)(8); provisions governing the construction of siltation structures, a type of impoundment, appear in section 515(b)(10)(B), 30 U.S.C. 1265(b)(10)(B). Sections 516(b) (9) and (10) of the Act, 30 U.S.C. 1266(b) (9) and (10), impose similar requirements for water impoundments and siltation structures that are used for underground mining activities, but provide that the Secretary shall make such modifications in the requirements as are necessary to accommodate the distinct differences between surface and underground mining.

In regulating impoundments OSM must coordinate its requirements with two other Federal agencies, the U.S. Soil Conservation Service (SCS) and the Mine Safety and Health Administration (MSHA).

SCS is part of the Department of Agriculture and has authority under the Watershed Protection and Flood Prevention Act (Pub. L. 83–566 (16 U.S.C. 1006)). SCS is responsible for cooperating with other agencies in the planning and carrying out works of improvement for soil conservation, and other purposes.

MSHA is part of the Department of Labor and has authority under the Federal Mine Safety and Health Amendments Act of 1977 (91 Stat. 1290; 30 U.S.C. 801). MSHA is responsible for developing, promulgating, and enforcing safety and health standards aimed at preventing and reducing mine accidents and occupational diseases in the mining industry.

OSM's regulations governing the design, construction and inspection of impoundments call upon criteria established by SCS and MSHA. SMCRA at section 515(b)(8)(B) specifically references SCS's Public Law 83–566 as a performance requirement that must be met in the design and construction of permanent impoundments. Numerous OSM regulations governing impoundments currently include MSHA regulations by reference.

OSM has defined "impoundment" at 30 CFR 701.5 to be any holding structure containing water, sediment, slurry, or other liquid or semi-liquid. OSM rules regulate both temporary and permanent impoundments. Sediment ponds and siltation structures are by current OSM definition specific types of impoundments.

The permanent regulatory program for surface coal mining and reclamation operations was promulgated on March 13, 1979 (44 FR 15312). Requirements for sedimentation ponds and siltation structures at surface mining activities were established at 30 CFR 816.46 (44 FR 15400), while those for underground mining at 30 CFR 817.46 (44 FR 15426) to implement the provisions of section 515(b)(10)(B) of the Act.

Requirements for permanent and temporary impoundments at surface mining activities and underground mining activities were established in the 1979 rules at 30 CFR 816.49 (44 FR 15401) and 30 CFR 817.49 (44 FR 15428), respectively to implement provisions of 515(b)(8) of the Act.

Permitting requirements for reclamation and operation plans for impoundments at surface mining activities and underground mining activities were established in the 1979 rules at 30 CFR 780.25 (44 FR 15360) and 30 CFR 784.25 (44 FR 15368), respectively.

During revisions to the permanent regulatory program in 1983, OSM replaced most of the specific design criteria in § 816.46 (48 FR 44051) and § 816.49 (48 FR 44004) with performance standards, thereby providing regulatory authorities greater flexibility in the details of impoundment design. Furthermore, section 816.46 was renamed "Hydrologic balance: Siltation Structures," to be consistent with the wording of section 515(b)(10)(B)(ii) of the Act and to reflect rule changes which provided for the use of certain siltation structures other than sedimentation ponds, such as chemical treatment facilities or mechanical structures that have a point-source discharge.

Upon issuance, the 1983 rulemaking for §§ 816.46 and 816.49 was challenged in the U.S. District Court for the District of Columbia in In Re: Permanent Surface Mining Regulation Litigation (II), No. 79–1144 (D.D.C. July 15, 1985) (In Re: Permanent (II)). The court remanded: (1) §§ 816.49(a)(3) and (a)(5)(i) on the basis that they included requirements for a static safety factor and for foundation investigation and laboratory testing of small sedimentation ponds without having included such requirements when the rule was proposed on June 21, 1982, as required by the Administrative Procedure Act; and (2) § 816.49 to the extent that they relied only on MSHA impoundment size classification standards when OSM had not justified reliance solely on such standards. Slip op. at 30–32 and 102–117. In addition, in response to plaintiff's challenge of the combination spillway requirement of § 816.49(a)(8), the Secretary of the Interior agreed to reexamine the issue and consider proposing a rule specifying that one spillway that can safely pass the design precipitation event may serve as a combination principal and emergency spillway. (*Id.* at 1538 and 1571–1572.)

On October 27, 1988 (53 FR 43584), OSM amended the permanent program regulations governing permanent and temporary impoundments at surface and underground mining operations. The 1988 rules incorporated design and performance requirements for impoundments and spillways that were based on MSHA criteria and SCS classification for class B and C structures. The 1988 rules also authorized the approval of sediment ponds that rely primarily on storage to control the runoff from the design precipitation event, as opposed to relying on both principal and emergency spillways.

30 CFR 816.49 of the 1988 rules on impoundments was challenged by environmental groups who incorrectly interpreted that the 1988 rules were based only on MSHA criteria. In its decision (United States District Court for the District of Columbia, Civil Action No. 88–3345, August 30, 1990), the Court noted the issue involved the interplay of two laws in addition to SMCRA. The laws are: (1) The Watershed Protection and Flood Prevention Act and rules issued under it by the U.S. SCS, including technical standards for the design and construction of impoundments found in Technical release (TR) 60 "Earth, Dams, and Reservoirs," and TR 378 "Ponds", and (2) the Federal MSHA and rules issued under it by the MSHA. SMCRA has a mandate to ensure that impoundments are as safe as those constructed under the watershed and flood law.

The Court found that the SCS standards referred to in the preamble to § 816.49(a)(3)(i) are the SCS class B and C dams. Furthermore, the Court stated "Indeed, in the Secretary's view, he has provided greater protection in this rule than does SCS because he mandated the stricter design standard when an impoundment meets either SCS's qualitative standard for B and C dams or the MSHA's size standard, which covers more impoundments than does the SCS's looser size standard."

The Court did note that a plain reading of the preamble may result in some ambiguity. Given that some misunderstanding of the requirements for impoundments existed, OSM now wishes to clarify the issue for all water impoundment's design, construction, and performance. In this context alone, OSM is proposing to reference specifically both SCS class B and C impoundments and MSHA impoundments in all rules at 30 CFR 780.25 and 816.49 where impoundment-related criteria are found.

Section 780.25 contains permit application requirements for reclamation plans dealing with impoundments and it is essential for these requirements to be consistent with the performance requirements in § 816.49.

III. Discussion of Proposed Rule

After consideration of the administrative record of these regulations; as well as the legislative history of the Act; the August 30, 1990, decision in the United States District Court for the District of Columbia; other opinions of the court; and in light of current technical information on impoundment design, construction, and inspection, OSM is proposing the following revisions to its permanent regulatory program. Consistent with its findings when promulgating the 1979, 1983, and 1988 rules, OSM has not identified any differences between impoundments for surface and underground mines that would appear to necessitate different regulatory provisions under this proposed rulemaking. Therefore, the proposed permitting rule applicable to impoundments for surface mining activities at 30 CFR 780.25 and the proposed rule for underground mining activities at 30 CFR 784.16 are identical. Similarly, the proposed performance rules for surface mining activities at 30

VOL
56
ISS
125
JE
28
1991
UMI

CFR 816.46 and 816.49 are identical to the proposed rules for underground mining activities at 30 CFR 817.46 and 817.49, respectively.

Section 701.5 Definitions: Siltation Structure

The definition of siltation structure is being relocated to 30 CFR 701.5 and is identical to the definition previously found in 30 CFR 816.46(a)(1). The proposal would delete the definition of siltation structure at 30 CFR 816.46(a)(1) and establish the same definition for siltation structures at 30 CFR 701.5—Definitions. This would be an organizational change only. Section 701.5 already includes definitions of interrelated terms such as, impounding structure, impoundments, and sedimentation pond. Moving the definition of siltation structure from § 816.46(a)(1) to § 701.5 will centralize the location of these related definitions.

Section 701.5 Definitions: Other Treatment Facilities

The proposed definition of other treatment facilities, a term related to siltation structures, is similar to the definition currently found in 30 CFR 816.46(a)(3). The proposal would delete the definition at 30 CFR 816.46(a)(3) and establish a similar definition of other treatment facilities at 30 CFR 701.5. The proposed rule would also revise the definition by adding the words "neutralization" and "precipitators", to indicate common water quality treatment processes, and the phrase to comply with all applicable State and Federal water-quality laws and regulations. The addition of these words and the phrase to the definition will clarify that the purpose of other treatment facilities is for compliance with applicable water quality laws, as well as specifically for the prevention of additional contributions of dissolved or suspended solids to streamflow or off-site runoff. Changing the definition does not change the thrust of the OSM performance standards in 30 CFR 816.41–49. Moving the definition of other treatment facilities from § 816.46(a)(3) to § 701.5 centralizes OSM's definitions and logically follows the relocation of the definition of siltation structure.

Sections 780.25/784.16 Permitting Requirements for Reclamation Plans: Siltation Structures, Impoundments, Banks, Dams, and Embankments

Section 780.25 of OSM's permanent program regulations establishes permitting requirements applicable to the design of each siltation structure, water impoundment, and coal processing waste bank, dam, or embankment within the proposed permit area. The proposed revisions to § 780.25 include editorial changes as described below and the addition of specific reference to the SCS criteria for dam classification found in their Technical Release No. 60 (TR–60). These changes are needed to ensure that the permitting requirements for impoundments are consistent with the performance standards for impoundments that are tied both to SCS standards and MSHA requirements.

For editorial purposes OSM proposes to revise § 780.25 and 780.25(a) by removing the word "Ponds" and replacing it with "Siltation structures". This revision makes the section title consistent with the broader classification of structures intended to be covered by § 780.25 and with similar changes proposed at § 816.46 that will be discussed later.

In § 780.25(a)(2) OSM proposes to reference the SCS dam classification in TR–60. This additional language will clarify the need for structures to be classified with respect to SCS criteria as well as the MSHA criteria already referenced in § 780.25(a)(2). This approach will insure that impoundments that do not meet the MSHA criteria in § 77.216(a) of this Chapter, but are determined to be Class B or C impoundments by SCS criteria in TR–60, shall comply with the more rigorous standards that apply to all impoundments that meet the above MSHA criteria.

OSM proposes to revise § 780.25(a)(3) by removing the reference to § 77.216(a) of this title and by replacing it with a reference to § 780.25(a)(2), where the SCS and MSHA impoundment classification criteria would both be located.

In § 780.25(b) OSM proposes to replace the phrase "sedimentation ponds" with "siltation structures" to be consistent with the revised title for the section. OSM also proposes to remove the last two sentences of § 780.25(b) because the same requirements already exist in 30 CFR 780.25(c) (1) and (2).

OSM proposes to revise § 780.25(c)(3) by removing the reference to section 77.216(a) of this title and the phrase "located where failure would not be expected to cause loss of life or serious property damage," and by replacing it with a reference to § 780.25(a)(2), where equivalent MSHA standards and SCS impoundment classification criteria are now located. This would be consistent with changes described above.

In § 780.25(f), OSM proposes to replace the phrase "is 20 feet or higher or impounds more than 20 acre-feet" with the phrase "meets the SCS Class B or C criteria for dams in TR–60 or meets the MSHA size or other criteria of § 77.216(a) of this chapter." This proposed revision will have the same effect as the existing regulations and make § 780.25(f) consistent with the regulation changes referencing structure classification previously discussed.

Sections 816.46/817.46 Hydrologic Balance: Siltation Structures

Section 816.46 of OSM's permanent program regulations establishes performance standards applicable to siltation structures. The proposed revisions would delete the definitions of siltation structures and other treatment facilities at § 816.46 (a)(1) and (a)(3) and establish similar definitions at § 701.5. This relocation of the definitions is an organizational change, the reason for which has been previously discussed.

In § 816.46(c)(2), OSM proposes to remove the spillway design requirements at § 816.46(c)(2) (i) through (iii) and replace those with reference to equivalent spillway design requirements in redesignated § 816.49(a)(9). The spillway design requirements in proposed § 816.49(a)(2) are the same as those in existing § 816.46(c)(2) (i) through (iii). Therefore, for clarity and conciseness, OSM is revising § 816.46(c)(2) to reference § 816.49(a)(9) and removing § 816.46(c)(2) (i) through (iii) instead of duplicating the same design requirements.

Section 816.49/817.49 Impoundments

Section 816.49 of OSM's permanent program regulations establishes performance standards for impoundments. The proposed revisions are to incorporate by reference specific criteria in the SCS Technical Release No. 60 (TR–60) and require impoundments meeting SCS Class B or C criteria in TR–60 to meet the same stability, spillway, foundation investigation, freeboard hydrography, inspection, and examination requirements as impoundments meeting MSHA criteria in § 77.216(a). The specific sections revised in 30 CFR 816.49 are summarized below. The rationale for those revisions as previously discussed is based on the August 30, 1990, decision in NWF v. Lujan and would achieve the necessary clarification.

OSM proposes to add new paragraph § 816.49(a)(1) which will incorporate by reference the SCS guidance document TR–60 as it specifically relates to minimum emergency spillway hydrologic criteria. This change requires the redesignation of existing paragraphs

in § 816.49(a). Paragraphs (a)(1) through (a)(12) will be redesignated as paragraphs (a)(2) through (a)(13) respectively.

Existing § 816.49(a)(1) would be redesignated as proposed § 816.49(a)(2).

Existing § 816.49(a)(2) would be redesignated as proposed § 816.49(a)(3).

Existing § 816.49(a)(3) would be redesignated as proposed § 816.49(a)(4). Proposed § 816.49(a)(4)(i) would add that impoundments meeting the SCS Class B or C criteria for dams in TR–60 would be subject to the requirements of this section. OSM also proposes to remove the phrase "located where failure would be expected to cause loss of life or serious property damage" because it would be a duplication of the SCS criteria.

In redesignated § 816.49(a)(4)(ii), OSM proposes to remove the reference to § 77.216(a) and replace it with a reference to § 816.49(a)(4)(i). This clarifies which safety factors are related to specific types of impoundment classification.

Existing § 816.49(a)(4) would be redesignated as proposed § 816.49(a)(5). OSM proposes to revise redesignated § 816.49(a)(5) by specifying that impoundments meeting the SCS Class B or C criteria for dams in TR–60 shall comply with the freeboard hydrography criteria in the "Minimum Emergency Spillway Hydrologic Criteria" table in TR–60, in order to be compatible with SCS requirements.

Existing § 816.49(a)(5) would be redesignated as proposed § 816.49(a)(6). In redesignated § 816.49(a)(6)(i), OSM proposes to conform the scope of this provision to the other paragraphs in this section by adding the phrase, "Class B or C for dams in TR–60, or" to the final sentence.

Existing § 816.49(a)(6) would be redesignated as proposed § 816.49(a)(7).

Existing § 816.49(a)(7) would be redesignated as proposed § 816.49(a)(8).

Existing § 816.49(a)(8) would be redesignated as proposed § 816.49(a)(9). OSM proposes to revise redesignated § 816.49(a)(9)(ii) by re-lettering paragraphs (a)(9)(ii) (A) and (B) to be paragraphs (a)(9)(ii) (B) and (C), respectively, and adding the spillway requirements for impoundments meeting the SCS Class B or C criteria for dams in TR–60 as paragraph (a)(9)(ii)(A).

Existing § 816.49(a)(9) would be redesignated as proposed § 816.49(a)(10).

Existing § 816.49(a)(10) would be redesignated as proposed § 816.49(a)(11). OSM proposes to revise redesignated § 816.49(a)(11)(iv) to clarify that impoundments meeting the SCS Class B or C criteria for dams in TR–60 like those meeting MSHA criteria may not be inspected by a registered land surveyor.

Existing § 816.49(a)(11) would be redesignated as proposed § 816.49(a)(12). OSM proposes to revise redesignated § 816.49(a)(12) to add the requirement that impoundments meeting the SCS Class B or C criteria for dams in TR–60 be examined in accordance with the requirements at § 77.216–3 of the MSHA rules. MSHA has proposed revisions to 30 CFR 77.216–3 (June 15, 1990 (55 FR 24526)) to allow water, sediment, or slurry impoundments and impounding structures to be inspected less frequently than once every 7 days as currently required. The MSHA proposal would allow the MSHA District Manager to approve alternate inspection frequencies. MSHA proposes to extend the time between inspections for low hazard potential structures with a demonstrated history of structural stability. OSM agrees with MSHA's proposed revisions to 30 CFR 77.216–3 but does need to modify its proposed regulatory text for 30 CFR 816.49(a)(12) to be consistent with the MSHA proposal at this time. If MSHA promulgates final regulations, OSM would allow the regulatory authorities in lieu of MSHA District Managers to approve alternate inspection frequencies for SCS Class B or C impoundments not regulated by MSHA. OSM also intends to have the regulatory authority use the same criteria (low hazard potential and a demonstrated history of structural stability) adopted by MSHA. A final OSM rule would reflect such a procedure. Existing § 816.49(a)(12) would be redesignated as proposed § 816.49(a)(13).

OSM proposes to revise § 816.49(c)(2)(i), dealing with requirements for temporary impoundments, by adding the requirement that impoundments meeting the SCS Class B or C criteria for dams in TR–60 as well as impoundments meeting the size or other criteria of § 77.216(a) of this title, shall be designed to control the precipitation of the probable maximum precipitation of a 6-hour or greater event specified by the regulatory authority.

OSM proposes to revise § 816.49(c)(2)(ii) by referencing paragraph (c)(2)(i) and thus identify which impoundments must meet the requirements of paragraph (c)(2)(ii).

IV. Procedural Matters

Federal Paperwork Reduction Act

The proposed rule does not contain new information collection requirements which require approval by the Office of Management and Budget in accordance with 44 U.S.C. 3501 *et seq.*

Executive Order 12291 and Regulatory Flexibility Act

The DOI has determined that this document is not a major rule under the criteria of Executive Order 12291 (February 17, 1981) and that it will not have a significant effect on a substantial number of small entities under the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* The rule would affect a relatively small number of surface coal mining operations. The rule does not distinguish between small and large entities. The economic effects of the proposed rule are estimated to be minor, and no incremental economic effects are anticipated as a result of the rule.

National Environmental Policy Act

OSM has prepared a draft environmental assessment (EA), and has made a tenative finding that the proposed rule would not significantly affect the quality of the human environment under section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4332(2)(C). The draft EA is on file in the OSM Administrative Record at the address specified previously (see "ADDRESSES"). An EA of the final rule will be completed and a final finding made on the significance of any impacts prior to promulgation of the final rule.

Author

The principal author of this rule is Donald E. Stump Jr., P.E., OSM, Ten Parkway Center, Pittsburgh, PA 15220; Telephone: 412–937–2164 (Commercial); 726–2164 (FTS 2000).

VOL 56 ISS 125 JE 28 1991 UMI

Accordingly it is proposed to amend 30 CFR parts 701, 780, 784, 816, and 817 as set forth below.

Dated: April 25, 1991.

David C. O'Neal,

Assistant Secretary for Land and Minerals Management.

PART 701—PERMANENT REGULATORY PROGRAM

1. The authority citation for part 701 continues to read as follows:

Authority: Pub. L. 95–87 (30 U.S.C. 1201 et seq.), and Pub. L. 100–34.

2. Section 701.5 is amended by adding the definition "other treatment facilities" and transferring the definition "siltation structure" from § 816.46(a)(1).

§ 701.5 Definitions.

* * * * *

Other treatment facilities means any chemical treatments, such as flocculation or neutralization, or mechanical structures, such as clarifiers or precipitators, that have a point source discharge and are utilized:

(1) To prevent additional contributions of dissolved or suspended solids to streamflow or runoff outside the permit area; or

(2) To comply with all applicable State and Federal water-quality laws and regulations.

* * * * *

PART 780—SURFACE MINING PERMIT APPLICATIONS—MINIMUM REQUIREMENTS FOR RECLAMATION AND OPERATION PLAN

3. The authority citation for part 780 continues to read as follows:

Authority: Pub. L. 95–87, 30 U.S.C. 1201 et seq., as amended; sec. 115 of Pub. L. 98–146, 30 U.S.C. 1257; 16 U.S.C. 470 et seq.; and Pub. L. 100–34.

4. Section 780.25 is amended by revising the section heading and introductory text of paragraph (a), and by revising paragraphs (a)(2) introductory text, (a)(3) introductory text, (b), (c)(3), and the first sentence of paragraph (f) to read as follows:

§ 780.25 Reclamation plan: Siltation structures, impoundments, banks, dams, and embankments.

(a) *General.* Each application shall include a general plan and a detailed design plan for each proposed siltation structure, water impoundment, and coal processing waste bank, dam, or embankment within the proposed permit area.

(1) * * *

(2) Each detailed design plan for a structure that meets the U.S. Soil Conservation Service Class B or C criteria for dams in SCS Technical Release No. 60 (TR–60), or meets or exceeds the size or other criteria of the Mine Safety and Health Administration, § 77.216(a) of this title shall:

* * * * *

(3) Each detail design plan for structures not included in paragraph (a)(2) of this section shall:

* * * * *

(b) *Siltation structures.* Siltation structures shall be designed in compliance with the requirements of § 817.46 of this chapter.

(c) * * *

(3) For impoundments not included in paragraph (a)(2) of this section the regulatory authority may establish through the State program approval process engineering design standards that ensure stability comparable to a 1.3 minimum static safety factor in lieu of engineering tests to establish compliance with the minimum static safety factor of 1.3 specified in § 816.49(a)(3)(ii) of this chapter.

* * * * *

(f) If the structure meets the Class B or C criteria for dams in TR–60 or meets the size or other criteria of § 77.216(a) of this title, each plan under paragraphs (b), (c), and (e) of this section shall include a stability analysis of the structure.* * *

PART 784—UNDERGROUND MINING PERMIT APPLICATIONS—MINIMUM REQUIREMENTS FOR RECLAMATION AND OPERATION PLAN

5. The authority citation for part 784 continues to read as follows:

Authority: Pub. L. 95–87, 30 U.S.C. 1201 et seq., as amended; sec. 115 of Pub. L. 98–146, 30 U.S.C. 1257; 16 U.S.C. 470 et seq.; and Pub. L. 100–34.

6. Section 784.16 is amended by revising the section heading and introductory text of paragraph (a), and by revising paragraphs (a)(2) introductory text, (a)(3) introductory text, (b), (c)(3), and the first sentence of paragraph (f) to read as follows:

§ 784.16 Reclamation plan: Siltation structures, impoundments, banks, dams, and embankments.

(a) *General.* Each application shall include a general plan and a detailed design plan for each proposed siltation structure, water impoundment, and coal processing waste bank, dam, or embankment within the proposed permit area.

(1) * * *

(2) Each detailed design plan for a structure that meets the U.S. Soil Conservation Service Class B or C criteria for dams in SCS Technical Release No. 60 (TR–60), or meets or exceeds the size or other criteria of the Mine Safety and Health Administration, § 77.216(a) of this title shall:

* * * * *

(3) Each detailed design plan for structures not included in paragraph (a)(2) of this section shall:

* * * * *

(b) *Siltation structures.* Siltation structures shall be designed in compliance with the requirements of § 817.46 of this chapter.

(c) * * *

(3) For impoundments not included in paragraph (a)(2) of this section the regulatory authority may establish through the State program approval process engineering design standards that ensure stability comparable to a 1.3 minimum static safety factor in lieu of engineering tests to establish compliance with the minimum static safety factor of 1.3 specified in § 816.49(a)(3)(ii) of this chapter.

* * * * *

(f) If the structure meets the Class B or C criteria for dams in TR–60 or meets the size or other criteria of § 77.216(a) of this title, each plan under paragraphs (b), (c), and (e) of this section shall include a stability analysis of the structure.* * *

PART 816—PERMANENT PROGRAM PERFORMANCE STANDARDS—SURFACE MINING ACTIVITIES

7. The authority citation for part 816 continues to read as follows:

Authority: Pub. L. 95–87, 30 U.S.C. 1201 et seq., as amended; sec. 115 of Pub. L. 98–146, 30 U.S.C. 1257; and Pub. L. 100–34.

§ 816.46 [Amended]

8. In § 816.46, the following changes are made:

a. The designation (a)(1) and paragraph (a)(3) are removed;

b. The designation (a)(2) is removed and the text is added to the existing text of paragraph (a); and

c. New paragraphs (a) (i) and (ii) are redesignated as paragraphs (a) (1) and (2).

9. Section 816.46 is amended by revising paragraph (c)(2) to read as follows:

§ 816.46 Hydrologic balance: Siltation structures.

* * * * *

(c) * * *

(2) *Spillways.* A sedimentation pond shall include either a combination of principal and emergency spillways or single spillway configured as specified in § 816.49(a)(9).

* * * * *

10. Section 816.49 is amended by redesignating paragraphs (a)(1) through (a)(12) as paragraphs (a)(2) through (a)(13), respectively, and adding new paragraph (a)(1) to read as follows:

§ 816.49 Impoundments.

(a) * * *

(1) Impoundments meeting the Class B or C criteria for dams in the U.S. Department of Agriculture, Soil Conservation Service Technical Release No. 60 (TR–60), 'Earth Dams and Reservoirs,' 1985 shall comply with 'Minimum Emergency Spillway Hydrologic Criteria' table in TR–60 and the requirements of this section. The technical release is hereby incorporated by reference. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal, Springfield, Virginia 22161, order No. PB 87–1517509/AS. Copies can be inspected at the OSM Headquarters Office, Administrative Records, U.S. Department of the Interior, 1100 L Street NW., room 5131, Washington, DC, or at the Office of the Federal Register, 1100 L Street NW., room 8401, Washington, DC.

* * * * *

11. Section 816.49 is amended by revising newly designated paragraph (a)(4) to read as follows:

§ 816.49 Impoundments.

(a) * * *

(4) *Stability.* (i) An Impoundment meeting the Class B or C criteria for dams in TR–60, or the size or other criteria of § 77.216(a) of this title shall have a minimum static safety factor of 1.5 for normal pool with steady state seepage saturation conditions, and a seismic safety factor of at least 1.2.

(ii) Impoundments not included in paragraph (a)(4)(i) of this section, except for a coal mine waste impounding structure, shall have a minimum static safety factor of 1.3 for a normal pool with steady state seepage saturation conditions or meet the requirements of § 780.25(c)(3) of this chapter.

* * * * *

12. Section 816.49 is amended by adding the following sentence to end of newly designated paragraph (a)(5) to read as follows:

§ 816.49 Impoundments.

(a) * * *

(5) * * * Impoundments meeting the Class B or C criteria for dams in TR–60 shall comply with the freeboard hydrograph criteria in the Minimum Emergency Spillway Hydrologic Criteria table in TR–60.

* * * * *

13. Section 816.49 is amended by revising the second sentence of newly designated paragraph (a)(6)(i) to read as follows:

§ 816.49 Impoundments.

(a) * * *

(6) * * * (i) * * * For an impoundment meeting the Class B or C criteria for dams in TR–60, or the size or other criteria of § 77.216(a) of this title, foundation investigation, as well as any necessary laboratory testing of foundation material, shall be performed to determine the design requirements for foundation stability.

* * * * *

14. Section 816.49 is amended by revising newly designated paragraphs (a)(9)(ii) (A) and (B) and by adding a new paragraph (a)(9)(ii)(C) as follows:

§ 816.49 Impoundments.

(a) * * *

(9) * * *

(ii) * * *

(A) For an impoundment meeting the Class B or C criteria for dams in TR–60, the emergency spillway hydrograph criteria in the Minimum Emergency Spillway Hydrologic Criteria table in TR–60, or greater event as specified by the regulatory authority.

(B) For an impoundment meeting or exceeding the size or other criteria of § 77.216(a) of this title, a 100-year 6-hour event, or greater event as specified by the regulatory authority.

(C) For an impoundment not included in paragraphs (a)(9)(ii) (A) and (B) of this section, a 25-year 6-hour or greater event as specified by the regulatory authority.

* * * * *

15. Section 816.49 is amended by revising the first sentence of newly designated paragraph (a)(11)(iv) to read as follows:

§ 816.49 Impoundments.

(a) * * *

(11) * * *

(iv) In any State which authorizes land surveyors to prepare and certify plans in accordance with § 780.25(a) of this chapter, a qualified registered professional land surveyor may inspect any temporary or permanent impoundment that does not meet the SCS Class B or C criteria for dams in TR–60, or the size or other criteria of § 77.216(a) of this title and certify and submit the report required by paragraph (a)(11)(ii) of this section, except that all coal mine waste impounding structures covered by § 816.84 shall be certified by a qualified registered professional engineer. * * *

* * * * *

16. Section 816.49 is amended by revising newly designated paragraph (a)(12) to read as follows:

§ 816.49 Impoundments.

(a) * * *

(12) Impoundments meeting the SCS Class B or C criteria for dams in TR–60, or the size or other criteria of § 77.216 of this title must be examined in accordance with § 77.216–3 of this title. Impoundments not meeting the SCS Class B or C criteria for dams in TR–60, or subject to § 77.216 of this title, shall be examined at least quarterly. All examinations must be done by a qualified person designated by the operator for appearance of structural weakness and other hazardous conditions.

* * * * *

17. Section 816.49 is amended by revising paragraphs (c)(2)(i) and (c)(2)(ii) to read as follows:

§ 816.49 Impoundments.

* * * * *

(c) * * *

(2) * * *

(i) Impoundments meeting the SCS Class B or C criteria for dams in TR–60, or the size or other criteria of § 77.216(a) of this title shall be designed to control the precipitation of the probable maximum precipitation of a 6-hour event, or greater event specified by the regulatory authority.

(ii) Impoundments not included in paragraph (c)(2)(i) of this section shall be designed to control the precipitation of the 100-year 6-hour event, or greater event specified by the regulatory authority.

PART 817—PERMANENT PROGRAM PERFORMANCE STANDARDS—UNDERGROUND MINING ACTIVITIES

18. The authority citation for part 817 continues to read as follows:

Authority: Pub. L. 95–87, 30 U.S.C. 1201 et seq., as amended; sec. 115 of Pub. L. 98–146, 30 U.S.C. 1257; and Pub. L. 100–34.

§ 817.46 [Amended]

19. In § 817.46, the following changes are made:

a. Paragraphs (a)(1) and (a)(3) are removed;

VOL
56
ISS
125
JE
28
1991
UMI

b. The designation (a)(2) is removed and the text is added to the existing text of paragraph (a); and

c. New paragraphs (a)(i) and (ii) are redesignated as paragraphs (a)(1) and (2).

20. Section 817.46 is amended by revising paragraph (c)(2) to read as follows:

§ 817.46 Hydrologic balance: Siltation structures.

* * * * *

(c) * * *

(2) *Spillways.* A sedimentation pond shall include either a combination of principal and emergency spillways or single spillway configured as specified in § 817.49(a)(9).

21. Section 817.49 is amended by redesignating paragraphs (a)(1) through (a)(12) as paragraphs (a)(2) through (a)(13), respectively and adding new paragraph (a)(1) to read as follows:

§ 817.49 Impoundments.

(a) * * *

(1) Impoundments meeting the Class B or C criteria for dams in the U.S. Department of Agriculture, Soil Conservation Service Technical Release No. 60 (TR–60), 'Earth Dams and Reservoirs,' 1985 shall comply with the, 'Minimum Emergency Spillway Hydrologic Criteria,' table in TR–60 and the requirements of this section. The technical release is hereby incorporated by reference. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR Part 51. Copies may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161, order No. PB 87–1517509/AS. Copies can be inspected at the OSM Headquarters Office, Administrative Records, U.S. Department of the Interior, 1100 L Street NW., room 5215 Washington, DC, or at the Office of the Federal Register, 1100 L Street NW., room 8401, Washington, DC.

* * * * *

22. Section 817.49 is amended by revising newly designated paragraph (a)(4) to read as follows:

§ 817.49 Impoundments.

(a) * * *

(4) *Stability.* (i) An Impoundment meeting the SCS Class B or C criteria for dams in TR–60, or the size or other criteria of § 77.216(a) of this title shall have a minimum static safety factor of 1.5 for normal pool with steady state seepage saturation conditions, and a seismic safety factor of at least 1.2.

(ii) Impoundments not included in paragraph (a)(4)(i) of this section, except for a coal mine waste impounding structure, shall have a minimum static safety factor of 1.3 for a normal pool with steady state seepage saturation conditions or meet the requirements of § 784.16(c)(3) of this chapter.

* * * * *

23. Section 817.49 is amended by adding a new sentence to the end of newly designated paragraph (a)(5) to read as follows:

§ 817.49 Impoundments.

(a) * * *

(5) * * * Impoundments meeting the SCS Class B or C criteria for dams in TR–60 shall comply with the freeboard hydrograph criteria in the "Minimum Emergency Spillway Hydrologic Criteria" table in TR–60.

* * * * *

24. Section 817.49 is amended by revising the last sentence of newly designated paragraph (a)(6)(i) to read as follows:

§ 817.49 Impoundments.

(a) * * *

(6) * * *

(i) * * * For an impoundment meeting the SCS Class B or C criteria for dams in TR–60, or the size or other criteria of § 77.216(a) of this title, foundation investigation, as well as any necessary laboratory testing of foundation material, shall be performed to determine the design requirements for foundation stability.

* * * * *

25. Section 817.49 is amended by revising newly designated paragraphs (a)(9)(ii)(A) and (a)(9)(ii)(B); and by adding a new paragraph (a)(9)(ii)(C) as follows:

§ 817.49 Impoundments.

(a) * * *

(9) * * *

(ii) * * *

(A) For an impoundment meeting the SCS Class B or C criteria for dams in TR–60, the emergency spillway hydrograph criteria in the Minimum Emergency Spillway Hydrologic Criteria table in TR–60, or greater event as specified by the regulatory authority.

(B) For an impoundment meeting or exceeding the size or other criteria of § 77.216(a) of this title, a 100-year 6-hour event, or greater event as specified by the regulatory authority.

(C) For an impoundment not included in paragraph (a)(9)(ii) (A) and (B) of this section, a 25-year 6-hour event, or greater event as specified by the regulatory authority.

* * * * *

26. Section 817.49 is amended by revising the first sentence of newly designated paragraph (a)(11)(iv) to read as follows:

§ 817.49 Impoundments.

(a) * * *

(11) * * *

(iv) In any State which authorizes land surveyors to prepare and certify plans in accordance with § 784.16(a) of this chapter, a qualified registered professional land surveyor may inspect any temporary or permanent impoundment that does not meet the SCS Class B or C criteria for dams in TR–60, or the size or other criteria of § 77.216(a) of this title and certify and submit the report required by paragraph (a)(11)(ii) of this section, except that all coal mine waste impounding structures covered by § 817.84 shall be certified by a qualified registered professional engineer. * * *

* * * * *

27. Section 817.49 is amended by revising newly designated paragraph (a)(12) to read as follows:

§ 817.49 Impoundments.

(a) * * *

(12) Impoundments meeting the SCS Class B or C criteria for dams in TR–60, or the size or other criteria of § 77.216 of this title must be examined in accordance with § 77.216–3 of this title. Impoundments not meeting the SCS Class B or C criteria for dams in TR–60, or subject to § 77.216 of this title, shall be examined at least quarterly. All examinations must be done by a qualified person designated by the operator for appearance of structural weakness and other hazardous conditions.

* * * * *

28. Section 817.49 is amended by revising paragraphs (c)(2)(i) and (c)(2)(ii) to read as follows:

§ 817.49 Impoundments.

* * * * *

(c) * * *

(2) * * *

(i) Impoundments meeting the SCS Class B or C criteria for dams in TR–60, or the size or other criteria of § 77.216(a) of this title shall be designed to control the precipitation of the probable maximum precipitation of a 6-hour event, or greater event specified by the regulatory authority.

(ii) Impoundments not included in paragraph (c)(2)(i) of this section shall be designed to control the precipitation of the 100-year 6-hour event, or greater event specified by the regulatory authority.

DEPARTMENT OF COMMERCE

International Trade Administration

[Docket No. 910637-1137]

Consortia of American Businesses in Eastern Europe

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of a New Business Consortia Grant Program to assist U.S. firms establishing a commercial presence in Eastern Europe.

SUMMARY: A pilot program has been designed to assist U.S. firms in establishing a commercial presence in Eastern Europe through the formation of Consortia of American Businesses in Eastern Europe (CABEE). CABEEs are private and public non-profit organizations which will be formed to promote U.S. goods and services in Eastern Europe. The participants in these consortia will be for-profit U.S. firms interested in trade with Eastern Europe. CABEEs will establish offices and staff in Eastern Europe to provide a broad range of services for their member firms, including market research, sales promotion, and other trade facilitation services. Grant funds will be awarded as seed money to pay the start-up costs of establishing and operating CABEE offices in Eastern Europe. CABEEs can be organized along a single industry line or represent more than one business sector. There is no limitation on the number of for-profit firms that a consortium may represent.

SUPPLEMENTARY INFORMATION:

Program Objectives: CABEEs are intended to strengthen the U.S. business presence in Eastern Europe. They will provide direct trade facilitation support for their member firms, stimulating increased U.S. exports, joint ventures, and U.S. direct investment in Eastern Europe. CABEEs will promote two-way trade and will be expected to support development of counterpart host country trade associations and/or other organizations that can respond to the business opportunities represented through the consortia.

Funding Availability: Pursuant to the provision headed section (a)(6) under the heading "Assistance for Eastern Europe" of title II of the Foreign Operations, Export Financing and Related Programs Appropriation Act, 1991, Public Law 101-513 and section 632(a) of the Foreign Assistance Act of 1961, as amended, funding for the program will come from the Agency for International Development. Commerce will administer the program on a pilot basis pursuant to the authority contained in section 635(b) of the Foreign Assistance Act of 1961, as amended. The total amount of grant funds available for the pilot program is $2.5 million.

Funding Instrument and Project Duration: The Federal grant contribution will not exceed 50 percent of proposed eligible project costs with a maximum grant amount of $500,000 per consortium. Applicants are expected to provide the remaining share, preferably in cash. Federal funding will be a one-time injection with a grant period not to exceed three years. Assistance will be available for the period of time required to complete the scope of work but not to exceed three years from the date of the grant offer.

Request for Applications

Competitive Application kits (Application Kits) #180-0028-1 will be available from Commerce starting June 28, 1991.

To obtain a copy of the Application Kit #180-0028-1, please send a written request with two self-addressed mailing labels to Mr. George Muller, Director, Office of Export Trading Company Affairs, room 1800 HCHB, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC 20230. Only written requests will be honored; telephone, fax, or walk-in requests will not be accepted. Only one copy of the Application Kit will be provided to each organization requesting it, but it may be reproduced by the requester. Applications (Standard Form 424 (Rev. 4-88)) are to be received at the address designated in the Application Kit no later than 3 p.m. e.d.t. August 13, 1991. Subject to the availability of funds, awards will be made prior to the end of 1991.

Eligibility: Eligible applicants for the Business Consortia Grant Program will be private and public non-profit U.S. organizations including non-profit corporations, associations and public sector entities. Within the industry or industries represented by the consortium, membership in a consortium must be available on a non-discriminatory basis. For example, membership in a trade association cannot be a requirement for membership in a consortium. Only applicants proposing to open an office in one or more of the following East European countries are eligible for this program: Poland, Hungary, Czechoslovakia, Bulgaria, Romania, and Yugoslavia. Each application will receive an independent, objective review by one or more review panels qualified to evaluate the applications submitted under the program. Applications will be evaluated on a competitive basis in accordance with the selection criteria set below.

Selection Criteria: Priority consideration will be given to those CABEE proposals which:

1. Focus on Poland, Hungary, and Czechoslovakia as the geographic target of commercial activities.
2. Involve or relate to the following industries: Environment, energy, telecommunications, agriculture and agribusiness, and housing. Marketability of the products and/or services in the applicable East European countries will be taken into account in evaluating applications.
3. Are proposed by applicants with the capacity, qualifications and staff necessary to successfully undertake the intended activities.
4. Demonstrate the capability and intent of enlisting small and mid-sized U.S. firms as CABEE members.
5. Provide a reasonable assurance that the proposed project can be continued on a self-sustained basis after expiration of the Federal grant.
6. Contain a commitment to encourage, support and assist development of indigenous counterpart organizations (e.g. trade associations) and a well reasoned explanation as to how that will be accomplished.
7. Present a realistic work plan detailing the services it will provide to the CABEE members.
8. Present a reasonable, itemized budget for the proposed activities.

Selection criteria 1-3 will be weighted equally but will be accorded a greater degree of importance than the remaining criteria. Selection criteria 4-8 will be weighted equally.

Notifications: All applicants are advised of the following:

1. Applicants that have an outstanding account receivable with the Federal Government may not be considered for funding until these debts have been paid or arrangements satisfactory to the Department are made to pay the debt.
2. 15 CFR part 28 prohibits recipients of Federal contracts, grants, and cooperative agreements from using appropriated funds for lobbying the Executive or Legislative branches of the Federal Government in connection with a specific contract, grant, or cooperative agreement. A "Certification Regarding Lobbying" and the SF-LLL, "Disclosure of Lobbying Activities" (if applicable), is required for awards exceeding $100,000.
3. Applicants are subject to Governmentwide Debarment and Suspension (Nonprocurement) requirements as stated in 15 CFR part 26. In accordance with the Drug-Free Workplace Act of 1988, each applicant must make the appropriate certification as a "prior condition" to receiving a grant or cooperative agreement.
4. A false statement on the application may be grounds for denial or termination of funds.
5. Awards under this program shall be subject to all Federal and Departmental regulations, policies and procedures applicable to financial assistance awards.
6. All recipients are advised of the applicability of Executive Order 12372, "Intergovernmental Review of Federal Programs."
7. The Standard Form 424 (Rev. 4-88) mentioned in this notice is subject to the requirements of the Paperwork Reduction Act and it has been approved by OMB under Control No. 0348-0006.

Dated: June 25, 1991.

George Muller,

Director, Office of Export Trading Company Affairs.

Title 3—

The President

Proclamation 6307 of June 24, 1991

Agreement on Trade Relations Between the United States of America and the Republic of Bulgaria

By the President of the United States of America

A Proclamation

1. Pursuant to the authority vested in me by the Constitution and the laws of the United States, as President of the United States of America, I, acting through duly empowered representatives, entered into negotiations with representatives of the Republic of Bulgaria to conclude an agreement on trade relations between the United States of America and the Republic of Bulgaria.

2. These negotiations were conducted in accordance with the requirements of the Trade Act of 1974 (Public Law 93–618, January 3, 1975; 88 Stat. 1978), as amended (the "Trade Act").

3. As a result of these negotiations, an "Agreement on Trade Relations Between the Government of the United States of America and the Government of the Republic of Bulgaria," including exchanges of letters which form an integral part of the Agreement, the foregoing in English and Bulgarian, was signed on April 22, 1991, by duly empowered representatives of the two Governments and is set forth as an annex to this proclamation.

4. This Agreement conforms to the requirements relating to bilateral commercial agreements set forth in section 405(b) of the Trade Act (19 U.S.C. 2435(b)).

5. Article XVII of the Agreement provides that the Agreement shall enter into force on the date of exchange of written notices of acceptance by the two Governments.

6. Section 405(c) of the Trade Act (19 U.S.C. 2435(c)) provides that a bilateral commercial agreement providing nondiscriminatory treatment to the products of a country heretofore denied such treatment, and a proclamation implementing such agreement, shall take effect only if approved by the Congress under the provisions of that Act.

7. Section 604 of the Trade Act (19 U.S.C. 2483) authorizes the President to embody in the Harmonized Tariff Schedule of the United States the substance of the provisions of that Act, of other acts affecting import treatment, and actions taken thereunder.

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, acting under the authority vested in me by the Constitution and the laws of the United States, including but not limited to sections 404, 405, and 604 of the Trade Act of 1974, as amended, do proclaim that:

(1) This proclamation shall become effective, said Agreement shall enter into force, and nondiscriminatory treatment shall be extended to the products of the Republic of Bulgaria, in accordance with the terms of said Agreement, on the date of exchange of written notices of acceptance in accordance with Article XVII of said Agreement. The United States Trade Representative shall publish notice of the effective date in the **Federal Register**.

(2) Effective with respect to articles entered, or withdrawn from warehouse for consumption, into the customs territory of the United States on or after the date provided in paragraph (1) of this proclamation, general note 3(b) of the Harmonized Tariff Schedule of the United States, enumerating those countries

AGREEMENT ON TRADE RELATIONS BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF THE REPUBLIC OF BULGARIA

The Government of the United States of America and the Government of the Republic of Bulgaria (hereinafter referred to collectively as "Parties" and individually as "Party"),

Desiring to adopt mutually advantageous and equitable rules governing their trade and to ensure a predictable commercial environment,

Affirming that the evolution of market-based economic institutions and the strengthening of the private sector will aid the development of mutually beneficial trade relations,

Recognizing that the development of bilateral trade will contribute to better mutual understanding and cooperation, and can contribute to the general well-being of the peoples of each

VOL
56
ISS
125
JE
28
1991

Party and promote respect for internationally recognized workers' rights,

Taking into account Bulgaria's membership in the International Monetary Fund and the International Bank for Reconstruction and Development and the prospects for economic reform and restructuring of the economy, and taking into account Bulgaria's request for Contracting Party status in the General Agreement on Tariffs and Trade (hereinafter referred to as "GATT"), and Bulgaria's intention to become a Party to the European Patent Convention of October 1973,

Desiring to create a mutually beneficial framework which will foster the development and expansion of commercial ties between their respective nationals and companies,

Having agreed that economic ties are an important and necessary element in the strengthening of their bilateral relations,

Have agreed as follows:

ARTICLE I

MOST FAVORED NATION AND NONDISCRIMINATORY TREATMENT

1. Each Party shall accord unconditionally to products originating in or exported to the territory of the other Party treatment no less favorable than that accorded to like products originating in or exported to the territory of any third country in all matters relating to:

(a) customs duties and charges of any kind imposed on or in connection with importation or exportation, including the method of levying such duties and charges;

(b) methods of payment for imports and exports, and the international transfer of such payments;

(c) rules and formalities in connection with importation and exportation, including those relating to customs clearance, transit, warehouses and transshipment;

(d) taxes and other internal charges of any kind applied directly or indirectly to imported products; and

(e) laws, regulations and requirements affecting the sale, offering for sale, purchase, transportation, distribution, storage and use of products in the domestic market.

2. Each Party shall accord to products originating in or exported to the territory of the other Party nondiscriminatory treatment with respect to the application of quantitative restrictions and the granting of licenses.

VOL 56 ISS 125 JE 28 1991 UMI

3. Each Party shall accord to imports of products and services originating in the territory of the other Party most-favored-nation treatment with respect to the availability of and access to the currency needed to pay for such imports.

4. The provisions of paragraphs 1 and 2 shall not apply to:

(a) advantages accorded by either Party by virtue of such Party's full membership in a customs union or free trade area;

(b) advantages accorded to adjacent countries for the facilitation of frontier traffic; and

(c) actions by either Party which are required or specifically permitted by the GATT (or by any joint action or decision of the Contracting Parties to the GATT) during such time as such Party is a Contracting Party to the GATT, including advantages accorded to developing countries; equivalent advantages accorded to developing countries under other multilateral agreements; and special advantages accorded by virtue of the GATT.

5. The provisions of paragraph 2 of this Article shall not apply to trade in textiles and textile products.

ARTICLE II

MARKET ACCESS FOR PRODUCTS AND SERVICES

1. Each Party shall administer all tariff and nontariff measures affecting trade in a manner which affords, with respect to both third country and domestic competitors, meaningful competitive opportunities for products and services of the other Party.

2. Accordingly, neither Party shall impose, directly or indirectly, on the products of the other Party imported into its territory, internal taxes or charges of any kind in excess of those applied, directly or indirectly, to like domestic products.

3. Each Party shall accord to products originating in the territory of the other Party treatment no less favorable than that accorded to like domestic products in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution, storage or use.

4. The charges and measures described in paragraphs 2 and 3 of this Article should not be applied to imported or domestic products so as to afford protection to domestic production.

5. The Parties shall ensure that technical regulations and standards are not prepared, adopted or applied with a view to creating obstacles to international trade. Furthermore, each Party shall accord products imported from the territory of the other Party treatment no less favorable than that accorded to

VOL 56 ISS 125 JE 28 1991 UMI

like domestic products and to like products originating in any third country in relation to such technical regulations or standards, including conformity testing and certification.

6. The Government of the Republic of Bulgaria shall accede to the International Convention on the Harmonized Commodity Description and Coding System and shall take all necessary measures to implement such Convention with respect to the Republic of Bulgaria. The Government of the United States of America shall endeavor to provide technical assistance, as appropriate, for the implementation of such measures.

7. The Parties agree to maintain a satisfactory balance of market access opportunities, including through concessions in trade in products and services and through the satisfactory reciprocation of reductions in tariffs and nontariff barriers to trade resulting from multilateral negotiations.

ARTICLE III

GENERAL OBLIGATIONS WITH RESPECT TO TRADE

1. Trade in products and services shall be effected by contracts between nationals and companies of the United States and nationals and companies of the Republic of Bulgaria concluded on the basis of nondiscrimination and in the exercise of their independent commercial judgment and on the basis of customary commercial considerations such as price, quality, availability, delivery and terms of payment.

2. Neither Party shall require or encourage nationals or companies of the United States or nationals or companies of the Republic of Bulgaria to engage in barter or countertrade transactions. Nevertheless, where nationals or companies decide to resort to barter or countertrade operations, the Parties will encourage them to furnish to each other all necessary information to facilitate the transaction.

ARTICLE IV

EXPANSION AND PROMOTION OF TRADE

1. The Parties affirm their desire to expand trade in products and services consistent with the terms of this Agreement. They shall take appropriate measures to encourage and facilitate the exchange of goods and services and to secure favorable conditions for long-term development and diversification of trade between their respective nationals and companies.

2. The Parties shall take appropriate measures to encourage the expansion of commercial contacts with a view to increasing trade. In this regard, the Government of the Republic of Bulgaria expects that, during the term of this Agreement, nationals and companies of the Republic of Bulgaria shall increase their purchases of products and services from the United States, while the Government of the United States expects that the effect of this Agreement shall be to encourage increased purchases by nationals and companies of the United States of

VOL 56 ISS 125 JE 28 1991 UMI

products and services from the Republic of Bulgaria. Toward this end, the Parties shall publicize this Agreement and ensure that it is made available to all interested parties.

3. Each Party shall encourage and facilitate the holding of trade promotional events such as fairs, exhibitions, missions and seminars in its territory and in the territory of the other Party. Similarly, each Party shall encourage and facilitate the participation of its respective nationals and companies in such events. Subject to the laws in force within their respective territories, the Parties agree to allow the import and re-export on a duty free basis of all articles for use in such events, provided that such articles are not sold or otherwise transferred.

ARTICLE V

GOVERNMENT COMMERCIAL OFFICES

1. Subject to its laws and regulations governing foreign missions, each Party shall allow government commercial offices to hire directly host-country nationals and, subject to immigration laws and procedures, third-country nationals.

2. Each Party shall ensure unhindered access of host-country nationals to government commercial offices of the other Party.

3. Each Party shall encourage the participation of its nationals and companies in the activities of the other Party's government commercial offices, especially with respect to events held on the premises of such commercial offices.

4. Each Party shall encourage and facilitate access by government commercial office personnel of the other Party to host-country officials at both the national and subnational level, and representatives of nationals and companies of the host Party.

ARTICLE VI

BUSINESS FACILITATION

1. Each Party shall afford commercial representations of the other Party fair and equitable treatment with respect to the conduct of their operations.

2. Subject to its laws and procedures governing immigration and foreign missions, each Party shall permit the establishment within its territory of commercial representations of nationals and companies of the other Party and shall accord such representations treatment at least as favorable as that accorded to commercial representations of nationals and companies of third countries.

3. Subject to its laws and procedures governing immigration and foreign missions, each Party shall permit such commercial representations established in its territory to hire directly employees who are nationals of either Party or of third countries and to compensate such employees on terms and in a currency that is mutually agreed between the parties, consistent with such Party's minimum wage laws.

VOL
56
ISS
125
JE
28
1991
UMI

10

4. Each Party shall permit commercial representations of the other Party to import and use in accordance with normal commercial practices, office and other equipment, such as typewriters, photocopiers, computers and telefax machines in connection with the conduct of their activities in the territory of such Party.

5. Subject to laws and procedures regarding foreign missions, each Party shall permit, on a nondiscriminatory basis and at market prices, commercial representations of the other Party access to and use of office space and living accommodations.

6. Subject to its laws and procedures governing immigration and foreign missions, each Party shall permit nationals and companies of the other Party to engage agents, consultants and distributors of either Party and of third countries on prices and terms mutually agreed between the parties.

7. Subject to its laws and procedures governing immigration and foreign missions, each Party shall permit nationals and companies of the other Party to serve as agents, consultants and distributors of nationals and companies of either Party and of third countries on prices and terms mutually agreed between the parties.

8. Each Party shall permit nationals and companies of the other Party to advertise their products and services (a) through direct agreement with the advertising media, including television, radio, print and billboard, and (b) by direct mail,

11

including the use of enclosed envelopes and cards preaddressed to that national or company.

9. Each Party shall encourage direct contact, and permit direct sales, between nationals and companies of the other Party and end-users and other customers of their goods and services, and with agencies and organizations whose decisions will affect potential sales.

10. Each Party shall permit nationals and companies of the other Party to conduct market studies, either directly or by contract, within its territory. To facilitate the conduct of market research, each Party shall, upon request, make available non-confidential, non-proprietary information within its possession to nationals and companies of the other Party engaged in such efforts.

11. Each Party shall provide nondiscriminatory access to governmentally-provided products and services, including public utilities, to nationals and companies of the other Party at fair and equitable prices (and in no event at prices greater than those charged to any nationals or companies of third countries where such prices are set or controlled by the government) in connection with the operation of their commercial representations.

12. Each Party shall permit commercial representations to stock an adequate supply of samples and replacement parts for aftersales service on a non-commercial basis.

VOL 56 ISS 125 JE 28 1991 UMI

13. Neither Party shall impose measures which unreasonably impair contractual or property rights or other interests acquired within its territory by nationals and companies of the other Party.

ARTICLE VII

TRANSPARENCY

1. Each Party shall make available publicly on a timely basis all laws, regulations, judicial decisions and administrative rulings of general application related to commercial activity, including trade, investment, taxation, banking, insurance and other financial services, transport and labor. Each Party shall make such information available in reading rooms in its own capital and shall endeavor to make such information available in the capital of the other Party.

2. Each Party shall provide nationals and companies of the other Party with access to available non-confidential, non-proprietary data on the national economy and individual sectors, including information on foreign trade.

3. Each Party shall allow nationals and companies of the other Party the opportunity, to the extent practicable, to comment on the formulation of rules and regulations which affect the conduct of business activities.

ARTICLE VIII

FINANCIAL PROVISIONS RELATING TO TRADE IN PRODUCTS AND SERVICES

1. Unless otherwise agreed between the parties to individual transactions, all commercial transactions between nationals and companies of the Parties shall be made in United States dollars or any other currency that may be designated from time to time by the International Monetary Fund as being a freely usable currency.

2. Neither Party shall restrict the export from its territory of convertible currencies or deposits, or instruments representative thereof, obtained in connection with trade in products and services by nationals and companies of the other Party.

3. Expenditures in the territory of a Party by nationals and companies of the other Party may be made in local currency received in an authorized manner.

4. Without derogation from paragraphs 2 or 3 of this Article, in connection with trade in products and services, each Party shall grant to nationals and companies of the other Party the better of most-favored-nation or national treatment with respect to:

(a) opening and maintaining accounts, in both local and foreign currency, and having access to funds deposited, in financial institutions located in the territory of the Party;

VOL
56
ISS
125
JE
28
1991
UMI

(b) payments, remittances and transfers of convertible currencies, or financial instruments representative thereof, between the territories of the two Parties, as well as between the territory of that Party and that of any third country;

(c) rates of exchange and related matters; and

(d) the receipt of local currency and its use for local expenses.

ARTICLE IX

PROTECTION OF INTELLECTUAL PROPERTY RIGHTS

1. Each Party shall provide adequate and effective protection and enforcement for patents, trademarks, copyrights, trade secrets, and layout designs for integrated circuits as set forth in the text of a side letter attached hereto.

ARTICLE X

AREAS FOR FURTHER ECONOMIC AND TECHNICAL COOPERATION

1. For the purpose of further developing bilateral trade and providing for a steady increase in the exchange of products and services, both Parties shall strive to achieve mutually acceptable agreements on taxation and investment issues, including the repatriation of profits and transfer of capital.

2. The Parties shall take appropriate steps to foster economic and technical cooperation on as broad a base as possible

in all fields deemed to be in their mutual interest, including with respect to statistics and standards.

3. The Parties, taking into account the growing economic significance of service industries, agree to consult on matters affecting the conduct of service business between the two countries and particular matters of mutual interest relating to individual service sectors with the objective, among others, of attaining maximum possible market access and liberalization.

ARTICLE XI

IMPORT RELIEF SAFEGUARDS

1. The Parties agree to consult promptly at the request of either Party whenever either actual or prospective imports into the territory of one of the Parties of products originating in the territory of the other Party cause or threaten to cause or significantly contribute to market disruption. Market disruption exists within a domestic industry whenever imports of an article, like or directly competitive with an article produced by such domestic industry, are increasing rapidly, either absolutely or relatively, so as to be a significant cause of material injury, or threat thereof, to such domestic industry.

2. Determination of market disruption or threat thereof by the importing Party shall be based upon a good faith application of its laws and on an affirmative finding of relevant facts and on their examination. The importing Party, in determining whether market disruption exists, may consider, among other

factors: the volume of imports of the merchandise which is the subject of the inquiry; the effect of imports of the merchandise on prices in the territory of the importing Party for like or directly competitive articles; the impact of imports of such merchandise on domestic producers of like or directly competitive articles; and evidence of disruptive pricing practices or other efforts to unfairly manage trade patterns.

3. The consultations provided for in paragraph 1 of this Article shall have the objectives of (a) presenting and examining the factors relating to such imports that may be causing or threatening to cause or significantly contributing to market disruption, and (b) finding means of preventing or remedying such market disruption. Such consultations shall be concluded within sixty days from the date of the request for such consultation, unless the Parties otherwise agree.

4. Unless a different solution is mutually agreed upon during the consultations, and not withstanding paragraphs 1 and 2 of Article I, the importing Party may (a) impose quantitative import limitations, tariff measures or any other restrictions or measures to such an extent and for such time as it deems necessary to prevent or remedy threatened or actual market disruption, and (b) take appropriate measures to ensure that imports from the territory of the other Party comply with such quantitative limitations or other restrictions. In this event, the other Party shall be free to deviate from its obligations

under this Agreement with respect to substantially equivalent trade.

5. Where in the judgment of the importing Party, emergency action, which may include the existence of critical circumstances, is necessary to prevent or remedy such market disruption, the importing Party may take such action at any time and without prior consultations provided that such consultations shall be requested immediately thereafter.

6. In the selection of measures under this Article, the Parties shall endeavor to give priority to those which cause the least disturbance to the achievement of the goals of this Agreement.

7. Each Party shall ensure that its domestic procedures for determining market disruption are transparent and afford affected parties an opportunity to submit their views.

8. The Parties acknowledge that the elaboration of the market disruption safeguard provisions in this Article is without prejudice to the right of either Party to apply its laws and regulations applicable to trade in textiles and textile products and its laws and regulations applicable to unfair trade, including antidumping and countervailing duty laws.

ARTICLE XII

DISPUTE SETTLEMENT

1. Nationals and companies of either Party shall be accorded national treatment with respect to access to all courts

VOL 56 ISS 125 JE 28 1991 UMI

VOL 56 ISS 125 JE 28 1991 UMI

and administrative bodies in the territory of the other Party, as plaintiffs, defendants or otherwise. They shall not claim or enjoy immunity from suit or execution of judgment, proceedings for the recognition and enforcement of arbitral awards, or other liability in the territory of the other Party with respect to commercial transactions; they also shall not claim or enjoy immunities from taxation with respect to commercial transactions, except as may be provided in other bilateral agreements.

2. The Parties encourage the adoption of arbitration for the settlement of disputes arising out of commercial transactions concluded between nationals or companies of the United States and nationals or companies of the Republic of Bulgaria. Such arbitration may be provided for by agreements in contracts between such nationals or companies, or in separate written agreements between them.

3. The parties may provide for arbitration under any internationally recognized arbitration rules, including the UNCITRAL Rules of 15 December 1976 and any modifications thereto, in which case the parties should designate an Appointing Authority under said rules in a country other than the United States or the Republic of Bulgaria.

4. Unless otherwise agreed between the parties, the parties should specify as the place of arbitration a country other than the United States or the Republic of Bulgaria, that is a party to the Convention on the Recognition and Enforcement of Foreign Arbitral Awards, done at New York, June 10, 1958.

5. Nothing in this Article shall be construed to prevent, and the Parties shall not prohibit, the parties from agreeing upon any other form of arbitration or on the law to be applied in such arbitration, or other form of dispute settlement which they mutually prefer and agree best suits their particular needs.

6. Each Party shall ensure that an effective means exists within its territory for the recognition and enforcement of arbitral awards.

ARTICLE XIII

NATIONAL SECURITY

The provisions of this Agreement shall not limit the right of either Party to take any action for the protection of its security interests.

ARTICLE XIV

CONSULTATIONS

1. The Parties agree to set up a Joint Commercial Commission which will, subject to the terms of reference of its establishment, foster economic cooperation and the expansion of trade under this Agreement and review periodically the operation of this Agreement and make recommendations for achieving its objectives.

2. The Parties agree to consult promptly through appropriate channels at the request of either Party to discuss any matter concerning the interpretations or implementation of

VOL 56 ISS 125 JE 28 1991 UMI

this Agreement or other relevant aspects of the relations between the Parties.

ARTICLE XV

DEFINITIONS

As used in this Agreement, the terms set forth below shall have the following meaning:

(a) "company," means any kind of corporation, company, association, sole proprietorship, state or other enterprise, cooperative or other organization legally constituted under the laws and regulations of a Party or a political subdivision thereof, whether or not organized for pecuniary gain or privately or governmentally owned;

(b) "commercial representation," means a representation of a company of a Party; and

(c) "national," means a natural person who is a national of a Party under its applicable law.

ARTICLE XVI

GENERAL EXCEPTIONS

1. Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between countries where the same conditions prevail, or a disguised restriction on international trade, nothing in this Agreement shall be construed to prohibit the adoption or enforcement by a Party of:

(a) measures necessary to secure compliance with laws or regulations which are not contrary to the purposes of this Agreement;

(b) measures for the protection of intellectual property rights and the prevention of deceptive practices as set out in Article IX (and the related side letter) of this Agreement, provided that such measures shall be related to the extent of any injury suffered or the prevention of injury; or

(c) any other measure referred to in Article XX of the GATT.

2. Nothing in this Agreement limits the application of any agreement in force or which enters into force between the Parties on trade in textiles and textile products.

3. Both Parties reserve the right to deny any company the advantages of this Agreement if nationals of any third country control such a company and, in the case of a company of the other Party, that company has no substantial business activities in the territory of the other Party or is controlled by nationals of a third country with which the denying country does not maintain normal economic relations.

ARTICLE XVII

ENTRY INTO FORCE, TERM, SUSPENSION AND TERMINATION

1. This Agreement (including its side letters which are an integral part of the Agreement) shall enter into force on the

VOL
56
ISS
125
JE
28
1991
UMI

date of exchange of written notices of acceptance by the two Governments and it shall remain in force as provided in paragraphs 2 and 3 of this Article.

2. (a) The initial term of this Agreement shall be three years, subject to subparagraph (b) and (c) of this paragraph.

(b) If either Party encounters or foresees a problem concerning its domestic legal authority to carry out any of its obligations under this Agreement, such Party shall request immediate consultations with the other Party. Once consultations have been requested, the other Party shall enter into such consultations as soon as possible concerning the circumstances that have arisen with a view to finding a solution to avoid action under subparagraph (c).

(c) If either Party does not have domestic legal authority to carry out its obligations under this Agreement, either Party may suspend the application of this Agreement or, with the agreement of the other Party, any part of this Agreement. In that event, the Parties will, to the fullest extent practicable and consistent with domestic law, seek to minimize disruption to existing trade relations between the two countries.

3. This Agreement shall be extended for successive terms of three years each unless either Party has given written notice to the other Party of its intent to terminate this Agreement at least 30 days prior to the expiration of the then current term.

IN WITNESS WHEREOF, the undersigned, being duly authorized by their respective Governments, have signed this Agreement.

DONE at Washington, D.C. on this twenty-second day of April 1991, in duplicate, in the English and Bulgarian languages, both texts being equally authentic.

FOR THE GOVERNMENT OF THE UNITED STATES OF AMERICA:

THE UNITED STATES TRADE REPRESENTATIVE
Executive Office of the President
Washington, D.C. 20506

Washington, April 22, 1991

Dear Mr. Ambassador:

I have the honor to confirm receipt of your letter which reads as follows:

Dear Madam Ambassador:

In connection with the signing on this date of the Agreement on Trade Relations between the United States of America and the Republic of Bulgaria (the "Agreement"), I have the honor to confirm the understanding reached by our Governments regarding the protection of intellectual property as set forth in Article IX of the Agreement.

1. Each Party reaffirms its commitments to those international agreements relating to intellectual property to which both Parties are signatories. Specifically, each Party reaffirms the commitments made with respect to the Paris Convention for the Protection of Industrial Property as revised at Stockholm in 1967, the Berne Convention for the Protection of Literary and Artistic Works as revised at Paris in 1971, and the Universal Copyright Convention of September 6, 1952 as revised at Paris on July 24, 1971. The Parties agree to adhere to the Geneva Convention for the Protection of Producers of Phonograms Against Unauthorized Duplication of their Phonograms (1971).

2. To provide adequate and effective protection and enforcement of intellectual property rights, each Party shall, inter alia observe the following commitments:

(a) Copyright and related rights

(i) Each Party shall protect the works listed in Article 2 of the Berne Convention (Paris 1971) and any other works now known or later developed, that embody original expressions within the meaning of the Berne Convention, not limited to the following:

His Excellency
Ognian Raytchev Pishev
Ambassador of the Republic of Bulgaria

(1) all types of computer programs (including application programs and operating systems) expressed in any language, whether in source or object code which shall be protected as literary works and works created by or with the use of computers; and

(2) collections or compilations of protected or unprotected material or data whether in print, machine readable or any other medium, including data bases, which shall be protected if they constitute intellectual creation by reason of the selection, coordination, or arrangement of their contents.

(ii) Rights in works protected pursuant to paragraph 2(a)(i) of this letter shall include, inter alia, the following:

(1) the right to import or authorize the importation into the territory of the Party of lawfully made copies of the work as well as the right to prevent the importation into the territory of the Party of copies of the work made without the authorization of the right-holder;

(2) the right to make the first public distribution of the original or each authorized copy of a work by sale, rental, or otherwise; and

(3) the right to make a public communication of a work (e.g., to perform, display, project, exhibit, broadcast, transmit, or retransmit a work); the term "public" shall include:

(A) communicating a work in a place open to the public or at any place where a substantial number of persons outside of a normal circle of a family and its social acquaintances is gathered; or

(B) communicating or transmitting a work, a performance, or a display of a work, in any form, or by means of any device or process to a place specified in clause 2(a)(ii)(3)(A) or to the public, regardless of whether the members of the public capable of receiving such communications can receive them in the same place or separate places and at the same time or at different times.

(iii) Each Party shall extend the protection afforded under paragraph 2(a)(ii) of this letter to authors of the other Party, whether they are natural persons or,

VOL
56
ISS
125
JE
28
1991
UMI

where the other Party's domestic law so provides, companies and to their successors in title.

(iv) Each Party shall permit protected rights under paragraph 2(a)(ii) of this letter to be freely and separately exploitable and transferable. Each Party shall also permit assignees and exclusive licensees to enjoy all rights of their assignors and licensors acquired through voluntary agreements, and be entitled to enjoy and exercise their acquired exclusive rights.

(v) In cases where a Party measures the term of protection of a work from other than the life of the author, the term of protection shall be no less than 50 years from authorized publication or, failing such authorized publication within 50 years from the making of the work, 50 years after the making.

(vi) Each Party shall confine any limitations or exceptions to the rights provided under paragraph 2(a)(ii) of this letter (including any limitations or exceptions that restrict such rights to "public" activity) to clearly and carefully defined special cases which do not impair an actual or potential market for or the value of a protected work.

(vii) Each Party shall ensure that any compulsory or non-voluntary license (or any restriction of exclusive rights to a right of remuneration) shall provide means to ensure payment and remittance of royalties at a level consistent with what would be negotiated on a voluntary basis.

(viii) Each Party shall, at a minimum, extend to producers of sound recordings the exclusive rights to do or to authorize the following:

(1) to reproduce the recording by any means or process, in whole or in part; and

(2) to exercise the importation and exclusive distribution and rental rights provided in paragraphs 2(a)(ii)(1) and (2) of this letter.

(ix) Paragraphs 2(a)(iii), 2(a)(iv) and 2(a)(vi) of this letter shall apply mutatis mutandis to sound recordings.

(x) Each Party shall:

(1) protect sound recordings for a term of at least 50 years from publication; and

(2) grant the right to make the first public distribution of the original or each authorized sound recording by sale, rental, or otherwise except that the first sale of the original or such sound recording shall not exhaust the rental or importation right therein (the "rental right" shall mean the right to authorize or prohibit the disposal of the possession of the original or copies for direct or indirect commercial advantage).

(xi) Parties shall not subject the acquisition and validity of intellectual property rights in sound recordings to any formalities, and protection shall arise automatically upon creation of the sound recording.

(b) Trademarks

(i) Protectable Subject Matter

(1) Trademarks shall consist of at least any sign, words, including personal names, designs, letters, numerals, colors, or the shape of goods or of their packaging, provided that the mark is capable of distinguishing the goods or services of one national, company or organization from those of other nationals, companies or organizations.

(2) The term "trademark" shall include service marks, collective and certification marks.

(ii) Acquisition of Rights

(1) A trademark right may be acquired by registration or by use. Each Party shall provide a system for the registration of trademarks. Use of a trademark may be required as a prerequisite for registration.

(2) Each Party shall publish each trademark either before it is registered or promptly after it is registered and shall afford other parties a reasonable opportunity to petition to cancel the registration. In addition, each Party may afford an opportunity for the other Party to oppose the registration of a trademark.

(3) The nature of the goods or services to which a trademark is to be applied shall in no case form an obstacle to registration of the trademark.

VOL
56
ISS
125
JE
28
1991
UMI

5

(iii) Rights Conferred

(1) The owner of a registered trademark shall have exclusive rights therein. He shall be entitled to prevent all third parties not having his consent from using in commerce identical or similar signs for goods or services which are identical or similar to those in respect of which the trademark is protected, where such use would result in a likelihood of confusion.

(2) Each Party shall refuse to register or shall cancel the registration and prohibit use of a trademark likely to cause confusion with a trademark of another which is considered to be well-known. A Party may not require that the reputation of the trademark extend beyond the sector of the public which normally deals with the relevant goods or services.

(3) The owner of a trademark shall be entitled to take action against any unauthorized use which constitutes an act of unfair competition or passing off.

(iv) Term of Protection

The registration of a trademark shall be indefinitely renewable for terms of no less than 10 years when conditions for renewal have been met. Initial registration of a trademark shall be for a term of at least 10 years.

(v) Requirement of Use

(1) If use of a registered mark is required to maintain trademark rights, the registration may be cancelled only after an uninterrupted period of at least two years of non-use, unless legitimate reasons for non-use exist. Use of the trademark with the consent of the owner shall be recognized as use of the trademark for the purpose of maintaining the registration.

(2) Legitimate reasons for non-use shall include non-use due to circumstances arising independently of the will of the trademark holder (such as import restrictions on or other government requirements for products protected by the trademark) which constitute an obstacle to the use of the mark.

6

(vi) Other Requirements

The use of a trademark in commerce shall not be encumbered by special requirements, such as use which reduces the function of a trademark as an indication of source or use with another trademark.

(vii) Compulsory Licensing

Compulsory licensing of trademarks shall not be permitted.

(viii) Transfer

Trademark registrations may be transferred.

(c) Patents

(i) Patentable Subject Matter

(1) Patents shall be available for all inventions, whether products or processes, in all fields of technology.

(2) Parties may exclude from patentability:

(A) any invention or discovery which is useful solely in the utilization of special nuclear material or atomic energy in an atomic weapon; and

(B) plant and animal varieties.

(3) If a Party does not grant patents for plant and/or animal varieties the Party shall provide effective protection through a sui generis system.

(4) Notwithstanding paragraphs 2(c)(i)(2) and 2(c)(i)(3),

(a) patents shall be available for microbiological processes and the products thereof, and

(b) Parties may exclude plant and animal varieties from patent protection only until protection for such inventions becomes an obligation under an international agreement to which both Parties adhere.

VOL 56 ISS 125 JE 28 1991 UMI

7

(ii) Rights Conferred

(1) A patent shall confer the right to prevent others not having the patent owner's consent from making, using, or selling the subject matter of the patent. In the case of a patented process, the patent confers the right to prevent others not having consent from using that process and from using, selling, or importing at least the product obtained directly by that process.

(2) Where the subject matter of a patent is a process for obtaining a product, each Party shall provide that the burden of establishing that an alleged infringing product was not made by the process shall be on the alleged infringer, at least in one of the following situations:

(A) the product is new; or

(B) a substantial likelihood exists that the product was made by the process and the patent owner has been unable through reasonable efforts to determine the process actually used.

In gathering and evaluation of evidence to the contrary, the legitimate interests of the defendant in protecting his manufacturing and business secrets shall be taken into account.

(3) A patent may only be revoked on grounds that would have justified a refusal to grant the patent.

(iii) Exceptions

Each Party may provide limited exceptions to the exclusive rights conferred by a patent, such as for acts done for experimental purposes, provided that the exceptions do not significantly prejudice the economic interests of the right-holder.

(iv) Term of Protection

Each Party shall provide a term of protection of at least 20 years from the date of filing of the patent application or 17 years from the date of grant of the patent. Each Party is encouraged to extend the term of patent protection, in appropriate cases, to compensate for delays caused by regulatory approval processes.

8

(v) Transitional Protection

A Party shall provide transitional protection for products embodying subject matter deemed to be unpatentable under its patent law prior to its implementation of the provisions of this letter, where the following conditions are satisfied:

(1) the subject matter to which the product relates will become patentable after implementation of the provisions of this letter;

(2) a patent has been issued for the product by the other Party, or an application is pending for the product with the other Party, prior to the entry into force of this letter; and,

(3) the product has not been marketed in the territory of the Party providing such transitional protection.

The owner of a patent, or of a pending application, for a product satisfying the conditions set forth above shall have the right to submit a copy of the patent or provide notification of the existence of a pending application with the other Party, to the Party providing transitional protection. These submissions and notifications shall take place any time after the signing of this Agreement and the exchange of letters and before the implementation of the new Bulgarian patent law. This period, however, shall not be less than nine months. In the case of a pending application, the applicant shall notify the competent Bulgarian authorities of the issuance of a patent based on his application within six months of the date of grant by the other Party. The Party providing transitional protection shall limit the right to make, use, or sell the product in its territory to such owner for a term to expire with that of the patent submitted.

(vi) Compulsory Licenses

(1) Each Party may limit the patent owner's exclusive rights through compulsory licenses but only:

(A) to remedy an adjudicated violation of competition laws;

(B) to address, only during its existence, a declared national emergency;

VOL 56 ISS 125 JE 28 1991 UMI

9

(C) to address a failure to meet the reasonable demands of the domestic market, however importation shall constitute a means of meeting the demands of the domestic market; and

(D) to enable compliance with national air pollutant standards, where compulsory licenses are essential to such compliance.

(2) Where the law of a Party allows for the grant of compulsory licenses, such licenses shall be granted in a manner which minimizes distortions of trade, and the following provisions shall be respected:

(A) Compulsory licenses shall be non-exclusive and non-assignable except with that part of the enterprise which exploits such license.

(B) The payment of remuneration to the patent owner adequate to compensate the patent owner fully for the license shall be required, except for compulsory licenses to remedy adjudicated violations of competition laws.

(C) Each case involving the possible grant of a compulsory license shall be considered on its individual merits.

(D) Any compulsory license shall be revoked when the circumstances which led to its granting cease to exist, taking into account the legitimate interests of the patent owner and of the licensee. The continued existence of these circumstances shall be reviewed upon request of the right-holder.

(E) Judicial review shall be available for:

1. decisions to grant compulsory licenses, except in the instance of a declared national emergency,

2. decisions to continue compulsory licenses, and

3. the compensation provided for compulsory licenses.

(d) Layout-Designs of Semiconductor Chips

(i) Subject Matter for Protection

10

(1) Each Party shall provide protection for original layout-designs incorporated in a semiconductor chip, however the layout-design might be fixed or encoded.

(2) Each Party may condition protection on fixation or registration of the layout-designs. If registration is required, applicants shall be given at least two years from first commercial exploitation of the layout-design in which to apply. A Party which requires deposits of identifying material or other material related to the layout-design shall not require applicants to disclose confidential or proprietary information unless it is essential to allow identification of the layout-design.

(ii) Rights Acquired

(1) Each Party shall provide to right-holders of integrated circuit lay-out designs of the other Party the exclusive right to do or to authorize the following:

(A) to reproduce the layout-design;

(B) to incorporate the layout-design in a semiconductor chip; and

(C) to import or distribute a semiconductor chip incorporating the layout-design and products including such chips.

(2) The conditions set out in paragraph 2(c)(vi) shall apply, mutatis mutandis, to the grant of any compulsory licenses for layout-designs.

(3) Neither Party is required to extend protection to layout-designs that are commonplace in the industry at the time of their creation or to layout-designs that are exclusively dictated by the functions of the circuit to which they apply.

(4) Each Party may exempt the following from liability under its law:

(A) reproduction of a layout-design for purposes of teaching, analysis, or evaluation in the course of preparation of a layout-design that is itself original;

(B) importation and distribution of semiconductor chips, incorporating a protected layout-design, which were sold by or with the consent of the owner of the layout-design; and

(C) importation or distribution up to the point of notice of a semiconductor chip incorporating a protected layout-design and products incorporating such chips by a person who establishes that he did not know, and had no reasonable grounds to believe, that the layout-design was protected; provided that, with respect to stock on hand or purchased at the time notice is received, such person may import or distribute only such stock, but is liable for a reasonable royalty on the sale of each item after notice is received.

(iii) Term of Protection

The term of protection for the lay-out design shall extend for at least ten years from the date of first commercial exploitation or the date of registration of the design, if required, whichever is earlier.

(e) Acts Contrary to Honest Commercial Practices and the Protection of Trade Secrets

(i) In the course of ensuring effective protection against unfair competition as provided for in Article 10 bis of the Paris Convention, each Party shall provide in its domestic law and practice the legal means for nationals, companies and organizations to prevent trade secrets from being disclosed to, acquired by, or used by others without the consent of the trade secret owner in a manner contrary to honest commercial practices, insofar as such information:

(1) is not, as a body or in the precise configuration and assembly of its components, generally known or readily ascertainable;

(2) has actual or potential commercial value because it is not generally known or readily ascertainable; and

(3) has been subject to reasonable steps under the circumstances to keep it secret.

(ii) Neither Party shall limit the duration of protection for trade secrets so long as the conditions in paragraph 2(e)(i) of this letter exist.

(iii) Licensing

Neither Party shall discourage or impede voluntary licensing of trade secrets by imposing excessive or discriminatory conditions on such licenses or conditions which dilute the value of trade secrets.

(iv) Government Use

(1) If a Party requires, as a condition of approving the marketing of pharmaceutical or agricultural chemical products which utilize new chemical entities, the submission of undisclosed test or other data, the origination of which involves a considerable effort, that Party shall protect such data against unfair commercial use. Further, each Party shall protect such data against disclosure except where necessary to protect the public or unless steps are taken to ensure that the data is protected against unfair commercial use.

(2) Unless the national or company submitting the information agrees, the data may not be relied upon for the approval of competing products for a reasonable period of time, taking into account the efforts involved in the origination of the data, their nature, and the expenditure involved in their preparation, and such period of time shall generally be not less than five years from the date of marketing approval.

(3) Where a Party relies upon a marketing approval granted by the other Party or a country other than the United States or Bulgaria, the reasonable period of exclusive use of the data submitted in connection with obtaining the approval relied upon shall commence with the date of the first marketing approval relied upon.

(f) Enforcement of Intellectual Property Rights

(i) Each Party shall protect intellectual property rights covered by this letter by means of civil law, criminal law, or administrative law or a combination thereof in conformity with the provisions below. Each Party shall provide effective procedures, internally and at the border, to protect these intellectual property rights against any act of infringement, and effective remedies to stop and prevent infringements and to effectively deter further infringements. These procedures shall be applied in such a manner as to avoid the creation of obstacles to legitimate trade and provide for safeguards against abuse.

VOL 56 ISS 125 JE 28 1991 UMI

13

(ii) Procedures concerning the enforcement of intellectual property rights shall be fair and equitable.

(iii) Decisions on the merits of a case shall, as a general rule, be in writing and reasoned. They shall be made known at least to the parties to the dispute without undue delay.

(iv) Each Party shall provide an opportunity for judicial review of final administrative decisions on the merits of an action concerning the protection of an intellectual property right. Subject to jurisdictional provisions in national laws concerning the importance of a case, an opportunity for judicial review of the legal aspects of initial judicial decisions on the merits of a case concerning the protection of an intellectual property right shall also be provided.

(v) Remedies against a Party

Notwithstanding the other provisions of paragraph 2(f), when a Party is sued for infringement of an intellectual property right as a result of the use of that right by or for the government, the Party may limit remedies against the government to payment of full compensation to the right-holder.

3. Each Party agrees to submit for enactment, no later than December 31, 1992, the legislation necessary to carry out the obligations of this letter and to exert its best efforts to enact and implement this legislation by that date.

4. For purposes of this letter:

(a) "right-holder," means the right-holder himself, any other natural or legal person authorized by him who are exclusive licensees of the right, or other authorized persons, including federations and associations, having legal standing under domestic law to assert such rights;

(b) "A manner contrary to honest commercial practice" is understood to encompass, inter alia, practices such as theft, bribery, breach of contract, inducement to breach, electronic and other forms of commercial espionage, and includes the acquisition of trade secrets by third parties who knew, or had reasonable grounds to know, that such practices were involved in the acquisition.

(c) Unless otherwise indicated by the context, all terms in this letter shall have the same meaning as in the Agreement.

14

5. Nothing in this letter shall be construed to diminish the rights of nationals and companies of a Party under the Agreement.

I have the further honor to propose that this understanding be treated as an integral part of the Agreement. I would be grateful if you would confirm that this understanding is shared by your Government.

I have the further honor to confirm that the foregoing understanding is shared by my Government and constitutes an integral part of the Agreement.

Sincerely,

Carla A. Hills

THE UNITED STATES TRADE REPRESENTATIVE
Executive Office of the President
Washington, D.C. 20506

Washington, April 22, 1991

Dear Mr. Ambassador:

I have the honor to confirm receipt of your letter which reads as follows:

Dear Madam Ambassador:

In connection with the signing on this date of the Agreement on Trade Relations Between the Government of the United States of America and the Government of the Republic of Bulgaria (the "Agreement"), I have the honor to confirm the following understanding reached by our Governments:

Financial Matters

As part of its economic liberalization process, the Government of the Republic of Bulgaria intends to make its currency convertible as soon as possible. Until the Bulgarian currency becomes freely convertible, the Government of the Republic of Bulgaria, for purposes of this Agreement, will provide access to freely convertible currencies, including through auctions, on a most-favored-nation basis.

Business Facilitation

Any permission required for commercial representations to establish and operate in the Republic of Bulgaria and any registrations required in the Republic of Bulgaria in order for nationals of either Party to engage or serve as agents, consultants or distributors in the territory of the Republic of Bulgaria will be accomplished through a simple registration process pursuant to which the permission or registration will be automatically and expeditiously granted, normally within 30 days of application, subject, of course, to regulations consistent with the exceptions set forth in Articles XIII and XVI of the Agreement.

His Excellency
Ognian Raytchev Pishev
Ambassador of the Republic of Bulgaria

Customs Unions or Free Trade Areas

With respect to Paragraph 4(a) of Article I of the Agreement, a Party may invoke this exception with respect to a customs union, free trade area, or an interim agreement necessary for the formation of the same, which is consistent with Article XXIV of the GATT, and only if such Party informs the other Party of its plans with respect to such customs union or free trade area and affords such other Party adequate opportunity for consultation.

Consultation

In the event of Bulgaria's accession to the GATT, the Parties agree to consult to determine whether any changes to this Agreement are necessary or desirable.

I have the honor to propose that this understanding be treated as an integral part of the Agreement. I would be grateful if you would confirm that this understanding is shared by your Government.

I have the further honor to confirm that the foregoing understanding is shared by my Government and constitutes an integral part of the Agreement.

Sincerely,

Carla A. Hills

UNITED STATES DEPARTMENT OF COMMERCE
The Under Secretary for Travel and Tourism
Washington, D.C. 20230

Washington, April 22, 1991

Dear Mr. Ambassador:

I have the honor to confirm receipt of your letter of today's date which reads as follows:

"In connection with the signing on this date of the Agreement on Trade Relations Between the Government of the United States of America and the Government of the People's Republic of Bulgaria (the 'Agreement'), I have the honor to confirm the understanding reached by our Governments (the 'Parties') regarding tourism and travel-related services as follows:

1. The Parties recognize the need to encourage and promote the growth of tourism and travel-related investment and trade between the United States of America and the People's Republic of Bulgaria. In this regard, the Parties recognize the desirability of exploring the possibility of negotiating a separate bilateral agreement on tourism.

2. The Parties recognize the benefits to both economies of increased tourism and travel-related investment in and trade between their two territories.

Official Tourism Promotion Offices

3. Each Party shall seek permission of the other Party prior to the establishment of official, governmental tourism promotion offices in the other's territory.

4. Permission to open tourism promotion offices or field offices, and the status of personnel who head and staff such offices, shall be as agreed upon by the Parties and subject to the applicable laws and regulations of the host country.

5. Tourism promotion offices opened by either Party shall be operated on a non-commercial basis. Official tourism promotion offices and the personnel assigned to them shall not function as agents or principals in commercial transactions, enter into contractual agreements on behalf of commercial organizations or engage in other commercial activities. Such offices shall not sell services to the public or otherwise compete with private sector travel agents or tour operators of the host country.

His Excellency
Ognian Raytchev Pishev
Ambassador of the Republic of
Bulgaria

Page 2

6. Official governmental tourism offices shall engage in activities related to the facilitation of development of tourism between the United States and the People's Republic of Bulgaria, including:

a) providing information about the tourism facilities and attraction in their respective countries to the public, and travel trade and the media;

b) conducting meetings and workshops for representatives of the travel industry;

c) participating in trade shows;

d) distributing advertising materials such as posters, brochures and slides, and coordinating advertising campaigns; and

e) performing market research.

7. Nothing in this side letter shall obligate either Party to open such offices in the territory of the other Party.

Commercial Tourism Enterprises

8. Commercial tourism enterprises, whether privately or governmentally-owned, shall be treated as private commercial enterprises, fully subject to all applicable laws and regulations of the host country.

9. Each Party shall ensure within the scope of its legal authority and in accordance with its laws and regulations that any company owned, controlled or administered by that Party or any joint venture therewith or any private company or joint venture between private companies, which effectively controls a significant portion of the supply of any tourism or travel-related service in the territory of that Party shall provide those services to national and companies of the other Party on a fair and equitable basis.

10. Nothing in this letter or in the Agreement shall be construed to mean that tourism and travel-related services shall not receive the benefits from the Agreement as fully as all other industries and sectors.

I have the honor to propose that this understanding be treated as an integral part of the Agreement. I would be grateful if you would confirm that this understanding is shared by your Government."

I have the further honor to confirm that the foregoing understanding is shared by my Government and constitutes an integral part of the Agreement.

Sincerely,

Kyle H. Whisonant, Jr.
Acting Under Secretary

TERMS OF REFERENCE:
THE UNITED STATES-BULGARIA JOINT COMMERCIAL COMMISSION

The United States-Bulgaria Joint Commercial Commission is established by the Governments of the United States and Bulgaria to facilitate the development of commercial relations and related economic matters between the United States of America and the Republic of Bulgaria.

The Commission shall work and shall formulate recommendations on the basis of mutual consent.

The Commission shall:

-- Review the operation of the U.S.-Bulgaria Trade Agreement and make recommendations for achieving its objectives in order to obtain the maximum benefit therefrom;

-- Exchange information about amendments and developments in the regulations of the United States and Bulgaria affecting trade under the U.S.-Bulgaria Trade Agreement;

-- Consider measures which would develop and diversify trade and commercial cooperation. These measures shall include, but are not limited to encouraging and supporting contracts and cooperation between businesses of both countries, and between firms established in the United States and Bulgaria;

-- Monitor and exchange views on U.S.-Bulgaria commercial relations; identify and where possible recommend solutions to issues of interest to both Parties;

-- Provide a forum for exchanging information in areas of commercial, industrial and technological cooperation, where they have an impact on commercial relations; and

-- Consider other steps which could be taken to facilitate and encourage the growth and development of commercial relations and related economic matters between the two countries.

The Commission shall be comprised of two sections, a U.S. section and a Bulgarian section. Each section shall be composed of a chairman and other government officials as designated by each Party.

The Commission shall meet as often as mutually agreed by the Parties, alternatively in Washington and Sofia.

VOL
56

UMI

Appropriate senior-level officials from the U.S. Department of Commerce and the Bulgarian Ministry of Foreign Economic Relations shall act as co-chairmen of the Commission, and shall head their respective sections; each section of the Commission shall include other government officials as designated by each Party.

The Commission shall work on the basis of mutual agreement. The Commission shall, as necessary, adopt rules of procedure and work programs. The Commission may, as mutually agreed, establish joint working groups to consider specific matters. These working groups shall function in accordance with the instructions of the Commission.

Each section shall have an Executive Secretary, named by the chairman, who shall arrange the work of their respective section of the Commission. The Executive Secretary shall arrange the work of their respective section of the Commission, and perform the tasks of an organizational or administrative nature connected with the meetings of the Commission.

The Executive Secretaries shall communicate with each other as necessary to arrange Commission meetings and to perform other functions. Agendas for Commission meetings shall be agreed upon not later than one month prior to the meeting. The meeting shall consider matters included in this agenda, as well as further matters which may be added to the agenda by mutual agreement.

The Commission and its working groups shall work on the basis of mutual agreement. Agreed minutes signed by the co-chairmen of the Commission shall be kept for each meeting of the Commission, and shall be made public by each side. The Parties shall advise each other whenever measures and recommendations agreed to are subject to the subsequent approval of their respective governments.

Any document mutually agreed upon during the work of the Commission shall be in the English and Bulgarian languages, each language being equally authentic.

Expenses incidental to the meetings of the Commission and any working group established by the Commission shall be borne by the host country. Travel expenses from one country to the other, as well as living and other personal expenses of representatives participating in meetings of the Commission and any working group of the Commission shall be borne by the Party which sends such persons to represent it.

Each section may invite advisers and experts to participate at any meeting of the Commission or its working groups, except that such participation must be mutually agreed by the Parties in advance of the meeting.

The terms of reference of the Commission may be amended by mutual agreement of the Parties at any meeting or during the periods between meetings of the Commission.

Done in Washington, D.C., April 22, 1991, in two copies, in the English and Bulgarian languages, both texts being equally authentic.

FOR THE GOVERNMENT OF THE UNITED STATES OF AMERICA:

Thomas J. Duesterberg
Assistant Secretary
U.S. Department of Commerce

FOR THE GOVERNMENT OF THE REPUBLIC OF BULGARIA:

Ognian R. Pishev
Ambassador to the United States

Title 3—

The President

Proclamation 6308 of June 24, 1991

Agreement on Trade Relations Between the United States of America and the Mongolian People's Republic

By the President of the United States of America

A Proclamation

1. Pursuant to the authority vested in me by the Constitution and the laws of the United States, as President of the United States of America, I, acting through duly empowered representatives, entered into negotiations with representatives of the Mongolian People's Republic to conclude an agreement on trade relations between the United States of America and the Mongolian People's Republic.

2. These negotiations were conducted in accordance with the requirements of the Trade Act of 1974 (Public Law 93–618, January 3, 1975; 88 Stat. 1978), as amended (the "Trade Act").

3. As a result of these negotiations, an "Agreement on Trade Relations Between the Government of the United States of America and the Government of the Mongolian People's Republic," including exchanges of letters which form an integral part of the Agreement, the foregoing in English and Mongolian, was signed on January 23, 1991, by duly empowered representatives of the two Governments and is set forth as an annex to this proclamation.

4. This Agreement conforms to the requirements relating to bilateral commercial agreements set forth in section 405(b) of the Trade Act (19 U.S.C. 2435(b)).

5. Article XVII of the Agreement provides that the Agreement shall enter into force on the date of exchange of written notices of acceptance by the two Governments.

6. Section 405(c) of the Trade Act (19 U.S.C. 2435(c)) provides that a bilateral commercial agreement providing nondiscriminatory treatment to the products of a country heretofore denied such treatment, and a proclamation implementing such agreement, shall take effect only if approved by the Congress under the provisions of that Act.

7. Section 604 of the Trade Act (19 U.S.C. 2483) authorizes the President to embody in the Harmonized Tariff Schedule of the United States the substance of the provisions of that Act, of other acts affecting import treatment, and actions taken thereunder.

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, acting under the authority vested in me by the Constitution and the laws of the United States, including but not limited to sections 404, 405, and 604 of the Trade Act of 1974, as amended, do proclaim that:

(1) This proclamation shall become effective, said Agreement shall enter into force, and nondiscriminatory treatment shall be extended to the products of the Mongolian People's Republic, in accordance with the terms of said Agreement, on the date of exchange of written notices of acceptance in accordance with Article XVII of said Agreement. The United States Trade Representative shall publish notice of the effective date in the Federal Register.

(2) Effective with respect to articles entered, or withdrawn from warehouse for consumption, into the customs territory of the United States on or after the date provided in paragraph (1) of this proclamation, general note 3(b) of the Harmonized Tariff Schedule of the United States, enumerating those countries whose products are subject to duty at the rates set forth in rate of duty column 2 of the tariff schedule, is modified by striking out "Mongolia".

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-fourth day of June, in the year of our Lord nineteen hundred and ninety-one, and of the Independence of the United States of America the two hundred and fifteenth.

George Bush

Billing code 3195-01-M

VOL 56 ISS 125 JE 28 1991 UMI

AGREEMENT ON TRADE RELATIONS BETWEEN
THE GOVERNMENT OF THE UNITED STATES OF AMERICA
AND THE GOVERNMENT OF THE MONGOLIAN PEOPLE'S REPUBLIC

The Government of the United States of America and the Government of the Mongolian People's Republic (hereinafter referred to collectively as "Parties" and individually as "Party"),

Affirming that the evolution of market-based economic institutions and the strengthening of the private sector will aid the development of mutually beneficial trade relations,

Acknowledging that the development of trade relations and direct contact between nationals and companies of the United States and nationals and organizations of the Mongolian People's Republic will promote openness and mutual understanding,

Considering that expanded trade relations between the Parties will contribute to the general well-being of the peoples of each Party,

Recognizing that development of bilateral trade may contribute to better mutual understanding and cooperation and promote respect for internationally recognized worker rights,

Having agreed that economic ties are an important and necessary element in the strengthening of their bilateral relations,

Being convinced that an agreement on trade relations between the two Parties will best serve their mutual interests, and

Desiring to create a framework which will foster the development and expansion of commercial ties between their respective nationals, companies and organizations,

Have agreed as follows:

ARTICLE I

MOST FAVORED NATION AND NONDISCRIMINATORY TREATMENT

1. Each Party shall accord unconditionally to products originating in or exported to the territory of the other Party treatment no less favorable than that accorded to like products originating in or exported to the territory of any third country in all matters relating to:

(a) customs duties and charges of any kind imposed on or in connection with importation or exportation, including the method of levying such duties and charges;

(b) methods of payment for imports and exports, and the international transfer of such payments;

(c) rules and formalities in connection with importation and exportation, including those relating to customs clearance, transit, warehouses and transshipment;

(d) taxes and other internal charges of any kind applied directly or indirectly to imported products; and

(e) laws, regulations and requirements affecting the sale, offering for sale, purchase, transportation,

distribution, storage and use of products in the domestic market.

2. Each Party shall accord to products originating in or exported to the territory of the other Party nondiscriminatory treatment with respect to the application of quantitative restrictions and the granting of licenses.

3. Each Party shall accord to imports of products and services originating in the territory of the other Party nondiscriminatory treatment with respect to the allocation of and access to the currency needed to pay for such imports.

4. The provisions of paragraphs 1 and 2 shall not apply to:

(a) advantages accorded by either Party by virtue of such Party's full membership in a customs union or free trade area;

(b) advantages accorded to adjacent countries for the facilitation of frontier traffic;

(c) actions by either Party which are required or permitted by the General Agreement on Tariffs and Trade (the "GATT") (or by any joint action or decision of the Contracting Parties to the GATT) during such time as such Party is a Contracting Party to the GATT; and special advantages accorded by virtue of the GATT; and

(d) actions taken under Article XI (Market Disruption) of this Agreement.

5. The provisions of paragraph 2 of this Article shall not apply to Mongolian exports of textiles and textile products.

ARTICLE II

MARKET ACCESS FOR PRODUCTS AND SERVICES

1. Each Party shall administer all tariff and nontariff measures affecting trade in a manner which affords, with respect to both third country and domestic competitors, meaningful competitive opportunities for products and services of the other Party.

2. Accordingly, neither Party shall impose, directly or indirectly, on the products of the other Party imported into its territory, internal taxes or charges of any kind in excess of those applied, directly or indirectly, to like domestic products.

3. Each Party shall accord to products originating in the territory of the other Party treatment no less favorable than that accorded to like domestic products in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution, storage or use.

4. The charges and measures described in paragraphs 2 and 3 of this Article should not be applied to imported or domestic products so as to afford protection to domestic production.

VOL 56 ISS 125 JE 28 1991 UMI

VOL 56 ISS 125 JE 28 1991 UMI

5. The Parties shall ensure that technical regulations and standards are not prepared, adopted or applied with a view to creating obstacles to international trade or to protect domestic production. Furthermore, each Party shall accord products imported from the territory of the other Party treatment no less favorable than that accorded to like domestic products and to like products originating in any third country in relation to such technical regulations or standards, including conformity testing and certification.

6. The Government of the Mongolian People's Republic shall accede to the Convention Establishing the Customs Cooperation Council and the International Convention on the Harmonized Commodity Description and Coding System, and shall take all necessary measures to implement entry into force of such Conventions with respect to the Mongolian People's Republic.

ARTICLE III

GENERAL OBLIGATIONS WITH RESPECT TO TRADE

1. The Parties agree to maintain a satisfactory balance of market access opportunities, including through concessions in trade in products and services and through the satisfactory reciprocation of reductions in tariffs and nontariff barriers to trade resulting from multilateral negotiations.

2. Trade in products and services shall be effected by contracts between nationals and companies of the United States and nationals and organizations of the Mongolian People's

Republic concluded on the basis of nondiscrimination and in the exercise of their independent commercial judgment and on the basis of customary commercial considerations such as price, quality, availability, delivery, and terms of payment.

3. Neither Party shall require or encourage nationals or companies of the United States or nationals or organizations of the Mongolian People's Republic to engage in barter or countertrade transactions. Nevertheless, where nationals, companies or organizations decide to resort to barter or countertrade operations, the Parties will encourage them to furnish to each other all necessary information to facilitate the transaction.

ARTICLE IV

EXPANSION AND PROMOTION OF TRADE

1. The Parties affirm their desire to expand trade in products and services consistent with the terms of this Agreement. They shall take appropriate measures to encourage and facilitate the exchange of goods and services and to secure favorable conditions for long-term development of trade relations between their respective nationals, companies and organizations.

2. The Parties shall take appropriate measures to encourage the expansion of commercial contacts with a view to increasing trade. In this regard, the Government of the Mongolian People's Republic expects that, during the term of this Agreement, nationals and organizations of the Mongolian People's Republic

VOL 56 ISS 125 JE 28 1991 UMI

shall increase their orders in the United States for products and services, while the Government of the United States anticipates that the effect of this Agreement shall be to encourage increased purchases by nationals and companies of the United States of products and services from the Mongolian People's Republic. Toward this end, the Parties shall publicize this Agreement and ensure that it is made available to all interested parties.

3. Each Partv shall encourage and facilitate the holding of trade promotional events such as fairs, exhibitions, missions and seminars in its territory and in the territory of the other Party. Similarly, each Party shall encourage and facilitate the participation of its respective nationals, companies and organizations in such events. Subject to the laws in force within their respective territories, the Parties agree to allow the import and re-export on a duty free basis of all articles for use in such events, provided that such articles are not sold or otherwise transferred.

ARTICLE V

GOVERNMENT COMMERCIAL OFFICES

Upon agreement of the Parties, each Party may establish government commercial offices as integral parts of its diplomatic mission in the territory of the other Party.

ARTICLE VI

BUSINESS FACILITATION

1. Each Party shall afford commercial representations of the other Party fair and equitable treatment with respect to the conduct of their operations.

2. Subject to its laws and procedures governing immigration, each Party shall permit the establishment within its territory of commercial representations of nationals, companies and organizations of the other Party and shall accord such representations treatment at least as favorable as that accorded to commercial representations of nationals, companies and organizations of third countries.

3. Subject to its laws and procedures governing immigration, each Party shall permit such commercial representations established in its territory to hire directly employees who are nationals of either Party or of third countries and to compensate such employees on terms and in a currency that is mutually agreed between the parties, consistent with such Party's minimum wage laws.

VOL 56 ISS 125 JE 28 1991 UMI

4. Each Party shall permit commercial representations of the other Party to import and use in accordance with normal commercial practices, office and other equipment, such as typewriters, photocopiers, computers and telefax machines in connection with the conduct of their activities in the territory of such Party.

5. Each Party shall permit, on a nondiscriminatory basis and at nondiscriminatory prices (where such prices are set or controlled by the government), commercial representations of the other Party access to and use of office space and living accommodations, whether or not designated for use by foreigners. The terms and conditions of such access and use shall in no event be on a basis less favorable than that accorded to commercial representations of nationals, companies and organizations of third countries.

6. Subject to its laws and procedures governing immigration, each Party shall permit nationals, companies and organizations of the other Party to engage agents, consultants and distributors of either Party and of third countries on prices and terms mutually agreed between the parties.

7. Subject to its immigration laws and procedures, each Party shall permit nationals, companies and organizations of the other Party to serve as agents, consultants and distributors of nationals, companies and organizations of either Party and of third countries on prices and terms mutually agreed between the parties.

8. Each Party shall permit nationals, companies and organizations of the other Party to advertise their products and services (a) through direct agreement with the advertising media, including television, radio, print and billboard, and (b) by direct mail, including the use of enclosed envelopes and cards preaddressed to that national, company or organization.

9. Each Party shall encourage direct contact, and permit direct sales, between nationals, companies and organizations of the other Party and end-users and other customers of their goods and services, and with agencies and organizations whose decisions will affect potential sales.

10. Each Party shall permit nationals, companies and organizations of the other Party to conduct market studies, either directly or by contract, within its territory. To facilitate the conduct of market research, each Party shall upon request make available non-confidential, non-proprietary information within its possession to nationals, companies and organizations of the other Party engaged in such efforts.

11. Each Party shall provide nondiscriminatory access to governmentally-provided products and services, including public utilities, to nationals, companies and organizations of the other Party in connection with the operation of their commercial representations.

12. Each Party shall permit commercial representations to stock an adequate supply of samples and replacement parts for aftersales service on a non-commercial basis.

VOL 56 ISS 125 JE 28 1991 UMI

13. Neither Party shall impose measures which unreasonably impair contractual or property rights or other interests acquired within its territory by nationals, companies and organizations of the other Party.

ARTICLE VII

TRANSPARENCY

1. Each Party shall make available publicly on a timely basis all laws and regulations related to commercial activity, including trade, investment, taxation, banking, insurance and other financial services, transport and labor. Each Party shall also make such information available in reading rooms in its own capital and in the capital of the other Party.

2. Each Party shall provide nationals, companies and organizations of the other Party with access to available non-confidential, non-proprietary data on the national economy and individual sectors, including information on foreign trade.

3. Each Party shall allow the other Party the opportunity to comment on the formulation of rules and regulations which affect the conduct of business activities.

ARTICLE VIII

FINANCIAL PROVISIONS RELATING TO TRADE IN PRODUCTS AND SERVICES

1. Unless otherwise agreed between the parties to individual transactions, all commercial transactions between nationals, companies and organizations of the Parties shall be

made in United States dollars or any other currency that may be designated from time to time by the International Monetary Fund as being a freely usable currency.

2. Neither Party shall restrict the export from its territory of convertible currencies or deposits, or instruments representative thereof, obtained in connection with trade in products and services by nationals, companies and organizations of the other Party.

3. Nationals, companies and organizations of a Party holding currency of the other Party received in an authorized manner may deposit such currency in financial institutions located in the territory of the other Party and may maintain and use such currency for local expenses.

4. Without derogation from paragraphs 2 or 3 of this Article, in connection with trade in products and services, each Party shall grant to nationals, companies and organizations of the other Party the better of most-favored-nation or national treatment with respect to:

(a) opening and maintaining accounts, in both local and foreign currency, and having access to funds deposited, in financial institutions located in the territory of the Party;

(b) payments, remittances and transfers of convertible currencies, or financial instruments representative thereof, between the territories of the two Parties, as well as

VOL
56
ISS
125
JE
28
1991
UMI

between the territory of that Party and that of any third country;

(c) rates of exchange and related matters, including access to freely usable currencies, such as through currency auctions; and

(d) the receipt and use of local currency.

ARTICLE IX

PROTECTION OF INTELLECTUAL PROPERTY RIGHTS

1. Each Party shall provide adequate and effective protection and enforcement for patents, trademarks, copyrights, trade secrets, industrial designs and layout designs for integrated circuits. Each Party reaffirms its commitments to those international agreements relating to intellectual property to which both Parties are signatories. Specifically, each Party reaffirms the commitments made with respect to industrial property in the Paris Convention for the Protection of Industrial Property of March 29, 1883, as revised at Stockholm on July 14, 1967.

2. To provide adequate and effective protection and enforcement of intellectual property rights, each Party shall, inter alia observe the following commitments:

(a) Copyright and related rights

(i) Each Party shall adhere to the Berne Convention for the Protection of Literary and Artistic

Works (Paris 1971) ("Berne Convention"). In addition, it shall comply with the provisions set forth below.

(ii) Works protected by copyright means any original, intellectual creative work of literary or artistic character, irrespective of their value, their literary or artistic merits or their purpose, and include, inter alia, the following:

(1) all types of computer programs;

(2) collections or compilations of protected or unprotected material or data whether in print, machine readable or any other medium, including data bases, which shall be protected if they constitute intellectual creation by reason of the selection, coordination, or arrangement of their contents.

(iii) The rights protected pursuant to paragraph 2(a) this Article include, inter alia, the following:

(1) the right to import or authorize the importation into the territory of the Party of lawfully made copies of the work as well as the right to prevent the importation into the territory of the Party of copies of the work made without the authorization of the right-holder;

(2) the right to make the first public distribution of the original or each authorized

VOL 56 ISS 125 JE 28 1991 UMI

copy of a work by sale, rental, or otherwise; and

(3) the right to make a public communication of a work (e.g., to perform, display, project, exhibit, broadcast, transmit, or retransmit a work).

(iv) Each Party shall extend the protection afforded under this section to authors (as defined under the Berne Convention) of the other Party, whether they are natural persons or, where the other Party's domestic law so provides, companies and organizations, and to their successors in title.

(v) Protected rights under paragraph 2(a) of this Article shall be freely and separately exploitable and transferable.

(vi) Each Party shall confine any limitations or exceptions to the rights provided under paragraph 2(a) of this Article (including any limitations or exceptions that restrict such rights to "public" activity) to clearly and carefully defined special cases which do not impair an actual or potential market for or the value of a protected work.

(vii) If either Party has afforded no protection to works of foreign origin, it shall provide protection, consistent with this section, for all works of the other Party that are not in the public

domain in their country of origin at the time of entry into force of this Agreement in its territory.

(viii) Translation and reproduction licensing systems permitted in the Appendix to the Berne Convention:

(1) shall not be established where legitimate local needs are being met by voluntary actions of copyright holders or could be met by such action but for intervening factors outside the copyright holder's; and

(2) shall provide an effective opportunity for the copyright holder to be heard prior to the grant of any such licenses.

(ix) Any compulsory or non-voluntary license (or any restriction of exclusive rights to a right of remuneration) shall provide means to ensure payment and remittance of royalties at a level consistent with what would be negotiated on a voluntary basis.

(x) The Parties shall, at a minimum, extend to producers of sound recordings the exclusive rights to do or to authorize the following:

(1) to reproduce the recording by any means or process, in whole or in part;

(2) to exercise the importation and exclusive distribution and rental rights provided in paragraph (iii)(1) and (2) of this section.

(xi) The provisions of paragraphs iv, v, and vii of this section shall apply mutatis mutandis to the producers of sound recordings.

(xii) Paragraph viii of this section shall apply mutatis mutandis to sound recordings.

(xiii) Each Party shall:

(1) adhere to the Geneva Convention for the Protection of Producers of Phonograms and protect sound recordings first fixed or published in the territory of the other Party;

(2) protect sound recordings for a term of at least 50 years from publication;

(3) protect sound recordings published in the territory of a Party within thirty days of their publication elsewhere and recordings produced by a national, company or organization of a Party; and

(4) grant the right to make the first public distribution of the original or each authorized sound recording by sale, rental, or otherwise except that the first sale of the original or such sound recording shall not exhaust the rental or importation right therein (the "rental right" shall mean the right to authorize or prohibit the disposal of the possession of

the original or copies for direct or indirect commercial advantage).

(xiv) The acquisition and validity of intellectual property rights in sound recordings shall not be subject to any formalities, an protection shall arise automatically upon creation of the sound recording.

(b) Trademarks

(i) Protectable Subject Matter

(1) Trademarks shall consist of at least any sign, words, including personal names, designs, letters, numerals, colors, the shape of goods or of their packaging, provided that the mark is capable of distinguishing the goods or services of one national, company or organization from those of other nationals, companies or organizations.

(2) The term "trademark" shall include service marks, collective and certification marks.

(ii) Acquisition of Rights

(1) A trademark right may be acquired by registration or by use. A system for the registration of trademarks shall be provided. Use of a trademark may be required as a prerequisite for registration.

VOL 56 ISS 125 JE 28 1991 UMI

VOL 56 ISS 125 JE 28 1991 UMI

(2) Each Party shall publish each trademark either before it is registered or promptly after it is registered and shall afford other parties a reasonable opportunity to petition to cancel the registration. In addition, each Party may afford an opportunity for the other Party to oppose the registration of a trademark.

(3) The nature of the goods or services to which a trademark is to be applied shall in no case form an obstacle to registration of the trademark.

(iii) Rights Conferred

(1) The owner of a registered trademark shall have exclusive rights therein. He shall be entitled to prevent all third parties not having his consent from using in commerce identical or similar signs for goods or services which are identical or similar to those in respect of which the trademark is protected, where such use would result in a likelihood of confusion.

(2) Each Party shall refuse to register or shall cancel the registration and prohibit use of a trademark likely to cause confusion with a trademark of another which is considered to be well-known. A Party may not require that

the reputation of the trademark extend beyond the sector of the public which normally deals with the relevant goods or services.

(3) The owner of a trademark shall be entitled to take action against any unauthorized use which constitutes an act of unfair competition or passing off.

(iv) Term of Protection

The registration of a trademark shall be indefinitely renewable for terms of no less than 10 years when conditions for renewal have been met. Initial registration of a trademark shall be for a term of at least 10 years.

(v) Requirement of Use

(1) If use of a registered mark is required to maintain trademark rights, the registration may be cancelled only after an uninterrupted period of at least two years of non-use, unless legitimate reasons for non-use exist. Use of the trademark with the consent of the owner shall be recognized as use of the trademark for the purpose of maintaining the registration.

(2) Legitimate reasons for non-use shall include non-use due to circumstances arising independently of the will of the trademark holder (such as import restrictions on or other

VOL
56
ISS
125
JE
28
1991
UMI

government requirements for products protected by the trademark) which constitute an obstacle to the use of the mark.

(vi) Other Requirements

The use of a trademark in commerce shall not be encumbered by special requirements, such as use which reduces the function of a trademark as an indication of source or use with another trademark.

(vii) Compulsory Licensing

Compulsory licensing of trademarks shall not be permitted.

(viii) Transfer

Trademark registrations may be transferred.

(c) Patents

(i) Patentable Subject Matter

Patents shall be granted for all inventions, whether they concern products or processes, in all fields of technology, with the exception of any invention or discovery which is useful solely in the utilization of special nuclear material or atomic energy in an atomic weapon.

(ii) Rights Conferred

(1) A patent shall confer the right to prevent others not having the patent owner's consent from making, using, or selling the subject matter of the patent. In the case of a patented

process, the patent confers the right to prevent others not having consent from using that process and from using, selling, or importing at least the product obtained directly by that process.

(2) Where the subject matter of a patent is a process for obtaining a product, each Party shall provide that the burden of establishing that an alleged infringing product was not made by the process shall be on the alleged infringer at least in one of the following situations:

(A) the product is new, or

(B) a substantial likelihood exists that the product was made by the process and the patent owner has been unable through reasonable efforts to determine the process actually used.

In gathering and evaluation of evidence to the contrary, the legitimate interests of the defendant in protecting his manufacturing and business secrets shall be taken into account.

(iii) Term of Protection

The term of protection shall be at least 20 years from the date of filing of the patent application or 17 years from the date of grant of the patent. Each Party is encouraged to extend the term of patent protection, in

VOL
56
ISS
125
JE
28
1991
UMI

appropriate cases, to compensate for delays caused by regulatory approval processes.

(iv) Transitional Protection

A Party shall provide transitional protection for products embodying subject matter deemed to be unpatentable under its patent law prior to its implementation of this Agreement, where the following conditions are satisfied:

(1) the subject matter to which the product relates will become patentable after implementation of this Agreement;

(2) a patent has been issued for the product by the other Party prior to the entry into force of this Agreement; and

(3) the product has not been marketed in the territory of the Party providing such transitional protection.

The owner of a patent for a product satisfying the conditions set forth above shall have the right to submit a copy of the patent to the Party providing transitional protection. Such Party shall limit the right to make, use, or sell the product in its territory to such owner for a term to expire with that of the patent submitted.

(v) Compulsory Licenses

Each Party may limit the patent owner's exclusive rights through compulsory licenses only to remedy an adjudicated violation of competition laws or to address, only during its existence, a declared national emergency. Where the law of a Party allows for the grant of compulsory licenses, such licenses shall be granted in a manner which minimizes distortions of trade, and the following provisions shall be respected:

(1) Compulsory licenses shall be non-exclusive and non-assignable except with that part of the enterprise or goodwill which exploits such license.

(2) The payment of remuneration to the patent owner adequate to compensate the patent owner fully for the license shall be required, except for compulsory licenses to remedy adjudicated violations of competition law.

(3) Each case involving the possible grant of a compulsory license shall be considered on its individual merits.

(4) Any compulsory license shall be revoked when the circumstances which led to its granting cease to exist, taking into account the legitimate interests of the patent owner and of the licensee. The continued existence of these circumstances shall be reviewed upon request of the patent owner.

VOL 56 ISS 125 JE 28 1991 UMI

(5) Decisions to grant or to continue compulsory licenses and the compensation provided for compulsory licenses shall be subject to review by a distinct higher authority.

(d) Layout-Designs of Semiconductor Chips

(i) Subject Matter for Protection

(1) Each Party shall provide protection for original layout-designs incorporated in a semiconductor chip, however the layout-design might be fixed or encoded.

(2) Each Party may condition protection on fixation or registration of the layout-designs. If registration is required, applicants shall be given at least two years from first commercial exploitation of the layout-design in which to apply. A Party which requires deposits of identifying material or other material related to the layout-design shall not require applicants to disclose confidential or proprietary information unless it is essential to allow identification of the layout-design.

(ii) Rights Acquired

(1) Each Party shall provide to owners of rights in integrated circuit lay-out designs of the other Party the exclusive right to do or to authorize the following:

(A) to reproduce the layout-design;

(B) to incorporate the layout-design in a semiconductor chip; and

(C) to import or distribute a semiconductor chip incorporating the layout-design and products including such chips.

(2) The conditions set out in paragraph (c)(v) of this Article shall apply, *mutatis mutandis*, to the grant of any compulsory licenses for layout-designs.

(3) Neither Party is required to extend protection to layout-designs that are commonplace in the industry at the time of their creation or to layout-designs that are exclusively dictated by the functions of the circuit to which they apply.

(4) Each Party may exempt the following from liability under its law:

(A) reproduction of a layout-design for purposes of teaching, analysis, or evaluation in the course of preparation of a layout-design that is itself original;

(B) importation and distribution of semiconductor chips, incorporating a protected layout-design, which were sold by or with the consent of the owner of the layout-design; and

(C) importation or distribution up to the point of notice of a semiconductor chip incorporating a protected layout-design and products incorporating such chips by a person who establishes that he did not know, and had no reasonable grounds to believe, that the layout-design was protected, provided that, with respect to stock on hand or purchased at the time notice is received, such person may import or distribute only such stock but is liable for a reasonable royalty on the sale of each item after notice is received.

(iii) Term of Protection

The term of protection for the lay-out design shall extend for at least ten years from the date of first commercial exploitation or the date of registration of the design, if required, whichever is earlier.

(e) Industrial Designs and Models

(i) Each Party shall provide, at a minimum, protection for industrial designs which are new, original, ornamental and non-obvious. Each Party may condition such protection on registration or other formality. The term of protection of such designs shall extend for at least ten years.

(ii) Each Party shall provide to the owner of a protected design the right to prevent others from making, copying, using, or selling that industrial design.

(iii) Neither Party shall issue compulsory licenses for industrial designs except to remedy adjudicated violations of competition law to which the conditions set out in paragraph (c)(v) of this Article shall apply, mutatis mutandis.

(f) Acts Contrary to Honest Commercial Practices and the Protection of Trade Secrets

(i) In the course of ensuring effective protection against unfair competition as provided for in Article 10 bis of the Paris Convention, each Party shall provide in its domestic law and practice the legal means for nationals, companies and organizations to prevent trade secrets from being disclosed to, acquired by, or used by others without the consent of the trade secret owner in a manner contrary to honest commercial practices insofar as such information:

(1) is not, as a body or in the precise configuration and assembly of its components, generally known or readily ascertainable;

(2) has actual or potential commercial value because it is not generally known or readily ascertainable; and

(3) has been subject to reasonable steps under the circumstances to keep it secret.

(ii) Neither Party shall limit the duration of protection for trade secrets so long as the conditions in paragraph 2(f)(i) of this Article exist.

VOL 56 ISS 125 JE 28 1991 UMI

VOL 56 ISS 125 JE 28 1991 UMI

(iii) Licensing

Neither Party shall discourage or impede voluntary licensing of trade secrets by imposing excessive or discriminatory conditions on such licenses or conditions which dilute the value of trade secrets.

(iv) Government Use

(1) A Party which requires that trade secrets be submitted to carry out governmental functions, shall not use the trade secrets for the commercial or competitive benefit of the government or of any person other than the owner of the trade secret except with the trade secret owner's consent, on payment of the reasonable value of the use, or if a reasonable period of exclusive use is given the owner of the trade secret.

(2) Each Party may disclose trade secrets to third parties, only with the trade secret owner's consent or to the degree required to carry out necessary government functions. Wherever practicable, owners of trade secrets shall be given an opportunity to enter into confidentiality agreements with any non-government entity to which the Party is disclosing trade secrets to carry out necessary government functions.

(3) Each Party may require owners of trade secrets to disclose their trade secrets to third parties to protect human health or safety or to protect the environment only when the trade secret owner is given an opportunity to enter into confidentiality agreements with any non-government entity receiving the trade secrets to prevent further disclosure or use of the trade secret.

(g) Enforcement of Intellectual Property Rights

(i) Each Party shall protect intellectual property rights covered by this Article by means of civil law, criminal law, or administrative law or a combination thereof in conformity with the provisions below. Each Party shall provide effective procedures, internally and at the border, to protect these intellectual property rights against any act of infringement, and effective remedies to stop and prevent infringements and to effectively deter further infringements. These procedures shall be applied in such a manner as to avoid the creation of obstacles to legitimate trade and provide for safeguards against abuse.

(ii) Procedures concerning the enforcement of intellectual property rights shall be fair and equitable.

VOL 56 ISS 125 JE 28 1991 UMI

(iii) Decisions on the merits of a case shall, as a general rule, be in writing and reasoned. They shall be made known at least to the parties to the dispute without undue delay.

(iv) Each Party shall provide an opportunity for judicial review of final administrative decisions on the merits of an action concerning the protection of an intellectual property right. Subject to jurisdictional provisions in national laws concerning the importance of a case, an opportunity for judicial review of the legal aspects of initial judicial decisions on the merits of a case concerning the protection of an intellectual property right shall also be provided.

(v) Remedies against a Party

Notwithstanding the other provisions of this Article, when a Party is sued for infringement of an intellectual property right as a result of the use of that right by or for the government, the Party may limit remedies against the government to payment of full compensation to the right-holder.

3. Each Party agrees to submit for enactment no later than December 31, 1992 the legislation necessary to carry out the obligations of this Article and to exert its best efforts to enact and implement this legislation by that date.

4. For purposes of this Article:

(a) "right-holder," means the right-holder himself, any other natural or legal persons authorized by him who are exclusive licensees of the right, or other authorized persons, including federations and associations, having legal standing under domestic law to assert such rights; and

(b) "A manner contrary to honest commercial practice" is understood to encompass, inter alia, practices such as theft, bribery, breach of contract, inducement to breach, electronic and other forms of commercial espionage, and includes the acquisition of trade secrets by third parties who knew, or had reasonable grounds to know, that such practices were involved in the acquisition.

ARTICLE X

AREAS FOR FURTHER ECONOMIC AND TECHNICAL COOPERATION

1. For the purpose of further developing bilateral trade and providing for a steady increase in the exchange of products and services, both Parties shall strive to achieve mutually acceptable agreements on taxation and investment issues, including the repatriation of profits and transfer of capital.

2. The Parties shall take appropriate steps to foster economic and technical cooperation on as broad a base as possible in all fields deemed to be in their mutual interest, including with respect to statistics and standards.

VOL
56
ISS
125
JE
28
1991
UMI

3. The Parties, taking into account the growing economic significance of service industries, agree to consult on matters affecting the conduct of service business between the two countries and particular matters of mutual interest relating to individual service sectors with the objective, among others, of attaining maximum possible market access and liberalization.

ARTICLE XI

MARKET DISRUPTION SAFEGUARDS

1. The Parties agree to consult promptly at the request of either Party whenever either actual or prospective imports of products originating in the territory of the other Party cause or threaten to cause or significantly contribute to market disruption. Market disruption exists within a domestic industry whenever imports of an article, like or directly competitive with an article produced by such domestic industry, are increasing rapidly, either absolutely or relatively, so as to be a significant cause of material injury, or threat thereof, to such domestic industry.

2. The consultations provided for in paragraph 1 of this Article shall have the objectives of (a) presenting and examining the factors relating to such imports that may be causing or threatening to cause or significantly contributing to market disruption, and (b) finding means of preventing or remedying such market disruptions. Such consultations shall be concluded

within sixty days from the date of the request for such consultation, unless the Parties otherwise agree.

3. Unless a different solution is mutually agreed upon during the consultations, the importing Party may (a) impose quantitative import limitations, tariff measures or any other restrictions or measures it deems appropriate to prevent or remedy threatened or actual market disruption, and (b) take appropriate measures to ensure that imports from the territory of the other Party comply with such quantitative limitations or other restrictions. In this event, the other Party shall be free to deviate from its obligations under this Agreement with respect to substantially equivalent trade.

4. Where in the judgment of the importing Party, emergency action is necessary to prevent or remedy such market disruption, the importing Party may take such action at any time and without prior consultations provided that such consultations shall be requested immediately thereafter.

5. Each Party shall ensure that its domestic procedures for determining market disruption are transparent and afford affected parties an opportunity to submit their views.

6. The Parties acknowledge that the elaboration of the market disruption safeguard provisions in this Article is without prejudice to the right of either Party to apply its laws and regulations applicable to trade in textiles and textile products and its laws and regulations applicable to unfair trade, including antidumping and countervailing duty laws.

VOL 56 ISS 125 JE 28 1991 UMI

ARTICLE XII

DISPUTE SETTLEMENT

1. Nationals, companies and organizations of either Party shall be accorded national treatment with respect to access to all courts and administrative bodies in the territory of the other Party, as plaintiffs, defendants or otherwise. They shall not claim or enjoy immunity from suit or execution of judgment, proceedings for the recognition and enforcement of arbitral awards, or other liability in the territory of the other Party with respect to commercial transactions; they also shall not claim or enjoy immunities from taxation with respect to commercial transactions, except as may be provided in other bilateral agreements.

2. The Parties encourage the adoption of arbitration for the settlement of disputes arising out of commercial transactions concluded between nationals or companies of the United States and nationals or organizations of the Mongolian People's Republic. Such arbitration may be provided for by agreements in contracts between such nationals, companies or organizations, or in separate written agreements between them.

3. The parties may provide for arbitration under any internationally recognized arbitration rules, including the UNCITRAL Rules in which case the parties should designate an Appointing Authority under said rules in a country other than the United States or the Mongolian People's Republic.

4. Unless otherwise agreed between the parties, the parties should specify as the place of arbitration a country other than the United States or the Mongolian People's Republic, that is a party to the Convention on the Recognition and Enforcement of Foreign Arbitral Awards, done at New York, 1958.

5. Nothing in this Article shall be construed to prevent, and the Parties shall not prohibit, the parties from agreeing upon any other form of arbitration or dispute settlement which they mutually prefer and agree best suits their particular needs.

6. Each Party shall ensure that an effective means exists within its territory for the recognition and enforcement of arbitral awards.

ARTICLE XIII

NATIONAL SECURITY

The provisions of this Agreement shall not limit the right of either Party to take any action for the protection of its security interests.

ARTICLE XIV

CONSULTATIONS

1. The Parties agree to consult periodically to review the operation of this Agreement.

2. The Parties agree to consult promptly through appropriate channels at the request of either Party to discuss any matter concerning the interpretation or implementation of

VOL
56
ISS
125
JE
28
1991
UMI

this Agreement and other relevant aspects of the relations between the Parties.

ARTICLE XV

DEFINITIONS

As used in this Agreement, the terms set forth below shall have the following meaning:

(a) "company," means any kind of corporation, company, association, sole proprietorship or other organization legally constituted under the laws and regulations of a Party or an political subdivision thereof, whether or not organized for pecuniary gain or privately or governmentally owned; provided that, either Party reserves the right to deny any company the advantages of this Agreement if nationals of any third country control such a company and, in the case of a company of the other Party, that company has no substantial business activities in the territory of the other Party or is controlled by nationals of a third country with which the denying country does not maintain normal economic relations;

(b) "commercial representation," means a representation of a company or organization of a Party;

(c) "national," means a natural person who is a national of a Party under its applicable law; and

(d) "organization," means, with respect to the United States, a company of the United States and, with respect

to the Mongolian People's Republic, any economic entity or enterprise (including a company) whether privately or governmentally owned.

ARTICLE XVI

GENERAL EXCEPTIONS

1. Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between countries where the same conditions prevail, or a disguised restriction on international trade, nothing in this Agreement shall be construed to prohibit the adoption or enforcement by a Party of:

(a) measures necessary to secure compliance with laws or regulations which are not contrary to the purposes of this Agreement;

(b) measures for the protection of intellectual property rights and the prevention of deceptive practices as set out in Article IX of this Agreement; or

(c) any other measure referred to in Article XX of the GATT.

2. Nothing in this Agreement limits the application of any existing or future agreement between the Parties on trade in textiles and textile products.

3. Nothing in this Agreement shall preclude a Party from applying its laws relating to entities substantially owned or effectively controlled by the government of the other Party.

VOL 56 ISS 125 JE 28 1991 UMI

ARTICLE XVII

ENTRY INTO FORCE, TERM, SUSPENSION AND TERMINATION

1. This Agreement (including its side letters which are an integral part of the Agreement) shall enter into force on the date of exchange of written notices of acceptance by the two governments and shall remain in force as provided in paragraphs 2 and 3 of this Article.

2. (a) The initial term of this Agreement shall be three years, subject to subparagraph (b) and (c) of this paragraph.

(b) If either Party encounters or foresees a problem concerning its domestic legal authority to carry out any of its obligations under this Agreement, such Party shall request immediate consultations with the other Party. Once consultations have been requested, the other Party shall enter into such consultations as soon as possible concerning the circumstances that have arisen with a view to finding a solution to avoid action under subparagraph (c).

(c) If either Party does not have domestic legal authority to carry out is obligations under this Agreement, either Party may suspend the application of this Agreement or, with the agreement of the other Party, any part of this Agreement. In that event, the Parties will, to the fullest extent practicable and consistent with domestic law,

seek to minimize disruption to existing trade relations between the two countries.

3. This Agreement shall be extended for successive terms of three years each unless either Party has given written notice to the other Party of its intent to terminate this Agreement at least 30 days prior to the expiration of the then current term.

DONE at Washington on this twenty-third day of January, 1991, in duplicate, in the English and Mongolian languages. In the event of any conflict between the two texts, the English language text shall control.

THE UNITED STATES TRADE REPRESENTATIVE
WASHINGTON
20506

January 23, 1991

Dear Mr. Minister:

I have the honor to acknowledge receipt of your letter of today's date concerning benefits under the Generalized System of Preferences ("GSP") which reads as follows:

> During the course of the negotiation of the Agreement on Trade Relations Between the Government of the United States of America and the Government of the Mongolian People's Republic, the delegation of the Government of the Mongolian People's Republic requested that the Government of the United States of America accord benefits to products of the Mongolian People's Republic under the Generalized System of Preferences.
>
> I wish to reiterate this request and ask that your government give it due consideration.

Please be assured that the Government of the United States will give your request due consideration. In this regard, we trust that the explanation provided by the U.S. delegation concerning the eligibility requirements for GSP were useful to your delegation.

Sincerely,

Carla A. Hills

The Honorable Sed-Ochiryn Bayarbaatar
Minister of Trade and Industry
Mongolian People's Republic

THE UNITED STATES TRADE REPRESENTATIVE
WASHINGTON
20506

January 23, 1991

Dear Mr. Minister:

In connection with the signing on this date of the Agreement on Trade Relations Between the Government of the United States of America and the Government of the Mongolian People's Republic (the "Agreement"), I have the honor to confirm the understanding reached by our Governments (the "Parties") regarding the establishment of commercial representations in the Mongolian People's Republic as follows:

The Government of the Mongolian People's Republic intends to liberalize the procedure to establish a commercial representation. Pending a formal change in applicable legislation, the Government of the Mongolian People's Republic intends to administer the procedure as a simple registration process.

I have the further honor to propose that this understanding be treated as an integral part of the Agreement on Trade Relations. I would be grateful if you would confirm that this understanding is shared by your Government.

Sincerely,

Carla A. Hills

The Honorable Sed-Ochiryn Bayarbaatar
Minister of Trade and Industry
Mcngolian People's Republic

UNITED STATES DEPARTMENT OF COMMERCE
The Under Secretary for Travel and Tourism
Washington, D.C. 20230

Washington, January 23, 199?

Dear Mr. Minister:

In connection with the signing on this date of the Agreement on Trade Relations Between the Government of the United States of America and the Government of the Mongolian People's Republic (the "Agreement"), I have the honor to confirm the understanding reached by our Governments (the "Parties") regarding cooperation in the field of tourism services as follows:

The Parties recognize the need to encourage and promote the growth of tourism and travel-related investment and trade between the United States of America and the Mongolian People's Republic.

The Parties recognize the benefits to both economies of increased tourism and travel-related investment in and trade between their two territories.

Each Party shall seek permission of the other Party prior to the establishment of official, governmental tourism promotion offices in the other's territory. Permission to open official tourism promotion offices or field offices shall be as agreed upon by the Parties, and subject to the applicable laws, regulations and policies of the host country. Official tourism promotion offices opened by either Party shall be operated on a non-commercial basis. Official tourism promotion offices and the personnel assigned to them shall not function as agents or principals in commercial transactions, enter into contractual agreements on behalf of commercial organizations or engage in other commercial activities. Such offices shall not sell services to the public or otherwise compete with private sector travel agents or tour operators of the host country. Nothing in this side letter shall obligate either Party to open such offices in the territory of the other.

Private and governmentally-owned commercial tourism enterprises shall be treated as private commercial enterprises fully subject to all applicable laws and regulations of the host country.

The Honorable Sed-Ochiryn Bayarbaatar
Minister of Trade and Industry
Mongolian People's Republic

Each Party shall ensure, within the scope of its legal authority, that any company owned, controlled or administered by that Party, or any joint venture therewith, which effectively controls a significant portion of the supply of any tourism or travel-related service in the territory of that Party shall provide those services to nationals and companies of the other Party in a fair and equitable manner and on a most-favored-nation basis.

Nothing in this letter or in the Agreement shall be construed to mean that tourism and travel-related services shall not receive the benefits from that Agreement as fully as all other industries and sectors.

The Parties will consider negotiating a separate agreement on tourism and travel-related services.

I have the further honor to propose that this understanding be treated as an integral part of the Agreement. I would be grateful if you would confirm that this understanding is shared by your Government.

Sincerely,

Rockwell A. Schnabel

Title 3—

The President

Proclamation 6309 of June 26, 1991

To Modify Duty-Free Treatment Under the Generalized System of Preferences

By the President of the United States of America

A Proclamation

1. Pursuant to section 504(c) of the Trade Act of 1974, as amended (the 1974 Act) (19 U.S.C. 2464(c)), beneficiary developing countries, except those designated as least-developed beneficiary developing countries pursuant to section 504(c)(6) of the 1974 Act, are subject to limitations on the preferential treatment afforded under the Generalized System of Preferences (GSP). Pursuant to section 504(c)(3) of the 1974 Act, the President may waive the application of section 504(c) of the 1974 Act with respect to any eligible article if the President determines, based on the considerations described in sections 501 and 502(c) of the 1974 Act (19 U.S.C. 2461 and 2462(c)) and advice from the United States International Trade Commission (USITC), that such waiver is in the national economic interest of the United States. Further, pursuant to section 504(c)(5) of the 1974 Act, a country that is no longer treated as a beneficiary developing country with respect to an eligible article by reason of section 504(c) of the 1974 Act may be redesignated as a beneficiary developing country with respect to such article if imports of such article from such country did not exceed the limitations in section 504(c)(1) (after application of paragraph (c)(2)) during the preceding calendar year.

2. Pursuant to subsection 504(c)(3) of the 1974 Act, I have determined that it is appropriate to waive the application of section 504(c) of the 1974 Act with respect to certain eligible articles from certain beneficiary developing countries. I have received the advice of the USITC on whether any industries in the United States are likely to be adversely affected by such waivers, and I have determined, based on that advice and on the considerations described in sections 501 and 502(c) of the 1974 Act, as amended (19 U.S.C. 2461 and 2462(c)), that such waivers are in the national economic interest of the United States. Further, I have determined that it is necessary and appropriate to subdivide and amend the nomenclature of the Harmonized Tariff Schedule of the United States (HTS) in order to provide for one such waiver. Last, I have determined, pursuant to section 504(c)(5) of the 1974 Act, that certain countries should be redesignated as beneficiary developing countries with respect to specified previously designated eligible articles. These countries have been previously excluded from benefits of the GSP with respect to such eligible articles pursuant to sections 504(c)(1) or 504(c)(2) of the 1974 Act.

3. In order to clarify a change in general note 3(c)(ii)(C) to the HTS made by Proclamation 6245 of February 4, 1991, to correct a typographical error in Proclamation 6282 of April 25, 1991, and to modify the designation of eligibility of Peru with respect to HTS subheading 7113.19.10 due to new information as to the value of imports under such subheading, I have determined it is necessary and appropriate to modify the HTS.

4. Section 604 of the 1974 Act, as amended (19 U.S.C. 2483), authorizes the President to embody in the HTS the substance of the relevant provisions of that Act, and of other acts affecting import treatment, and actions thereunder, including removal, modification, continuance, or imposition of any rate of duty or other import restriction.

VOL
56
ISS
125
JE
28
1991
UMI

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, acting under the authority vested in me by the Constitution and the laws of the United States, including but not limited to sections 501, 502, 504, and 604 of the 1974 Act, do proclaim that:

(1) The waivers of the application of section 504(c) of the 1974 Act shall apply to the eligible articles in the HTS subheadings and the beneficiary developing countries opposite such HTS subheadings set forth in Annex I(a).

(2) In order to provide in the nomenclature of the HTS for a waiver under the GSP for a specified designated eligible article when imported from Mexico, the HTS is modified as provided in Annex I(b) to this proclamation.

(3) In order to provide preferential tariff treatment under the GSP to certain countries which have been excluded from the benefits of the GSP for certain eligible articles imported from such countries, following my determination that a country previously excluded from receiving such benefits should again be treated as a beneficiary developing country with respect to such article, the Rates of Duty 1 Special subcolumn for each of the HTS provisions enumerated in Annex II(a) to this proclamation is modified: (i) by deleting from such subcolumn for such HTS provisions the symbol "A*" in parentheses, and (ii) by inserting in such subcolumn the symbol "A" in lieu thereof.

(4) In order to provide that one or more countries which have not been treated as beneficiary developing countries with respect to an eligible article should be redesignated as beneficiary developing countries with respect to such article for purposes of the GSP, general note 3(c)(ii)(D) to the HTS is modified as provided in Annex II(b) to this proclamation.

(5) In order to provide for the continuation of previously proclaimed staged reductions on Canadian goods in the HTS provisions modified in Annex I(b) to this proclamation, effective with respect to goods originating in the territory of Canada which are entered, or withdrawn from warehouse for consumption, on or after the dates specified in Annex I(c) to this proclamation, the rate of duty in the HTS set forth in the Rates of Duty 1 Special subcolumn followed by the symbol "CA" in parentheses for each of the HTS subheadings enumerated in such Annex I(c) shall be deleted and the rate of duty provided in such Annex I(c) inserted in lieu thereof on the dates specified.

(6) In order to clarify a change in general note 3(c)(ii)(C) to the HTS, to correct a typographical error, and to modify the eligibility of Peru with respect to subheading 7113.19.10, the HTS is modified as provided in Annex III.

(7) Any provisions of previous proclamations and Executive orders inconsistent with the provisions of this proclamation are hereby superseded to the extent of such inconsistency.

(8)(a) The waivers granted by Annex I(a) of this proclamation shall be effective on or after the date of signature of this proclamation.

(b) The amendments made by Annexes I(b), II, and III(b) of this proclamation shall be effective with respect to articles both: (i) imported on or after January 1, 1976, and (ii) entered, or withdrawn from warehouse for consumption, on or after July 1, 1991.

(c) The amendments made by Annex I(c) of this proclamation shall be effective with respect to goods originating in the territory of Canada entered, or withdrawn from warehouse for consumption, on or after the dates indicated in the respective Annex I(c) columns.

(d) The amendments made by Annex III(a) of this proclamation shall be effective with respect to articles both: (i) imported on or after January 1, 1976, and (ii) entered, or withdrawn from warehouse for consumption, on or after October 1, 1990.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-sixth day of June, in the year of our Lord nineteen hundred and ninety-one, and of the Independence of the United States of America the two hundred and fifteenth.

George Bush

Billing code 3195-01-M

VOL 56 ISS 125 JE 28 1991 UMI

Annex I

(a) The waiver of the application of section 504(c) of the 1974 Act shall apply to:

0802.90.15	Mexico	8504.32.00	Mexico
0804.50.40	Mexico	8505.19.00	Mexico
2005.20.00pt.	Mexico1/	8507.90.40	Mexico
2529.22.00	Mexico	8511.10.00	Mexico
2836.92.00	Mexico	8536.69.00	Mexico
2917.37.00	Mexico	8536.90.00	Mexico
3907.60.00	Mexico		
4409.10.40	Mexico	8544.30.00	Mexico; Philippines
4818.40.40	Mexico		
7901.11.00	Mexico		
8414.59.80	Mexico	8544.51.40	Mexico
8418.10.00	Mexico	8708.70.80	Mexico
8418.21.00	Mexico	8708.99.50	Mexico
8418.40.00	Mexico	9401.90.10	Mexico
8475.20.00	Mexico	9503.70.80	Mexico
8504.10.00	Mexico	9503.90.60	Mexico

1/ Waiver for Mexico on 2005.20.00pt. only applies to 2005.20.0020 (potato chips).

(b) The HTS is modified as provided below effective with respect to articles both: (i) imported on or after January 1, 1976, and (ii) entered, or withdrawn from warehouse for consumption, on or after July 1, 1991.

Note: Bracketed matter is included to assist in the understanding of proclaimed modifications. The following supersedes matter now in the HTS. The subheadings and superior descriptions are set forth in columnar format, and material in such columns is inserted in the columns of the HTS designated "Heading/Subheading", "Article Description", "Rates of Duty 1 General", "Rates of Duty 1 Special", and "Rates of Duty 2", respectively.

Subheading 2005.20.00 is superseded by:

	[Other vegetables...:]				
"2005.20	Potatoes:				
2005.20.20	Potato chips.....	10%	Free (A,E,IL) 7% (CA)	55%	
2005.20.60	Other.....	10%	Free (A,E,IL) 7% (CA)	35%"	

(c) The HTS is modified effective with respect to goods originating in the territory of Canada entered, or withdrawn from warehouse for consumption, on or after the dates set forth in the following tabulation. For each of the following subheadings created by Annex I(b) to this proclamation, on or after January 1 of each of the following years, the rate of duty in the Rates of Duty 1 Special subcolumn in the HTS that is followed by the symbol "CA" in parentheses is deleted and the following rates of duty inserted in lieu thereof on the dates specified below.

HTS Subheading	1992	1993	1994	1995	1996	1997	1998
2005.20.20	6%	5%	4%	3%	2%	1%	Free
2005.20.60	6%	5%	4%	3%	2%	1%	Free

Annex II

Effective with respect to articles both: (i) imported on or after January 1, 1976, and (ii) entered, or withdrawn from warehouse for consumption, on or after July 1, 1991:

(a) For the following HTS subheadings, in the Rates of Duty 1 Special subcolumn, delete the symbol "A*" and insert an "A" in lieu thereof:

0802.90.15	8414.59.80	8536.90.00
0804.50.40	8418.10.00	8544.30.00
2836.92.00	8504.10.00	8708.99.50
4409.10.40	8504.32.00	
7901.11.00	8536.69.00	

(b) General note 3(c)(ii)(D) to the HTS is modified by deleting the following HTS subheadings and the countries opposite such subheadings:

0802.90.15	Mexico	8504.32.00	Mexico
0804.50.40	Mexico	8536.69.00	Mexico
2836.92.00	Mexico	8536.90.00	Mexico
4409.10.40	Mexico		
7901.11.00	Mexico	8544.30.00	Mexico; Philippines
8414.59.80	Mexico		
8418.10.00	Mexico		
8504 10.00	Mexico	8708.99.50	Mexico

Annex III

(a) General note 3(c)(ii)(C) to the HTS is modified by striking out the phrase "from such country or territory," and inserting "from such country or territory listed in subdivision (c)(ii)(A) of this note," in lieu thereof effective with respect to articles both: (i) imported on or after January 1, 1976, and (ii) entered, or withdrawn from warehouse for consumption, on or after October 1, 1990.

(b) Effective with respect to articles both: (i) imported on or after January 1, 1976, and (ii) entered, or withdrawn from warehouse for consumption, on or after July 1, 1991:

(1) For HTS subheadings 7113.19.10 and 8520.20.00, in the Rates of Duty 1 Special subcolumn, delete the symbol "A*" and insert an "A" in lieu thereof.

(2) General note 3(c)(ii)(D) to the HTS is modified by deleting "7113.19.10 Peru".

LIST OF PUBLIC LAWS

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's List of Public Laws.

Last List June 28, 1991

Guide to Record Retention Requirements

in the Code of Federal Regulations (CFR)

GUIDE: Revised January 1, 1989
SUPPLEMENT: Revised January 1, 1991

The GUIDE and the SUPPLEMENT should be used together. This useful reference tool, compiled from agency regulations, is designed to assist anyone with Federal recordkeeping obligations.

The various abstracts in the GUIDE tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

The GUIDE is formatted and numbered to parallel the CODE OF FEDERAL REGULATIONS (CFR) for uniformity of citation and easy reference to the source document.

Compiled by the Office of the Federal Register, National Archives and Records Administration.

Order from Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402-9325.

LSA—LIST OF CFR SECTIONS AFFECTED

The LSA (List of CFR Sections Affected) is a monthly publication designed to lead users of the Code of Federal Regulations (CFR) to amendatory actions published in the Federal Register (FR). It should be shelved with current CFR volumes. Entries are by CFR title, chapter, part, and section. Proposed rules are listed at the end of appropriate titles.

HOW TO USE THIS FINDING AID

The CFR is revised annually according to the following schedule:

Titles 1-16—as of Jan. 1
17-27—as of April 1
28-41—as of July 1
42-50—as of Oct. 1

To bring these regulations up to date, consult the most recent LSA for any changes, additions, or removals published after the revision date of the volume you are using. Then check the CUMULATIVE LIST OF PARTS AFFECTED appearing in the Reader Aids of the latest Federal Register for less detailed but timely changes published after the final date included in this publication.

Boldface entries are used to distinguish current month amendments from previous entries. Example: **1413.23 Amended.....12345. Boldface** page numbers under a particular title indicate that the page numbers span 2 years.

Cite a page reference from this publication using the volume number (i.e. 55 FR for 1990) and the page number. Example: 24727 cite as 55 FR 24727. For your convenience, the volume number has been included in the Table of Federal Register Issue Pages and Dates.

ISSUES TO BE SAVED

There is no single annual issue of the LSA. Four ANNUAL ISSUES must be saved; the DECEMBER issue is the ANNUAL for Titles 1-16; the MARCH issue is the ANNUAL for Titles 17-27; the JUNE issue is the ANNUAL for Titles 28-41; the SEPTEMBER issue is the ANNUAL for Titles 42-50. ANNUAL ISSUES to be saved are clearly designated on the cover.

PARALLEL TABLE OF AUTHORITIES AND RULES

Following Title 50 is an update to Table I—Parallel Table of Authorities and Rules found in the CFR Index and Finding Aids. This table contains authority citations added to or removed from Table I as a result of documents published in the Federal Register since January 1, 1990.

TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A table is included at the end of this publication which identifies the volume number, the inclusive page numbers, and the corresponding Federal Register issue dates for the period covered.

INDEXES

An INDEX to the daily Federal Register is published monthly and is cumulated for 12 months. A separate volume, the CFR Index and Finding Aids to the entire Code of Federal Regulations, is revised as of January 1 each year.

INQUIRIES AND SUGGESTIONS

Jim Wickliffe was Chief Editor of the LSA. The LSA was prepared under the direction of Richard L. Claypoole, assisted by Laurice Clark. INQUIRIES, telephone 202-523-5227.

SUGGESTIONS concerning this and other publications of the Office are welcomed. Please send your suggestions to Martha L. Girard, Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408.

Additions to Table I, January 1991

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being added to Table I as a result of authority citations carried in the **Federal Register** during January 1991. Recent legislation is carried by public law number.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1991. Additions during 1990 are in the December 1990 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

Removals from Table I, January 1991

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being removed from Table I as a result of documents published in the **Federal Register** during January 1991.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1991. Removals during 1990 are in the December 1990 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

LSA—LIST OF CFR SECTIONS AFFECTED

The LSA (List of CFR Sections Affected) is a monthly publication designed to lead users of the Code of Federal Regulations (CFR) to amendatory actions published in the Federal Register (FR). It should be shelved with current CFR volumes. Entries are by CFR title, chapter, part, and section. Proposed rules are listed at the end of appropriate titles.

HOW TO USE THIS FINDING AID

The CFR is revised annually according to the following schedule:

Titles 1–16—as of Jan. 1
17–27—as of April 1
28–41—as of July 1
42–50—as of Oct. 1

To bring these regulations up to date, consult the most recent LSA for any changes, additions, or removals published after the revision date of the volume you are using. Then check the CUMULATIVE LIST OF PARTS AFFECTED appearing in the Reader Aids of the latest Federal Register for less detailed but timely changes published after the final date included in this publication.

Boldface entries are used to distinguish current month amendments from previous entries. Example: **1413.23 Amended.....12345.** **Boldface** page numbers under a particular title indicate that the page numbers span 2 years.

Cite a page reference from this publication using the volume number (i.e. 55 FR for 1990) and the page number. Example: 24727 cite as 55 FR 24727. For your convenience, the volume number has been included in the Table of Federal Register Issue Pages and Dates.

ISSUES TO BE SAVED

There is no single annual issue of the LSA. Four ANNUAL ISSUES must be saved; the DECEMBER issue is the ANNUAL for Titles 1–16; the MARCH issue is the ANNUAL for Titles 17–27; the JUNE issue is the ANNUAL for Titles 28–41; the SEPTEMBER issue is the ANNUAL for Titles 42–50. ANNUAL ISSUES to be saved are clearly designated on the cover.

PARALLEL TABLE OF AUTHORITIES AND RULES

Following Title 50 is an update to Table I—Parallel Table of Authorities and Rules found in the CFR Index and Finding Aids. This table contains authority citations added to or removed from Table I as a result of documents published in the Federal Register since January 1, 1990.

TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A table is included at the end of this publication which identifies the volume number, the inclusive page numbers, and the corresponding Federal Register issue dates for the period covered.

INDEXES

An INDEX to the daily Federal Register is published monthly and is cumulated for 12 months. A separate volume, the CFR Index and Finding Aids to the entire Code of Federal Regulations, is revised as of January 1 each year.

INQUIRIES AND SUGGESTIONS

Jim Wickliffe was Chief Editor of the LSA. The LSA was prepared under the direction of Richard L. Claypoole, assisted by Laurice Clark. INQUIRIES, telephone 202-523-5227.

SUGGESTIONS concerning this and other publications of the Office are welcomed. Please send your suggestions to Martha L. Girard, Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408.

TITLE 40 Chapter I—Con. Page

86.092-24 (a)(16) added....30626
86.092-35 (a)(3)(iii)(L) and (M) revised....30627
(a)(3)(iii)(N) added....46628
86.094-11 (a)(1)(iv)(B) revised....30627
86.094-15 Added....30627
86.1102-87 (b) revised....46628
86.1104-90 Added....30629
86.1104-91 Added....30629
86.1105-87 (c) and (d) revised....46628
86.1106-87 (a)(2) revised....46629
86.1113-87 (a)(3)(iv), (6), (g)(3) introductory text and (i) revised; (g)(5) and (6) added....46629
86.1115-87 (z) removed; new (z) redesignated from (aa)....46630
122.1 (b)(2)(iv) revised....48062
122.21 (j)(1) through (4) added....30128
(c)(1), (g)(7) introductory text and (k) introductory text revised; (f)(7) and (g)(3) amended; (f)(9) and (g)(10) removed....48062
122.22 (b) introductory text revised....48063
122.26 Revised....48063
122.28 (b)(2)(i) revised....48072
122.42 (c) added....48073
122 Appendixes E through I added....48073
123.25 (a)(9) revised....48075
124.52 Revised....48075
136.3 Table IB amended; footnote 34 added....33440
Table II amended....33440
136.5 (e) revised....33440
136 Appendix C amended....33440
Appendix D added....33442
141.2 Amended; eff. 7-30-92....3578
141.4 Existing text designated as (a); (b) added....1557
141.11 (b) introductory text revised; (b) table amended; eff. 7-30-92....3578
141.12 Revised; eff. 7-30-92....3578
141.21 (f)(5) revised; (f)(6) redesignated as (f)(7); new (f)(6) added....642
(f)(7) amended....643
141.23 Revised (effective date pending)....3579
141.24 (a) introductory text, (e) and (f) revised; (h) added (effective date pending)....3583
141.32 (a)(1)(iii)(B) revised; (e)(15), (17) through (24), (28) through (45) and (47) through (52) added; eff. 7-30-92....3587
141.40 Heading revised; (n) added (effective date pending)....3592
141.50 (a)(6) through (14) and (16) through (18) added; (b) table amended; eff. 7-30-92....3592
141.51 (b) table amended; eff. 7-30-92....3593
141.60 Revised; eff. 7-30-92....3593
141.61 Revised; eff. 7-30-92....3593
141.62 Revised; eff. 7-30-92....3594
141.110—141.111 (Subpart K) Added; eff. 7-30-92....3594
142.14 (a)(6), (c), (d) introductory text and (f) revised; (d)(4) through (7) added; eff. 7-30-92....3595
142.15 (c)(3) added; eff. 7-30-92....3595
142.16 (e) added; eff. 7-30-92....3595
142.18 Added; eff. 7-30-92....3595
142.57 Revised; eff. 7-30-92....3596
142.62 Revised; eff. 7-30-92....3596
142.63 Existing text designated text as (a); (b) added....1557
142.201—142.208 (Subpart J) Added....3755
143.3 Table revised; eff. 7-30-92....3597
143.4 (b)(12) and (13) added; eff. 7-30-92....3597
148.10 (c) redesignateds as (e); new (c), (d) and Tables A and B added....3876
148.16 (c) and (f) revised....33694
(c) revised....3876
177 Added....50288
178 Added....50291
179 Added....50293
180 Authority citation revised....50299
180.7 (g) revised....50299
180.13—180.28 Undesignated center heading and sections removed....50300

Additions to Table I, February 1991

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being added to Table I as a result of authority citations carried in the **Federal Register** during January through February 1991. Recent legislation is carried by public law number.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1991. Additions during 1990 are in the December 1990 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

LSA—LIST OF CFR SECTIONS AFFECTED

The LSA (List of CFR Sections Affected) is a monthly publication designed to lead users of the Code of Federal Regulations (CFR) to amendatory actions published in the Federal Register (FR). It should be shelved with current CFR volumes. Entries are by CFR title, chapter, part, and section. Proposed rules are listed at the end of appropriate titles.

HOW TO USE THIS FINDING AID

The CFR is revised annually according to the following schedule:

Titles 1-16—as of Jan. 1
17-27—as of April 1
28-41—as of July 1
42-50—as of Oct. 1

To bring these regulations up to date, consult the most recent LSA for any changes, additions, or removals published after the revision date of the volume you are using. Then check the CUMULATIVE LIST OF PARTS AFFECTED appearing in the Reader Aids of the latest Federal Register for less detailed but timely changes published after the final date included in this publication.

Boldface entries are used to distinguish current month amendments from previous entries. Example: **1413.23 Amended.....12345. Boldface** page numbers under a particular title indicate that the page numbers span 2 years.

Cite a page reference from this publication using the volume number (i.e. 55 FR for 1990) and the page number. Example: 24727 cite as 55 FR 24727. For your convenience, the volume number has been included in the Table of Federal Register Issue Pages and Dates.

ISSUES TO BE SAVED

There is no single annual issue of the LSA. Four ANNUAL ISSUES must be saved; the DECEMBER issue is the ANNUAL for Titles 1-16; the MARCH issue is the ANNUAL for Titles 17-27; the JUNE issue is the ANNUAL for Titles 28-41; the SEPTEMBER issue is the ANNUAL for Titles 42-50. ANNUAL ISSUES to be saved are clearly designated on the cover.

PARALLEL TABLE OF AUTHORITIES AND RULES

Following Title 50 is an update to Table I—Parallel Table of Authorities and Rules found in the CFR Index and Finding Aids. This table contains authority citations added to or removed from Table I as a result of documents published in the Federal Register since January 1, 1990.

TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A table is included at the end of this publication which identifies the volume number, the inclusive page numbers, and the corresponding Federal Register issue dates for the period covered.

INDEXES

An INDEX to the daily Federal Register is published monthly and is cumulated for 12 months. A separate volume, the CFR Index and Finding Aids to the entire Code of Federal Regulations, is revised as of January 1 each year.

INQUIRIES AND SUGGESTIONS

Jim Wickliffe was Chief Editor of the LSA. The LSA was prepared under the direction of Richard L. Claypoole, assisted by Laurice Clark. INQUIRIES, telephone 202-523-5227.

SUGGESTIONS concerning this and other publications of the Office are welcomed. Please send your suggestions to Martha L. Girard, Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408.

Additions to Table I, March 1991

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being added to Table I as a result of authority citations carried in the **Federal Register** during January through March 1991. Recent legislation is carried by public law number.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1991. Additions during 1990 are in the December 1990 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

U.S. Code:	CFR

Removals from Table I, March 1991

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being removed from Table I as a result of documents published in the **Federal Register** during January through March 1991.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1991. Removals during 1990 are in the December 1990 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

LSA—LIST OF CFR SECTIONS AFFECTED

The LSA (List of CFR Sections Affected) is a monthly publication designed to lead users of the Code of Federal Regulations (CFR) to amendatory actions published in the Federal Register (FR). It should be shelved with current CFR volumes. Entries are by CFR title, chapter, part, and section. Proposed rules are listed at the end of appropriate titles.

HOW TO USE THIS FINDING AID

The CFR is revised annually according to the following schedule:

Titles 1–16—as of Jan. 1
17–27—as of April 1
28–41—as of July 1
42–50—as of Oct. 1

To bring these regulations up to date, consult the most recent LSA for any changes, additions, or removals published after the revision date of the volume you are using. Then check the CUMULATIVE LIST OF PARTS AFFECTED appearing in the Reader Aids of the latest Federal Register for less detailed but timely changes published after the final date included in this publication.

Boldface entries are used to distinguish current month amendments from previous entries. Example: **1413.23 Amended.....12345. Boldface** page numbers under a particular title indicate that the page numbers span 2 years.

Cite a page reference from this publication using the volume number (i.e. 56 FR for 1991) and the page number. Example: 24727 cite as 56 FR 24727. For your convenience, the volume number has been included in the Table of Federal Register Issue Pages and Dates.

ISSUES TO BE SAVED

There is no single annual issue of the LSA. Four ANNUAL ISSUES must be saved; the DECEMBER issue is the ANNUAL for Titles 1-16; the MARCH issue is the ANNUAL for Titles 17-27; the JUNE issue is the ANNUAL for Titles 28-41; the SEPTEMBER issue is the ANNUAL for Titles 42-50. ANNUAL ISSUES to be saved are clearly designated on the cover.

PARALLEL TABLE OF AUTHORITIES AND RULES

Following Title 50 is an update to Table I—Parallel Table of Authorities and Rules found in the CFR Index and Finding Aids. This table contains authority citations added to or removed from Table I as a result of documents published in the Federal Register since January 1, 1991.

TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A table is included at the end of this publication which identifies the volume number, the inclusive page numbers, and the corresponding Federal Register issue dates for the period covered.

INDEXES

An INDEX to the daily Federal Register is published monthly and is cumulated for 12 months. A separate volume, the CFR Index and Finding Aids to the entire Code of Federal Regulations, is revised as of January 1 each year.

INQUIRIES AND SUGGESTIONS

Jim Wickliffe was Chief Editor of the LSA. The LSA was prepared under the direction of Richard L. Claypoole, assisted by Laurice Clark. INQUIRIES, telephone 202-523-5227.

SUGGESTIONS concerning this and other publications of the Office are welcomed. Please send your suggestions to Martha L. Girard, Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408.

CHANGES OCTOBER 1, 1990 THROUGH APRIL 30, 1991

TITLE 47 Chapter I—Con. Page

(d) introductory text correctly revised; (d) corrected 50558
61.47 (h) added 42384
61.48 (c) through (f) added 42384
61.49 (a) revised; (g) amended 42384
(d) revised 5956
61.58 (c)(1), (5) and (6) revised 42384
(a)(2) revised 1500
(c)(2) and (3) revised 5956
63.07 (c) added 13414
64 Authority citation revised 18523
64.703 Added 18523
64.704 Added 18523
64.705 Added 18523
64.706 Added 18524
64.707 Added 18524
64.708 Added 18524
65 Authorized rate of return 51423
65.1 Revised 42384
65.600 (b) revised; (d) added 42385
65.701 (d) added 42385
65.703 (g) amended; (h) added 42385
68 Authority citation revised 18524
68.200 (k) added 3785
68.314 (h) added 46066
68.318 (d) added 18524
69 Report and order 9898
69.1 (b) amended; (c) added 42385
69.3 (a) and (e)(4) revised; (h) and (i) added 42385
(i) introductory text, (1), (2), and (3) correctly added 50558
69.101 Revised 42386
69.105 (b)(7) and (8) added 42386
69.111 (a) revised 42386
69.112 (b)(1) and (d)(1) revised; (c) amended 42386
69.113 (c) revised 42386
(c) corrected 50559
69.114 (a) revised 42386
69.205 (c) revised 42387
(c) corrected 50559
73 Waivers 53152
Technical correction 4177
73.202 (b) table amended 39969, 39970, 40390–40392, 40837–40839, 41086–41088, 41338, 41692, 41693, 42012–42015, 42570, 42571, 42720, 42721, 42961, 42195, 42196, 42854, 45608, 45609, 45806, 45807, 46067, 46213, 46792–46794, 46954, 47336, 47477, 47765, 47879, 47880, 48239–48241, 48845, 48846, 49046, 49389, 49390, 49523, 49524, 49525, 49898, 49899, 50005, 51104–51106, 51296–51298, 51906–51908, 52048, 52049, 52173–52175, 52845, 52846, 53306, 53307
(b) table amended 796, 1737–1739, 3039–3042, 3222, 3786, 4176–4178, 4734, 4949, 4950, 5158, 7309–7312, 8282, 8933, 8934, 9898, 9899, 10178, 10179, 10381, 10519, 11106, 11107, 11942, 11943, 12669, 13083, 19808, 19809
Effective date corrected 558
(b) table amended 13415, 14212, 14480, 15051, 15509, 15510, 16011–16014, 18739–18741, 19039, 19298–19300, 19808, 19809
73.606 (b) table amended 52174
(b) table amended 1373
(b) table amended 14027, 16280
73.660 Added 19616
73.661 Added 19616

NOTE 2: Boldface entries indicate April changes.

Additions to Table I, April 1991

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being added to Table I as a result of authority citations carried in the **Federal Register** during January through April 1991. Recent legislation is carried by public law number.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1991. Additions during 1990 are in the December 1990 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

Removals from Table I, April 1991

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being removed from Table I as a result of documents published in the **Federal Register** during January through April 1991.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1991. Removals during 1990 are in the December 1990 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

LSA—LIST OF CFR SECTIONS AFFECTED

The LSA (List of CFR Sections Affected) is a monthly publication designed to lead users of the Code of Federal Regulations (CFR) to amendatory actions published in the Federal Register (FR). It should be shelved with current CFR volumes. Entries are by CFR title, chapter, part, and section. Proposed rules are listed at the end of appropriate titles.

HOW TO USE THIS FINDING AID

The CFR is revised annually according to the following schedule:

Titles 1-16—as of Jan. 1
17-27—as of April 1
28-41—as of July 1
42-50—as of Oct. 1

To bring these regulations up to date, consult the most recent LSA for any changes, additions, or removals published after the revision date of the volume you are using. Then check the CUMULATIVE LIST OF PARTS AFFECTED appearing in the Reader Aids of the latest Federal Register for less detailed but timely changes published after the final date included in this publication.

Boldface entries are used to distinguish current month amendments from previous entries. Example: **1413.23 Amended.....12345. Boldface** page numbers under a particular title indicate that the page numbers span 2 years.

Cite a page reference from this publication using the volume number (i.e. 56 FR for 1991) and the page number. Example: 24727 cite as 56 FR 24727. For your convenience, the volume number has been included in the Table of Federal Register Issue Pages and Dates.

ISSUES TO BE SAVED

There is no single annual issue of the LSA. Four ANNUAL ISSUES must be saved; the DECEMBER issue is the ANNUAL for Titles 1-16; the MARCH issue is the ANNUAL for Titles 17-27; the JUNE issue is the ANNUAL for Titles 28-41; the SEPTEMBER issue is the ANNUAL for Titles 42-50. ANNUAL ISSUES to be saved are clearly designated on the cover.

PARALLEL TABLE OF AUTHORITIES AND RULES

Following Title 50 is an update to Table I—Parallel Table of Authorities and Rules found in the CFR Index and Finding Aids. This table contains authority citations added to or removed from Table I as a result of documents published in the Federal Register since January 1, 1991.

TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A table is included at the end of this publication which identifies the volume number, the inclusive page numbers, and the corresponding Federal Register issue dates for the period covered.

INDEXES

An INDEX to the daily Federal Register is published monthly and is cumulated for 12 months. A separate volume, the CFR Index and Finding Aids to the entire Code of Federal Regulations, is revised as of January 1 each year.

INQUIRIES AND SUGGESTIONS

Jim Wickliffe was Chief Editor of the LSA. The LSA was prepared under the direction of Richard L. Claypoole, assisted by Laurice Clark. INQUIRIES, telephone 202-523-5227.

SUGGESTIONS concerning this and other publications of the Office are welcomed. Please send your suggestions to Martha L. Girard, Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408.

(Comprising a complete CFR set)

TITLE 7 Chapter XVIII—Con. Page

(f)(5) removed; (f)(6) redesignated as (f)(5); (e)(2), (3) and (f)(4) revised 12646
Introductory text amended 15825
1962.40 (a)(1) introductory text, (b) and (e)(1) introductory text revised 15825
1962.41 Introductory text revised 15825
1962.42 (a) introductory text, (c) introductory text and (d) revised 15825
1962.46 (f) revised 15826
1962.47 (a)(3), (c)(2) through (5) revised 15826
1962.1—1962.50 (Subpart A) Exhibit D revised 15827
Exhibit D-1 added 15828
Exhibit E revised 15829
1965 Authority citation revised 2257, 6954
1965.1 (c)(1) introductory text amended; (c)(1)(i) through (iii), (2)(i)(B), (ii) introductory text and (3) revised 15829
1965.13 (f)(2) revised 10154
1965.25 (d) introductory text revised 15830
1965.26 (c)(2) introductory text revised 6954
(f)(5)(i) and (g)(3) revised 12646
(a)(1) introductory text, (b), (c)(1), (2)(iv) introductory text and (C) revised; (c)(3) added 15830
1965.27 (e), (b)(5), (c)(2) and (d) introductory text amended; (g)(9) revised 3396
(f)(1) and (g)(6)(i) revised 12646
(b)(5)(iii)(B) removed; (b)(5)(iii)(C) and (D) redesignated as (b)(5)(iii)B) and (C); (c)(1)(iii)(A), (B) and (e) revised 15831
1965.34 Introductory text revised 15831
1965.1—1965.50 (Subpart A) Exhibit B heading revised 15832
1965.55 (a)(12) revised 2257
1965.61 (b) and (c) revised 2257
1965.63 (d) and (e)(2) revised 2257
1965.65 (a)(3), (c)(3) and (7) revised 2257
(f)(12) amended 2258
(b)(2) amended 10154

1965.101—1965.150 (Subpart C) Revised 6954
1965.125 (a)(3) amended 3397

TITLE 32 Chapter I—Con. Page

284 Transferred to Subchapter O 24133
285 Transferred to Subchapter O 24133
Subchapter N Heading revised 24133
Subchapter O (Parts 284—285) Heading revised; Parts 284 and 285 transferred from Subchapter M 24133
286 Revised 43093, 53104
Heading revised 21300
286.7 (h)(7)(iii) corrected 46950
(i)(9) revised 48231
286.9 (a) corrected 46950
286.13 (a)(1)(i), (4), (6)(ii)(A), (7)(ii)(C), (v) introductory text and (v)(B) corrected; (a)(1)(iii) correctly removed 46950
(a)(5) introductory text and (i)(F) amended 21300
286.27 (b)(6) corrected 46950
(b)(2) through (6) revised 21300
286.29 Heading correctly designated and (f) corrected 46950
(a) amended 21300
286.33 (c)(1) and (d)(3)(i)(B) corrected 46950
286.37 (a)(1) and (3)(ii) corrected 46950
286 Appendix B corrected 46950, 48231
Appendixes B and H amended 21300
286h Added 28614
287 Revised 31829
289 Revised 27225
291 Revised 9942
299 Authority citation revised 13047
299.1 Revised 13047
299.4 (d) revised 13047
299.5 Revised 13047
299a.10 (b)(14) through (17) added 34907
(b)(18) added 16087
350 Revised 28193
352a Added 50179
356 Revised 23802
360 Revised 52169
367 Revised 21077
367a Added 21079
381 Revised 6274
382 Revised 49888
383.4 (z) and (aa) added 49279
383 Appendix amended 49279
383a Added 49279

Chapter V—Department of the Army (Parts 400—699)

507 Revised 23513
518.54 (d)(25) added 33289
556.22 (c) revised 32243
589 Added 47042
589.4 (a)(1), (b)(4), (5), (f) and (g) revised; (b)(6) added 371
619 Added 52076
619.2 Revised 2850
619.4 Revised 5651
626 Added 3186
Authority citation revised 13759
626.4 (g)(3) and (4) revised 13759
626.7 (i)(1) revised 13759
626.8 (b) revised 13759
626.15 (b) revised 13759
627 Added 9424
634 Revised 3930
651 Appendix A amended 35905

Chapter VI—Department of the Navy (Parts 700—799)

701.119 (a) removed; (m) heading revised 35140
(k)(2) added 6986

Additions to Table I, May 1991

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being added to Table I as a result of authority citations carried in the **Federal Register** during January through May 1991. Recent legislation is carried by public law number.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1991. Additions during 1990 are in the December 1990 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

Removals from Table I, May 1991

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being removed from Table I as a result of documents published in the **Federal Register** during January through May 1991.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1991. Removals during 1990 are in the December 1990 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

Additions to Table I, May 1991

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being added to Table I as a result of authority citations carried in the **Federal Register** during January through May 1991. Recent legislation is carried by public law number.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1991. Additions during 1990 are in the December 1990 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.

Removals from Table I, May 1991

This table lists the sections of the U.S. Code, U.S. Statutes at Large, Public Laws, and Presidential documents which are being removed from Table I as a result of documents published in the **Federal Register** during January through May 1991.

Table I is in the CFR Index and Finding Aids revised as of January 1, 1991. Removals during 1990 are in the December 1990 LSA (List of CFR Sections Affected).

In order to determine the **Federal Register** page number of a parallel CFR citation, consult this LSA and the appropriate Annual Issue of the LSA for that CFR title.
